Grace S. Irwin, (Republican) Deputy Inspector	1961
Florence E. Daly, (Democrat) Deputy Inspector	1961

REPORT OF THE BOARD OF SELECTMEN

Mr. Frank Tarr was re-elected a member of the Board of Selectmen at the annual election on March 6, 1960. At the organization meeting on March 8, 1960 Mr. Thomas Francis Linnehan was elected chairman and Archibald Cox, clerk.

All appointments were made as provided by law. The names of appointees are found in the town report under the heading Officers Of The Town Of Wayland.

George C. Lewis, who has served Wayland many years as assessor, died during the year. Wayland will miss his dedicated service and impartial decision on the Board of Assessors. Fern A. Taylor was appointed according to the statute by the selectmen and assessors, to fill the vacancy until the next town election.

The jury list was drawn and listed as required by law. The list of jurors is found elsewhere in the town report.

The selectmen met regularly for the transaction of business on the first and third Mondays of every month in the Selectmen's room at the Town Office Building. The work of the present three man board include the following duties:

1. Appointing town officers such as Executive Secretary, Finance Committee, Policemen, Board of Appeals and Building Inspector.
2. Issuing licenses.
3. Approving bills incurred by the other town departments.
4. Acting upon complaints.
5. Passing upon betterments and the acceptance of town roads.
6. Representing the town at the State House and in dealing with other communities.
7. Conferring with other officials.
8. Close contact with our state and federal representatives, etc.

The ever increasing work of the selectmen could not be done at the regular meetings. Many special meetings were called during the year and daytime meetings were held to give people, who could not come to a regular evening meeting an opportunity to be heard by the Board.

Mr. Archibald Cox was a member of the Condemnation Committee.

Mr. Thomas F. Linnehan is a member of the Committee on Town Government, which was established at a special town meeting of March 7, 1956. The Board is pleased to report that the recommendation of the Town Government Committee and approved by the voters at town meeting, to set aside a special fund earmarked for the purpose of purchasing major pieces of fire apparatus, made it possible to purchase a ladder truck this year and it is now in service and ready to serve Wayland residents.

The selectmen in conjunction with the selectmen of the bordering towns have perambulated the bounds as required by statute.

The Board, with the trustees of the Allen Fund and the Board of Public Welfare met and disbursed the income received from the Charitable Funds.

Once again we wish to thank all committees for their excellent efforts in behalf of the town and all town officials and employees for their cooperation during the past year.

THOMAS FRANCIS LINNEHAN, *Chairman*,
ARCHIBALD COX, *Clerk*,
FRANK S. TARR,

Board of Selectmen.

VOTES ENACTED AT THE ANNUAL TOWN MEETING

Held: Wednesday, March 9, 1960

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant dated February 15, 1960, and signed by Frank S. Tarr, Thomas F. Linnehan and Archibald Cox, Selectmen, service and return of said Warrant having been duly given by Ernest H. Damon, Constable, the inhabitants of the Town of Wayland qualified to vote in Town Meeting, assembled this day; and at 7:45 P.M. the Moderator called the meeting to order, declared a quorum to be present and the meeting proceeded to transact the following business:

Article 1: To hear the reports of the Town Officers, Agents and Committees and act thereon.

Upon a proposal of Mr. Robert M. Morgan, duly seconded, the following Resolution was passed by Unanimous Standing Vote of the Town:

RESOLUTION

WHEREAS: On June 30th, 1959 when she retired as teacher of the second grade in the Cochituate School,

Jane N. Campbell

had completed forty-five years of continuous teaching; forty-three of which were spent in Wayland.

WHEREAS: Her service as a teacher is well known for honesty of purpose, ability, and determination for fair play for her pupils,

THEREFORE, Mr. Moderator, as citizens in Town Meeting assembled, be it moved that we make known our appreciation for a life's work well spent. And that the Town Clerk be directed to note in the minutes of this meeting such vote, the motion and the preamble to it, and that a suitable copy be sent to Jane N. Campbell.

Mr. Theodore R. Magoun, Chairman, read the Report of the Recreation Advisory Committee, and placed a copy of same on file with the Town Clerk.

Upon Motion of Mr. Magoun, duly seconded, it was

Voted unanimously: That the report of the Recreation Advisory Committee be accepted and printed in the Town Report for 1960; that the Recreation Advisory Committee be continued and be instructed to further report to the Town at the next Annual Town Meeting.

Mr. Frank S. Tarr read the Report of the By-Pass Committee and placed the Report on file with the Town Clerk.

Upon motion of Mr. Tarr, duly seconded, it was

Voted: That the Report of the By-Pass Committee be accepted; that the Committee be continued in existence until Article 18 is disposed of.

Mr. Allan R. Finlay read the Report of the School Building Committee and placed the Report on file with the Town Clerk.

Upon motion of Mrs. Joyce Bertelsen, duly seconded, it was

Voted unanimously: That the Report of the School Building Committee be accepted as read.

Upon motion of Mr. Thomas F. Linnehan, duly seconded, it was

Voted: That the Traffic Committee and the Drainage Committee be discharged.

In the absence of Mr. Charles E. Cochrane, Mr. Morgan read the Summary Report of the Committee to Study Town Government.

Duly seconded, Mr. Morgan made the following:

MOTION: That the Report of the Committee on Town Government be accepted, and that the Committee be continued.

Upon motion of Mr. Robert H. Charnock, duly seconded, it was

Voted: To amend the main Motion of Mr. Morgan, by adding the following: And that the Committee to Study Town Government be directed to study means of consolidating the present three systems of communications in one location, and that the work of the police department and fire department and water department not be affected by the moving of the communications system.

Upon motion of Mr. Omar H. Somers, duly seconded, it was

Voted: To amend the main Motion of Mr. Morgan and amended by Mr. Charnock, by the further addition of the following:

And to direct the Committee to Study Town Government to consider a proposal to consolidate the skills of the Police and Fire Departments.

Upon the main Motion of Mr. Morgan, as twice amended, it was

Voted: In favor.

Upon request of Mrs. Mary J. McCann, Mr. Cox of the Board of Selectmen explained why the recently discharged (under the present Article) Committee to Study Traffic Regulations had been permitted to disband without ever reporting to the Town. This Committee had never taken active shape, nor held meetings, since their function had been adequately covered by the studies and activities of certain other committees, e.g. the By-Pass Committee and routine negotiations between the Board of Selectmen and the State Board of Public Works.

Article 2: To choose all necessary Town Officers, Agents and Committees not elected by the official ballot.

Upon motion of Mr. Theodore R. Magoun, duly seconded, it was

Voted: That the Trustees of the Allen Fund be:

John Bryant
Benjamin W. Johnson, III
George W. Shepard

who shall continue to serve as Trustees of that Fund;

That the Selectmen act as Fence Viewers;

That the Constables act as Field Drivers; and

That the persons now serving in the following offices be re-elected:

Measurers of Wood and Bark: Joseph H. Decatur, Thomas F. Linnehan, Arthur F. Marston;

Surveyors of Lumber: Thomas F. Linnehan, and Arthur F. Marston; and

That the Memorial Day Committee be appointed by the Moderator in accordance with the vote made at the 1958 Annual Town Meeting.

Article 3: To see if the Town will vote to amend the Town By-Law establishing the Wage and Salary Classification Plan, as amended, in any of the following respects:

(a) Further amend Article II, Section 1 of said Plan by adding the following new classification and salary rate:

Position	Min.	1 Year	2 Years	3 Years	4 Years	5 Years
Police						
Sergeant	\$4,312.30	\$4,442.71	\$4,573.12	\$4,703.53	\$4,833.94	\$4,964.35

(b) Further amend Article II, Section 1 by increasing each annual and monthly salary (except for Executive Secretary, Police Chief, Fire Chief, Highway Superintendent and Water Superintendent, but including the salary established by the preceding amendment) and each hourly wage rate by five (5) percent with fractions of a cent leveled off to the nearest cent level above, and by increasing the annual and monthly salary rate for Executive Secretary, Police Chief, Fire Chief, Highway Superintendent and Water Superintendent by eight (8) per cent.

(c) Further amend Article III-A, Section 2 by deleting the last sentence and inserting in place thereof:

“If it is impossible to allow compensatory time off without unduly interfering with the work of the department, the employee shall be compensated for overtime work at an hourly rate equivalent to the employee’s annual salary except that firemen employed on an annual salary basis and also serving as a ‘Call Fireman’ shall be paid when employed as a ‘Call Fireman’ at the Call Fireman’s hourly rate of pay, and when serving as Call Firemen on night duty at ‘Call Men — Night Duty’ annual rate of pay.”

and to appropriate and assess a sum of money for the purposes thereof; or take any other action relative thereto.

Duly seconded, Mr. Edwin W. Marston made the following

MOTION: That the Town amend the Town By-Law establishing the Wage and Salary Classification Plan, as amended: 3/9/55, 3/7/56, 3/6/57, 3/5/58, and 3/4/59 in the following respects: (as already read by the Moderator) — a re-reading by the maker of the Motion was omitted since the wording followed exactly that of the Article, and there being unanimous consent of the Meeting).

and that the amendments herein made with respect to wage and salary levels and job classifications shall be effective as of March 1, 1960.

Upon motion of Mr. Robert M. Page, duly seconded, as follows:

That the main Motion of Mr. Marston be amended by eliminating Paragraph (a) from this Article, it was

Voted: Against the proposed amendment.

Upon the main Motion of Mr. Marston, as originally read, it was

Voted: In favor.

Upon motion of Mr. Magoun, duly seconded, it was

Voted: That when this Meeting adjourn, if adjournment be voted, it adjourn to Wednesday evening, March 16th at 7:45 P.M. in the Wayland High School Gymnasium and that any subsequent adjournment be to the succeeding Wednesday at the same hour and in the same place, until the Warrant has been finally disposed of.

Upon motion of Mr. Morgan, duly seconded, it was

Voted: That the meeting be adjourned at 11 P.M., or at such time thereafter as the article then under consideration is disposed of, but in no case later than 11:30 P.M.

Article 4. To grant money for necessary Town purposes.

Duly seconded, Mr. Morgan made the following

MOTION: That the report of the Finance Committee be accepted and its recommendations adopted; that \$2,235,918.84, with the addition of: \$9,325.49

Board of Health	
Public Health Nurses: Salaries	
Nurse #II (5 mos.)	\$1,998.25
Police Department	
Uniforms — Expense	300.00
Highway Department	
Snow Removal	5,000.00
Drainage — Woodridge Road	500.00
Unclassified	
Insurance — General	1,350.00
Library	
Salaries: Librarian	177.24
	<hr/>
	\$9,325.49

and with the subtraction of \$2,012.07

Board of Health	
Public Health Nurses: Salaries	
Registered Prof. Nurse (1960 —	
6 mos.)	\$2,012.07
	<hr/>
	\$2,012.07

be granted, appropriated and assessed for the several purposes designated, making a total budget of \$2,243,232.26 and that the same be expended only for the purposes shown under the respective boards, committees and officers of the Town; and that

All employees in the Town Office Building, other than elected officials and those of the Police and Fire Departments, come under the supervision of the Executive-Secretary, and that he be charged with the operation of both Town Office Buildings and equipment;

The operation of the dumps be under the supervision of the Highway Department;

The money from Dog Taxes be allocated in its entirety to the Library Appropriation account;

The Public Health Nurse #II, and Nursing Assistant scheduled in the appropriation of the Board of Health, be under the supervision of the Board of Health;

The funds provided for under Fire Department, Call-Men — Night Duty be used only under the following conditions: \$300.00 annually to Call-Men who serve on the night shift, 6:00 P. M. to 7:00 A. M. fifty nights a year and not more than two nights in any one week. All funds to be expended for Call-Men only, except that each Regular Man may serve not more than one night a week as Call-Men — Night Duty at the pay provided for such work. This is done with a view to building up and maintaining the number of call men in the Call Department;

The work on Assessors' Maps continue to be done under the joint supervision of the Planning Board and the Board of Assessors;

The supervision of the job of street numbering and appropriation therefor be the responsibility of the Planning Board;

The appropriation for "Engineering — Including Existing Town Roads" be under the supervision of the Planning Board;

The gift to the Library, acceptance of which is provided for under Article 10, be made available for expenditure along with other amounts appropriated by the Town, under the budget for general expense of the Library; that

The Town Collector continue to act as Collector for the Water Department; that he be directed to charge fees for demands on overdue water bills and that the sums so collected be credited by the Collector to the Water Department, and that all fees and penalties be turned over to the Town as Town income;

The office of Town Clerk be retained on a salary basis and that all fees from whatever source derived from January 1, 1960 be turned over to the Town as Town income;

The unexpended balances in the following accounts be transferred to "Excess and Deficiency"

Police — Traffic Booth	\$500.00
Chapter 90 — Maintenance — 195933
Chapter 90 — Construction — 1958	11.20

Easements:

Charles St. to Maguire Rd. — Art. 25 3/9/59	10.00
Concord Rd. — Art. 26 3/9/59	10.00

COMPLETE BUDGET TOTAL ..

\$2,235,918.84

Upon motion of Mr. Walter B. Parker, duly seconded, it was

Voted: To delete Item #15 under TOWN BUILDING — WAYLAND, referring to “Shutters — \$700.00” from the Budget.

Upon motion of Mr. Eugene C. Roberts, duly seconded, it was

Voted: That the Budget be amended by changing Item #15A under TOWN BUILDING — COCHITUATE Maintenance from \$3,450.00 to read “\$3,000.00.”

A Motion, duly seconded, to amend the Budget by changing Item #3, under PROTECTION — POLICE DEPARTMENT to limit the amount to \$21,077.79 and by limiting the amount under Item #6 of the same heading to \$1,482.41 . . . WAS WITHDRAWN with unanimous consent of the Meeting.

Upon motion of Mr. Roberts, duly seconded, To reduce Item #5 under POLICE DEPARTMENT to \$4,000.00 and to reduce Item #6 to \$2,000.00 was

Voted: In the Negative.

Upon motion, duly seconded, That Item #6 be reduced to \$2,000; It was

Voted: In the Negative.

Upon motion of Mr. John T. Howard, duly seconded, it was

Voted: To reduce Item #6 by \$475 (reflecting the cost of the proposed fingerprinting equipment.)

First Vote was declared in doubt.

Second Vote was declared in favor of the Motion.

Upon motion of Mr. John R. McEnroy, duly seconded, it was

Voted: To adjourn — at a few minutes after 11:00 P. M.

A true copy,

Attest:

LEILA SEARS,
Town Clerk of Wayland.

VOTES ENACTED AT
THE ADJOURNED ANNUAL TOWN MEETING

Held: Wednesday, March 16, 1960

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant for the Annual Town Meeting called for March 9, 1960, duly signed by the Selectmen, served and return of service given by a Constable of the Town, and a continuance being held in accordance with the vote taken at said Meeting of March 9, 1960, the inhabitants of the Town of Wayland qualified to vote in Town Meeting, met this day; and at 7:45 P. M. the Moderator called the meeting to order, declared a quorum to be present, and the meeting proceeded to transact the following business:

The motion of Mr. Morgan, relating to the budget, under Article 4, had been before the Meeting at the time of adjournment; the item-by-item reading of the budget was here continued, starting on p. 43 of the Finance Committee's Report, under the heading of "HEALTH."

A motion was made and seconded: That \$5,000 be subtracted from the total amounts in Items #12-16, inclusive, of the Budget section relating to "HEALTH."

Mr. Morgan questioned the validity of such a motion, since it would leave to the Health Department the job of settling individual rates for each item, which is the job of the Town Meeting.

Upon this motion being withdrawn, with unanimous consent of the meeting, there was a Substitute Motion, duly seconded: To delete Item #13 from the Budget, and to cut Item #15 in half, both under the heading of "HEALTH."

This was

Voted: In the Negative.

Upon motion of Dr. John Gordon Freyman, of the Board of Health, duly seconded, it was

Voted: That Item #18 under "HEALTH" be deleted from the Budget.

Upon motion, duly seconded: That Item #19 under "HEALTH" (relating to Mosquito Control) be deleted from the Budget, it was

Voted: First Vote was declared in doubt.

Second Vote was declared in favor.

Seven (7) persons having doubted the vote, there was a

Third Vote: (after further debate): Declared in the negative.

Seven (7) persons having doubted the vote, there was a

Counted Vote: "Yes" 149, "No" 342.

Upon motion of Dr. Luther Davis, Jr., duly seconded, it was

Voted: That a Committee of five (5) persons be appointed by the Moderator, that the recommendation is for the committee to consist of one member of the Board of Health, one representative from a conservation organization in the Town (such as the Sudbury Valley Trustees), one familiar with the problems of raising livestock, and two citizen members-at-large, this Committee to study the advisability of continuation of Mosquito Control.

Duly seconded, Mr. Joseph P. Horvath offered the motion: To delete Item #3 amounting to \$4,500 for a Mechanic, from the Highway Department Budget.

Vote: First Vote was declared in doubt.
Second Vote was declared in the Negative.

Seven (7) persons having doubted the vote, there was a

Counted Vote: "Yes" 260, "No" 208.

Upon motion, duly seconded: To delete Item #9 (HIGHWAY DEPT. — Reconstruction — Existing Town Roads — School Street) in the amount of \$15,000 from the budget. It was

Voted: In the Negative.

Duly, seconded, Mr. Harvey C. Newton offered the following motion: To reduce Item #20 (Highway Dept. — New Equipment — '60) from \$27,900.00 to \$15,400.00.

Duly seconded, Mr. Morgan offered the following Amendment to Mr. Newton's motion: To reduce the reduction to Item #20 from \$12,500. to \$4,000 — leaving \$23,900.00 under this Item in the Budget.

Upon Mr. Morgan's motion, it was

Voted: In favor.

Upon Mr. Newton's motion, as amended, it was

Voted: In favor.

Thus: Item #20 under Highway Dept. was reduced from \$27,900.00 to \$23,900.00

Duly seconded, a motion: To reduce Item #7 under WELFARE from \$12,000.00 to \$9,000.00 was

Voted: In the Negative.

Mr. Eugene C. Roberts offered a motion: That the Budget be reduced in an amount equal to the salaries of four (4) teachers.

However, the Moderator ruled that the motion must state an amount by which the particular item was to be reduced.

Mr. Roberts then offered a motion, duly seconded: That Item #3 of the School Department Budget be reduced by the amount of \$6,000.00. This was

Voted: In the Negative.

The PARK DEPARTMENT Item #4 was under discussion when,

Upon motion of Mr. Roger E. Ela, duly seconded, it was

Voted: That the Meeting adjourn until a week from tonight at 7:45 in this hall.

This Vote was taken at 10:55 P. M.

A true copy,

Attest:

LEILA SEARS,
Town Clerk of Wayland.

**VOTES ENACTED AT
THE ADJOURNED ANNUAL TOWN MEETING**

Held: Wednesday, March 23, 1960

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant for the Annual Town Meeting called for March 9, 1960, duly signed by the Selectmen, served and return of service given by a Constable of the Town, and a continuance being held in accordance with the vote taken at said Meeting of March 9, 1960 and another taken at the adjourned Meeting of March 16, 1960, the inhabitants of the Town of Wayland qualified to vote in Town Meeting, met this day; and at 7:45 P. M. the Moderator called the Meeting to order, declared a quorum to be present, and the meeting proceeded to transact the following business:

The motion of Mr. Morgan, relating to the budget, under Article 4, had been before the meeting at the time of adjournment; the item-by-item reading of the budget was here continued, starting on p. 50 of the Finance Committee's Report, under the heading of "RECREATION."

Upon motion of Mr. Dominic Anzivino, duly seconded, it was

Voted: To delete Item #4 in the amount of \$2,000.00 (Professional Supervision) from the PARK DEPARTMENT Budget.

Upon motion of Mr. Albert A. Statton, duly seconded: To remove Item #9 amounting to \$710.50 and Item #10, amounting to \$3,000.00 from the PARK DEPARTMENT Budget. It was

Voted: In the Negative.

Upon motion of Mr. Theodore R. Magoun, duly seconded, it was

Voted: To change the heading under Item #22 (Park Department) from "Little League" to "Wayco Recreation Program."

Upon motion of Mr. Francis J. Carroll, duly seconded: To delete Items #4 and #5 under "UNCLASSIFIED" (relating to Veterans' Quarters) and amounting to \$600.00 each; it was

Voted: In the Negative.

Mr. Omar H. Somers offered a motion: That Items 1-22 on p. 42 (under "PROTECTION") of the budget be reduced by \$130,000.00; that the Finance Committee be instructed to undersubscribe each item at their discretion.

This motion was ruled out of order, on ground that it cut across the budgets of two (2) separate departments.

Mr. Somers then offered another motion, which was duly seconded: That the Selectmen be advised that it is the sense of this Town Meeting that a single communications center be established for Fire, Police, and other such Town needs, at the earliest possible time. This was

Voted: In favor.

Duly seconded, Mr. Robert M. Morgan offered the following motion: That the Committee on Town Government be instructed to report alternative plans for the operation of the Communications System:

1. As a Joint Department for Police and Fire Departments
2. As separate departments for each of the Fire and Police Departments, with budget figures for each of the alternatives; and

that their report be made to the Town at the next Annual Town Meeting.

Upon motion of Amendment, of Mr. Roger E. Ela, duly seconded, it was

Voted: To Amend Mr. Morgan's motion by adding: "And that the Town Government Committee also be directed to report which alternative they recommend."

Upon Mr. Morgan's motion, as amended by Mr. Ela's motion, it was

Voted: In favor.

Upon motion of Mr. Magoun, duly seconded: it was

Voted: To reconsider Mr. Somers' motion.

Upon motion of Mr. Magoun, duly seconded: To rescind action just taken under Mr. Somers' motion. It was

Voted: In the Negative.

Upon motion of Mr. Allan R. Finlay, duly seconded: To reconsider action deleting Item #15 on p. 39 (under GENERAL GOVERNMENT — TOWN BUILDING — Wayland) relating to proposed Shutters; It was

Voted: First Vote was in doubt.

Second Vote was in the Negative.

Upon motion of Mr. Statton, duly seconded: To reduce Item #15 under FIRE DEPARTMENT from \$10,920.00 to \$4,200.00; It was

Voted unanimously: In the Negative.

Upon Main Motion of Mr. Morgan, relating to acceptance of the Budget (as given at the March 9th Meeting), as amended by the various intervening Amendments; It was

Voted: In favor.

Duly seconded, Mr. Frederick C. Newton offered the following

RESOLUTION

THAT THE Town Counsel, the Board of Selectmen and the Finance Committee be requested to hold advertised public hearings on the twelve (12) major sections of the budget; and

THAT these public hearings be completed within 5 days before opening night of the Annual Town Meeting.

Duly seconded, Mr. Joseph P. Horvath offered the following

MOTION: That it is the sense of the Town Meeting that no permanent employees may be added to the town payroll without consent of the Town Meeting as granted through specific salary appropriations; and that the Personnel Board be empowered to enforce this action of the Town Meeting.

The Moderator ruled that this Motion was in order only as an expression of the "sense of the meeting."

This was **Voted:** In the negative.

Article 5. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by the General Laws (Tercentenary Edition) Chapter 41, Section 108 and set the effective date of such salary and compensation.

Upon motion of Mr. Morgan, duly seconded, it was

Voted: That the Town fix the salary and compensation of all elective officers of the Town voted under Article 4, the effective date to be January 1, 1960.

Article 6. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1960, and to issue a note or notes therefore, payable within one year and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 4, Chapter 44, General Laws.

Upon motion of Mr. Francis A. Fisher, duly seconded, it was

Voted unanimously: That the Town authorize the Treasurer, with the approval of the Board of Selectmen to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1960 and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 4, Chapter 44, General Laws.

Article 7. To see if the Town will vote to authorize the Board of Selectmen to sell, or otherwise dispose of the following:

- (1) the Police Department's present 1959 Chevrolet station wagon and 1959 Chevrolet 4-door sedan, in connection with the purchase of one new station wagon and one new 4-door sedan;
- (2) the Fire Department's present 1925 American LaFrance pumper and the 1941 Cadillac utility special service car, in connection with the purchase of a new ladder rescue truck;
- (3) the Highway Department's present 1941 Galion grader and present 1957 Seaman Andwall spreader, in connection with the purchase of a new grader and new spreaders;
- (4) the Welfare Department's present 1956 Chevrolet 4-door sedan, in connection with the purchase of a new 4-door sedan;
- (5) the Water Department's present 1945 Worthington compressor trailer in connection with the purchase of a new compressor trailer, the present 1858 Chevrolet ½-ton pick-up truck, in connection with the purchase of a new ½-ton pick-up truck, the present 1958 Chevrolet ¾-ton pick-up truck, in connection with the purchase of a new ¾-ton pick-up truck;
- (6) The Town Office present Model 1900 — 10-year old addressograph equipment, replacement for which has been previously voted at the Annual Meeting in March, 1959;

funds for the various departments being provided for in the respective budgets or by transfer from the funds especially accumulated for the specific purpose; or do or act.

Duly seconded, Mr. William A. Loker offered the following

MOTION: That the Town authorize the Board of Selectmen to sell or otherwise dispose of the articles listed in Article 7.

Upon motion of Mr. Anzivino, duly seconded, it was

Voted: To amend Mr. Loker's motion, by adding, under Item #2 words to provide that the sale of the American LaFrance be by public auction.

Upon the Main Motion of Mr. Loker, as amended, it was

Voted unanimously: In favor.

Article 8. To see if the Town will appropriate sums of money for the Water Department, determine whether the money shall be provided for by appropriation from available funds in the Treasury, by taxation and/or by borrowing, or take any action relative thereto.

Upon motion of Mr. Frank A. Smith, duly seconded, it was

Voted: That the Town appropriate the sum of \$146,634.42 for the following purposes:

- | | |
|--------------------------------------------------------------------------------------------------|-------------|
| (1) Water Coupon Notes, Bonds and Registered Notes Maturing in 1960 — Payment of Principal | \$25,500.00 |
| (2) Water Coupon Notes, Bonds and Registered Notes — Payment of Interest | 5,774.25 |

(3) Water Department — Maintenance:

Salaries:

Superintendent	\$6,295.06	
2nd Man	4,982.94	
3rd Man (9 mos.)	3,252.10	
Labor	13,000.00	
Town Office	6,830.07	34,360.17

Appropriation \$35,000.00

Equipment — new ½-ton truck } 2,000.00

Equipment — new ¾-ton truck }

Equipment — new compressor 4,000.00 6,000.00

(4) Old Standpipe — paint and repair 16,000.00

(5) Water Main Extensions — Deposit Account 10,000.00

(6) Water Main Extensions — Commonwealth

Road East — Rice Road to Natick Line 11,500.00

— Aqueduct Road — Loker Street to Brooks

Road 2,500.00

\$146,634.42

and that to meet the appropriation, the sum be taken from "Water Available Surplus."

Article 9. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 roads, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, or take any action relative thereto.

Upon motion of Mr. Loker, duly seconded, it was

Voted unanimously: That the Town appropriate and assess the sum of \$5,000 for the reconstruction and improvement of Commonwealth Road East, said money to be used in conjunction with any money which may be expended by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, with the limitation that no more than \$1.00 in Town money be expended for each \$1.00 expended by the County and each \$2.00 expended by the State.

Article 10. To see if the Town will vote to accept various conveyances, gifts, and devises to the Town, or take any action relative thereto.

Upon motion of Mr. Fisher, duly seconded, it was

Voted: That the Town accept, with thanks:

(1) The gift to the Public Library of \$2,750.00 from John C. Paige & Co.

(2) The gift to the Town from the Wayland Real Estate Company of Lot H. shown on a plan entitled "Compiled Plan of

Land in Wayland, Mass.", dated September 24, 1946, by Everett M. Brooks Company, C.E., recorded with Middlesex South District Deeds November 12, 1946, bounded southeasterly by Old Connecticut Path East; westerly by Cochituate Road; and northwesterly and northeasterly by land marked "Commonwealth of Massachusetts Weston Aqueduct" on said plan; containing .4 acres more or less, according to said plan.

Article 11. To see if the Town will vote to appropriate and assess, or transfer from "Available Funds," a sum of money for the purchase of a Fire Department combination ladder-rescue truck; or take any action relative thereto.

Upon motion of Mr. Cox, duly seconded, it was

Voted: That the Town purchase for the Fire Department a combination ladder rescue truck at a cost not to exceed \$29,000 from funds previously accumulated and especially provided for in the budget. The purchase to be made by the Selectmen on a competitive bid basis, based upon specifications for the equipment prescribed by an Advisory Committee to consist of: Chief of the Fire Department and two members of the Town Government Committee who are serving in advisory capacity to the Fire Department.

Article 12. To see if the Town will vote to authorize the purchase of three (3) parcels of land together with the buildings thereon situated in Business District A at the intersection of State Road West and Pelham Island Road, bounded and described as follows:

NORTHERLY by State Road West;

WESTERLY by Pelham Island Road and by land of the Town of Wayland;

SOUTHERLY by land of the Town of Wayland;

EASTERLY by land of the Town of Wayland;

or take any action relative thereto.

Duly seconded, Mr. L. William Bertelsen offered the following

MOTION: That the Selectmen, with the approval of the Town Counsel, be authorized to purchase on behalf of the Town for park purposes the following described parcel of land, together with buildings thereon, in said Wayland, bounded and described as follows:

A certain lot of land situated in the center of said Wayland and bounded:

NORTHERLY by road leading from Wayland Center to South Sudbury;

EASTERLY by land conveyed by Ella L. Richardson to Willard A. Bullard by deed dated June 2, 1891 and recorded in Middlesex South District Deeds, Book 2046, Page 543;

SOUTHERLY by a brook;

WESTERLY by land now or formerly of Theodore L. Sherman; said premises are described in deed recorded with Middlesex South District Deeds, Book 9055, Page 183; and that there be appropriated and assessed therefor the sum of \$20,000.00.

Duly seconded, Mr. Robert M. Page offered the following Motion of AMENDMENT: To reduce the figure in the appropriation from \$20,000.00 to \$12,750.00.

This was **Voted:** In favor.

A motion offered by Mr. Tarr: To pass over the Article was ruled out of order by the Moderator, since a portion of it already had been

Upon motion of Mr. Gregory B. Wolfe, duly seconded: To adjourn the meeting until next Wednesday, at 7:45 P.M. in this same place; it was

Voted: In the negative.

Upon motion of Mr. Henry G. Pearson, duly seconded: To change the amount of the appropriation (under Article 12) to \$18,000.00, being the lower of the two appraisal figures: it was

Voted: First vote was declared in doubt.

Second Vote was declared in the negative.

Upon motion, duly seconded, to adjourn the meeting until a week from tonight. it was

Voted: In the negative.

Upon Main Motion of Mr. Bertelsen, it was

Voted: In the negative.

Upon motion of Mr. Theodore R. Magoun, duly seconded, to adjourn the meeting until next Monday night at 7:45, it was

Voted: In the negative.

A motion offered by Mr. Eugene C. Roberts: That the Planning Board be instructed to start action immediately toward the end of rezoning this particular parcel of land as residential property was ruled out of order by the Moderator, as being beyond the scope of the Article, as printed in the Warrant.

Upon motion of Mr. Ela, duly seconded, to adjourn the meeting until a week from tonight at this same place, it was

Voted: In the negative.

Seven (7) persons having doubted the vote, there was a

Counted Vote: "Yes" 155, "No" 190.

The Article was declared disposed of.

Upon motion of Mr. Alex W. Hayner, duly seconded, it was

Voted: To adjourn the meeting until next Wednesday night.

Town Clerk of Wayland.

VOTES ENACTED AT
THE ADJOURNED ANNUAL TOWN MEETING

Held: Wednesday, March 30, 1960

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant for the Annual Town Meeting called for March 9, 1960, duly signed by the Selectmen, served and return of service given by a Constable of the Town, and a continuance being held in accordance with the vote taken at said Meeting of March 9, 1960 and another taken at the adjourned meeting of March 23, 1960, the inhabitants of the Town of Wayland qualified to vote in Town Meeting, met this day; and at 7:45 P.M. the Moderator called the meeting to order, declared a quorum to be present, and the meeting proceeded to transact the following business:

Article 13. To see if the Town will vote to purchase, take by eminent domain, gift or otherwise, for cemetery purposes, a piece of land now or formerly owned by Emma A. Revell, situated off Pemberton Road and containing about 6,900 square feet as shown on a Plan of Land of the Town of Wayland, by Everett M. Brooks, dated January 3, 1955 and will appropriate, or transfer from Available Funds therefor a sum of money; or take any action relative thereto.

Upon motion of Mr. John B. Wilson, duly seconded, it was

Voted unanimously: That the Selectmen, with the approval of the Town Counsel, be authorized to take by eminent domain on behalf of the Town for cemetery purposes the following described parcel of land now or formerly owned by Emma A. Revell situated off Pemberton Road and containing about 6,900 square feet of land, as shown on a Plan of Land of the Town of Wayland by Everett M. Brooks Co., C. E. dated January 3, 1955, being part of premises conveyed to Emma A. Revell by deed recorded in Middlesex South District Deeds, Book 4790, Page 234, and that there be appropriated and transferred from the account "Sale of Cemetery Lots" the sum of \$200. therefor.

Article 14. To see if the Town will vote to authorize the Board of Selectmen to purchase, take by eminent domain, gift or otherwise a parcel of property shown on Plate 41 of the Town Atlas as Lot 12C Riverview Circle, now or formerly of Fred G. Gersbach, containing about 4,400 sq. ft., and will appropriate and assess a sum of money therefor; or take any action relative thereto.

Upon motion of Mr. Wilson, duly seconded, it was

Voted: That the Article be passed over.

Article 15. To see if the Town will vote to purchase, take by eminent domain, gift or otherwise, for municipal purposes, the property

of William J. and Margaret L. Lynch, located at #11 Millbrook Road, containing 20,780 square feet with buildings located thereon, and will appropriate and assess a sum of money therefor; or take any action relative thereto.

Duly seconded, Mr. Dominic L. Bartholomew offered the following

MOTION: That the Selectmen, with the approval of the Town Counsel, be authorized to take by eminent domain on behalf of the Town for municipal purposes, the land and buildings now or formerly of William J. and Margaret L. Lynch located at 11 Millbrook Road described as follows:

Lot B containing 20,780 sq. ft. as shown on a "Plan of Land in Wayland, Mass., dated January 14, 1948, by Everett M. Brooks Co., C.E., Newtonville, Mass.

and that there be appropriated and assessed therefor the sum of \$22,000.00.

Duly seconded, Mr. Frank W. Kilburn offered the following Motion of Amendment: To replace the word "municipal" with the word "school."

Upon motion of Mr. John R. McEnroy, duly seconded: That the vote on Mr. Kilburn's Amendment be taken by secret ballot, it was

Voted: In the negative.

Upon Mr. Kilburn's Amendment, it was

Voted: In the negative.

Mr. Robert M. Morgan offered a Motion: To change the word "municipal" to "park"; This he asked permission to withdraw. Mr. McEnroy objected to withdrawal of this motion (in favor of another motion given below on ground that eminent domain would require a $\frac{2}{3}$ vote whereas he was of the opinion that a mere purchase would not. Being assured that a purchase would also require a $\frac{2}{3}$ vote, Mr. McEnroy withdrew his objection and Mr. Morgan was permitted to withdraw his Amendment by unanimous consent of the meeting.

Upon motion of Mr. Morgan, duly seconded, it was

Voted: To change the words "eminent domain" to "purchase."

Seven (7) persons having doubted the vote, as declared, there was a

Counted Vote: "Yes" 255, "No" 72.

Upon motion, duly seconded, it was

Voted: To change the amount of the appropriation from \$22,000.00 to \$19,300.00.

Upon the Main Motion of Mr. Bartholomew, as Amended, it was voted by

Counted Vote: "Yes" 181, "No" 247.

The motion was declared to have lost; and the Article was disposed of.

Upon motion of Mr. Morgan, duly seconded, it was

Voted: That Article 23 be considered, out of order, at this time.

First Vote was not unanimous, there being a scattering of "No's."

Second Vote also gave a scattering of "No's."

Third Vote was unanimously in favor.

Article 23. To see if the Town will vote to raise and appropriate a sum of money for the purpose of remodeling part of the High School Annex building (Center School), to provide School Department administration offices, and to authorize the School Building Committee to prepare plans and to enter into the necessary contracts and agreements therefor; or take any other action relative thereto.

Duly seconded, Mr. Allan R. Finlay offered the following

MOTION: That the Town appropriate and assess the sum of \$17,500.00 for the purpose of remodelling and equipping part of the High School Annex building (Center School) to provide School Department Administration Offices, and that the School Building Committee be authorized to prepare plans and enter into necessary contracts and agreements therefor.

Upon motion, duly seconded: "The Previous Question" it was

Voted unanimously: In favor.

Upon the Main Motion, it was

Voted: In favor.

Article 16. To see if the Town will vote to authorize the purchase of, take by eminent domain, gift or otherwise, any or all of the following parcels of land and will appropriate and assess a sum of money therefor; or take any action thereto.

- (a) 49 Rice Road, consisting of 1.3 acres of land and the buildings thereon, now or formerly of Clara B. Lupien;
- (b) 43 Rice Road, consisting of 5.5 acres of land and the buildings thereon, now or formerly of Alphonse Lupien;
- (c) 37 Rice Road, consisting of 3.4 acres of land and the buildings thereon, now or formerly of Catherine Fitzpatrick;
- (d) 29 Rice Road, consisting of 2.0 acres of land and the buildings thereon, now or formerly of Hazel M. Otto;
- (e) 4 Birch Road, consisting of 29,335 square feet of land and the buildings thereon, now or formerly of Helen T. Hallissey, being Lots 46, 47 and 48 Castle Gate North;
- (f) 60 Hawthorne Road, consisting of 3,168 Square feet of land and the buildings thereon, now or formerly of Frederick E. Pierce, being part of Lot 100, Castle Gate North;
- (g) 45 Sycamore Road, consisting of 6,300 square feet of land and the buildings thereon, now or formerly of Margaret M. Beaton, being Lot 140;
- (h) 29 Wallace Road, consisting of 16,800 square feet of land and the buildings thereon, now or formerly of Anthony Boe, being part of Lot 31.

Duly seconded, Mr. Bartholomew offered the following

MOTION: That the Selectmen, with the approval of the Town Counsel, be authorized to take by eminent domain on behalf of the Town for recreational purposes the following parcels of land:

- (a) 49 Rice Road, consisting of 1.3 acres of land and the buildings thereon, now or formerly of Clara B. Lupien;
- (d) 29 Rice Road, consisting of 2.0 acres of land and the buildings thereon, now or formerly of Hazel M. Otto;
- (f) 60 Hawthorne Road, consisting of 3,168 sq. ft. of land and the buildings thereon, now or formerly of Frederick E. Pierce, being part of Lot 100 Castle Gate North;
- (g) 45 Sycamore Road, consisting of 6,300 sq. ft. of land and the buildings thereon, now or formerly of Margaret M. Beaton, being Lot 140.

and that there be appropriated and assessed therefor the sum of \$7,000.

Upon motion of Mr. Eugene C. Roberts, duly seconded: To delete Parcel (d), from the Motion, it was

Voted: In the negative.

A motion of Mr. Theodore R. Magoun: To limit acceptable price for possible future resale of these Parcels was ruled out of order by the Moderator on ground that the motion attempted to control action of a future Town Meeting.

Upon the Main Motion of Mr. Bartholomew: 1st Vote was not unanimous.

Counted Vote: "Yes" 306, "No" 42.

$\frac{3}{8}$ of the vote being 232, the required $\frac{2}{3}$ was declared to have carried.

Article 17. To see if the Town will vote to authorize the purchase, take by eminent domain, gift, or by other means, any, or all of the following parcels of land and raise and appropriate a sum of money therefor; or take any action relative thereto:

- (a) Property located on Cedar Crest Road, now or formerly of Dennis Linnehan, being lot #869-872 WP;
- (b) Property located on Cedar Crest Road, now or formerly of John C. Coady, being Lot #865-866 WP;
- (c) Property located on Cedar Crest Road, now or formerly of Sarah E. Coady, being Lot #867-868 WP;
- (d) Property located on Cedar Crest Road, now or formerly of Emily Martinelli, being Lot #840-842 WP;
- (e) Property located on Cedar Crest Road, now or formerly of John D. Buckley, being Lot #843-847 WP;
- (f) Property located on Cedar Crest Road, now or formerly of Helen C. Duggan, being Lot #848-849 WP, Lot #853-854 WP;
- (g) Property located on Woodland Road, now or formerly of William H. Wight, being Lot #537-538 WP.

Upon motion, duly seconded, of Mr. Bartholomew: That the Selectmen, with the approval of the Town Counsel, be authorized to take by eminent domain on behalf of the Town for recreational purposes the

following parcels of land: (Parcels (a) - (f), inclusive). (Mr. Bartholomew omitted re-reading of the list of properties by unanimous consent of the meeting.), it was

Voted: 1st and 2nd Votes each gave a single "No."
3rd Vote was unanimously in favor of the Motion.

Upon motion of Mr. Robert E. Cummings, duly seconded: To adjourn the meeting until next Wednesday, at 7:45 P. M., it was

Voted: In the negative.

Article 18. To see if the Town will vote to authorize and/or instruct the Board of Selectmen to conduct such investigations and negotiations as may be appropriate to develop a program for the construction of a by-pass from Ten Acres on Route 20 to a point west of the Town center either at the Raytheon entrance or beyond in conjunction with limited commercial use of land between the route of the by-pass and the aqueduct and to report thereon at an annual or special town meeting; or take any action relative thereto.

Duly seconded, Mr. Archibald Cox offered the following

MOTION: That the Town authorize and instruct the Board of Selectmen to conduct such investigations and negotiations as may be appropriate to develop a program for the construction of a by-pass from Ten Acres on Route #20 to a point west of the Town Center at or beyond the Raytheon entrance in conjunction with limited commercial use of the land East of Cochituate Road, between the route of the by-pass and the aqueduct, and or commercial use in the area known as Sand Hill, and that the Selectmen be instructed to report thereon at the next Annual Meeting, or at such Special Meeting as may be held at an earlier date.

Duly seconded, Mr. L. William Bertelsen offered a Motion of

AMENDMENT: That the words "East of Cochituate Road between the route of the by-pass and the aqueduct" be deleted from Mr. Cox' motion.

Duly seconded, Mr. Richard Durant offered a motion of further

AMENDMENT: To delete also: "and of commercial use in the area known as Sand Hill."

Upon motion, duly seconded: To adjourn the meeting; it was

Voted: In the negative.

Upon motion, duly seconded, of Mr. Howard C. Weeks: "The Previous Question" it was

Voted: 1st Vote was not unanimous, there being one "No."
2nd Vote was unanimously in favor.

Upon Mr. Durant's motion, it was

Voted: In the negative.

Seven (7) persons having doubted the vote, there was a

Counted Vote: "Yes" 107, "No" 141.

Upon Mr. Bertelsen's motion: 1st Vote was declared in doubt by the Moderator.

Counted Vote: "Yes" 159, "No" 101.

Upon the Main Motion of Mr. Cox, it was

Voted: In the negative.

Upon motion of Mr. Cox, duly seconded, it was

Voted: That the By-Pass Committee be continued in existence, and instructed to report at the next annual meeting.

Article 18 was declared disposed of.

Upon motion, duly seconded, it was (at 12:10 A. M.).

Voted: To adjourn the meeting until next Wednesday at 7:45 P. M.

LEILA SEARS,
Town Clerk of Wayland.

VOTES ENACTED AT
THE ADJOURNED ANNUAL TOWN MEETING

Held: Wednesday, April 6, 1960

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant for the Annual Town Meeting called for March 9, 1960, duly signed by the Selectmen, served and return of service given by a Constable of the Town, and a continuance being held in accordance with the vote taken at said meeting of March 9, 1960 and another taken at the adjourned meeting of March 30, 1960, the inhabitants of the Town of Wayland qualified to vote in Town Meeting met this day; and at 7:45 P. M. the Moderator called the meeting to order, declared a quorum to be present, and the meeting proceeded to transact the following business:

Upon motion, duly seconded, of Mr. Theodore R. Magoun, it was

Voted unanimously: To return to Article 1 for the sole purpose of accepting the Annual Town Report.

Article 1. To hear the reports of the Town Officers, Agents and Committees and act thereon.

Upon motion of Mr. Magoun, duly seconded, it was

Voted unanimously: That the Town accept the reports of the various Officers, Boards and Committees as contained in the Annual Report, Town of Wayland, 1959.

Article 19. To see if the Town will vote to determine if there is need for a Redevelopment Authority to engage in urban renewal and land assembly and redevelopment projects and that it is in the public interest that such an authority be organized in the Town, and will appropriate a sum of money for the use of the authority in developing plans and a program.

Duly seconded, Mr. L. William Bertelsen offered the following

MOTION: That the Town hereby determine that there is a need for a redevelopment authority in the town for the purpose of engaging in urban renewal and land assembly and redevelopment projects, and that it is in the public interest that such an authority be organized in the town; and that the town appropriate and assess the sum of \$2,000 for the use of the authority in developing a plan and a program for submission to the Town.

Mr. Bertelsen, representing the Planning Board, which had proposed inclusion of this Article, offered a clarification of the effect of this motion and acceptance of the law relating to an urban redevelopment authority: This would constitute an initial step toward creation of a redevelopment authority in the Town. This would be a new, continuing Town Board, authorized to engage in various projects, (e.g., taking of sub-standard properties and tax-title land, where there was a need for assembling parcels into larger parcels) along lines which have long been engaged in by the Town in a piece-meal and disorganized fashion. Not only could the Authority undertake this work in more orderly way, but by its so doing, it would qualify the receipt of Federal money, possibly up to $\frac{2}{3}$ - $\frac{3}{4}$ of the cost of the work.

This Board would consist of five (5) members, four of which would initially be appointed by the Selectmen, but thereafter be elected at the Annual Town Election; the 5th member to be appointed by the State Housing Board.

The Moderator amplified these remarks regarding the legal effect of accepting this Statute:

1. Pointing out that, at the next Annual Town Election (following acceptance), the four elective positions would be filled by giving the person receiving the highest number of votes for the Board would be elected to the 5-year term; the next would receive a 4-year term; the next a 2-year term, and then the 1-year term, the 3-year term being appointed by the State Housing Authority.
2. That it is not required, under this law, that the Town approve a specific project which the Authority proposes to carry out, as such. However, as a practical matter, any such project will require funds; and any amount not covered by Federal funds would have to be provided by vote of the Town.

Upon Mr. Bertelsen's motion, it was

Voted: In favor.

Article 20. To see if the Town will vote to authorize the Board of Selectmen to sell or otherwise dispose of a certain parcel of land to the Trinitarian Congregational Church, shown as Lot A, on a plan entitled "Plan of Land in Wayland, Massachusetts," Everett M. Brooks Co., C.E., dated June 20, 1958, and more particularly described as follows:

Commencing at the Southeast corner of said premises, which point is one hundred forty-eight and 50/100 (148.50) feet West of Cochituate Road, Wayland, Mass.;

Thence running Westerly one hundred two and 86/100 (102.86) feet to a corner;

Thence turning and running Northwest one hundred twenty-five and 12/100 (125.12) feet to a corner;

Said last two boundaries being land of Town of Wayland.

Then turning and running East one hundred fifty-one and 50/100 (151.50) feet to a corner;

Thence turning and running South one hundred fifteen and 50/100 (115.50) feet to a point of beginning.

Said last two boundaries by land now or formerly of the Trinitarian Congregational Church of Wayland.

Containing 14,689 square feet.

Or take any action relative thereto.

By unanimous consent of the Meeting, the Moderator, in reading the Article, and the maker of the following motion, omitted the description of the land referred to in this Article, since the description followed exactly that printed in the Warrant.

Upon motion of Mr. Frank W. Kilburn, duly seconded, it was

Voted unanimously: That the Board of Selectmen, with the approval of the Town Counsel, be authorized to sell at private sale to the Trinitarian Congregational Church of Wayland a certain parcel of land shown as Lot A on plan entitled "Plan of Land in Wayland, Massachusetts," by Everett M. Brooks Co., C.E., dated June 20, 1958 and more particularly described as (given in the Warrant under Article 20.)

Article 21. To see if the Town will vote to authorize the Board of Selectmen to sell the parcel of land shown on Plate 47A of the Town Atlas as Lot 27B Dudley Road, Beechwood Point, land now or formerly of Byron Daley, and containing 3,440 square feet; or take any action relative thereto.

Upon motion of Mr. Kilburn, duly seconded, it was

Voted unanimously: That the Board of Selectmen, with the approval of the Town Counsel, be authorized to sell at public auction, or private, to one or both of the abutters, the parcel of land shown on Plate 47A of the Town Atlas as Lot 27B Dudley Road, Beechwood Point, now or formerly of Byron Daley, containing 3,440 sq. ft. at not less than \$600.

Article 22. To see if the Town will vote to authorize the Board of Selectmen to sell the parcels of land shown on Plate 42D of the Town Atlas as Lot 59 Hawthorne Road, containing 5,588 square feet, and

parts of Lot 28 and Lot 29, containing 7,700 square feet; or take any action relative thereto.

Duly seconded, Mr. Kilburn offered the following

MOTION: That the Board of Selectmen, with the approval of the Town Counsel, be authorized to sell as a single parcel of land at public auction or private sale, for not less than \$2,500, the land shown on Plate 42D of the Town Atlas as Lot 59 and parts of Lots 28 and 29, Hawthorne Road, containing 13,288 sq. ft.

Duly seconded, Mr. Edward C. Mendler, Jr. offered the following Motion of

AMENDMENT: To add after the price, in Mr. Kilburn's motion, the words: "only to an abutter, to be incorporated into the abutter's lot as a single parcel."

Mr. John R. McEnroy proposed to Amend this Amendment by the deletion of the \$2,500 price as stated in the original Motion. At this, the Moderator pointed out that the law would require that a minimum price be set by the Town in giving the authorization to sell.

Mr. McEnroy then offered an Amendment, duly seconded: To set the minimum price acceptable to the Town in a sale to an abutter at \$600.00.

Upon motion of Mr. Robert M. Morgan, duly seconded: That this motion be tabled until after Article #45; it was

Voted: 1st Vote gave a scattering of "No's."
2nd Vote was unanimously in favor.

Article 23 having been disposed of at an earlier session of this meeting the next item of business was:

Article 24. To see if the Town will vote to adopt and make effective in this Town Section 103 of Chapter 41 of the General Laws:

A city which accepts this section in the manner provided in the following section or has accepted corresponding provisions of earlier laws, or a town which accepts this section or has accepted corresponding provisions of earlier laws, may establish a purchasing department, to consist of a purchasing agent and such assistants as the city council or selectmen may determine. In cities the salaries of the purchasing agent and assistants shall be determined by the city council. In cities the agent and assistants shall be appointed by the mayor for such terms of office as may be prescribed by ordinance, and in towns they shall be appointed and may be removed by the selectmen. The purchasing agent shall purchase all supplies for the city or town and for every department thereof except in case of emergency. All purchases or contracts for purchases exceeding one hundred dollars in amount shall be based upon competition. A record shall be kept by the department of the prices paid for the supplies, and shall be open to the inspection of any citizen:
or take any action relative thereto.

Upon motion of Mr. Morgan, duly seconded, it was

Voted: That the Article be passed over.

Article 25. To see if the Town will vote to accept as public ways the following roads:

- (1) That portion of Dean Road from Station 14 + 0 to 34 + 07.96
- (2) That portion of Bald Rock Road from Station 25 + 75 to end
- (3) That portion of Snake Brook Road from Station 15 + 50 to end
- (4) That portion of Old Tavern Road from Station 14 + 50 to end
- (5) That portion of Sears Road from Station 0 + 0 to 23 + 50
- (6) Autumn Lane.

or either of these, or portions thereof, as set forth by the Board of Selectmen and as shown on plans on file with the Town Clerk, and to authorize the Board of Selectmen to acquire any necessary land or interest therein by deed, gift, or eminent domain and to raise and appropriate a sum of money by such acquisition by eminent domain without any appropriation of money for further construction of such road under the Betterment Act, or take any action relative thereto.

Upon motion of Mr. Morgan duly seconded, it was

Voted unanimously: That the Town dispense with the reading of the Order of Laying Out of the Board of Selectmen in connection with this article.

Upon motion of Mr. Morgan, duly seconded, it was

Voted unanimously: That the Town accept the laying out as a public way the road shown on plan entitled "Plan of Land in Wayland Owned and Developed by Ralph Olsen," dated August 9, 1956, by Everett M. Brooks Co., C.E., Newtonville, Mass.

Autumn Lane

and authorize the Board of Selectmen to acquire any necessary land, including drainage easements, by eminent domain, purchase, gift or otherwise and that the sum of \$10 be appropriated and assessed for the acquisition of such land and easements and for other costs in connection therewith.

Duly seconded, Mr. McEnroy offered a

MOTION: To return to Article 18.

Upon motion of Mr. George V. Deverell, duly seconded: "The Previous Question" it was

Voted: 1st Vote not being unanimous, there was a

Counted Vote: "Yes" 243, "No" 62.

This was declared to have carried more than the required $\frac{2}{3}$ vote.

Upon the Main Motion of Mr. McEnroy, it was

Voted: 1st Vote being far from unanimous, there was a

Counted Vote: "Yes" 112, "No" 200.

A motion of Mr. White: That Article 18 *not* be considered again in the 1960 Annual Town Meeting was ruled out of order, by the Moderator.

Article 26. To see if the Town will vote to accept as public ways, and to construct the roads known as "South Street" and "Center Street," or a portion or portions thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land (including easements for drainage) by purchase, gift, eminent domain or otherwise; to appropriate and assess a sum of money for the acquisition of such land, the construction of such ways, and for other costs in connection therewith, with betterments to be assessed under Chapter 80 of the General Laws; or take any action relative thereto.

Upon motion of Mr. John B. Wilson, duly seconded, it was

Voted unanimously: That the Town dispense with the reading of the Order of Laying Out of the Board of Selectmen in connection with this article.

Upon motion of Mr. Wilson, duly seconded, it was

Voted unanimously: That the Town accept the laying out as a public Town way that portion of South and Center Streets described in the Order of Laying Out of the Board of Selectmen dated February 24, 1960 and as shown on a plan entitled "Acceptance Plan and Profile of South Street and Parts of Center and Winter Streets in Wayland, Mass." dated November 17, 1958, Everett M. Brooks Co., C.E., Newtonville and Wayland, Mass., on file with the Town Clerk; that the Board of Selectmen be authorized to acquire any necessary land, including easements for drainage, by purchase, gift, eminent domain or otherwise and that there be appropriated and assessed the sum of \$12,300 to be used for the acquisition of such land and for the construction of such way and for other costs in connection therewith; and that betterments be assessed under Chapter 80 of the General Laws in accordance with the Order of Laying Out.

Article 27. To see if the Town will vote to accept as a public way, and to construct the road known as "Maiden Lane," or a portion or portions thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land (including easements for drainage) by purchase, gift, eminent domain or otherwise; to appropriate and assess a sum of money for the acquisition of such land, the construction of such way, and for other costs in connection therewith, with betterments to be assessed under Chapter 80 of the General Laws; or take any action relative thereto.

Upon motion of Mr. Wilson, duly seconded, it was

Voted unanimously: That the Town dispense with the reading of the Order of Laying Out of the Board of Selectmen in connection with this article.

Duly seconded, Mr. Wilson offered the following

MOTION: That the Town accept the laying out as a public Town way that portion of Maiden Lane described in the Order of Laying Out of the Board of Selectmen dated February 24, 1960 and as shown on a plan entitled "Plan of Parts of Algonquin Path, Park Lane and Maiden Lane in Wayland, Mass., October 21, 1958, Everett M. Brooks Co., C.E., Newtonville and Wayland, Mass." on file with the Town Clerk; that the Board of Selectmen be authorized to acquire any necessary land,

including easements for drainage, by purchase, gift, eminent domain or otherwise and that there be appropriated and assessed the sum of \$16,765 to be used for the acquisition of such land and for the construction of such way and for other costs in connection therewith, and that betterments be assessed under Chapter 80 of the General Laws in accordance with the Order of Laying Out.

Duly seconded, Dr. Edward J. Moynihan offered a

MOTION: To insert after "Maiden Lane," the words, "from Old Connecticut Path to Sequin Path," upon which Amendment, it was

Voted: In the negative.

Upon the Main Motion of Mr. Wilson, it was

Voted unanimously: In favor.

Article 28. To see if the Town will vote to install water pipes and hydrants in the way named "Maiden Lane," or any portion thereof, and will appropriate or transfer from Available Funds a sum of money for the expenses thereof and will authorize such sum, or any portion thereof, to be included in any betterments that may be assessed under the preceding article; or take any action relative thereto.

Upon motion of Mr. Wilson, duly seconded, it was

Voted unanimously: That the Town appropriate and assess the sum of \$500 for the installation of water pipes and hydrants in Maiden Lane; the work to be done under the supervision of the Water Commissioners; the cost of the work to be assessed as betterments under Chapter 332 of the Acts of 1955.

Article 29. To see if the Town will vote to accept as a public Town way and to construct and relocate the road known as School Street, or a portion or portions thereof, as laid out by the Board of Selectmen and as shown by plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land, including easements for drainage, by purchase, gift, eminent domain or otherwise; to appropriate and assess a sum of money for the acquisition of such land or any portion thereof, the construction of such way and for other costs in connection thereto; or take any action relative thereto.

Upon motion of Mr. Wilson, duly seconded, it was

Voted unanimously: That the Town dispense with the reading of the Order of Laying Out of the Board of Selectmen in connection with this article.

Upon motion of Mr. Wilson, duly seconded, it was

Voted unanimously: That the Town accept the laying out as a public Town way that portion of School Street described in the Order of Laying Out of the Board of Selectmen dated February 24, 1960, as shown on sheets 1, 2 and 3 of plan entitled "Plan, Profile and Taking Plan of School Street, Wayland, Mass.," dated February 11, 1960 by Everett M. Brooks Co., C.E., Newtonville, Wayland and West Acton, Mass., on file with the Town Clerk; that the Board of Selectmen be authorized to acquire any necessary land, including easements for

drainage, by purchase, gift, eminent domain or otherwise and that the funds provided for in the budget under "Reconstruction — Existing Town Roads — School Street" in the amount of \$15,000 be used for the acquisition of land, construction of such way and for other costs in connection therewith.

Article 30. To see if the Town will vote to accept as a public Town way, and to construct and relocate the road known as Pelham Island Road, or a portion or portions thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land (including easements for drainage) by purchase, gift, eminent domain or otherwise; to appropriate and assess a sum of money for the acquisition of such land or any portion thereof, the construction of such way, and for other costs in connection thereto; or take any action relative thereto.

Upon motion of Mr. Wilson, duly seconded, it was

Voted unanimously: That the funds previously voted for work on Pelham Island Road be held over on the basis previously voted.

Article 31. To see if the Town will vote to accept as a public Town way and to construct and relocate the road known as Hill Street, or a portion or portions thereof, as laid out by the Board of Selectmen and as shown by plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land, including easements for drainage, by purchase, gift, eminent domain or otherwise; to appropriate and assess a sum of money for the acquisition of such land or any portion thereof, the construction of such way and for other costs in connection thereto; or take any action relative thereto.

Upon motion of Mr. Wilson, duly seconded, it was

Voted: That the article be passed over.

Article 32. To see if the Town will appropriate and assess a sum of money to improve the corner of Riverview Circle and Stonebridge Road; or take any action relative thereto.

Duly seconded, Mr. Wilson offered the following

MOTION: That there be appropriated and assessed the sum of \$300 for the preparation of plans and for the carrying out of work of rounding out and improving the junction of Stonebridge Road and Potter Road.

Upon motion of Mr. Charles H. Peters, duly seconded, it was

Voted: To amend Mr. Wilson's motion by adding the words, "under the supervision of the Road Commissioners."

Upon Mr Wilson's motion, as amended, it was

Voted unanimously: In favor.

Article 33. To see if the Town will vote to accept as a public Town way River Terrace and an extension thereof to Potter Road, or

any portion thereof as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land, including easements for drainage, by purchase, gift, eminent domain or otherwise; to appropriate and assess a sum of money for the acquisition of such land or any portion thereof, the construction of such way, and for other costs in connection therewith; or take any action relative thereto.

Upon motion of Mr. Wilson, duly seconded, it was

Voted: That the article be passed over.

Article 34. To see if the Town will vote to authorize the abandonment of its rights and easements through and over River Terrace; or take any action relative thereto.

Upon motion of Mr. Wilson, duly seconded, it was

Voted: That the article be passed over.

Article 35. To see if the Town will vote to authorize the purchase, take by eminent domain, gift or otherwise, a drainage easement twenty (20) feet in width, through and over certain parcels of land now or formerly of Kerr, as shown on a plan entitled "Plan of Land in Wayland, Mass. (showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C.E., dated December 17, 1959, bounded and described as follows:

Beginning on the Southwesterly sideline of Oxbow Road at a point two (2) feet more or less Northwesterly of the Northwesterly lot corner of Kerr as shown on said plan; thence

South 32' 18" 20° W one hundred seventy-six (176) feet, more or less thence

South 20' 03" 50° W twenty-six and 25/100 (26.25) feet, thence

South 17' 55" 54° W two hundred eighty-two and 74/100 (282.74) feet, thence

South 00' 15" 50° W one hundred forty-six and 70/100 (146.70) feet, thence

South 44' 28" 50° W one hundred ten (110) feet, thence

North 45' 31" 10° W twenty (20) feet, thence

North 44' 28" 50° E one hundred one and 88/100 (101.88) feet, thence

North 00' 15" 50° E one hundred forty-one and 69/100 (141.69) feet thence

North 17' 55" 54° E two hundred eighty-six and 22/100 (286.22) feet, thence

North 20' 03" 50° E twenty-eight and 76/100 (28.76) feet, thence

North 32' 18" 20° E one hundred eighty (180) feet, more or less, to the Southwesterly sideline of Oxbow Road, thence

Southeasterly twenty (20) feet, more or less along the Southwesterly sideline of Oxbow Road to the point of beginning.

together with the right to enter upon said premises and lay and maintain pipes, sewers, drains and manholes, therein, and to raise and appropriate a sum of money therefor; or take any action relative thereto.

With unanimous consent of the meeting, the Moderator and the maker of the following motion omitted to read the description of the land dealt with in this article, since the description followed exactly the wording as contained in the Warrant.

Upon motion of Mr. Frank A. Smith, duly seconded, it was

Voted unanimously: That the Town authorize the Board of Selectmen, with the approval of the Town Counsel, to purchase, take by eminent domain, gift or otherwise on behalf of the Town a drainage easement, together with a right to enter upon such premises to lay and maintain drains and manholes therein, through and over certain parcels of land now or formerly of Kerr, as shown on a plan entitled "Plan of Land in Wayland, Mass. (showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C.E., dated December 17, 1959, bounded and described (as given under Article 35 of the Warrant for this meeting).

Article 36. To see if the Town will vote to authorize the Board of Selectmen to purchase, take by eminent domain, gift and/or other means, on behalf of the Town of Wayland, a drainage easement through and over certain land as shown on a plan entitled "Plan of Land in Wayland, Mass. (showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C.E., dated February 4, 1959, bounded and described as follows:

Beginning on the Northwesterly sideline of Glezen Lane at an iron pipe at the Southerly lot corner of land now or formerly of Foster, thence

SOUTH 28' 04" 16° W twenty and 06/100 (20.06) feet along the Northwesterly sideline of Glezen Lane, thence

NORTH 66' 14" 20° W two hundred forty-two and 91/100 (242.91) feet, thence

NORTH 68' 07" 20° W sixty-seven and 83/100 (67.83) feet, thence

SOUTH 53' 30" 40° W three hundred fifty-three and 83/100 (353.83) feet, thence

NORTH 36' 29" 20° W twenty (20.00) feet, thence

NORTH 53' 30" 40° E three hundred sixty-five (365) feet, thence

SOUTH 68' 07" 20° E seventy-nine and 33/100 (79.33) feet along land now or formerly of Shick, thence

SOUTH 66' 14" 20° E two hundred forty-four and 75/100 (244.75) feet along land now or formerly of Foster to the point of beginning.

together with the right to enter upon said premises and lay and maintain pipes, sewers, drains and manholes, therein, and to raise and appropriate a sum of money therefor; or take any action relative thereto.

Upon motion of Mr. Smith, duly seconded, it was

Voted: That the article be passed over.

Article 37. To see if the Town will vote to authorize the purchase, take by eminent domain, gift or otherwise, a drainage easement through and over certain parcels of land as shown on a plan entitled "Plan of Land in Wayland, Mass. (showing Town of Wayland Drain Ease-

ment)" by Everett M. Brooks Co., C.E., dated January 15, 1960, bounded and described as follows:

Beginning on the Northerly sideline of Woodridge Road at a point thirty-four and 40/100 (34.40) feet more or less Westerly of the Southwesterly lot corner of the land of Baker as shown on said plan; thence
NORTH 16' 50" 20° East a distance of three hundred forty-five (345.00) feet, thence
SOUTH 73' 09" 40° East a distance of twenty (20) feet, thence
SOUTH 16' 50" 20° West a distance of three hundred forty-three and 44/100 (343.44) feet to Woodridge Road, thence
WESTERLY along the sideline of Woodridge Road twenty and 07/100 (20.07) feet, to the point of beginning,
together with the right to enter upon said premises and lay and maintain pipes, sewers, drains and manholes, therein, and to raise and appropriate a sum of money therefor; or take any action relative thereto.

Upon motion of Mr. Smith, duly seconded, it was

Voted: That this article be passed over.

Article 38. To see if the Town will vote to authorize the Board of Selectmen to purchase, take by eminent domain, gift and/or other means, on behalf of the Town of Wayland, a drainage easement through and over certain land as shown on a plan entitled "Plan of Land in Wayland, Mass. (Showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C.E., dated February 4, 1959, bounded and described as follows:

Beginning at a stone bound on the Northwesterly sideline of Rice Road and at the Northeasterly lot corner of land shown as land now or formerly Mayhew, thence running

NORTHWESTERLY a distance of five hundred forty (540.00) feet along land now or formerly of Mayhew to land of the Town of Wayland, thence turning and running

NORTHEASTERLY a distance of twenty and 3/10 (20.3) feet more or less along land of the Town of Wayland, thence turning and running

SOUTHEASTERLY a distance of five hundred thirty-six and 5/10 (536.5) feet more or less to the Northwesterly sideline of Rice Road, thence turning and running

SOUTHWESTERLY a distance of twenty (20.0) feet along the Northwesterly sideline of Rice Road to the point of beginning,

together with the right to enter upon said premises and lay and maintain pipes, sewers, drains and manholes, therein, and to raise and appropriate a sum of money therefor, or take any action relative thereto.

With unanimous consent of the meeting, the Moderator and the maker of the following motion omitted to read the description of the land concerned in this Article, since the wording followed exactly that of the description as printed in the Warrant.

Upon motion of Mr. Smith, duly seconded, it was

Voted unanimously: That the Town authorize the Board of Selectmen, with the approval of the Town Counsel, to purchase, take by eminent domain, gift or otherwise on behalf of the Town a drainage

easement, together with a right to enter upon such premises to lay and maintain drains and manholes therein, through and over certain land as shown on a plan entitled "Plan of Land in Wayland, Mass. (showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C.E., dated February 4, 1959, bounded and described (as given under Article 38 of this Warrant).

Article 39. To see if the Town will vote to authorize the Board of Selectmen to purchase, take by eminent domain, gift and/or other means, on behalf of the Town of Wayland, a drainage easement through and over certain land shown on a plan entitled "Plan of Land in Wayland, Mass., (Showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C.E., dated February 4, 1959, bounded and described as follows:

Beginning on the Northerly sideline of Glezen Lane at the Southwesterly lot corner of land now or formerly of Kean, thence running

WESTERLY a distance of twenty and 08/100 (20.08) feet along the Northerly sideline of Glezen Lane, thence turning and running

NORTHERLY a distance of three hundred seventy-six and 84/100 (376.84) feet more or less to land now or formerly of Christle, thence

S 77° 20' 00" E twenty-one and 38/100 (21.38) feet along land now or formerly of Christle, thence

S 8° 02' 30" E three hundred seventy-one and 13/100 (371.13) feet along land now or formerly of Christle and land now or formerly of Kean to the point of beginning.

together with the right to enter upon said premises and lay and maintain pipes, sewers, drains and manholes, therein, and to raise and appropriate a sum of money therefor, or take any action relative thereto.

With unanimous consent of the meeting, the Moderator and the maker of the following motion omitted to read the description of the land concerned in this article, since the wording followed exactly that in the Warrant.

Upon motion of Mr. Smith, duly seconded, it was

Voted unanimously: That the Town authorize the Board of Selectmen, with the approval of the Town Counsel, to purchase, take by eminent domain, gift or otherwise on behalf of the Town a drainage easement, together with a right to enter upon such premises to lay and maintain drains and manholes therein, through and over certain land as shown on a plan entitled "Plan of Land in Wayland, Mass., (Showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C.E., dated February 4, 1959, bounded and described (as given under Article 39 of the Warrant) for this Meeting.

Article 40. To see if the Town will vote to authorize the purchase, take by eminent domain, gift or otherwise, a drainage easement through and over certain parcels of land shown on plan entitled "Ledgewood, A Subdivision in Wayland, Mass.", dated May 20, 1959, by Schofield Brothers, Reg. Civil Engineers, bounded and described as follows:

Beginning on the Southerly sideline of Joyce Road at the North-easterly lot corner of Lot 7 as shown on said plan, thence

SOUTH 21' 04" 20° W one hundred thirty-two and 10/100 (132.10) feet, thence

SOUTH 17' 40" 30° E one hundred eighty-six (186) feet, more or less, thence

SOUTH 72' 19" 30° W twenty (20) feet, thence

NORTH 17' 40" 30° W one hundred eighty-nine (189) feet, more or less, thence

NORTH 21' 04" 20° E one hundred twenty-seven (127) feet, more or less to the Southerly sideline of Joyce Road, thence

NORTH 79' 19" 00° E twenty-four (24) feet, more or less, along the Southerly sideline of Joyce Road to the point of beginning,

together with the right to enter upon said premises and lay and maintain pipes, sewers, drains and manholes, therein, and to raise and appropriate a sum of money therefor; or take any action relative thereto.

With unanimous consent of the meeting, the Moderator and the maker of the following Motion omitted to read the description of the land relating to this Article, since the wording followed exactly that of the Article in the Warrant for this meeting.

Upon motion of Mr. Smith, duly seconded, it was

Voted unanimously: That the Town authorize the Board of Selectmen, with the approval of the Town Counsel, to purchase, take by eminent domain, gift or otherwise on behalf of the Town a drainage easement, together with a right to enter upon such premises to lay and maintain drains and manholes therein, through and over certain parcels of land shown on plan entitled "Ledgewood, A Subdivision in Wayland, Mass.," dated May 20, 1959, by Schofield Brothers, Reg. Civil Engineers, bounded and described (as given under Article 40) of the Warrant for this meeting.

Article 41. To see if the Town will vote to authorize the transfer, from Tax Title Possession account and/or from Town Ownership account to the Park Department, of the following properties:

Lots 78 and 80 Beechwood Point (Plate #47A — Dudley Road)

Lots 81 Riverview Terrace (Plate #36C — Riverview Circle)

Lots 177-180 Riverview Terrace (Plate #36C — Overlook Road)

Lots 257-261 Riverview Terrace (Plate #36B — Shore Drive) inclusive

Lots 267-277-278 Riverview Terrace (Plate #36B — Shore Drive)

Lots 341-342 Riverview Terrace (Plate #36B — Shore Drive)

or take any action relative thereto.

Upon motion of Mr. Charles R. Jameson, duly seconded, it was

Voted unanimously: That there be transferred from "Tax Title Possession"/account and/or "Town Ownership" account to the Park Department the care, custody and control of the following properties:

Lots 78 and 80 Beechwood Point (Plate #47A — Dudley Road)

Lot 81 Riverview Terrace (Plate #36C — Riverview Circle)

Lots 177-180 Riverview Terrace (Plate #36C — Overlook Road)

Lots 257-261, Inclusive, Riverview Terrace (Plate #36B — Shore Drive)
Lots 267-277-278 Riverview Terrace (Plate #36B — Shore Drive)
Lots 341-342 Riverview Terrace (Plate #36B — Shore Drive)
and that the use of the land be devoted to park purposes.

Article 42. To see if the Town will vote to authorize the Board of Selectmen to petition the Massachusetts General Court for authority to transfer from the Park Department to the Selectmen the care, custody, control and management of the road known as Parkland Drive and to change the use of the land from Park purposes to general Municipal purposes, or take any action relative thereto.

Upon motion of Mr. Jameson, duly seconded, it was

Voted unanimously: That the Selectmen be authorized to petition the Massachusetts General Court for authority to transfer from the Park Department to the Selectmen the care, custody and control and management of the following described parcel of land known as "Parkland Drive" and as shown as "New Town Way" on "Plan of Memorial Park in Wayland, Mass., owned by Cornelius J. Maguire," dated March, 1951, Irving Rosenblatt, Engineer, Framingham, Mass. and to change the use of the land from park purposes to general municipal purposes.

Article 43. To see if the Town will vote to authorize the Board of Selectmen to petition the Massachusetts General Court for authority to transfer from the Park Department to the Selectmen the care, custody, control and management of land described in deed from John B. Wight to Inhabitants of the Town of Wayland, recorded with Middlesex South District Deeds in Book 4425, Page 309 and to change the use of the land from Park purposes to general Municipal purposes, or take any action relative thereto.

Upon motion of Mr. Jameson, duly seconded, it was

Voted: That the article be passed over.

Article 44. To see if the Town will vote to authorize the abandonment of its rights and easements in, through and over the way formerly known as County Road; or take any action relative thereto.

Upon motion of Mr. Bertelsen, duly seconded, it was

Voted unanimously: That the article be passed over.

Article 45. To see if the Town will vote to authorize the abandonment of its right and easements in, through and over the way formerly known as Castle Hill Road; or take any action relative thereto.

Upon motion of Mr. Robert H. Charnock, duly seconded, it was

Voted unanimously: That the Town authorize the Selectmen, with the approval of the Town Counsel, to take such steps as may be necessary to abandon the Town's rights and easements in, through and

over the way formerly known as Castle Hill Road from Moore Road to the land acquired by the Town under Article 3 at the Special Town Meeting of 2/15/56 for a new school site and located just south of Sherman Bridge Road.

At this point the meeting returned to Article 22, which had been tabled by a previous vote, to be taken up after Article 45.

The Moderator briefly explained the status of the action, in view of the two Motions of Amendment before the floor at the time of tabling.

Mr. Mendler and Mr. McEnroy each requested permission to withdraw their respective amendments; and there being no objection voiced, the Moderator declared unanimous consent of the Meeting to withdrawal of both Motions.

Mr. Kilburn then requested permission to withdraw his original motion, in order to clear the floor for a new, amended motion on the same subject. This permission was granted by unanimous consent of the meeting.

Upon motion of Mr. Kilburn, duly seconded, it was

Voted unanimously: That the Board of Selectmen, with the approval of the Town Counsel, be authorized to sell as a single parcel of land at public auction, or private sale, only to an abutter, to be incorporated into the abutter's lot, to be held as a single parcel, for not less than \$900.00, the land shown on Plate 42D of the Town Atlas as Lot 59 and parts of Lots 28 and 29 Hawthorne Road, containing 13,288 sq. ft.

Article 46. To see if the Town will vote to amend Chapter V of the Building Code, as amended, by adding at the end thereof the following new section:

“Section 16. Fire Protection

“(a) No building shall be used in whole or in part as a hospital, nursing home, rest home, convalescent home, or home for the aged unless such building is protected throughout by a standard automatic sprinkler system designed to give audible alarm on the premises and also automatically to transmit a fire alarm signal to Fire Department headquarters; Provided, that nothing contained in this sub-section (a) shall apply to a building used for such purposes on March 1, 1960 which complies with the requirements of sub-section (b).

“(b) No building used on March 1, 1960 as a hospital, nursing home, rest home, convalescent home, or home for the aged shall be used for any such purpose after March 1, 1961 unless such building is protected throughout either by a standard automatic sprinkler system designed to give audible alarm on the premises and also automatically to transmit a fire alarm signal to Fire Department headquarters or by a complete automatic fire alarm detection system with an approved design of wiring and equipped with thermostats designed to give audible alarm on the premises and also automatically to transmit a fire alarm signal to Fire Department headquarters.

“(c) No sprinkler or fire detection system shall be deemed to meet the requirements of this section unless it is in accordance with the standards of the National Board of Fire Underwriters and approved

by the Chief of the Fire Department," or take any action relative thereto.

Upon motion of Mr. Morgan, duly seconded, it was

Voted unanimously: That the Town amend Chapter V of the Building Code, as amended, by adding the following new section:

"Section 16. *Fire Protection* (And the rest of the wording is verbatim as given in the Warrant under Article 46.)

The Maker of the Motion omitted to re-read the exact wording, with unanimous consent of the meeting.

Article 47. To see if the Town will vote to amend the Zoning By-Laws by deleting Section V, Sub-Section (g) and inserting in place thereof the following:

"Sanitariums or Hospitals, not for the insane or feeble-minded, or Nursing Homes for the care of the sick or aged, provided a special permit is granted by the Board of Appeals in accordance with the procedure provided in Sub-Section (r) and only under such conditions as the Board of Appeals may impose, and provided that no building be within thirty (30) feet of any lot line"

or take any action relative thereto.

Duly seconded, Mr. Gordon E. Gott offered the following

Motion: That the Town amend the Zoning By-Law by deleting Section V, Sub-Section (g) and inserting in place thereof the following:

"(g) Sanitariums or Hospitals, not for the insane or feeble-minded, or Nursing Homes for the care of the sick or aged, provided a special permit is granted by the Board of Appeals in accordance with the procedure provided in Sub-Section (r) and only under such conditions as the Board of Appeals may impose, and provided that no building be within thirty (30) feet of any lot line."

Mr. Gott then presented the Report of the Planning Board relating to this Article, and placed the Report on file with the Town Clerk.

Upon Mr. Gott's motion, it was

Voted unanimously: In favor.

Article 48. To see if the Town will vote to amend the Zoning By-Laws to provide for a change in set-back provisions, by amending Section IX, Sub-Section (a), (b) and/or (c); or take any action relative thereto.

Duly seconded, Mr. Edward F. Thorburn offered the following

MOTION: That the Town amend the Zoning By-Law by deleting Section IX, Sub-Sections (a) and (b) and inserting in place thereof:

"(a) No building or structure in any residence district shall extend within 55 feet of the center line or within 30 feet of the street line of any street whether accepted or not, whichever distance is greater, except as provided in paragraphs (b) and (c).

"(b) A building in existence on March 1, 1960, may extend within 50 feet of any center line of the street; a porch attached thereon may extend within 20 feet of any street line; and a two-story porch

which is unenclosed at least half of the year, may project six feet into the front yard."

Mr. Thorburn read the Report of the Planning Board relating to Article 48, and placed the Report on file with the Town Clerk.

Upon Mr. Thorburn's motion it was

Voted unanimously: In favor.

In response to an inquiry whether this meeting might instruct the Finance Committee, and make a suggestion regarding the preparation of next year's budget, the Moderator said that, strictly speaking, this should only be done by returning to Article 4. However, in view of the early hour, and the expressed willingness on the part of the Chairman of the Finance Committee to hear helpful suggestion, the Moderator permitted about five minutes of discussion in this vein. (It was about 10:15 P. M. at this point).

A *suggestion* was stated. That the Wayland Town Finance Committee be instructed to present next year's budget to be within the income of the Town so that there will be no increase in the Tax Rate.

This was *NOT* taken as a vote, but merely stood as a suggestion.

The Moderator thanked the students operating the microphones, the police, the tellers, high school officials who had cooperated with setting up the hall, etc., for the smooth running of the several sessions of this meeting; and he gave special mention to John T. Howard, Jr., who had been present, working on microphones until the bitter end, each week, perhaps at times being the last person out of the building — an outstanding civic contribution on the part of one of our students.

He also thanked F. Douglas Dyer, who had repaired the gavel, as a matter of civic contribution, when it had been broken during one of the meetings.

He also announced his appointments to the Memorial Day Committee. Mr. Ronald H. Wood, who had served several years as chairman, having expressed inability to serve, as a matter of health, the following persons were named:

Chairman John W. Leavitt, and as representative of the American Legion, Joseph L. Strafus, as representative of the Veterans of Foreign Wars, Richard Loynde.

He also announced his appointments to the Mosquito Control Study Committee:

Allan Morgan, to represent a Conservation Organization; Dr. John Gordon Freymann, to represent the Board of Health; Mr. Dewitt Mitchell as an individual whose business is raising livestock; and two members-at-large: Mr. John Pratt and Mrs. Herbert Lipton.

Article 49. To see what sum, if any, the Town will vote to transfer from available funds to meet any of the appropriations made under the foregoing articles.

Upon motion of Mr. Robert M. Morgan, duly seconded, it was
Voted unanimously: To pass over the article.

Upon motion of Mr. Magoun, duly seconded, it was
Voted: To adjourn the meeting — at 10:30 P. M.

VOTES ENACTED AT THE SPECIAL TOWN MEETING

Held: Wednesday, June 15, 1960

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant dated May 23, 1960, signed by Thomas F. Linnehan, Archibald Cox and Frank S. Tarr, Selectmen; served and return of service given by Ernest H. Damon, Constable of the Town of Wayland, the inhabitants of said Town qualified to vote in Town Meeting assembled this day; and at 7:45 P. M. the Moderator called the meeting to order, declared a quorum to be present and the meeting proceeded to transact the following business:

Article 1. To see if the Town will vote to amend the Zoning By-Laws and the Zoning Map by making the following changes in District boundaries, or take any action relative thereto:

Change from Business District A to Residence District Forty Thousand (40,000) square feet with One Hundred Eighty (180) feet front on land bounded and described as follows:

NORTHERLY by State Road West

WESTERLY by Pelham Island Road and by land of the Town of Wayland; and

SOUTHERLY by land of the Town of Wayland; and

EASTERLY by land of the Town of Wayland;

Before any motion was heard, the Moderator explained the parliamentary situation of this meeting: He outlined the statutory requirement whereby the Planning Board would have to hold a public hearing upon the subject matter of this Article before any positive action could legally be taken in relation to it; that such a hearing had not yet been held, and therefore, only two courses of action would be in order at this meeting: 1.) To adjourn the meeting until after such hearing would have been held, and at such time as the Planning Board could present a Report based upon its findings from such hearing; or 2.) Pass over the Article, and vote final adjournment of the Meeting.

Upon motion of Mr. Eugene C. Roberts, duly seconded:

"That the meeting be adjourned to Wednesday, June 29, 1960 at 7:45 P. M., the place to be the High School Gymnasium, it was

Voted: 1st Vote was declared in doubt by the Moderator.

Counted Vote: "Yes" 69, "No" 88.

This vote was declared in the Negative.

Upon motion of Mr. Robert M. Morgan, duly seconded

"To pass over the Article," it was

Voted: 1st Vote was declared in doubt by the Moderator.

Counted Vote: "Yes" 90, "No" 77.

Upon motion, duly seconded, it was

Voted: To adjourn the meeting, at 8:35 P. M.

Approved:

THOMAS FRANCIS LINNEHAN,
FRANK S. TARR,
Wayland Board of Selectmen.

REPORT OF THE CEMETERY COMMISSIONERS

The Cemetery Commissioners offer the following report of its activities for the year 1960:

The paving of roads in the cemeteries continued and to the extent that the North Cemetery roads are completely finished.

There now remains one major road in Lakeview Cemetery to be paved.

The paving shows a marked improvement resulting in a savings on maintenance, better drainage, as well as a good appearance.

Seventy-one burials were made this year in the three cemeteries, for which we collected \$3,830. Fifty-two burials were made in Lakeview, one in South Cemetery and eighteen in the North Cemetery.

Sixteen lots were sold in Lakeview Cemetery.

Six lots were sold in North Cemetery.

Receipts for Foundations for Monuments in all the cemeteries was \$435.50.

Annual Care charges at all the cemeteries were collected to the total amount of \$1,210.

Twelve Perpetual Care Funds have been given in the year of 1960 amounting to \$1,900 — The list is as follows:—

Amos Fund, given by Ada M. Amos for perpetual care of Lot 30B, Section M, Lakeview	\$50.00
Hilton Fund, given by Maynard Hilton for perpetual care of Lot 55, Section M, Lakeview	200.00
Hawes Fund, given by Bertha E. Hammond for perpetual care of Lot 49, Section A, Lakeview	100.00
Withington Fund, given by Alice G. Withington for perpetual care of Lot 54B, Lovell Section, North	100.00
Fiske Fund, given by Roy L. Fiske for perpetual care of Lot 9, Section B, Lakeview	300.00
Kilburn Fund, given by Frank W. Kilburn, Jr. for perpetual care of Lot 89, Section C, Lakeview	200.00
Archibald Fund, given by Leland M. Archibald for perpetual care of Lot 75, Section L, Lakeview	200.00
Thomas Fund, given by Maxine A. Thomas for perpetual care of Lot 93, Section L, Lakeview	200.00
Fairbanks Fund, given by Catherine M. Fairbanks for perpetual care of Lots 21 and 39, Section D, Lakeview	300.00
Chapman Fund, given by Patience Chapman for perpetual care of Lots 93 and 95, Ext. North	100.00
Blair Fund, given by Emily Blair for perpetual care of Lot 16, Ext. North	100.00
Favour Fund, given by Mark Favour for perpetual care of Plot 1, Lot 97, Section C, Lakeview	50.00
	\$1,900.00

REPORT OF THE LIBRARY

1960 was a year of continued growth and development for the Library. The new children's room was opened in the basement and has been greatly appreciated. Mrs. John T. Howard was in charge of the room until August, and with the assistance of Mrs. Albert Hughes and Mrs. Eva Gately gave a good start to operations in the new room. There has been emphasis on providing every child over six with his own library card. 349 juvenile registrations were recorded for the year.

The young people's room on the main floor is now fully equipped with new shelves and chairs. The book collection for this section has been increased and is very popular with the teen-agers.

Plans for the future include new lighting for the main floor and balcony, and an enclosed section in the balcony for the collection of old books.

There have been several changes in the staff. Miss Elizabeth Connor became a full-time employee in September. She is in charge at the Cochituate Branch and also spends some time at the Main Library. Mrs. John Baldwin and Mrs. Norman Taylor, who have served faithfully and well at the Main Library, left us for other employment.

During the year we have been served in many ways by the Girl Scouts. Two Scouts completed their hours of work for Library Service Merit Bars. At the time of moving to the new children's room 5th grade Scouts carried out the task of transferring the books to the new shelves. In this way a large quantity of books was quickly moved with very slight interference with regular service.

The record collection has been increased by 22 albums and is now housed in new shelving. During the year 701 albums were circulated.

This was a year of large donations to the Library. Several individuals presented us with many useful books. The League of Women Voters also purchased several appropriate books for the use of Library borrowers.

We are again grateful to the Garden Club for the many flower arrangements and special decorations which they have brought to the Library.

The total estimated cost of all non-taxable buildings amounted to \$23,000.00. The total estimated cost of all, amounted to \$2,829,948.00.

NEW HOUSE DEVELOPMENT BY PRECINCT

<i>Year</i>	<i>Cochituate</i>	<i>Wayland</i>	<i>Total</i>
1952	40	101	141
1953	97	84	181

1954	48	94	137
1955	41	97	138
1956	54	118	172
1957	40	86	126
1958	60	74	134
1959	40	85	125
1960	58	94	152

As in the past few years, National Electrical Week was observed in February by submitting an article to the local paper outlining its purpose, and pamphlets, "Electricity In Your Home" were distributed to the sixth grade students in the various elementary schools throughout the town, through the co-operation of Mr. Edward Anderson, Superintendent of Schools, and his associates. These pamphlets were, primarily, a guide for the students, with their parents, to check electrical defects in their homes; to be followed through, in the promotion of safety, by having repairs made if necessary. (It is the intent of the promoters of this program to ask the sixth grade students each year to co-operate in this type of safety program. Thereby, over a period of years, all students going through our school system will have the benefits of this electrical survey.)

Commercial, Church, Municipal etc., permits consisted of:

1. MARCH:

An alteration permit was issued to the Golden Eagle Restaurant on Main Street for an extensive addition. The work on this building was completed this year.

2. MAY:

(a) In May 1959 a permit was issued for a new church to the Roman Catholic Archbishop of Boston for Saint Zepherins Catholic Church, Main Street, Cochituate and in May of this year the church was opened for services.

(b) In May 1959 a permit was issued to the N.D.C. Construction Company for the construction of a new High School on Old Connecticut Path. The work on this project was advanced far enough to permit the Fall classes to meet in these buildings.

(c) A permit was issued to the Vokes Players Inc. for an addition to the auditorium of the theatre, and the work was completed in November 1960.

3. AUGUST:

In November 1959, a permit for a rectory was issued to the Catholic Archdiocese of Boston to be located on Cochituate Road. This rectory was ready for occupancy in August.

4. SEPTEMBER:

(a) An alteration permit was issued to Wayland School Department to convert part of the Jr. High Annex for office administration purposes.

(b) A permit was issued to Dominic Strazzulla at 177 East Commonwealth Road, Cochituate, for a business block.

5. NOVEMBER:

A permit was issued for a Sheltering Home on Concord Road, Wayland.

Several new developments were started this year and are at various stages of construction.

The Charles H. Wheelock, Jr., development with three new streets, Clarence, Charena and Kelsey Roads.

The Einar P. Robsham development with four new roads, Wayland Hills, Smokey Hill Roads and Linn and Clubhouse Lanes.

The Puritan Homes development completed Brooks Road which exits onto Loker Street and added Aqueduct Road off Brooks Road.

The Early Colonial Homes development off Woodridge Road with three new roads, Alden, Brewster, and Cabot Roads.

The James Potts development off Barney Hill Road.

At the Old Mansion Inn site the Veritas Builders Corporation have completed eight houses fronting on West Plain Street and Old Connecticut Path with the possibility of five more lots pending with a frontage on Lake Shore Drive.

Progress has continued in several earlier developments.

Sears Road by the Swiedler Building Corporation now extends through to Draper Road.

Jeffrey Road in the George Todd, Jr. development, approaches completion.

Sedgemoor Road development, by the Sterling Building Corporation.

The White Road development by the Smith Realty Company.

Several new houses are under construction on Lundy Lane and Rolling Lane.

The extension of Anthony Road by Robert Hayes, completed this year; now makes the second point of connection from Stonebridge Road to the Holbrook and High Gate Road areas.

The following is a list of property removed this year:

1. Cottage of Helen Hallisey, 4 Birch Road torn down to build two dwellings on same site.
2. Cottage of Leo Larson, 59 Fuller Road torn down to build a dwelling on same site.
3. Cottage of Catherine Fitzpatrick, 37 Rice Road torn down with the intent to build on same site.
4. House owned by Anselm Delaney, 11 West Plain Street, torn down to increase parking area in the rear of Golden Eagle, Main Street.
5. Cottages taken by the Town of Wayland at 14 Glen Road, 49 Rice Road, and 29 Rice Road and the former Tower Hill Railroad Station have been taken down or are in the process of removal.

During December condemnation procedures under Chapter 143 of the General Laws were started against two cottages, one on Oxbow Road and one on East Commonwealth Road.

Seventy-six cases of Zoning variations were prepared and brought to the Zoning Board of Appeals for decision.

During 1960, Fire Chief Hartin and I followed through with the inspection program which we started in 1957. The types of buildings which we inspected included schools, churches, auditoriums, rest homes, stores, taverns, and multiple family dwellings. The inspection consisted of structural strength of the buildings, electrical wiring systems, oil burning equipment, rubbish accumulation, exit signs, emergency lighting equipment, fire extinguishers, chimneys, storage of flammable liquids and paints, etc. After these inspection tours, letters were sent to property owners or the building committee concerned. Their willingness to correct the conditions as outlined to them is to be commended.

Fees collected from wiring and building permits and zoning applications during 1960 amounted to \$4,686.50 and has been turned over to the Town Collector.

The Building Department would like to take this opportunity to thank the Town Officials and citizens who have helped in the affairs of this office in the past year.

Respectfully submitted,

HOMER L. MacDONALD.

REPORT OF THE MOTH SUPERINTENDENT

In the year 1960, the trees in the Town of Wayland were sprayed for the control of Gypsy Moth and Dutch Elm Disease.

The elm trees received one extra spray early in the Spring in an added attempt to halt the spread of Dutch Elm Disease.

This year 1961, an early spray will be applied in addition to the regular spraying program.

One hundred and four trees were sampled and one hundred and three were found to have diseases and will have to be removed and destroyed.

The roadsides of the town were again sprayed for Poison Ivy Control and will be sprayed again in 1961.

Respectfully submitted,

JOHN E. NELSON.

PARK DEPARTMENT — ANNUAL REPORT 1960

To give the people of Wayland an opportunity to judge for themselves the vast areas the Park Department has to maintain, we are publishing the following list of town-owned properties that are maintained by the Park Department:

1. Whittier Memorial and adjacent grounds.
2. Triangle — Sherman Bridge Road and Concord Road
3. Heater Piece — Moore Road.
4. Heater Piece — Concord Road and Claypit.
5. Heater Piece — Plain Road and Claypit.
6. Claypit School and grounds.
7. Mill Pond and grounds.
8. Wayland Library grounds.
9. Wayland Greens and Honor Roll.
10. Junior High School Field and grounds (Line field as per schedule).
11. Wayland Grade School grounds.
12. Happy Hollow School and grounds.
13. Riverview Playground and building.
14. Cochituate Town Building and Honor Roll.
15. Cochituate Grade School.
16. Cochituate Ball Field.
17. Memorial Heater Piece.
18. Loker School.
19. Dudley Pond and grounds.
20. Beach — Lake Cochituate.
21. Entrance to Woodridge.
22. Entrance to Damon Farms.
23. New High School.
24. Wayland Railroad Station.
25. Town Building grounds.

The Park Commissioners wish to thank the people of the Town and the Town Agencies for their support during the 1960 season.

Respectfully submitted,

NATHANIEL HAMLEN,
THOMAS F. MURRAY,
FRANK S. TARR,
Board of Park Commissioners.

REPORT OF THE WATER COMMISSIONERS

The Wayland Water Department has come a long way toward achieving the two basic goals for which it was set up over eighty years ago: (1) to supply adequate clear water to home-owners and industry for domestic and other purposes, and (2) to provide fire protection throughout the Town at proper pressures and rates of flow.

In 1878, the Department served a small area of Town, essentially the homes and factories of Cochituate Village. Today, the system covers nearly the entire Town and only a few stretches of Town roads are without water mains and hydrants. In 1878, storage was provided by the Snake Brook Reservoir and subject to periodic summer droughts. Today the Town has two and one-half million gallons of storage on Reeves' Hill, enough, we hope, to satisfy the demand for some years to come. In 1878, the supply came from the clouds via streams and springs. Today the Department has four high-capacity wells and electric pumps, constantly pouring water into the distribution and storage system with two reserve Diesel pumps for emergencies, such as the hurricane in September, 1960.

The most outstanding development and expansion of the system has come since World War II. In 1938, we had just reached 1,000 customers; in 1961, the Department will take on its 3,000th customer. In 1938, there were about thirty-four miles of main; in 1961, there are over sixty-eight miles installed. Nearly all of this distribution system is of cast iron pipe, a record not every rapidly growing suburban town can claim. In 1938, the Baldwin's Pond Diesels pumped annually just over 100 million gallons, and it was always an exciting treat for youngsters at the pond to go into the Station to watch the mechanical monsters at work. In 1960, the Department pumped over 330 million gallons — nearly a million gallons per day, or about 100 gallons per day per resident. In 1938, income was derived from a (then adequate) system of levies per water outlet — \$8.00 per year for each kitchen sink, etc., and billing and collecting were time-consuming and irksome jobs. Today, virtually all services are metered, due to the thoughtful action of the Town in 1954, and the entire billing system has been continuously strengthened and made more efficient.

In short, the hard work and careful study of many earlier Commissioners and Superintendents laid the foundation upon which the present Water Department now carries on.

What remains to be done to improve the Wayland water system — other than routine replacement of pumps and other equipment and regular maintenance activities? Any expansion of the Town through residential development provides, by virtue of our excellent subdivision control regulations, its own mains, hydrants, etc., at no cost to the Town. We must, however, plan to install mains in such roads as Rice Road in the next few years. Fortunately, there are several methods available to the Department for accomplishing this other than direct appropriations from Water Available Surplus. In other cases, particularly shorter stretches of Town roads, the Department is continuously laying water mains, as, for example, on a short length of Draper Road, where the Department this year wishes to complete a necessary loop in its system.

Another requirement for the future will be a third pumping site, in addition to the Happy Hollow well field (serving the southern part

of Town) and to the Baldwin's Pond site. For several years, we have had a regular program of well exploration and testing in the northern part of Wayland. In 1960, an excellent site was found off Oxbow Road, and the Commissioners are making plans to integrate this site into the system. Adequate pressures and supply will therefore be assured to an area distant from the Reeves' Hill storage facilities.

A special problem that faces the Department in the future may never actually appear—a high-level storage and distribution system. The need for this arises from the fact that the present storage was built at an elevation of about 345 feet in 1927. Such an elevation provides adequate fire protection to homes located only up to elevations of about 300 feet. Since rather large areas in the central part of Town lie above 300 feet, it may well be that a special storage tank and pumping station will be required to serve these areas. Such a tank must be located at the highest point available, about 400 feet above sea level. Two such sites have been found and reserved for possible Town use. Engineering studies of the whole "high-level" problem have been completed and we hope to be able to integrate such an eventuality into the existing operation with ease and minimum cost.

The present Commissioners feel that they have a Department of which the Town can take considerable pride. Public relations, a useful barometer of a Water Department, is at an all-time high. Naturally, there are areas for improvement, and we hope that the Town will act year by year to bring about desirable changes and well-directed growth. The Baldwin's Pond Station is always ready to receive interested visitors, and the Superintendent and his staff prepared to help townspeople with problems or questions associated with their water supply.

Pertinent Statistics — 1960

Number of services in use	2,933
Length of main	68 miles
Number of hydrants	402
New services, 1960	140
Mains added, 1960	2 miles (included in above)
Water pumped	333 million gallons
Renewals	10
Leaks	29

Respectfully submitted,

GEORGE K. LEWIS,
ALFRED C. DAMON,
FERN A. TAYLOR,
Board of Water Commissioners.

REPORT OF MEMORIAL DAY COMMITTEE

A complete program of exercises were held on May 30, 1960 in both Wayland village and Cochrant. Joint services were conducted at the South Cemetery and St. Zepherins Cemetery by the American Legion and Veterans of Foreign Wars in the morning.

In the afternoon a parade formed at 1 P. M. and proceeded to the North Cemetery to decorate Veterans' Graves, hold memorial services in which the Maynard Community Band participated.

At 2:30 P. M. the parade reformed and proceeded to Lakeview Cemetery for identical services except that the Wayland High School Band participated.

The following organizations were participants in Memorial Day exercises:

Charles H. Alward Post 133, American Legion
Wayland Post, Veterans of Foreign Wars
Police Department Escort
Fire Department Detail
American Legion, Drill Team
V. F. W. Drill Team
Wayland High School Band
Maynard Community Band
Explorer Scouts
Boy Scouts
Girl Scouts
Camp Fire Girls

REPORT OF ANIMAL INSPECTOR

I wish to submit my report as Animal Inspector for the Town of Wayland for year 1960.

Inspected 453 Interstate Cattle
Inspected 390 Native Cows
Inspected 72 Young Stock
Inspected 7 Bulls
Inspected 17 Sheep
Inspected 53 Horses
Quarantined 44 dogs

Respectfully submitted,

WARREN F. LAWRENCE,
Inspector Wayland.

REPORT OF BOARD OF HEALTH

The Board of Health submits the following report for the year ending December 31, 1960.

The Board held sixteen regular meetings during the year.

Dog Clinic

A total of 195 dogs were inoculated and protected against rabies, clinic conducted under the direction of Dr. Paul R. Granholm of Weston.

Statistics

Permits issued by the Board of Health in 1960:

Restaurants	14
Milk (store)	21
Milk (dairy)	13
Alcohol	15
Ice Cream (manufacture)	1
Sewage Disposal permits	157
Nursing Homes	3
Camps	1
Nursery School	3
Burial Permits	31
Notice to Abate a Nuisance	193

Communicable diseases reported to the Board of Health — January to December 31, 1960:

Chicken Pox	72
Dog Bites	59
Mumps	21
Salmonella	1
Scarlet Fever	19
Measles	180
Viral Meningitis	1
Infectious Hepatitis	1
Premature Births	10
Death from prematurity	2

Mosquito Control in Wayland in 1960

The mosquito control program commenced with DDT dusting by hand in frozen swamplands in February. The larger swamps were not treated until April when mosquito larvae appeared. These were sprayed by helicopter. The spring migration of *Aedes* mosquitoes from outside sources was very heavy in late May and early June. Extensive helicopter spraying was done against these on June 11th. The helicopter was hired again on July 15th to treat the Mill Pond swamp which was producing the *Mansonia* mosquito. The routine inspection and spraying for *Culex* (House Mosquito) was conducted from June to September.

Ditch cleaning was done at several places in the early spring, then a major ditch reclaiming project was done in November on Smith Brook swamp between Great Plain and White Roads.

Financial Statement

Balance on hand December 31, 1959	\$1,168.04
1960 Appropriation received June 20th ...	8,000.00

Expenditures in 1960

Labor	\$2,377.36
Insurance and Retirement	495.01
Office operation	525.46
Office rent	46.16
Barn rent	181.80
Equipment and field operation	914.76
Vehicle replacement	None
Insecticide	338.37
Aircraft service	348.00
Other Service	None
Total	\$5,226.92

Balance on hand December 31, 1960	\$3,941.12
-----------------------------------------	------------

The Mosquito Control Commission has requested an appropriation of \$7,500. for 1961.

Respectfully submitted,

ROBERT L. ARMSTRONG,
Superintendent.

SANITARY ENGINEER'S REPORT

Board of Health
Wayland, Massachusetts
Gentlemen:

The following is a report on my activities for your Board for the calendar year 1960.

Sewage Disposal

During the calendar year 1960, one hundred and sixty-seven (167) permits were issued by your Board for the construction or alteration of sewage disposal systems, after the necessary preliminary inspections and recommendations were made to your Board. A total of more than five hundred and thirty (530) inspections were made to insure effective design and construction of the disposal systems . . . and to advise builders and home owners concerning the proper operation of these systems.

Restaurant Sanitation

During the calendar year 1960, inspections were made at eating places where known sanitary problems existed, with corrective action indicated to the owners where necessary. The practice of making unannounced inspections will be continued so that normal operating conditions can be observed.

Milk Inspections

A total of three hundred and twenty (320) samples of milk and cream were collected during the year from the dairies and other licensed outlets selling milk and cream in Wayland . . . and examined in the laboratory. Tests were made for total bacterial count, coliform bacteria, and phosphates . . . with results reported to the dairies concerned as required by law.

Respectfully submitted,

THOMAS J. RINALDO.

WAYLAND PUBLIC HEALTH NURSING SERVICE

Staff

Director

Miss Louise M. McManus, R.N.

Public Health Staff Nurses

Mrs. Louise H. Drew, R.N.

Miss Barbara A. Dunphy, R.N.

Mrs. Anne B. Irwin, R.N.*

Miss Elaine Quinn, R.N.**

Public Health Nurses' Aides

Mrs. Pearl McEwan***

Mrs. Sigrid Smith

Consistent with community progress in Wayland the public health nursing service has been growing quite steadily. One public health nurse and one public health nurses' aide were added to the staff in August 1960. The present staff now consists of the director, four public health staff nurses, and two public health nurses' aides.

Four nursing districts have been set up according to the geographical boundaries of the four elementary schools. The nurse assigned to a district is responsible for carrying out any and all public health nursing services needed by the school and families within her district. In this way, it is hoped, the nurse will become more familiar with the needs of her district and will be better able to give more comprehensive service.

The nurses' aides are assigned to the junior and senior high school health rooms. They have been of tremendous help to the nurse in relieving her of many activities that do not require professional skills. The nurses are now able to better utilize their time in such activities as conferences with teachers, students, and families in relation to health problems which may be influencing the student's educational program.

The public health nurses are involved in varied activities within the community. Some of these activities include participating in the school health services, tuberculin testing programs, polio immunization

* Appointed August 16, 1960

** Appointed February 1, 1960

*** Appointed August 16, 1960

clinics, and well child conferences, as well as providing bedside nursing care and family health guidance in the homes.

The public health nurses also work with representatives from allied health groups, such as, the Framingham Mental Health Center, in the development of community programs; serve on committees within their professional organizations; participate in educational programs for community groups, such as parent-teacher's associations and girl scouts; work with health teams in surrounding communities to provide added health services; function as team members in the development of health education programs within the State health district.

The nursing service is an integral part of the community health program and in cooperation with all community agencies and interested groups is continuously working towards helping to provide for the total well-being of the community.

Classification of Home Visits

	<i>Number of Individuals Visited</i>	<i>Number of Visits Made</i>
Care of the sick	81	1,384
Prenatal care	2	10
Postnatal care	2	3
Premature infant follow-up	11	17

Total	580	2,262

School Health Services

For the School Year 1959 - 1960

School Physician — DR. ERNEST H. DAMON, JR.

The number of teacher-nurse conferences have increased during the past school year. These conferences provide one of the most effective means of sharing knowledge and developing an understanding of a particular child's problems. Together the teacher and nurse can then more effectively work with the child and his family towards solving the problem.

Vision and hearing tests were administered by trained technicians to 2,353 school children. Of the 143 children who failed the vision retest ninety-one returned reports from an eye specialist. Of the forty-five child who failed the hearing retest thirty-one returned reports from the physician. Parent-nurse and student-nurse conferences revealed that many others who had failed either test had sought medical attention although reports were not returned.

Those children in grades 1, 4, 7, and 11 were required to have physical examinations. 263 were examined by the school physician and 527 were examined by the private physician.

Most health authorities recommend that whenever possible the child should receive a routine physical examination from the family

physician as he has a much more comprehensive knowledge of the child's total health needs. It is therefore, quite encouraging to note that sixty-seven per cent of the students received physical examinations from the family physician.

136 children received diphtheria-tetanus booster inoculations from the school physician and many more received them from the family physician.

In the fall of the past school year a tuberculin skin testing program was administered by the school physician to school personnel. Of the 119 persons tested, ninety-five were negative reactors and twenty-four were positive. Those personnel with positive reactions then received x-rays. The results of all the x-rays were negative.

Also in the fall of the school year a Red Cross First Aid Course was offered to School Personnel. Six people completed the course and received certificates.

During the past school year there was one public health nurse's aide who worked in the health room of the combined junior and senior high school. A total of 441 children received first aid. 958 ill children were attended to in the health room.

The public health nurses made a total of 359 home visits regarding the health problems of 271 children. Within the schools, 192 conferences were held with teachers, 63 with principals, 38 with students and 15 with parents.

The nursing personnel have enjoyed working within the school system. The tremendous interest and cooperation of all school personnel has been most stimulating to the development of the school health program.

The nursing personnel also wishes to extend their sincere appreciation to all the volunteers who so willingly gave of their time and abilities to assist in so many of the health programs.

Respectfully submitted,

LOUISE M. McMANUS, R.N.

Polio Clinic

In the spring of last year two polio clinics were held at the Parmenter Health Center. A total of 1,433 residents received either a first, second, third or fourth inoculation of polio vaccine.

Tuberculin Testing Program

A tuberculin testing program was conducted in the school by the State Health Department. Out of a total enrollment of 2,574 students, 2,189 were tested. Twelve of those tested were positive reactors. No active tuberculosis was found in the group of positive reactors.

Mental Health Program

In April, 1960, Wayland became a participating town with the Framingham Mental Health Center. Expenses for the first year were underwritten by the Parmenter Health Center. The Mental Health

Center has two objectives: 1.) Prevention of mental illness and 2.) treatment of children in need of psychiatric care. By concentrating upon prevention, the Center believes that more will be achieved toward solving the mental health problem in the future than if it devoted all its resources to treatment of immediate problems. During the first six months of the program a total of 21 consultations have been held with teachers in the schools in the attempt to solve the problems of nine individual students. During the same period two cases from Wayland were undergoing individual treatment, four cases were on the waiting list for treatment, and five cases were being processed to see whether they would benefit from individual treatment.

The Board of Health holds office hours at the Parmenter Health Center on Tuesday and Thursday evenings from 5 P. M. to 8 P. M. Licenses and permits are issued at this time.

Respectfully submitted,

JOHN G. FREYMANN, M.D.
DAVID R. COREY, M.D.
NORMAN G. FAIR, *Agent*

DENTAL REPORT

1959 - 1960

In the school year from September 1959 through June 1960 a total of 182 school children were treated. These children made 629 visits and received a total of 1,075 treatments consisting of fillings, extractions, and cleanings.

All first graders received a dental examination by the School Dentist. A total of 287 students were examined and 131 were in need of dental care at the time of the examination.

The dental clinic is available to students who are unable to have private dental care.

Parents may call the Health Center OLympic 3-5111 for information about the dental clinic. Transportation must be provided by the parents.

Respectfully submitted,

JOSEPH FOURNIER, D.M.D.,
School Dentist.

REPORT OF THE CHIEF OF POLICE

December 31, 1960

1. MOTOR VEHICLES VIOLATION

Speeding	15
Operating to Endanger	9
Operating under the Influence	4
Leaving the Scene	1
No License in Possession	1
Refusing to show Registration to a Police Officer	1
Failing to Stop at Stop Sign	2
Passing a red light	1
Passing a Red and Yellow Light	1
No Registration in Possession	1
Operating Motor Vehicle after Revocation of License	1

2. AGAINST THE PUBLIC

Drunks	16
Assault and Battery	3
Ringing False Alarm	1
Breaking and Entering	1
Larceny	2
Non-Support	4
Disturbing the Peace	1
Violation of the Wage Law	2
Vagrancy	1
Contributing to a Minor Delinquency	2
Delivering Alcohol Beverage to a Minor	1
Discharging Firearms without a Permit	4
No Hunting License	3
Illegitimacy	1

The Wayland Police Department served during 1960; 439 Summons; these included all kinds.

The total number of accidents reported for the year was 217. Fatal, 1; Property damage, 134; Personal injuries, 73; Pedestrian, 7; Bicycles, 2.

The officers checked the homes of 331 people who reported that they would either be away or on vacation.

Officers on duty at night while making a routine check of business establishments closed and locked 231 windows and doors.

The department recorded 18,296 radio calls made either to or by the dispatchers during the year for accidents, fires, inebriates, fights, stray dogs, etc.

The Department answered 759 Complaints during the year consisting of the following:

Assault and Battery and Threats	20
Breaking and Entering	38
Larceny	94
Larceny by check	3

Vandalism	50
Prowlers	39
Hit and Run	7
Explosions by bomb	2
Attempt to Pick Up (Girls)	3
Indecent Exposure to (Girls)	3
Phone calls in regards to (Girls)	9
Miscellaneous Complaints	491

The Department used the lockup cells thirty-two times.

The Police Department consists of a force of eleven men and a Chief. I am happy to announce that all but one of the eleven have attended the police school established by the Massachusetts State Police Academy in Framingham; the other patrolman will attend this year. This training proves invaluable to officers and I trust that in the future periodic refresher courses will be audited.

Mr. John F. Pellitier, a former patrolman, has resigned to become Chief of the Pepperell Police Department. Our best wishes and congratulations are extended to him. Mr. Charles M. Nelson was appointed as his replacement. Another of the Department, Mrs. Lillian Jean Rooney, resigned as a policewoman to become a librarian at Wayland High School. She has been replaced by the appointment of another efficient officer, Mrs. Florence J. Prouty.

This year, as in the past, let me again thank the patrolmen, the auxiliary police, the Town officials and the various department heads for their understanding and cooperation in our carrying out the many functions of the Police Department.

My sincere appreciation is extended to all.

Respectfully submitted,

ERNEST H. DAMON,
Chief of Police.

REPORT OF THE COMMISSIONERS OF TRUST FUNDS

During the year 1960, money rates showed a slight inclination to decline with the result that the high coupon bonds purchased in the last few years increased slightly in value. There were no new investments made during the year, and the list as it currently stands in the various funds may be found in the Report of the Town Treasurer.

It is with deep regret that we learn that Mr. J. Sidney Stone has decided not to seek another term as Commissioner of Trust Funds. His sage advice and counsel over the many years has indeed been invaluable, and he will be sorely missed.

Respectfully submitted,

THOMAS B. GANNETT, *Chairman*
J. SIDNEY STONE, *Secretary*
ALLAN R. FINLAY

ANNUAL REPORT OF THE BOARD OF PUBLIC WELFARE

There have been several interesting changes in the Welfare laws during the past year. Each has had the effect of making the law more liberal than in the past. During the past year the "Cost of Living" index has increased more than 5%. This calls for a like increase in each budget in all categories.

The Transportation Allowance, in the Old Age Assistance budget, was increased. This also had the effect of increasing the minimum in this category by a like amount.

Two new items have been added, by law, for those receiving Disability Assistance, 1. Leisure Time Activities, 2. Transportation Allowance. At present we are not aiding anyone under this category, but it will mean a larger amount for which we must be prepared.

Aid to Dependent Children has had no changes except the budgetary one spoken of above.

There has been one big change in the Old Age Assistance law. Several new sections have been added to the law which comprise a new form of relief. This is called "Medical Assistance for the Aged." It was put into effect on October 1, 1960, as the result of Federal Legislation, and is mandatory on the States and communities. So far we have not received all the Rules and Regulations from the State Department of Public Welfare and the only cases we have, for the present, are those living in nursing homes. The Federal share of reimbursements in this category, is larger than in any other one, 50%. The State pays one-half the remainder and the Town assumes the other 25%.

We still have a few General Relief cases, but very few. The State Department has made it mandatory that any applicant, if eligible for some form of categorical relief, must be given that form of relief. This can sometimes prove disadvantageous to the town, but we must abide by the regulation. For this reason General Relief is used mostly for cases of a temporary nature.

The result of all these changes is that, although the number of people being aided is lower, in every form of relief being given through this office, the cost of that aid has increased. Your attention is respectfully referred to the comparative analysis report. This report covers the last three years and shows the above trend very clearly.

Respectfully submitted,

RONALD H. WOOD
J. SIDNEY STONE
C. D. SCOTLAND

PLANNING BOARD REPORT FOR 1960

The Planning Board continued its schedule of weekly meetings on Monday nights at 8:00 P. M., except during July and August when meetings were separately scheduled. Robert H. Charnock was elected to the Board at the March Town Meeting to fill the position held since 1952 by our one-time chairman Frederick G. Perry, Jr., whose ability and devotion to the Planning Board deserve much tribute. In October we regretfully accepted the resignation of Gordon E. Gott; his position was filled by the appointment of Allen H. Morgan.

Aside from their Planning Board duties, Edward F. Thorburn served as the Planning Board member of the School Building Committee, and George F. Bowers, Jr., was on the Pelham Island Road Study Committee.

Subdivisions Approved

The following subdivisions were approved by the Planning Board in 1960 as follows:

<i>Subdivider:</i>	<i>No. of New Lots</i>	<i>Feet of New Roads</i>
Swiedler Building Corp.		
Sears Road (part)	13	1,300
James R. Potts		
Barney Hill Road	20	2,400
Vassalotti

TOTAL	87	10,340

The following Table gives a comparison of the subdivision activity during 1960 with the five preceding years, and it will be noted that more lots in new subdivisions were developed in 1960 than in the preceding years. However, there still remains in Wayland a potential for about 2,800 new houses under present zoning.

<i>Year</i>	<i>No. of New Lots Subdivisions</i>	<i>Feet of New Roads</i>
1955	187	15,000
1956	137	14,400
1957	96	11,200
1958	55	6,300
1959	57	5,300
1960	87	10,300

State Road Name Change

The Planning Board took formal action changing the name of State Road East and State Road West to Boston Post Road. This is in keeping with the name given the continuation of this highway in both Weston and Sudbury and the name already in use by many people in Wayland.

Boston Edison Power Line

The Department of Public Utilities approved a petition of the Boston Edison Company for permission to erect a power line joining the Sudbury substation with Maynard. Several meetings were held between representatives of the Planning Board, the Selectmen, the Finance Committee, and Town Counsel and representatives of the Boston Edison Company in connection with a proposal to extend the line over Sand Hill. Since there are plans to develop Sand Hill for limited commercial use, the Planning Board was particularly eager that the line would not, in effect, sever the area and impair its potential for development. The efforts of the representatives of Wayland were also made to have the line run where least violence would be done to the scenic beauty of the Sudbury River marshes. A location as far west from the marshes as possible was agreed to as being the least objectionable. The Edison representatives indicated at the latest meeting that in the event of commercial development of the Sand Hill area, use of the power line premises could be made to tie both sides together.

Route 20 By-Pass

Meetings were held between representatives of the Planning Board, Selectmen, Finance Committee, Highway Department, and Town Counsel and the engineers at the State Department of Public Works to review the plan of the latter for the much sought-after Route 20 by-pass. Although the layout was generally acceptable several features appeared unwarranted to representatives of the Town. New plans were prepared under the direction of the Highway Department in order to present suggested changes. The project was shelved by the State however before final plans were settled upon.

Sand Hill Development

Two industrial development firms were consulted for advice as to the feasibility of developing Sand Hill in both Wayland and Sudbury for limited commercial use. The following problems were considered to be obstacles to immediate development:

- (1) Uncertainty of access due to by-pass status.
- (2) Need for an over-all authority to handle development.

- (3) Land held in numerous small ownerships with indicated sales prices being generally too high.
- (4) Unattractive setting due to Wayland town dump.

The Planning Board hopes that a decision on the by-pass will be forthcoming; that State cooperation in relocating and lowering Route 20 can be enlisted; and that continued cooperation with Sudbury will ultimately turn this area into a tax-paying asset.

General Planning Matters

Drainage Atlas—An atlas showing the existing drainage facilities in the roads has been prepared. The Highway Department has been seeking to obtain drainage easements connecting the street drainage systems with natural water courses. The drainage atlas will provide for the systematic acquisition of needed drainage rights.

Planning Maps—Several of the maps prepared by Mr. James L. Harris, Planning Consultant, in connection with the master planning report being prepared by him have been reproduced on cloth backings hung from rollers. The following are on display in the Planning Board room:

- Town map showing lots, roads and contours
- Watershed map showing major watersheds
- Water services showing water pipe installations
- Recreation Land Proposals showing plans for further development of recreation areas
- Population distribution, present and prospective
- Land use inventories showing use presently being made of land in Wayland
- Proposed land use showing projected uses under the master plan
- Flood plain district showing the Flood Plain of the Sudbury River lying generally below 124 feet elevation

Redevelopment Authority—The establishment of a Redevelopment Authority was voted at the March, 1960, Annual Town Meeting under an article prepared and recommended by the Planning Board. The results of our past studies of the need of improving the ways and services in congested residential areas were presented to the Redevelopment Authority, which will now assume responsibility for further action in these areas.

League of Women Voters Survey—The results of the survey conducted by the League of Women Voters to determine numerous points of public opinion and living habits of the residents of Wayland were received with much interest and more appreciation. The results of this provide the Planning Board with background material of inestimable value. An abstract of the League's report is published in an appendix hereto so that the results of this effort may be preserved in the Town records. A more complete form of this survey, including graphs and tables, has been published by the Greater Boston Economic Study Committee and is available at the Town Building.

Conservation Program

The conservation of open space and natural features received a large measure of the Planning Board's efforts. The interest of the

Town in preserving an open, rural, or country atmosphere has been demonstrated by its adoption of zoning to require large lot sizes in the more rural areas, and is affirmed by the results of the League of Women Voters survey referred to above and by the broad support given to the Sudbury Valley Trustees in its efforts to acquire open space.

The Planning Board has inserted an article in the Warrant for the 1961 Annual Town Meeting to create a Conservation Commission, the need for which may be summarized as follows:

- (1) To provide official recognition of and concern for the conservation of the natural resources of the Town in our local Governmental structure, and to help coordinate conservation activities of public and private agencies in the Town.
- (2) To provide the specialized help and leadership necessary if the Town's best interest is to be defended and served.
- (3) To take advantage of recent statutory provisions enacted at the State level, including financial assistance by way of matching funds for the acquisition of land for conservation purposes.

Preliminary studies have already been undertaken of the feasibility of developing a Town forest in the Pine Brook area between Pine Brook Road and Cochituate Road, and plans for further development should continue.

A program for preserving the Sudbury River marshes has been established by the Department of Natural Resources of Massachusetts with the participation of the Planning Boards and Conservation Commissions of the towns lying in the valley. The Wayland Planning Board supports these efforts aimed at developing a regional plan for the purpose of preserving the wet lands in the valleys of the Sudbury and Concord rivers for conservation, recreation, and other necessary and desirable purposes.

The features of these marshes and their open and unspoiled status is of major importance to the future character of the Town. They represent a vital natural resource that will make possible the preservation of the rural character and beauty of the valley; they are also significant in their relationship to flood control, water supply, and wild life conservation.

A peril to these is that gradual attrition will result in their eventual destruction from pollution and filling, unless action is soon taken to put these lands in some form of public ownership dedicated to their preservation. Because the area transcends Town boundaries, it is obvious that action at higher levels of Government is required.

The program of the Department of Natural Resources is to develop a plan whereby state and federal assistance for the preservation of the Sudbury River marshes may be enlisted. The Planning Board believes that action at these levels is essential if the comprehensive undertaking which includes the marshlands of all towns in the valley is to succeed. Because we believe that the Town will support such a program the Planning Board will present the following resolution at the Annual Town Meeting in March, 1961:

RESOLVED:

That the Town of Wayland recognizes the outstanding importance of preserving the flood plain marshes of the Sudbury Valley in their

present unspoiled state, recognizing that their primary values are for flood control, water supply, scenic and historic beauty, fish, and wild life, and quiet enjoyment including recreation in forms complimentary to the natural beauty of the area in its unspoiled state;

We endorse in principle the need for regional planning of the water shed as a whole, and recognize that public ownership — at federal, state, and community level is necessary to guarantee their perpetual preservation in the best interest of all the people.

Respectfully submitted,

Wayland Planning Board

AN ABSTRACT OF THE LEAGUE OF WOMEN VOTERS SURVEY OF WAYLAND, OCTOBER, 1959

A study of regional planning begun in 1958 by the League of Women Voters focused on some of our local problems which are related to regional problems, among them transportation, services such as utilities, fire and police, and laws relating to mutual planning among cities and towns.

League members were impressed particularly by numerous examples of the interdependence of the communities of the Boston area. Yet they learned that Boston is the only one of the large metropolitan areas in the United States that lacks comprehensive planning.

The League members found that while they were becoming increasingly aware of our mutual dependence, there was little quantitative information on many important features of this. For example, it is obvious to all that Wayland residents use surrounding towns for shopping and services; but, how much? It is obvious that we are dependent on various types of transportation; but which types and to what degree? Certainly we are all aware of serious traffic problems in Wayland, but how much of this is caused by our own cars?

There were other areas of concern to a rapidly growing suburb. There was the question of how quickly Wayland's population was turning over, and whether changes in the population were made up mostly of local moves or represented broader migration patterns. There was interest in what attracted people to Wayland in the first place, and what, regrettably, might induce them to leave.

Encompassing all these questions was the larger question which goes to the heart of regional planning. To what extent is Wayland a part of the metropolitan area? What influence has the core city of Boston upon Wayland?

Faced with questions such as these, the League decided that its next step must be a conscientious survey of the townspeople in the hope of coming up with factual answers rather than guesses. Consequently in October, 1959, 200 League members attempted to ring all doorbells, in both precincts armed with questionnaires prepared with the advice of professional planners. In addition information of particular interest to the Planning Board was sought.

In this study, except in questions pertaining to telephone service, Greater Boston was considered to be the 46 cities and towns in the Metropolitan District Commission. Wayland is not one of these towns. However, separate tabulations were made for the nearby towns of Framingham, Natick, Weston, Wellesley, Waltham, and Lexington.

These figures are the result in most cases of interviews with one adult in each household; a different adult in the same household might have given a different answer to some questions. Full or partial data were obtained from 2,211 households, representing 8,769 of the town's population, or 86% of the town's estimated population of 10,200 at the time of the survey. The other 14% include those who could not or would not for various reasons (such as illness) provide information and those who could not be contacted after several attempts. The latter households possibly average smaller in number of persons, with fewer children; however, the number not contacted is sufficiently small not to alter significantly the data obtained.

The number of persons in Wayland households ranges from 1 to 16 persons, the average being 3.9 persons per household. Three percent of the households have one persons, 73% have children, 5% have 5 or more children. The population of the town is composed of nearly as many children as adults—45 children per 55 adults. The sexes are almost evenly divided, females having a slight majority, as is true of the general population.

Where did the adults in Wayland come from? Less than half grew up in Wayland or the Boston area. In fact only nine percent are Wayland natives. Nearly three-fourths, however, did grow up in New England. The remaining 27 percent came from all sections of the U. S., chiefly the Middle Atlantic states (11 percent), plus 37 foreign countries (6 percent). Thus the population retains its New England orientation, but with a sizeable segment having broad backgrounds.

When did the adults come to Wayland? A staggering 70 percent of the present residents over 21 have moved to Wayland in the last 10 years.

Why did people come to Wayland? The appeal of country living ranked first among reasons for settling here, being mentioned by 29 percent. Such associated factors as large lots, wooded and water areas and small town living were also frequently mentioned. Most households gave only one reason for coming, but in many instances it should probably have been a combination of factors, nearness to work, for example, being one of a combination of reasons for choosing Wayland specifically rather than one of the surrounding towns. Twenty-eight percent said they came here because of the nearness to work. Twenty percent said they found suitable housing here. Five percent were attracted by favorable reports of the schools or town government. Only two percent voluntarily said they came here to be near Boston,

but when later asked specifically if nearness to Boston influenced their decision to live in Wayland, 42 percent answered affirmatively. Among those not influenced by Wayland's proximity to Boston, over half said nearness to work determined their decision. Many of these jobs, however, are within MDC Boston.

Living patterns in Wayland

Eighty-six percent of the households reported one or more persons commuting out of town to work or school, totalling 2,320 persons. Where do they go? Altogether, 72 cities and towns in Massachusetts were specifically mentioned. Among the nine percent whose destination varies are some travelling large areas beyond the state. Nearly one out of four goes to Boston proper. The five bordering towns (Frammingham, Natick, Weston, Sudbury and Lincoln) draw 18 percent and MDC towns other than Boston, Frammingham, Natick and West account for 40 percent of the commuters.

In addition to the 47 percent of all adults in town who commute elsewhere to work, seven percent said they work in Wayland. This, however, is possibly understated since the question was asked in terms of "commuting" patterns and many respondents may not have considered Wayland workers "commuters."

Ninety percent of the 2,320 commuters leave the town by car. The East and West routes 20 and 30 carry far more out of town than the North and South routes 27 and 126, reaching peak loads — east between 7:30 A. M. and 8:00 A. M. and west between 6:00 P. M. and 6:30 P. M. These 2,025 car and truck commuters may not all go in different cars, These 2,025 car and truck commuters may not all go in separate cars. Altogether, 97 percent of the households in town have at least one car, half having two or more.

Where do people shop, go for professional services and have fun? Ninety-nine cities and towns in Massachusetts were mentioned. The few towns most frequently used, Boston, Wayland, Frammingham, Waltham, Natick, Newton, Sudbury, Wellesley and Weston were separately tabulated. Only seven percent of the households mentioned towns other than these for food shopping, nine percent for other shopping and twelve percent for professional services. Recreational habits were the most varied, 21 percent naming towns other than these nine.

Answers to these questions were weighted according to the amount done in each town. Interestingly, though there were, at the time, no large supermarkets in town, Wayland ranked second only to Natick in the food shopping habits of its residents. Forty-six percent said they do at least part of their grocery shopping in town, one third of whom do nearly all of it locally. Frammingham and Waltham ranked third and fourth for grocery buying.

Although very little food shopping is done in Boston (only four percent mentioned it at all) the city ranks second for other shopping, being mentioned by one third of the respondents. Only 16 percent named Wayland for other shopping, ranking it sixth in this respect. Frammingham far outranked all other towns for shopping other than food, nearly two-thirds mentioning it, of whom one in five do all of it there. Waltham, Wellesley and Natick ranked third, fourth and fifth, respectively, in this category.

Most people (54 percent) stay in town for at least part of their professional service needs, while Natick ranks second. Boston ranked third in this category, being named by one in four. Framingham and Weston were fourth and fifth.

For recreation, again Wayland was most frequently mentioned (by almost half of the households) in spite of the fact there is no commercial recreation except golf. One-third named Framingham, and one-third go to Boston part of the time, ranking these towns second and third for recreational purposes.

Which (shopping, professional services, recreation) would people prefer to do in town if they could? The timing of the survey was unfortunate from this standpoint. New services have since been made available which might alter the results — one service frequently specified but still not in town is a “five and ten cent” store. In the recreational category, one out of five would like more facilities, movies, tennis courts, and bowling alleys being frequently named. One in four households is apparently satisfied with the status quo — many specified they do not want commercialization of the town. Three out of four do want additional services most of whom (53 percent) mentioned more food supermarkets. Some qualified their answers to the effect that prices would have to be comparable.

Telephone Service

Wayland enjoys the peculiar situation of being a community divided into three telephone exchanges, each of which includes a different toll-free calling area. (Two of these exchanges within the town are not even toll-free to each other.) Elmwood exchange has approximately 1,500 subscribers. Olympic exchange (primarily Natick) serves 1,250 Wayland subscribers and a small group of 50 are in the Trinity (Framingham) exchange. Several persons answering the survey question as to which towns they call and receive calls from the most were in doubt as to whether Wayland Olympic calls should be designated “Wayland” or “Natick” — hence some “Natick” replies may actually represent Wayland calls. Ninety-eight percent of the homes surveyed have at least one telephone.

A little over half, 56% of the persons having telephones, when asked if they had any comments on the service, had none. Of the 44% who did, 6% had favorable comments, such as “liked the new directory,” and “good service.” Thirty-eight percent had unfavorable comments, such as “wish a larger toll-free area” (305), “wish to be in Metropolitan Boston telephone district” (215), “wish one exchange for Wayland” (44), and “rates too high” (81).

Towns most often called: Wayland, 46% of those who answered, other toll-free areas 23%, Boston exchanges 25%, and other 6%.

Towns from which calls are most often received: Wayland 49%, other toll-free areas 21%, Boston exchanges 24%, and other 6%. People were more exact about the calls they made than those they received.

Thirty-one percent of the subscribers who answered did not name Wayland at all among the top three towns either in calls placed or received. One out of four named a Boston exchange, for which they pay toll, as the place most often called.

Planning Board Questions. The Planning Board was particularly interested in the following questions and answers: (2,211 questionnaires answered).

Do you favor the Town's acquiring land for recreation and/or wild land?

	<i>Households</i>	<i>Percent</i>
Yes	1,589	72
No	413	19
Do not know	58	2
Did not answer	151	7

Would you favor a certain amount of tax money being used for this purpose each year?

	<i>Households</i>	<i>Percent</i>
Yes	1,346	61
No	548	24
Do not know	81	4
Did not answer	286	11

Do you think there should be sidewalks in town?

	<i>Households</i>	<i>Percent</i>
Yes	1,159	52
No	871	39
Do not know	86	4
Did not answer	95	5

If so, where? Along main highways, near schools (within a mile), in housing developments, around shopping areas. Bicycle paths were also suggested.

Would you like to see:

a) More industry in Wayland?

	<i>Households</i>	<i>Percent</i>
Yes	877	40
No	1,164	52
Did not know	75	3
Did not answer	95	5

b) Apartment housing?

Yes	452	20
No	1,566	71
Did not know	78	4
Did not answer	115	5

c) Old Age housing?

Yes	940	43
No	949	43
Did not know	158	7
Did not answer	163	7

d) More individual housing above \$20,000?

Yes	1,264	57
No	654	30
Did not know	108	5
Did not answer	183	8

e) More small house development?		
Yes	484	22
No	1,519	69
Did not know	57	2
Did not answer	151	7
f) More rental property?		
Yes	595	27
No	1,353	61
Did not know	101	5
Did not answer	162	7

Why would people leave Wayland? Thirty-one percent said they could think of no reason for leaving. Among possible reasons for leaving, change of employment ranked first (mentioned by 35 percent), high taxes second (17 percent) and growth and overcrowding, third (5 percent).

Where would people go if forced to move? In spite of its "growing pains" and in spite of the fact that 70 percent of the adults have lived in town less than 10 years, most apparently consider it a good place to live. Forty-eight percent of those who answered said if forced to move, they would try to stay in Wayland. One out of six did not answer this question, many considering themselves so permanent it was impossible to answer. One adult in five now living in town has lived elsewhere in Wayland, bearing out the fact many do stay in town when they find a move desirable or expedient.

On the question of where they would go, if they had to leave Wayland, an even greater number (one out of four) could not answer. One-third would go to a similar town. Only 10 percent would move to Boston, indicating there is no trend back to the city. Weston was most popular of the surrounding towns for hypothetical moves from Wayland, with Lincoln and Sudbury second and third. (A question as to where previous occupants went when they moved, however, shows Framingham and Natick rank higher among actual moves.)

Where would you say you are from if you were in New Hampshire? In California? These questions were included at the recommendation of professional planners. Only 15% related themselves to Boston in answer to the first question, but 45% mention Boston answering the second question. An interesting 15% answered "Cochituate" rather than "Wayland" to the New Hampshire part of the question. Forty percent of the answers were the same to both questions.

THE LEAGUE OF WOMEN VOTERS OF WAYLAND, MASSACHUSETTS

March, 1960

REPORT OF THE COMMITTEE TO INVESTIGATE THE MOSQUITO CONTROL PROGRAM

This Committee, having consulted with experts and authorities in the field, and having acquainted ourselves with some of the voluminous scientific and popular literature available, submit the following report:

The major problem is that of weighing the comfort of the townspeople on the one and against the possible hazards of a spraying program on the other, and in order to do this, some understanding of the present control program is necessary.

Wayland is a member of the East Middlesex Mosquito Control Commission along with thirteen other towns (including Arlington, Bedford, Belmont, Brookline, Cambridge, Framingham, Lexington, Lincoln, Newton, Waltham, Watertown, Wellesley and Weston, but excluding Sudbury) The program is conducted by Sup't. Robert L. Armstrong, a graduate entomologist, and his staff of 9-15 men. Mr. George Bogren is Wayland's representative member of the Commission.

Mr. Armstrong and his staff have carefully mapped out the area and know not only where the mosquitos are breeding, but are also aware of every fish pond, bird sanctuary, hayfield and cow in town. The whole town is not sprayed, by any means. Let us look at the yearly schedule:

The first, and in many ways the most important, step is in combatting the spring hatch, those larvae which winter over from the previous season, since they are the parents of all subsequent broods. For this purpose, a hand dusting of DDT is carried out in mid-winter on ice and snow covered water. This is the major application of DDT and is applied at the rate of 1 lb. per acre. If the mid-winter treatment cannot be made, 3-4 tenths of a pound of DDT per acre is applied in April by hand and by airplane. Mosquitos are hatching in April, so this treatment is not as effective as the mid-winter one. The summertime adult mosquitos are a different problem, and are treated with spot spraying of DDT where necessary, and with other spraying compounds including malathion and pyrethrum, either from helicopters, in fogging machines or by hand. The effects of these treatments are of shorter duration, since, unlike DDT, these toxins break down in a few days, but this factor makes them safer to the human and bird population. Dieldrin, far more toxic than DDT, is used in alternate years with oil in the catch basins. The Commission uses less than 1/10th gallon per acre of DDT or malathion when spraying or fogging the adult mosquito.

Wayland has a considerable acreage of water within its town limits including lakes, ponds, rivers, permanent and temporary swamps and seasonal wet areas. The Committee was interested to learn that the marsh of the Sudbury River is not the major culprit in mosquito breeding, although the reason for this is not clear. The mosquitos in Wayland reside mainly in higher marshland, ponds, streams and backyards. Our problem is further complicated by the fact that mosquitos drift in from Sudbury which is not a member of the East Middlesex Mosquito Control Commission and conducts a limited control program, primarily concentrated on the more populous areas of town.

The Committee could find no positive evidences of danger to human beings from this program. These chemicals are known to affect wildlife

adversely but the long-term results cannot be measured in Wayland at the moment.

This program is not necessarily the ultimate answer to mosquito control. The possibility of insect resistance to the toxins must be faced and other potential means of control examined. More expensive but more permanent means of control might include drainage of marshy areas, introduction of water impoundment laws, cleaning of streams, and creation of controlled recreation areas. The role of the householder is of prime importance, particularly against the adult mid-summer mosquito. Gutters, children's toys which collect standing water, tire swings, wheelbarrows — all these are potential breeding grounds for the most annoying household mosquito.

As a result of our study, the Committee makes the following recommendations:

1. We recommend the continuance of the present spraying program as being the safest and most efficient for the money expended.

2. We recommend individual property sanitation carried on by the alert householder to eliminate breeding places on his own property.

3. We recommend that the town and the East Middlesex Mosquito Control Commission provide for public education concerning the program we now have and specific steps the householder can take to combat the nuisance of the home-grown mosquito.

4. We recommend that Wayland initiate regional planning with Sudbury regarding this problem.

5. We recommend consideration of the use of some appropriate wet-lands for recreational purposes, which might also result in a decrease of mosquito-breeding areas.

And finally, the Committee would like to reiterate that it is our strong impression that the mosquito control program as administered by Mr. Armstrong is being handled with all consideration of the potential dangers to wild life, and is cognizant of any pertinent developments in the field of toxicology. We feel confident that Wayland is getting the very best and safest protection available for the money spent, and recommend continuance of the program at no less than the present appropriation.

Signed:

JOHN PRATT
JOHN G. FREYMANN

REPORT OF THE ROAD COMMISSIONERS

Under reconstruction of existing Town roads the first phase of the reconstruction of School Street was completed as scheduled. The remainder of the reconstruction will be completed over a period of three years including a bituminous concrete surface.

Under Chapter 90 construction the relocation of Route 30 (Old County Road) was constructed as scheduled. The final bituminous concrete surface and miscellaneous details on this section of Route 30 will be completed in 1961.

The reconstruction of Wallace Road, South and Center Streets, and Winter Street were completed as betterments. The reconstruction of Maiden Lane #2 was started as a betterment.

Approximately 1,000 feet of sidewalk was constructed along the East side of Old Connecticut Path in the vicinity of the new High School together with reconstruction of drainage in this same area. A bituminous concrete surface will be placed on this section of sidewalk in 1961.

A new Road Grader with snow plow wing was purchased enabling the Highway Department to provide more efficient road construction and maintenance as well as snow removal.

The Highway Department in its equipment renewal program feels, that in addition to the replacement of trucks, the Michigan Front End Loader will require replacement within two years.

The Road Commissioners would again like to thank the Highway Superintendent and all department employees for their diligence and cooperation during the past year on all phases of our program. We would also like to express our appreciation to the various Town Boards and Citizens for their cooperation on matters of mutual interest and concern to the Town.

ROBERT M. CARSON, *Chairman*
CHARLES H. PETERS, *Clerk*
HORACE MEGATHLIN, JR.
Board of Road Commissioners

REPORT OF THE PLUMBING INSPECTOR

The following is the Plumbing Inspector's Report to the Town of Wayland for the year 1960.

There were 197 Permits issued and the amount of \$1,709.00 was collected and turned over to the Town Collector.

All violations of the Plumbing Code have been corrected.

Respectfully submitted,

PAUL C. HOOPER,
Temporary Plumbing Inspector.

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

For the Year Ending December 31, 1960

Alarms Answered — 1960

Number of Alarms for Fires:

Residential Buildings	38
Non-Residential Buildings	18
Grass or Brush	99
All Other Fires (Motor Vehicles, Machinery, Rubbish, etc.)	55
Mutual Aid	3

Number of Alarms for Non-Fires:

Rescue, First Aid, Emergency Calls and Investigations ..	165
Mischievous and Malicious False Alarms	29
Smoke Scares, Honest Mistakes and Accidental Alarms ...	7

Total	414
-------------	-----

Permits Issued

Fires in the Open Air	1,352
Installation or Alteration of Oil Burning Equipment	132
Installation of Liquefied Petroleum Gas	25
Blasting	15
Remove and Transport Gasoline Storage Tanks	2
Gasoline Storage	1
Miscellaneous Flammable Liquids	1

The above total figure for alarms answered is a new record high, however, in direct contrast is the modern record low fire loss for the year of \$11,571.21 or approximately \$1.11 per capita. In all cases where fire broke out damage was held to a minimum.

At the annual town meeting in 1960 three major proposals were accepted in the development of a strong fire defense for the community.

First, 24 hour coverage was extended to Station #2 providing an immediate response to any alarm.

Second the purchase of a ladder truck was approved under the Fire Department's long range plan for the purchase and replacement of apparatus. Bid proposals were received on May 16, 1960 and the contract for the apparatus was awarded on May 24, 1960 to American LaFrance of Elmira, New York. American LaFrance was low bidder with a price of Twenty-eight Thousand Nine Hundred Seventy-five Dollars (\$28,975.00). The new apparatus was delivered on November 23, 1960 and after inspection, service and training of personnel the piece was placed in service on November 29, 1960. Engine #1, a 35 year old American LaFrance pumping engine, and Truck #6, a 1941 Cadillac utilized for carrying rescue and salvage equipment were taken out of service at this time.

Third, the Building Code was amended to provide an ordinance requiring nursing homes, rest homes, hospitals, etc., to be protected by an approved sprinkler or fire detection system by March 1, 1961.

Fire prevention activities were broadened in 1960 as this department utilized the medium of the press, radio and television in an effort

to carry an educational safety program to the greatest number of individuals possible.

The department training program for the year consisted of 10 — 2 hour sessions in the Spring and 10 — 2 hour sessions in the Fall. In addition two regular men attended the State of Connecticut Fire Academy for one week and six call men attended a firefighters training school at Fitzwilliam, N. H.

The department razed several condemned buildings during the year. The razing of these buildings served a double purpose as they were first used for training then demolition was carried out at a fraction of the normal cost for such work.

The regular firefighters on duty during the day completed two fine projects during the year. First one piece of apparatus was stripped to the chassis and completely rebuilt and painted. Secondly the entire interior walls, doors and woodwork of Station #1 in Wayland Center were redecorated.

The municipal alarm system was extended by the department on Rich Valley Road, Hayward Road and Sylvan Way. Materials were also purchased for an extension on School Street. However, this installation is being delayed until highway construction is complete and final location of poles is ascertained.

The fire alarm systems as installed by contractors on Sears Road, Lundy Lane, White Road, Jeffrey Road and Loblolly Lane were inspected, tested, approved and tied into the municipal system. The fire alarm board at Station #2 is being remodeled as recommended in the 1958 survey by the New England Fire Insurance Rating Association. The work is being done over a two year period (1960-1961) through the fire department Alarm System Maintenance account.

Many citizens are not acquainted with the various departments on which they depend for service in their community. At this time I wish to present a brief outline of your Fire Department to consider when the Finance Committee's Recommendations and Budget for 1961 are published. This department operates from two very adequate modern stations. Fire Headquarters is at Station #1, Millbrook Road, Wayland Center. Station #2 is on Main Street. The Chief's car and four pieces of apparatus are quartered at Fire Headquarters. Three pieces of apparatus are quartered at Station #2. There is also a boat at each station. Fire alarm control, Chief's office and department shop and garage are also at the headquarters building. Department personnel totals forty (40) members. Seven men are full time and thirty-three are part time or call men. The regulars work the day shifts in both houses. The call men and the regular men work the night shifts on a reduced rate basis. The personnel working the night shifts do so on a prearranged schedule, some working one night and some two nights per week. The municipal alarm system is comprised of modern central alarm control, one hundred and sixty alarm boxes and seventy miles of wiring. All department apparatus is equipped with two way radio.

Apparatus is maintained and repaired in the department shop by department personnel and the alarm system is also maintained and repaired by department personnel. The department buildings are maintained principally including painting by department personnel.

The citizens of Wayland for less than two cents per day (.013) receive the services of the following:

- 40 — Firefighters
 - 4 — Pumping engines (2 - 1953 and 2 - 1935)
 - 1 — Ladder truck (1960)
 - 1 — Forest Fire truck (1941)
 - 1 — Utility truck (1958)
 - 1 — Chief's car (1959)
 - 160 — Fire alarm boxes and control system.
- Plus related equipment.

On a 24 hour a day basis 365 days per year.

I extend to each and every citizen an invitation to visit your fire department. We would indeed be very happy to have the opportunity to show and explain to each taxpayer that which is his. The door is always open for all to see what the dollars in the budget represent.

Special Signals — Audible Alarm

- 1- Daily Test at 5:45 P. M.
- 2- All Out
- 4-4-4 Boy Scouts Report to Fire Station
- 5-5 No School Signal at 6:45 A. M.
- 7-7 All Call Firefighters Report to their Station

Emergency Numbers to Call Fire Department

EL 8-4321

OL 3-4321

Numbers for Other Business

Station #1 EL 8-7951

Station #2 OL 3-2241

Once again I wish to request that citizens calling the department on any business other than an emergency please use the business lines available in order that emergency lines may be kept free for that purpose.

I wish to extend my thanks and appreciation to the members of the department and to all persons who in any way have cooperated and assisted in the operation and development of this department.

Respectfully submitted,

FRANCIS J. HARTIN, *Chief,*
Wayland Fire Department.

REPORT OF THE TREE WARDEN

The over-all program of trimming was carried out this past year. All trees were removed that were a danger to the highways.

The established program for setting out new maple trees was continued.

The hurricane caused considerable damage. However, a complete survey of all the streets was made and all broken limbs, etc. were taken care of.

I wish to thank all Town Departments for their co-operation during 1960.

Respectfully submitted,

CHARLES L. FULLICK,
Tree Warden.

WAYLAND REDEVELOPMENT AUTHORITY

The organization of the Wayland Redevelopment Authority was completed and certificates required under the Law—duly filed in the office of the Secretary of the Commonwealth, and the State Housing Board and a "Certificate of Organization" issued by the Secretary of the Commonwealth on October 4, 1960. Therefore, the Wayland Redevelopment Authority is an official body under the Law for all Redevelopment within the Town.

REPORT OF THE BOARD OF ASSESSORS FOR THE YEAR 1960

January 26, 1961

We deeply regret the death of the Chairman of the Board, George C. Lewis, on June 17, 1960.

Mr. Lewis was a resident of the Town for 36 years. He was first elected Assessor in 1951 and Chairman of the Board in 1952. His thorough knowledge of the Town and of the work of the Board has been and will be greatly missed. Fern A. Taylor was appointed to fill the vacancy caused by Mr. Lewis' death. The Board was later reorganized with Allen Benjamin as Chairman.

The Board of Assessors is pleased to present the following statistics for information and analysis.

B. ALLEN BENJAMIN
WILLIAM S. LEWIS
FERN A. TAYLOR

STATISTICS FOR THE YEAR ENDING DECEMBER 31, 1960

<i>Real Estate Assessed January 1, 1959 ...</i>	\$20,335,835.00
<i>Personal Property Assessed January 1, 1959</i>	1,259,071.00

NORMAN E. TAYLOR,
Executive Secretary.

REPORT OF THE SCHOOL COMMITTEE

In the period since the last Town Report, many significant events have taken place within the Wayland School System. Foremost of these are the following:

(1) The addition of the new high school in the school plant, making possible an effective continuation and expansion of the small, medium, and large group instruction program.

(2) The creation of the independent junior high school incorporating grades 6, 7, and 8, resulting in a much improved instructional opportunity for this age group.

(3) The expansion of the team teaching program throughout the school system which utilizes the best talents of the professional staff in the respective instructional areas.

(4) The continued application of the Fund for the Advancement of Education grant to program and curriculum development aimed at better preparation of our students.

The above events, coupled with the usual growth in school population, have made this past year an exceptional period both for the town and the School Committee. As we review, we can feel proud that the publicity accompanying our progress has been justly deserved. This is possible only because of the continued support of the Town in establishing a top-notch school system in Wayland.

The past year has been successful only through the cooperative efforts of many people, in and out of our school system. The Committee, at this time, would like to express its sincere thanks to our teachers, our administration, the several Town Boards, the citizens of Wayland, and to all who have contributed in making our biggest year our best year to date.

Respectfully submitted,

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

In this, the Sixth Annual Report of the present Superintendent of Schools and the Sixty-fourth Annual Report of the Superintendent of the Wayland Public Schools, the Superintendent takes this opportunity to attempt to define the concepts of education now being employed in the Wayland elementary, junior high, and high schools as it relates to the basic philosophy which has grown up in Wayland over a number of years. It would be to our advantage to examine this basic educational philosophy which places its emphasis on two things: 1 — the provision that each individual child be equipped to attain his maximum level of achievement in basic skills — these skills being reading, writing, arithmetic and spelling and, 2 — that each youngster be able to utilize basic skills to equip himself within the limits of his ability in basic knowledges; these being language, literature, sciences, mathematics, history and the fine arts.

Vocational education is not part of the school program, as the school has developed a basic philosophy that those students oriented toward vocational education attend highly developed vocational schools in the towns of Framingham, Waltham, and Newton and, at the present time, 13 boys from Wayland are attending these Vocational Schools.

In the last several years Wayland has received a great deal of publicity in national publications and in the local and regional press. This publicity has been the result of an attempt on the part of the people in Wayland to define their schools in terms of objectives and goals and to do something definite toward putting those ideas into action. The concept of education has emphasized the development of each individual child and the technology of teaching has been designed to assure that each child has the opportunity of developing his intellectual powers to the fullest extent. Every effort has been made to stimulate the process of inquiry so that each child is challenged to work on his

own as much as possible and to read and study from many and various sources, and reach a decision of his own based upon his ability to analyze materials. This is a basic viewpoint of Democratic Government and every boy and girl must have the basic skills and knowledges necessary to discover truth for himself if Democratic principles are to survive.

Teaching concepts in Wayland have changed considerably as the faculty has pressed forward in the attempt to provide for the individual needs of each child. For many years elementary schools have revolved around the "mother hen" concept, an image which educators shy from using, yet which vividly describes the teaching methods and its teaching concepts. The emphasis is on the solidarity of class and grade structure with each classroom under the direction of one teacher with set levels of subject materials being taught to all students. In the day of the "little red schoolhouse" this approach was probably justified by the size of the class and the number of teachers involved and many people still argue that children require the feeling of security offered by the same teacher and same classmates. There are, however, real drawbacks in this system to both the teacher and the student alike. There is a serious sacrifice of teaching efficiency in the demands today that an increasing amount of subject matter be taught better to students. The burden placed on the teacher, who is expected to be all things to all students, is too much. For the teacher not only has to spread her talents over too wide a range of subject area content, but also has to attempt to meet the individual needs of each of the students within a class and regardless of how carefully a group of 25 or 30 children are screened, the range of ability covers the span of several years. It is difficult to imagine any one teacher operating under the "mother hen" concept, being able to meet the demands of excellent educational requirements needed today.

The fact is that bright students simply have not received the kind of guidance necessary to keep them stimulated and moving ahead in their studies, and on the other hand, the slower students have not received the individual guidance and helped needed to progress satisfactorily. This was one of the reasons why Wayland attempted to design its faculty around the "team teaching" concept along with the fact that in the elementary schools we can expect a turnover of approximately 25% each year in the elementary school faculties, and that over a range of 3 years there will be, roughly, a turnover of 75% of the teachers. This is due to the fact that most of the people available as elementary teachers are young women who are preparing for marriage and motherhood and it is to be expected that this condition is going to continue indefinitely. The rapid turnover in teacher personnel makes it impossible to carry forward a well designed curriculum which benefits the children and assures their education in an orderly manner. It is therefore necessary that elementary education in the United States be designed to guarantee that each child receives his opportunity for the best education he can absorb.

"Team teaching," as it has been defined in the elementary schools, is a method of utilization of the abilities of the faculty. Teaching assignments are made according to the teacher's aptitude, interest and abilities. One teacher may instruct all classes in a given grade in social studies, another may be responsible for teaching science and mathematics. Some teachers have ability to work with slower students while others work more efficiently with faster learners. Some teachers may

have ability to teach relatively large groups whereas others have ability in handling situations which need careful attention for remedial work. Teaching teams are headed by team leaders who are the real professionals in education for they are the teachers who continue year after year. They are the teachers who have, over the years, continued to prepare themselves for the job of teaching and who themselves have become extremely well educated through continued studies of their own. These are the teachers capable of carrying on the exacting job of selection and organization of material for presentation to students. The team leaders help to plan the overall curriculum offered to the children and work with the teacher who is planning to be in education from one to three years to assure that they are efficient in the classroom. This type of teaching does have its problems of coordination and relationships but with its weaknesses it is far superior to the self-contained classroom where the inexperienced teacher moves into the classroom to do a demanding job that even the best trained and highly skilled experienced professional has difficulty doing.

There is evidence, as a result of testing programs, that the team teaching organization is doing an outstanding job in providing youngsters with a superior quality of education, and as the school more clearly defines the concept of team teaching and is able to correct its inefficiencies, it is to be expected that there will be a rather sharp improvement in quality of student learning over a period of years.

A teaching team in the elementary school exploits several devices for teaching, one of which is the grouping of children under given conditions. The home room may well be a homogeneous grouping but under the concept of individualized pupil programming, students move into reading, arithmetic and spelling groups which are more compatible to their own rate of development. Whereas in other fields such as art, and music, and certain social studies presentations, they are grouped homogeneously.

Some question has been raised concerning the emotional reaction of children in moving from group to group and in receiving instruction from several teachers. There are good reasons to believe that children adapt themselves very rapidly and readily to this type of teaching and with very few exceptions, find it challenging and exciting. There is even evidence that the percentage of emotionally involved children has decreased, which is understandable, as the school is now better able to meet the individual needs of each student and by so doing release his anxieties and emotional tensions to some degree. From the school's point of view, however, it is to be emphasized that the many problems the pupil brings to school with him, which are the result of an upset home, cannot be resolved in the context of a school program. However, the school makes every effort to work with the pupil and social agencies for the welfare of the child. There are, however, serious limitations as to what a school can do and how far it can go in this regard. Disciplinary problems are found to have decreased because teacher-pupil conflicts are diminished and because children are working under much more challenging conditions.

This last year has been a most satisfactory one for Wayland not only in the development of its elementary school program but in the opening of the high school. Unusual developments have taken place utilizing funds granted to the School Committee by the Funds for the

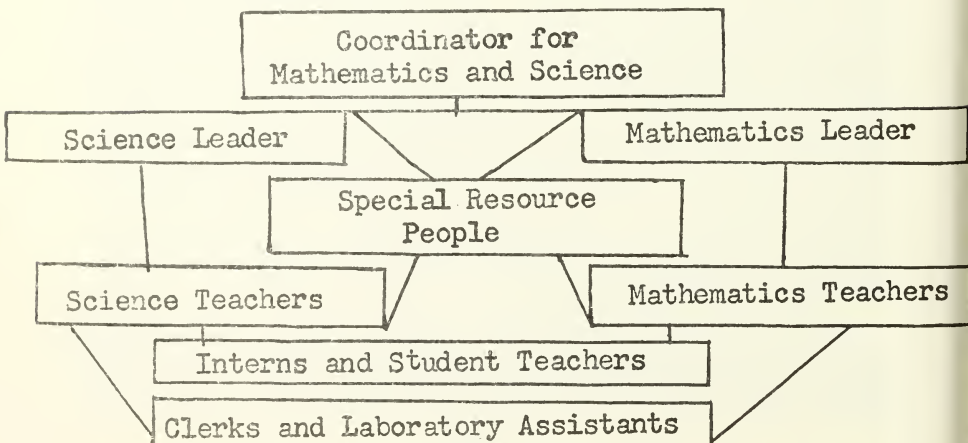

Advancement of Education. Amounts being received by the Committee over a period of two years are as follows:

July 1, 1960 — December 31, 1960	\$30,000
January 1, 1961 — June 30, 1961	30,000
July 1, 1961 — December 31, 1961	20,000
January 1, 1962 — June 30, 1962	20,000

These funds are being expended under the terms of the grant for improvement of education through the utilization of teaching teams, proper application of non-professional services and for reorganization of curriculum. The terms of the grant are that these funds are to be in addition to the School Committee's normal obligations and are to permit research and development in education so that education will be better equipped to meet the demands of — (1) an enormous increase in pupil population — (2) a decrease in competent teaching personnel, and — (3) improve the quality of education.

Wayland High School has been conceived around "instructional teams." It is difficult to describe a team and its operation. The team is designed, as in the elementary school, for the express purpose of improving the quality of education by utilizing excellent teachers much more efficiently and by meeting individual student's needs. In the Wayland concept, a student's work is approached as a unit and in this unit of work the faculty determines that there are certain things which need to be presented to every student in well organized and well prepared lessons. Therefore, the most competent member of the team is given the assignment of preparing and presenting to a group of 150 students at one time, this part of the work. The large group is broken down into groups of approximately 30 where a teacher may follow up the presentation of the large group. The medium groups are broken down into groups of 12 to 15 where students are given the opportunity of exploring the unit of study in much greater depth and in line with their own abilities. Time is also set aside for the student to meet individually with teachers for advanced planning work and for remedial work as needed. Additional time is set aside for students to pursue work on their own. The ability of a student to work on his own determines the amount of such work he receives.

The organization and structure of "team teaching" which can best carry out this concept of quality education at the lowest possible cost, is conceived of as follows:

The concept of the team is to exploit the ability of the human talents available to the teaching profession and to provide undergirding services in the form of interns, clerks and resource persons. It is evident that as the teaching team becomes more highly developed it will be possible to provide a much higher quality of education by utilizing various ability levels of people doing different kinds of jobs at different salary levels.

In summing up, it is well to note that the present Commission on National Goals, made up of 11 nationally known members such as, James B. Conant, James R. Killian, Jr., and Erwin D. Connor, submitted a report dealing with the major purposes and aims which confront the nation. The report began as follows: "The paramount goal of the United States was set long ago which is to guard the rights of the individual, to ensure his freedom, and to enlarge his opportunities" and the report states further "the status of the individual must remain our primary concern — socially and economically — and must further enhance the dignity of the citizen, promote the maximum development of his capabilities, stimulate his responsibilities, and widen the range and opportunities of individual choice."

The Wayland Public Schools have been designed around the paramount goal, as outlined in this report, and even while recognizing the inefficiencies of Wayland's schools they are far along the road toward realizing the goal which recognizes and does something about the student as an individual.

Respectfully submitted,

EDWARD J. ANDERSON,
Superintendent.

REPORT OF WAYLAND PUBLIC SCHOOLS BUSINESS MANAGER

To the School Committee:

It is with pleasure that I herewith submit my first Annual Report as Business Manager of the Wayland Public Schools since entering the School's Administration in September 1959. Just as we are striving, always to improve our quality of education, it is a basic objective of this Business Administration to heed this move forward with better transportation, simplified procedures, unified methods, continuous maintenance and quality of purchasing. It is believed that all school buildings and school departments are now operating under a unified and central Administration. It has been a purpose of this Business Administration to alleviate all time spent in the fields of business at the respective schools so that educational development may continue its effective move forward. It has also been our primary aim in attaining this purpose to control costs, but ever mindful that "quality is a poor man's economy."

It is noted here, with appreciation, the cooperation of Town Departments and Officials for their assistance in the operation of the School Department.

In the calendar year of 1960 some of the following developments were made:

I. *PURCHASING*: A review was made of purchasing done by the School Department and a new purchase order system was set up to encompass all schools. This system was set up basically to have all purchasing done from the Business Office with the written authority of the various school principals. Included in the new purchase order system was a coding system which gave the Department close control of budgetary funds expended by the Department. The coding system, together with the purchase order system has made for prompt payment of invoices from the many vendors who do business with the schools. In the year 1960, there were approximately 3,000 purchase orders typed by the office and sent out to the various vendors. Purchases of over \$1,000. were put out for bid, in compliance with the State requirements, and it has also been the policy of the Department to put sizeable items beneath this amount out for quotation so as to keep competition active. Many savings have resulted from the above procedures.

II. *TRANSPORTATION*: There was a change in the transportation policies in the year 1960 inasmuch as 3 rental buses were used by the system for the first time. This, in essence, means that 3 buses became directly under the control of the Business Office and the remaining 10 buses were continued under the contractual arrangement of past years. The rental system is still under review but has shown many new advantages in the transporting of children to and from school. Transportation involves approximately 80% of all children or close to 2,000 children to and from schools daily. The cost of the above transportation amounts to \$68,000 of which we receive reimbursement of approximately \$30,000.

III. *FINANCIAL*: Each year the school budget expenditure requests are prepared and submitted to the School Committee. Following many meetings with the School and Finance Committees, a 30 page budget of expenditures requested is prepared. In the 50 School Committee meetings held in 1960, many of these meetings were devoted to the preparation of this budget. The actual budget meetings with the School Committee begin each year in September and continue in the ensuing five months. All budget categories are divided into the respective schools and defined in estimated expense next to a comparison of last year's cost. 1.4% of school budget appropriations made in 1960 are being returned to the Town and are not included in the school budget. Herein noted are the School Receipts for 1960 and estimated for 1961:

	1960	<i>Estimated</i> 1961
Chapter 70	\$104,814.96	\$120,686.71
School Transportation	31,039.00	32,000.00
Tuition and Transportation for State Wards	2,990.63	3,000.00
Classes for Retarded Children	11,355.00	12,500.00
Vocational School Children	3,581.24	5,000.00
Miscellaneous Receipts	500.00	1,000.00
	<hr/>	<hr/>
	\$154,280.93	\$174,186.71

IV. *BUILDING PROGRAM*: In the year 1960, much of the equipment needed for the new Wayland High School was purchased

through the business office. Necessary to these purchases was the writing of specifications, contracts, processing of invoices, and expediting of equipment. Financial reports were made to the School Building Committee covering all costs throughout the 26 meetings held by the School Building Committee in 1960. Studies on enrollment trends together with school census data and building construction data are being analyzed for future building programs.

V. *PERSONNEL*: The School Department continues to grow as does the school enrollment of the Town and in the year 1960, payrolls and personnel records were handled for approximately 230 people, which includes both Professional and Non-Professional employees. With the opening of the new Administration Offices in 1960, adequate facilities were now provided for general administration of the schools, necessary interviews with job applicants, interviews with salesmen in connection with the \$350,000 purchased annually, and space for the many conferences held both day and evening during the year. Other functions handled with the growing enrollments and personnel include such items as school surveys, applications for school buildings, which approaches 1,000 a year, and filing of all necessary State and Federal reports.

VI. *MAINTENANCE OF PLANTS*: School buildings which value upwards of \$5,000,000 are constantly being maintained and kept in the best possible condition for operation. With the addition of the new high school, the school plants now number 12 buildings which are being maintained on a 12 month basis with the estimated need of 16 custodians. Maintenance is divided into, General Maintenance — which is done by the custodians, Emergency Maintenance — which is budgeted as unforeseeable damage to buildings, and Preventive Maintenance — which is planned for and usually takes place, for the most part, in the summer time. Maintenance presently approaches 3% of the school budget and is understandably low because of the new building program which has been in effect in Wayland. Maintenance programs are regularly reviewed with respect to methods, equipment, supplies and safety.

REPORT OF THE BOARD OF SELECTMEN

Mr. Thomas Francis Linnehan was re-elected a member of the Board of Selectmen at the annual election on March 6, 1961.

Mr. George K. Lewis was also elected to the Board of Selectmen for the year 1961 to March 1962 to fill the unexpired term of Mr. Archibald Cox.

Mr. Cox resigned as of March 6, 1961, to go to Washington as he was chosen by President Kennedy to be Solicitor General of the United States. We are proud of his appointment and certainly wish him the best.

The jury list was drawn as required by law. The list of jurors can be found in the Town Report.

The Selectmen met regularly for their regular meetings on the first and third Mondays of every month. There were several daytime meetings other than the regular ones. This gave people an opportunity to see the Selectmen who would not possibly have a chance at the regular meetings.

Mr. Thomas Linnehan is the member of the Committee on Town Government which was established March 7, 1956.

Mr. George Lewis is the member on the Condemnation Committee.

The Board, with the Trustees of the Allen Fund and the Board of Public Welfare, met and disbursed the income received from the Charitable Funds.

Mr. Charles Jameson who served the Town of Wayland on the Finance Committee died during the year. We, as Selectmen, as well as all the citizens of Wayland, will miss his dedicated service.

Mr. Carlisle D. Scotland died during the year. He was a member of the Welfare Board. The Town will miss his services on the Board and also as one of the Trustees of the Parmenter Health Center.

Once again the Board of Selectmen fulfilled the following duties:

1. Appointed Town Officials not elected by official ballot, such as Finance Committee, Executive Secretary, Policemen, Building and Wiring Inspector, Plumbing and Gas Inspector, Board of Appeals.
2. Issued licenses.
3. Approved bills incurred by other Town Departments.
4. Acted on complaints.
5. Passed on Betterments and Acceptances of Town roads.
6. Represented the Town at the State House, and had dealings with other towns.
7. Conferred with other Town Officials.
8. Contacted our State and Federal Representatives.

Once again we wish to thank all committees for their excellent efforts on behalf of the Town and all Town Officials and Employees for their cooperation during the past year.

THOMAS FRANCIS LINNEHAN, *Chairman*
FRANK S. TARR, *Clerk*
GEORGE K. LEWIS

Board of Selectmen.

RESULTS OF ANNUAL TOWN ELECTION

Held: March 6, 1961

VOTES ENACTED AT THE SPECIAL TOWN MEETING

Held: Wednesday, January 11, 1961

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant dated December 16, 1960, signed by Archibald Cox, Thomas Francis Linnehan and Frank S. Tarr, Selectmen, served and return of service given by Ernest H. Damon, Constable, the inhabitants of the Town of Wayland qualified to vote in Town Meeting, assembled this day; and at 7:55 p. m. the Moderator called the meeting to order, declared a quorum to be present and the meeting proceeded to transact the following business:

Article 1. To see if the Town will vote to accept the following gift:

A parcel of land shown as Lot 61-A on a plan entitled "Subdivision Plan of Land in Wayland, Mass." by Everett M. Brooks Co., C.E., dated February 18, 1960, bounded and described as follows:

Beginning at a point on the Easterly sideline of Draper Road which is 76.26 feet South of a point of curvature at Sears Road as shown on the above mentioned plan; thence

SOUTH 12° 30' 00" East, a distance of one hundred forty and 89/100 (140.89) feet; thence

SOUTH 22° 06' 34" West, a distance of thirty-four and 54/100 (34.54) feet; thence

SOUTH 49° 16' 46" West, a distance of one hundred four and 24/100 (104.24) feet, the last three courses along the sideline of Draper Road, then turning and running

NORTHERLY on a curve to the left with a radius of two hundred seventy and 11/100 (270.11) feet a distance of two hundred fifty-four and 72/100 (254.72) feet along the Westerly line of Lot #61 to the point of beginning.

Containing approximately 3,797 square feet; or take any action relative thereto.

In connection with Articles 1-3, inclusive, the Moderator and the makers of the several motions, respectively, omitted reading the descriptions of properties referred to in the articles, each time with unanimous consent of the Meeting, since the descriptions followed exactly the wording of the respective articles in the Warrant.

Upon Motion of Mr. Robert M. Morgan, duly seconded, it was

Voted: That the article be passed over.

Article 2. To see if the Town will vote to authorize the Board of Selectmen to purchase, take by eminent domain, gift and/or other means, on behalf of the Town of Wayland, a drainage easement through and

over certain land, as shown on a plan entitled "Plan of Land in Wayland, Mass., (showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C.E., dated May 5, 1960, bounded and described as follows:

Beginning on the Northerly sideline of Woodridge Road at a point thirty-four and 40/100 (34.40) feet more or less, Westerly of the south-westerly lot corner of the land of Baker, as shown on said plan, thence.

WESTERLY along the sideline of Woodridge Road, a distance of twenty-five and 47/100 (25.47) feet, thence

NORTH 48° 52' 40" East, a distance of fifty-four and 46/100 (54.46) feet, thence

NORTH 22° 28' 00" East, a distance of two hundred one and 69/100 (201.69 feet, thence

NORTH 19° 15' 00" West, a distance of one hundred four and 38/100 (104.38) feet, thence

NORTH 70° 45' 00" East, a distance of twenty (20.00) feet, thence

SOUTH 19° 15' 00" East, a distance of one hundred twelve (112.00) feet, thence

SOUTH 22° 28' 00" West, a distance of two hundred fourteen (214.00) feet along land now or formerly of Johnsen and land now or formerly of Baker, thence

SOUTH 48° 52' 40" West, a distance of forty-three and 39/100 (43.39) feet to the point of beginning,

together with the right to enter upon such premises and construct and maintain pipes, sewers, drains, manholes, ditches and appurtenant structures therein, and to raise and appropriate a sum of money therefor; or take any action relative thereto.

Upon Motion of Mr. Roger E. Ela, duly seconded, it was

Voted unanimously: That the Selectmen with the approval of the Town Counsel, on behalf of the Town of Wayland, be authorized to accept as a gift a conveyance of a drainage easement through and over certain land, as shown on a plan entitled "Plan of Land in Wayland, Mass., (showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C. E., dated May 5, 1960, bounded and described as follows:
(as given in the Warrant)

together with the right to enter upon such premises and construct and maintain pipes, sewers, drains, manholes, ditches and appurtenant structures therein.

Article 3. To see if the Town will vote to authorize the Board of Selectmen to purchase, take by eminent domain, gift and/or other means, on behalf of the Town of Wayland, a drainage easement through and over certain land, as shown on a plan entitled "Plan of Land in Wayland, Mass." by Everett M. Brooks Co., C. E., dated May 6, 1960, bounded and described as follows:

Beginning on the Easterly sideline of Sears Road, at a point seventy-two and 51/100 (72.51 feet, more or less, Northerly of a bound on said Easterly sideline of Sears Road as shown on said plan, thence

NORTHERLY along the sideline of Sears Road, a distance of twenty and 4/100 (20.04) feet, thence

SOUTH 81° 47' 30" East, a distance of two hundred seventy-seven and 83/100 (277.83) feet, thence

SOUTH 78° 40' 14" East, a distance of two hundred seventy-three and 10/100 (273.10) feet to the Westerly sideline of Draper Road, thence

SOUTHERLY along the sideline of Draper Road, a distance of twenty and 11/100 (20.11) feet, thence

NORTH 78° 40' 14" West, a distance of two hundred seventy-four and 81/100 (274.81) feet, thence

NORTH 81° 47' 30" West, a distance of two hundred seventy-six (276.00) feet to the point of beginning,

together with the right to enter upon such premises and construct and maintain pipes, sewers, drains, manholes, ditches and appurtenant structures, therein, and to raise and appropriate a sum of money therefor; or take any action relative thereto.

Upon Motion of Mr. Charles R. Jameson, duly seconded, it was

Voted unanimously: That the Selectmen with the approval of the Town Counsel, on behalf of the Town of Wayland, be authorized to accept as a gift a conveyance of a drainage easement through and over certain land, as shown on a plan entitled "Plan of Wayland, Mass." by Everett M. Brooks Co., C. E., dated May 6, 1960, bounded and described as follows (as given under Article 3 of the Warrant for this Meeting). together with the right to enter upon such premises and construct and maintain pipes, sewers, drains, manholes, ditches and appurtenant structures therein.

Article 4. To see if the Town will vote to amend the Zoning By-Laws by deleting therefrom Section V Sub-section h and inserting in place thereof the following: "Public or charitable institutional buildings not of a correctional nature, provided a special permit is granted by the Board of Appeals in accordance with the procedure provided in Sub-section r and only under such conditions as the Board of Appeals may impose, and provided that no building be within thirty (30) feet of any lot line. Provided, however, that this By-Law shall not apply to nor limit the use of land for any church, or other religious purpose or for any educational purpose which is religious, sectarian, denominational, or public." or take any action relative thereto.

Duly seconded, Mr. Robert H. Charnock, offered the following

MOTION: That the Zoning By-Laws of the Town of Wayland be amended by deleting therefrom Sub-section (h) of Section V and inserting in place thereof new Sub-section (h) as follows:

"Public or charitable institutional buildings not of a correctional nature, provided as a special permit as granted by the Board of Appeals in accordance with the procedure provided in Sub-section (r) and only under such conditions as the Board of Appeals may impose, and provided that no building be within thirty (30) feet of any lot line. Provided, however, that this By-Law shall not apply to nor limit the use of land for any church or other religious purpose or for any educational purpose which is religious, sectarian, denominational, or public."

Mr. Charnock then read the Report of the Planning Board giving the Recommendations of that Board, as based upon their hearing held January 6, 1961. The Report stated that the Planning Board was unanimously in favor of the Article.

Upon Mr. Charnock's Motion, it was

Voted: 1st and 2nd votes were not unanimous.

Counted Vote: "Yes" 227, "No" 12

The Moderator declared that the required 2/3 vote had carried.

Article 5. To see if the Town will vote to appropriate a sum of money for the purchase of two sidewalk tractors, together with plow equipment for the use of the Highway Department, and will authorize in connection with the purchase the trading in of the presently owned 1941 Cletrac and 1955 Oliver sidewalk tractors; or take any action relative thereto.

Upon Motion of Mr. Frank A. Smith, duly seconded, it was

Voted: That the Town appropriate the sum of \$13,358.00 for the purchase of two sidewalk tractors, together with plow equipment for the use of the Highway Department and authorize in connection therewith the trading-in of the presently owned 1941 Cletrac and 1955 Oliver sidewalk tractors.

The Moderator thanked the High School students in charge of the microphones, Mr. Andreotti and other members of the school staff, who had helped to set up this Meeting.

Upon Motion, duly seconded, it was

Voted: To adjourn the Meeting, at 8:50 p. m.

A true copy,

Attest:

LEILA SEARS,
Town Clerk of Wayland.

VOTES ENACTED AT THE ANNUAL TOWN MEETING

Held: Wednesday, March 8, 1961

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant dated February 6, 1961, signed by Thomas F. Linnehan, Archibald Cox and Frank S. Tarr, Selectmen, served and return of service given by Ernest H. Damon, Constable, the inhabitants of the Town of Wayland qualified to vote in Town Meeting, assembled this day; and at 7:50 p.m. the Moderator called the meeting to order, declared a quorum to be present and the meeting proceeded to transact the following business:

The Moderator announced the appointment of Mr. George G. Bogren as Sub-Moderator for the group meeting in the Cafeteria room and explained the procedure whereby persons in that room might be heard if they wished to speak. He also requested the speakers to wait for microphones and to speak into them, in order that all in both rooms might hear the remarks. And he reminded the meeting of the requirement of addressing the chair in making any statement upon the floor of the Meeting.

He also announced the presence upon the stage of twelve students from the Fletcher School of Law and Diplomacy of Tufts University, representing several foreign nations, and expressed pleasure that Wayland was honored by their request to attend and observe the procedure of a New England Town Meeting.

Article 1. To hear the reports of the Town Officers, Agents and Committees and act thereon.

Upon Motion of Mr. Allen H. Morgan, representing the Planning Board, duly seconded, it was voted to accept the following

RESOLUTION

RESOLVED: That the Town of Wayland recognizes the outstanding importance of preserving the Flood Plain marshes of the Sudbury Valley in their present unspoiled state, recognizing that their primary values are for flood control, water supply, scenic and historic beauty, fish and wild life, and quiet enjoyment including recreation in forms complementary to the natural beauty of the area in its unspoiled state.

We endorse in principle the need for regional planning of the watershed as a whole, and recognize that public ownership at Federal, State and community level is necessary to guarantee their perpetual preservation in the best interests of all the people.

Upon Motion of Mr. Ronald H. Wood, as follows:

RESOLUTION

The Town of Wayland wishes by this resolution to honor the long public service of J. Sidney Stone, now retiring from its Board of Public Welfare.

During thirty-four years Mr. Stone has contributed his abilities to this town in many capacities, including Town Counsel, Library Trustee, member of the Welfare Board, and as State Senator from this district. In all these offices his good sense, sound judgment and public spirit have been of high value in the conduct of public service. The Town also esteems the sage counsel he has so often contributed to discussion at Town Meeting.

The Town commends Mr. Stone for his many services over this long period; expresses its appreciation; and wishes him long life and continued satisfaction in it.

This resolution is ordered to be spread upon the records, and a copy forwarded by the Town Clerk to Mr. Stone.

In seconding the foregoing Resolution, Mr. Robert M. Morgan added for the record a more detailed schedule of Mr. Stone's past service to the Town.

Selectman: Three Years: 1922, 1923, 1924

Commissioner of Trust Funds: Thirty-four years: 1931-1961

Trustee of the Public Library: Thirty-one years: 1926-1956

Town Counsel — Acting — 1922-? ?

Actually appointed: 1936-1948 Thirteen years

Board of Public Welfare: Twenty-one years: 1938-1940; 1943-1961

Representative in the General Court: Four years 1924-1928

These Resolutions and details were accepted unanimously by a rising vote of thanks to Mr. Stone.

Mr. Theodore R. Magoun, Chairman presented the report of the Recreation Advisory Committee, and placed a copy of same on file with the Town Clerk.

Upon Motion of Mr. Magoun, duly seconded, it was

Voted: That the report of the Recreation Advisory Committee be accepted, that it be printed in the Town Report, and that the committee be continued for further study and be instructed to report further to the Town at the next Annual Town Meeting.

Mr. Allen R. Finlay read the report of the School Building Committee, re: 1. Completion of renovation of permanent School Administration quarters in the Center School Annex; and the Committee asked to be discharged from further responsibility in this matter; 2. The virtual completion of the new senior high school; 3. Long Range Program suggesting plans for future additions to the Claypit Hill and Loker Schools by September, 1962, and subsequent proposed additions to the

new senior high school and the Happy Hollow School, probably in 1964 and 1965. The report expressed the hope that these necessary additions might be made without further increase in the long-term debt of the Town.

Mr. Finlay placed this Report on file with the Town Clerk.

Upon Motion of Mr. Finlay, duly seconded, it was

Voted: That the report of the School Building Committee be accepted, and that this Committee be discharged from further responsibilities under Article 23 of the Warrant of the 1960 Annual Town Meeting.

Mrs. Carol J. Thomas presented the Report of the Committee on Town Government, re: 1. Recommending that the terms of the Town Clerk, Collector and Treasurer be changed from one to three years;

2. Improved relations between the School, Library, Health, and Park Departments, e.g. in a proposed cross-indexing between Town and School libraries about to be undertaken;

3. The desirability of combining the Fire and Police Communications to save money, but recognition of need to postpone such a study for the present, until it may be studied in conjunction with the possibility of combining these two departments under one joint chief;

4. Proposal to better consolidate and coordinate the engineering functions of the Planning Board and Highway Department and recognition of the growing need for establishment of a position of Town Engineer;

5. Proposal to establish a Public Works Department or some other arrangement to better coordinate the Work of the Park Department, Cemetery Department, Moth Department, Tree Warden and Highway Department;

6. Improved enforcement of various regulations;

7. Capital Budget plan, such as been begun under the Fire Department Capital Budget plan, for long-range planning of needed large equipment purchases;

8. Proposal for improved presentation of the Budget, each year, at open meetings of the Finance Committee prior to the Annual Town Meeting; recognition that similar policy has obtained in the preparation of the 1961 Budget, and with general urging that such be continued in the future.

9. Statement that copies of this report would be available at the Town Office Building.

Mrs. Thomas placed a copy of this Report on file with the Town Clerk.

Upon Motion of Mrs. Thomas, duly seconded, it was

Voted: That the report of the Committee on Town Government be accepted and that the Committee be continued.

In behalf of Mr. Frank S. Tarr, who was unable to attend the meeting, Mr. Robert M. Morgan reported and requested that the By-Pass Committee be continued in existence.

Mrs. Leah Lipton, Chairman, presented the Report of the Committee to Investigate the Mosquito Control Program. This report indicated general satisfaction of the program currently undertaken by the East Middlesex Mosquito Control Commission, mentioned a regret that Sudbury had not been a member of this Commission, and hence mosquitos tended to blow over from Sudbury, occasionally; found no evidence at this time of toxic or harmful effect directly to humans, although adverse effects to wildlife were recognized; pointed out the importance of the role of the householder in keeping yards free of standing water, e.g., in puddles, pails, children's toys (after a rain), gutters, etc.; recommended continuance of present program.

Upon Motion of Mrs. Lipton, duly seconded, it was

Voted: That this Report be accepted, and that the Committee be discharged.

Article 2. To choose all necessary Town Officers, Agents and Committees not elected by the official ballot.

Upon Motion of Mr. Magoun, duly seconded, it was

Voted: That the Trustees of the Allen Fund be:
John Bryant
Benjamin W. Johnson, III
George W. Shepard

who shall continue to serve as Trustees of that Fund;

That the Selectmen act as Fence Viewers;

That the Constables act as Field Drivers;

That the following persons shall serve as Measurers of Wood and Bark:

Robert L. Davis
Thomas F. Linnehan
Arthur F. Marston;

Surveyors of Lumber: Thomas F. Linnehan
Arthur F. Marston; and

That the Memorial Day Committee be appointed by the Moderator in accordance with the vote made at the 1958 Annual Town Meeting.

Article 3. To see if the Town will vote to amend the Town By-Law establishing the Wage and Salary Classification Plan, as amended, in any of the following respects:

(a) Further amend Article II, Section 1 of said Plan by adding the following new classification and salary rate:

Position	Min.	1 year	2 years	3 years	4 years	5 years
Fire						
Captain	\$4,527.92	\$4,664.85	\$4,801.78	\$4,938.71	\$5,075.64	\$5,212.57

(b) Further amend Article II, Section 1 by increasing each annual and monthly salary (except for Police Chief, Fire Chief and Highway

Superintendent, but including the salary established by the preceding amendment) and each hourly wage rate by two and one-half (2½) per cent with fractions of a cent leveled off to the nearest cent level above, and by increasing the annual and monthly salary rate for Police Chief, Fire Chief and Highway Superintendent by five (5) per cent, all such increases to be effective from January 1, 1961:

and to appropriate and assess a sum of money for the purposes thereof; or take any other action relative thereto.

Upon Motion of Mr. Edwin W. Marston, duly seconded, it was

Voted: That the Town By-Law establishing a Wage and Salary Classification Plan established March 3, 1954 and subsequently amended, be further amended in the following respects:

(a) By adding the following new classification and salary rate:

Position	Min.	1 year	2 years	3 years	4 years	5 years
Fire						
Captain	\$4,527.92	\$4,664.85	\$4,801.78	\$4,938.71	\$5,075.64	\$5,212.57

(b) By increasing each annual and monthly salary (except for Police Chief, Fire Chief and Highway Superintendent, but including the salary established by the preceding amendment) and each hourly wage rate by two and one-half (2½) per cent with fractions of a cent leveled off to the nearest cent level above, and by increasing the annual and monthly salary rate for Police Chief, Fire Chief and Highway Superintendent by five (5) per cent, all such increases to be effective from January 1, 1961.

Article 4. To grant money for necessary Town purposes.

Duly seconded, Mr. Robert M. Morgan, Chairman of the Finance Committee offered the following

MOTION: That the report of the Finance Committee be accepted and its recommendations be adopted; that Item 2 on Page 25 be corrected to read:

“Regular men (7 in 1960)
(including Communications 4 in 1961 —making 11 Patrolmen)”

That \$2,585,168.75 with the addition of: \$37,295.42

Highway Department	
Snow Removal	\$14,000.00
Park Department	
Superintendent	4,795.42
Labor — 3 men	12,500.00
School Grounds	
Maintenance	6,000.00
	<hr/>
	\$37,295.42

and with the subtraction of: \$24,695.42

“Park Department

Salaries 1961

Superintendent	\$6,200.00
2nd man	4,795.42
Labor —	
Permanent men(2)	8,000.00
Labor —	
Temporary men (2)	5,700.00
	<hr/>
	\$24,695.42

be granted, appropriated and assessed for the several purposes designated, making a total budget of \$2,597,768.75 and that the same be expended only for the purposes shown under the respective boards, committees and officers of the Town; and that

*

All employees in the Town Office Building, other than elected officials and those of the Police and Fire Departments, come under the supervision of the Executive Secretary and that he be charged with the operation of both Town Office Buildings and their equipment;

The operation of the dumps be under the supervision of the Highway Department;

The money from Dog Taxes be allocated in its entirety to the Library;

The Public Health Nurses #II and Nursing Assistants be under the supervision of the Board of Health;

The funds provided for under Fire Department, Call men — night duty, be used only under the following conditions: \$400.00 annually to Call men who serve on the night shift, 6:00 P. M. to 7:00 A. M. fifty nights a year and not more than two nights in any one week. All funds to be expended for Call men only, except that not more than two regular men may serve as Call men — night duty, at the pay provided for such work. This is done with a view to building up and maintaining the number of men in the Call department;

The work on the Assessors' Maps continue to be done under the joint supervision of the Planning Board and the Board of Assessors;

The gifts to the Library, acceptance of which is provided for under Article 10, be made available for expenditure along with other amounts appropriated by the Town under the budget for the general expenses of the Library;

The Town Collector continue to act as Collector for the Water Department; that he be directed to charge fees for demands on overdue water bills and that the sums so collected be credited by the Collector to the Water Department; and that all fees and penalties be turned over to the Town as Town Income;

The office of Town Clerk be retained on a salary basis and that all fees from whatever source derived be turned over to the Town as Town Income.

The appropriation under the Fire Department for Major Equipment be maintained as a fund against future purchases and not to be expended without further direct vote of the Town;

The appropriation for street lighting be made on the condition that street lighting service will not be purchased after 12:30 A.M.;

The Assessors' Valuation Book to be printed in 1961 be made available, one to a tax payer, upon his request and calling for it at the Town Office Building;

The unexpended balances in the following accounts be transferred to "Excess and Deficiency";

Highway Department

Drainage — easements

Oxbow Road — Kerr	\$10.00
Rice Road	10.00
Glezen Lane	10.00
Joyce Road	10.00

and in the following accounts to "Aid to Dependent Children — Federal Grants — Administration";

Welfare Department

New Car	946.86
---------------	--------

and in the following accounts to "Water Available Surplus";

Water Department

Salaries — 2nd Man	2.02
3rd Man	53.66
Labor	3.06
Maintenance	798.66
Equipment — New Trucks	1,995.50
— Compressor	501.05
Water Mains — relocation —	
Moore Road	180.00
Water Main Extensions	
— Commonwealth Rd. East	2,002.06
— Aqueduct Road	255.86

and to simplify the bookkeeping in various departments that

There be transferred to "Cemetery — Labor — Temporary Men" \$1,000 from Cemetery — "Perpetual Care Funds Income";

There be transferred to "Welfare Board — Salaries — Clerks" \$3,345 from "Old Age Assistance — Federal Grants — Administration".

In addition to the sum of \$1,500 included in the budget to meet the Town's share of "Chapter 90 — Maintenance" and \$5,650 to meet the

Town's share of "Chapter 90 — New Construction", the sum of \$3,000 for "Chapter 90 — Maintenance" and \$16,950 for "Chapter 90 — New Construction" be transferred from "Unappropriated Available Funds" in the Treasury to meet the County's and State's share of the cost of the work, the reimbursement from the County and State to be restored upon their receipt to "Unappropriated Available Funds" in the Treasury;
*

NOTE: (The foregoing section between * and * was omitted by Mr. Morgan, in making his Motion, since the wording followed exactly that as printed in the Finance Committee's Report with the Warrant, and since there was unanimous consent of the Meeting for such omission).

The appropriation for "Hydrant Rental" of \$10,000 for the Water Department, granted in the budget, be transferred to "Water Available Surplus."

Upon Motion, duly seconded, of Mrs. Pauline Leland

To amend the Budget by deleting Item #26, p. 23 under Assessors for Professional Services, \$2500.00
it was **Voted:** In the Negative.

Upon Motion of Mr. John R. McEnroy, duly seconded, it was

Voted: To delete Item #46, p. 24, under Urban Renewal Authority and in the amount of \$3,000.00 from the Budget.

Upon Motion, duly seconded,

To quadruple the appropriation under Item #29, p. 26 under Tree Warden, for Planting Trees (increase being from \$500.00 to \$2,000.)
it was **Voted:** In the Negative.

Upon Motion, duly seconded,

That Item #15, p. 27 (being \$1,300.00 under Mental Health Clinic — Framingham), be deleted from the budget;
it was **Voted:** In the Negative.

Upon Motion, duly seconded, of Mr. Walter R. Koe

To delete Item #16, p. 27 for Mosquito Control (\$7,500.00)
it was **Voted:** In the Negative.

Duly seconded, Mr. Ralph S. Blanchard, Jr., offered the following

MOTION: To change the amount of Item #21, p. 29 from \$2,550.00 to \$550.00 making the total amount of the "New Equipment '61" appropriation \$16,500.00 instead of the previously proposed \$18,500.00

(This would provide only one radio for the Superintendent, rather than the several to equip the Highway Trucks).

Mr. Eugene C. Roberts, duly seconded, offered a substitute Motion:

To delete the entire \$2,550, permitting no radios at all under this Item #21, p. 29, from the Budget.

Upon This Motion, the

First Vote: Was declared in doubt by the chair;

Second Vote was declared in favor.

However. this vote was challenged.

There being some doubt as to just what was being voted, Mr. Blanchard withdrew his Motion, by unanimous consent of the Meeting.

Upon Mr. Roberts' Motion, there was another vote, again declared in doubt by the chair.

Upon **Counted Vote:** "Yes" 276, "No" 341

This Motion was declared to have lost.

Upon Motion of Mr. Robert M. Morgan, duly seconded, it was

Voted: That the meeting be adjourned at 11 P. M., or at such time thereafter as the article 4, or such later article as is then under consideration is disposed of, but in no case later than 11:30 P. M., the meeting to be adjourned to meet again at 7:45 p.m. on Wednesday, March 15, 1961 in the Field House of the new High School.

Upon Motion of Mr. Henry H. Kolm, duly seconded, it was

Voted: To delete Item #9, p. 28 "Oxbow Road — \$9,000.00" from the Highway Department Budget.

A Motion

relating to application of this \$9,000.00, deleted from the Highway Dept. budget, under Mr. Kolm's Motion, to a correction of a certain drainage difficulty on Lakeview Road, was ruled out of order by the Moderator, in the form given. The suggested correction was not undertaken by the maker of the Motion.

A Motion, that the School Budget be broken down into more detail in next year's printed budget,
was not seconded, and therefore, not voted upon.

Upon Motion of Mr. Henry J. Muller, duly seconded,

To change Item #10, top p. 35 under Park Department Misc. Equipment from the amount of \$3,000.00 to \$2,500.00
it was **Voted:**

1st Vote was declared in doubt.

2nd Vote was declared in Favor of Mr. Muller's Motion.

Upon the Main Motion of Mr. Morgan, subject to the foregoing Amendments, it was

Voted: In favor.

Upon the Motion of Mr. Morgan, as previously voted, relating to adjournment of the Meeting, it was again

Voted: In favor — at 11:20 p.m.

A true copy,

Attest:

LEILA SEARS,
Town Clerk of Wayland

**VOTES ENACTED AT
THE ADJOURNED ANNUAL TOWN MEETING**

Held: Monday, March 15, 1961

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant for the Annual Town Meeting called for March 8, 1961, duly signed by the Selectmen, served and return of service given by a Constable of the Town; and a continuance being held in accordance with the vote taken at said meeting of March 8, 1961, the inhabitants of the Town of Wayland qualified to vote in Town Meeting met this day; and at 7:50 p.m. the Moderator called the meeting to order, declared a quorum to be present, and the meeting proceeded to transact the following business:

Upon Motion of Mr. Robert M. Morgan, duly seconded, it was

Voted: That we return to Article 2 for the sole purpose of setting up a committee to make a study of sidewalk location and construction.

First Vote gave a scattering "No"

Second Vote was unanimously in favor of the Motion.

Upon Motion of Mrs. Carol J. Thomas, duly seconded, it was

Voted: That the Town establish a committee of five to consist of one member of the Road Commissioners, one member of the School Committee, one member of the Planning Board, one member of the Finance Committee, each to be designated by their respective Boards or Committees, and a fifth member-at-large to be appointed by the four so designated; that the Committee be charged with making a study and recommendations with respect to (1) a policy to be pursued by the Town with respect to construction of sidewalks, (2) the priorities to be followed in connection with any construction recommended, (3) the over-all cost which might be involved in any program and (4) the amount which should be recommended for expenditure annually therefor, and that the Committee be authorized to arrange with the Planning Board for engineering services as seemed necessary in connection with carrying out the initial stages of a program, such report with recommendations to be made at the next Town meeting.

Upon Motion of Mr. Theodore R. Magoun, duly seconded, it was

Voted: To return to Article 1 to receive several resolutions and to receive the Annual Town Report.

First Vote gave a scattering of "No's"

Second Vote was unanimously in favor by a rising vote of RESOLUTION:

WHEREAS until his death on June 17, 1960,

GEORGE COLTON LEWIS

had served the Town for nine years as an Assessor, eight of them as Chairman of the Board of Assessors;

WHEREAS he further served the Town as a member of the Finance Committee, for four years, resigning to become Chairman of the Wayland War Price and Rationing Board at its inception in 1942 and so serving until its dissolution in 1945;

WHEREAS his service in these difficult tasks has been characterized by recognized ability, complete fairness, unchallenged integrity, and devotion far beyond statutory duty;

Therefore, Mr. Moderator, as citizens in Town Meeting assembled, be it moved that by a rising vote we make known our appreciation of George Colton Lewis; and that the Town Clerk be directed to note in the minutes of this meeting such vote, the motion and preamble to it, and that a suitable copy be sent to his widow, Mrs. George C. Lewis, together with the best wishes of the community.

Upon Motion of Mr. Magoun, duly seconded, it was

Voted unanimously by a rising vote of

RESOLUTION

WHEREAS on March 6, 1961 when he retired as Tree Warden,

CHARLES L. FULLICK

completed thirty-two consecutive years of service to the Town as Tree Warden;

WHEREAS all of his service has been characterized by ability, devotion to duty, and artistry resulting in making the Town a more attractive place to live — or rest;

Therefore, Mr. Moderator, as citizens in Town Meeting assembled, be it moved that by a rising vote we make known our appreciation to Charles L. Fullick;

And that the Town Clerk be directed to note in the minutes of this meeting such vote, the motion and the preamble to it, and that a suitable copy be sent to Mr. Fullick.

Upon Motion of Mr. Magoun, duly seconded, it was

Voted unanimously: by a rising vote of

RESOLUTION

WHEREAS until his death on January 23, 1961,

JOSEPH H. DECATUR

had served the Town for thirty-six consecutive years as a Measurer of Wood and Bark and

for eleven years as a Road Commissioner, from the inception of that Board until his retirement in 1954.

WHEREAS he also served as Town Director of the Middlesex County Extension Service for twenty-two years, enriching the lives of our youth and adults;

Therefore, Mr. Moderator, as citizens in Town Meeting assembled, be it moved that by a rising vote we make known our appreciation of Joseph H. Decatur;

And that the Town Clerk be directed to note in the minutes of this meeting such vote, the motion and the preamble to it, and that a suitable copy be sent to his widow, Mrs. Joseph H. Decatur, together with the best wishes of the community.

Upon Motion of Mr. Magoun, duly seconded, it was

Voted unanimously: That the Town Report be accepted with thanks.

Upon Motion of Mrs. Nancy E. Newhall, duly seconded, it was

Voted unanimously and

RESOLVED that it is the sense of the people here at the town meeting, that the Urban Renewal Authority, Selectman, Planning Board, jointly or Urban Renewal Authority singly, hold a public hearing before the Workable Program is submitted to the state or federal authorities. Notice of this hearing to be published at least two weeks prior to the hearing in a local paper. If the majority at this hearing are opposed it is our wish that the Workable Program be submitted at a town meeting for the town's approval before being presented to the state or federal authorities. We realize that according to the Urban Renewal Laws, this is not required but we hope the board will abide by the resolution.

Duly seconded, Mr. James T. Scriven offered the following

MOTION: That the Finance Committee adopt the following recommendations for the Financial Report for next year.

(1) That the Excess and Deficiency account be contained somewhere within the report, indicating the amount and its relative change from the past year.

(2) That the Finance Committee Report be broken down more fully with all items in the budget self-explanatory, i.e., the School Budget, any miscellaneous equipment accounts and the like.

(3) That an explanation be given for any item in the budget which increases from the previous year and that these expenses be fully explained under the particular item that is increased.

(4) That any item voted that will have its effect in later years be so indicated in the dollar amount, i.e., addition of teachers, salary increases and the like.

Upon this Motion, it was

Voted: In the Negative.

Article 5. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by the General Laws (Tercentenary Edition) Chapter 41, Section 108 and set the effective date of such salary and compensation.

Upon Motion of Mr. R. M. Morgan, duly seconded, it was

Voted: That the Town fix the salary and compensation of all elective officers of the Town, as voted under Article 4, the effective date of such salary and compensation to be from January 1, 1961.

Article 6. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1961, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 4, Chapter 44, General Laws.

Upon Motion of Mr. Charles R. Jameson, duly seconded, it was

Voted unanimously: That the Town authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1961, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 4, Chapter 44, General Laws.

Article 7. To see if the Town will vote to authorize the Board of Selectmen to sell, or otherwise dispose of the following:

(1) The Police Department's present 1960 Ford Station wagon and 1960 Ford 4-door sedan, in connection with the purchase of one new station wagon and a new 4-door sedan, or two new station wagons;

(2) the Highway Department's present 1958 Chevrolet half-ton pick-up truck in connection with the purchase of one new half-ton pick-up truck and two tailgate sandspreaders in connection with the purchase of two new sand-spreaders.

(3) the Water Department's present 1959 Chevrolet half-ton pick-up truck in connection with the purchase of a new half-ton pick-up truck, and the present 1959 Chevrolet $\frac{3}{4}$ -ton pick-up service truck in connection with the purchase of a new $\frac{3}{4}$ -ton pick-up service truck;

(4) the Cemetery Department's present 1959 Chevrolet 1-ton dump truck in connection with the purchase of a new 1-ton dump truck; funds for the various departments being provided for in the respective budgets or by transfer from funds especially accumulated for the purposes; or do or act.

Duly seconded, Mr. Charles R. Thomas offered the following

MOTION: That the Town authorize the Board of Selectmen to sell or otherwise dispose of the following:

(With unanimous consent of the Meeting, Mr. Thomas omitted to itemize the remainder of the Motion, since the wording followed identically with that of the Article as printed in the Warrant);

Upon Motion of Mr. G. Prentis Richardson, duly seconded, it was

Voted: To amend the dates in Item "(3)" to indicate both trucks of the Water Department being changed from 1959 to 1958 models

Upon the Main Motion, as amended, it was

Voted: In favor.

Article 8. To see if the Town will appropriate sums of money for the Water Department, determine whether the money shall be provided for by appropriation from available funds in the Treasury, by taxation and/or by borrowing, or take any action relative thereto.

Duly seconded, Mr. Frank A. Smith offered the following

MOTION: That the Town appropriate the sum of \$162,305.20 for the following purposes and that to meet the appropriation, the sum be taken from "Water Available Surplus":

(1) Water Coupon Notes, Bonds and Registered Notes Maturing in 1961 — Payment of Principal	\$24,500.00
(2) Water Coupon Notes, Bonds and Registered Notes — Payment of Interest	5,130.75
(3) Water Department — Maintenance:	
Salaries:	
Superintendent	\$6,778.07
2nd Man	5,146.31
3rd Man	4,401.47
Labor	15,000.00
Town Office	7,348.60
Appropriation	38,674.45
Equipment — new ½-ton truck and — new ¾-ton truck	3,500.00
(4) Water Main Extensions — Refund Account	5,000.00
(5) Water Main Extensions — Deposit Account	5,000.00
(6) Water Main Extensions	
(a) Old Connecticut Path, State Road East to Rice Road	25,000.00
(b) Draper Road, Glezen Lane to Sears Road	11,000.00
(c) Lundy Lane, Rich Valley Road to Sylvan Way	2,000.00
(7) Test Wells	500.00
(8) Garage and Storage Building	5,000.00
	<hr/>
	\$162,305.20

Upon Motion of Mr. B. Allen Benjamin, duly seconded, it was

Voted: To delete Item 6 (b) relating to Draper Road, Glezen Lane to Sears Road amounting to \$11,000.00

Upon the Main Motion, as amended, it was

Voted: In favor.

Article 9. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 Roads, said money to be used in conjunction with any money which may

be allotted by the State or County, or both, for this purpose, the work to be done under the supervision of the Road Commissioners, or take any action relative thereto.

Upon Motion of Mr. William A. Loker, duly seconded, it was

Voted: That the Town appropriate and assess the sum of \$5,650.00 for the reconstruction and improvement of Commonwealth Road East, said money to be used in conjunction with whatever money may be extended by the County or State, or both for this purpose, the work to be done under the supervision of the Road Commissioners, with the limitation that no more than \$1.00 of Town money be expended for each \$1.00 of County money and \$2.00 of State money.

Upon Motion of Mr. Loker, duly seconded, it was

Voted unanimously: That the Town instruct the Highway Commissioners to notify the Middlesex County Commissioners and the State Public Works Department not to proceed with any hearings in connection with takings along Old Connecticut Path for highway purposes until such time as the Board of Selectmen and Finance Committee, together with the Town Counsel and Highway Commissioners have had an opportunity to study and examine the proposed layout plan, actual cost of construction and estimated land damage costs to the Town, and have determined that it is in the public interest to proceed with such takings.

Article 10. To see if the Town will vote to accept various conveyances, gifts, and devises to the Town, or take any action relative thereto.

Upon Motion of Mr. Frank W. Kilburn, duly seconded, it was

Voted unanimously: That the Town accept with thanks the following gifts:

1. A gift to the public library of \$3,000 from John C. Paige & Co.
2. Gifts from the Wayland Real Estate Co. as follows:

Brook Trail Road	9/13/54	10	8332	70

7. Gift from David C. and Kathryn H. Stewart of a Drain Easement on Rice Spring Lane, Lot #12, dated 6/25/51, recorded in Book 7762, Page 110.

8. Gift from William A. Dickson and Roger E. Ela, Trustees u/R.B. Dickson Ind/tr. dated 11/19/55, for road widening on Sears Road and Draper Road, Lots #59, 60 & 61A Dated 4/15/60 and recorded in Book 9588, Page 488.

9. Gift from E. Robert Nason and Jane Nason of a grant confirming a taking on School Street of land formerly owned by Sterling Building Corp, made by the Board of Selectmen to the Town of Wayland on May 4, 1960, Land Court Doc. #354129, said land as shown on Lot #1 School Street on Plan Book 625, Page 108 and shown on Certificate of Title #103743, Book 648, Page 193.

Article 11. To see if the Town will vote to abandon a certain easement for drainage of surface water, shown on a plan entitled, "Plan of Land in Wayland, Mass." dated November 14, 1955, recorded with Middlesex South District Deeds in Book 8644, Page 236, bounded and described as follows:

Southeasterly by the Northwesterly side-line of Concord Road, 20.35 feet;

Southwesterly by two lines measuring respectively 253.66 feet and 164.30 feet;

Northwesterly 20 feet; and

Northeasterly 159.57 feet and 254.66 feet,

or take any action relative thereto.

Upon Motion of Mr. Roger E. Ela, duly seconded, it was

Voted unanimously: That the Town abandon a certain easement for the drainage of surface water, shown on a plan entitled, "Plan of Land in Wayland, Mass." dated November 14, 1955, recorded with Middlesex South District Deeds in Book 8644, Page 236, bounded and described as follows: (By unanimous consent of the meeting, Mr. Ela omitted reading again the exact description, since it followed identically the wording as printed in the Warrant.)

Article 12. To see if the Town will vote to authorize the Board of Selectmen to grant or release to the abutters for nominal consideration all the Town's right, title and interest in the parcels of land bordering on Oak Street, conveyed to the Town by the Massachusetts Turnpike Authority as shown by a plan for Massachusetts Turnpike in Wayland recorded with Middlesex South District Deeds, Book 8369, Page 303, or take any action relative thereto.

Upon Motion of Mr. Jameson, duly seconded, it was

Voted unanimously: That the Board of Selectmen be authorized to grant to the abutters for the consideration of \$1.00 all the Town's right, title and interest in Lots No. 13, No. 14, No. 15, No. 17, No. 17A, No. 18, No. 20, and No. 21 bordering on Oak Street, conveyed to the Town by the Massachusetts Turnpike Authority as shown by a plan for Massachusetts Turnpike in Wayland recorded with Middlesex South District Deeds, Book 8369, Page 303.

Article 13. To see if the Town will instruct or authorize the Board of Selectmen to lease to the Wayland Historical Society the site of the Old Town Hall upon the expiration of the present lease to the Wayland Historical Society under the same terms and conditions as in the 1960 lease executed under the 1958 vote of the Town, and will appropriate a sum of money to make the site of the building attractive and in keeping with the public purpose in permitting the location of the old Heard Grout House on its original site, or take other action in connection therewith for the benefit of the Town.

Upon Motion of Mr. Jameson, duly seconded, it was

Voted unanimously: That the Town instruct and authorize the Board of Selectmen to lease to the Wayland Historical Society the site of the Old Town Hall upon the expiration of the present lease to the Wayland Historical Society under the same terms and conditions as in the 1960 lease executed under the 1958 vote of the Town.

Article 14. To see if the Town will vote to authorize the Board of Selectmen to purchase a certain parcel of land in Wayland with the buildings thereon for \$2,000.00, it being the Westerly portion of Lot No. 99 as shown on a plan entitled "Castle Gate, North Section, Wayland, D. Arthur Brown, Trustee, E. Worthington, Engineer, May 11, 1918" recorded with Middlesex South District Deeds, Plan Book 268, Plan 17.

Said Premises are more particularly bounded and described as follows:

Beginning at the Easterly corner of said premises at a stake at Sycamore Road, as shown on said plan, said stake being seventy-eight and 66/100 (78.66) feet Southwesterly from the intersection of said Sycamore Road with Chestnut Road; thence

Southwesterly by said Sycamore Road seventy-eight and 66/100 (78.66) feet to a stake at the Southeasterly corner of lot No. 102 on said plan; thence

Northerly by said Lot No. 102, No. 101 and a portion of Lot No. 100, one hundred forty-eight and 19/100 (148.19) feet to a stake; thence

Southeasterly by the remaining portion of Lot No. 99, one hundred twenty-five (125) feet more or less to the point of beginning; or take any action relative thereto.

(The actual description of the property concerned in this Article was omitted both by the Moderator in reading the Article, and by the maker of the following Motion, since the language followed exactly that as printed in the Warrant.)

Duly seconded, Mr. R. M. Morgan offered the following

MOTION: That the Selectmen with the approval of the Town Counsel be authorized on behalf of the Town to purchase for municipal purposes the Westerly portion of lot numbered 99 as shown on a plan entitled "Castle Gate, North Section, Wayland, D. Arthur Brown Trustee, E. Worthington, Engineer May 11, 1918" recorded with Middlesex South District Deeds, Plan Book 268, Plan 17. Said premises are more particularly bounded and described as follows:

(as given under Article 14 of the Warrant for this Meeting).
and that there be appropriated and assessed therefor the sum of \$1,500.00

Upon this Motion, it was

Voted: In the Negative.

Article 15. To see if the Town will vote to authorize the Board of Selectmen to purchase the rear portion of the land of Elizabeth S. Woodward, located off Claypit Hill Road, consisting of approximately 1¼ acres; and appropriate and assess a sum of money therefor; or take any action relative thereto.

Upon Motion of Mr. Thomas, duly seconded, it was

Voted unanimously: That the Selectmen, with the approval of the Town Counsel, be authorized on behalf of the Town to purchase for school purposes the rear portion of the lot of land owned by Elizabeth S. Woodward, located off Claypit Hill Road and shown as Lot No. 2 on plan entitled "Plot Plan of Land in Wayland, Mass.", dated February 20, 1961, by Everett M. Brooks Co., C. E.'s, containing 1.31 acres of land according to said plan, and that there be appropriated and assessed, therefor, the sum of \$2,400.00.

Article 16. To see if the Town will vote to authorize the Board of Selectmen to sell at public auction a lot consisting of at least 60,000 sq. ft. with at least 210 ft. frontage on Claypit Hill Road, lying on the easterly side of land now or formerly of Elizabeth S. Woodward; or take any action relative thereto.

Duly seconded, Mr. Thomas offered the following

MOTION: That the Selectmen, with the approval of the Town Counsel, be authorized to sell at Public Auction a parcel of land out of the Claypit Hill School site, shown on a plan entitled "Plot Plan of Land in Wayland, Mass.", dated February 20, 1961 by Everett M. Brooks Co. C. E.'s, containing 2.10 acres of land, according to said plan at a price not less than \$6,000.

Upon Motion of Mr. Edward C. Mendler, Jr., duly seconded,

That the property should not be sold for less than \$8,000.00 it was

Voted: In the Negative.

Upon the Main Motion of Mr. Thomas, it was

Voted: First Vote was far from unanimous

Counted Vote: "Yes" 388, "No" 158

The Required 2/3 vote was declared to have carried.

Article 17. To see if the Town will vote to accept as public Town ways, the relocation of the roads known as "Oxbow Road" and "Loker Street," or either of them, or a portion or portions thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land, including easements for drainage and slope, by purchase, gift, eminent domain, or otherwise; to appropriate and assess a sum of money for the acquisition of such land or any portion thereof; and for other costs in connection therewith; or take any action relative thereto.

Upon Motion of Mr. Ela, duly seconded, it was

Voted unanimously: That the Town dispense with the reading of the Order of Laying-out of Loker Street, of the Board of Selectmen in connection with this article.

Upon Motion of Mr. Ela, duly seconded, it was

Voted unanimously: That the Town accept the Laying-out as a Town way that portion of Loker Street, described in the Order of Laying-

out of the Board of Selectmen, dated February 23, 1961, as shown on plan entitled "Plan, Profile and taking Plan of a Part of Loker Street, Wayland, Mass., as Laid Out for the Town of Wayland," on file with the Town Clerk, and authorize the Board of Selectmen to acquire any necessary land, including drainage and slope easements, by eminent domain, purchase, gift or otherwise and that the sum of \$100.00 be appropriated and assessed for the acquisition of such land and easements and for the construction of such way and for other costs in connection therewith.

Article 18. To see if the Town will vote to accept as public Town ways and to construct the roads known as: (1) "Maguire Road, Charles Street, Grace Road, Gage Road and Pleasant Street Extension"; (2) "Sunset Road" and (3) "Bent Avenue", or any of them or a portion or portions thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land, including easements for drainage, by purchase, gift, eminent domain or otherwise; to appropriate and assess a sum of money for the acquisition of such land or any portion thereof, the construction of such ways; and for other costs in connection thereto, with betterments to be assessed under the Betterment Act; or take any action relative thereto.

Upon Motion of Mr. F. A. Smith, duly seconded, it was

Voted unanimously: That the Town dispense with the reading of the Orders of Laying-Out of the Board of Selectmen, in connection with this article.

Duly seconded, Mr. Smith offered the following

MOTIONS: 1. That the Town accept the Laying-out as a public Town way of Maguire Road, as described in the Order of Laying-out of the Board of Selectmen, dated February 23, 1961, and as shown on a plan entitled "Plan and Profile of Maguire Road, Wayland, Mass." on file with the Town Clerk; that the Board of Selectmen be authorized to acquire all necessary land including drainage and slope easements, by purchase, gift, eminent domain or otherwise, and that there be assessed the sum of \$9,881.40 for the acquisition of such land and for the construction of such way and for other costs in connection therewith; and that betterments be assessed under Chapter 80 of the General Laws, in accordance with the Order of Laying-out.

2. That the Town accept the Laying-out as a public Town way of Charles Street, as described in the Order of Laying-out of the Board of Selectmen, dated February 23, 1961, and as shown on a plan entitled "Plan and Profile of Charles Street, Wayland, Mass." on file with the Town Clerk; that the Board of Selectmen be authorized to acquire all necessary land including drainage and slope easements, by purchase, gift, eminent domain or otherwise, and that there be assessed the sum of \$4,719.16 for the acquisition of such land and for the construction of such way and for other costs in connection therewith; and that betterments be assessed under Chapter 80 of the General Laws, in accordance with the Order of Laying-out.

3. That the Town accept the Laying-out as a public Town way of Grace Road, as described in the Order of Laying-out of the Board of

Selectmen, dated February 23, 1961, and as shown on a plan entitled "Plan and Profile of Grace Road, Wayland, Mass." on file with the Town Clerk; that the Board of Selectmen be authorized to acquire all necessary land including drainage and slope easements, by purchase, gift, eminent domain or otherwise, and that there be assessed the sum of \$7,052.00 for the acquisition of such land and for the construction of such way and for other costs in connection therewith; and that betterments be assessed under Chapter 80 of the General Laws, in accordance with the Order of Laying-out.

4. That the Town accept the Laying-out as a public Town way of Gage Road, as described in the Order of Laying-out of the Board of Selectmen, dated February 23, 1961, and as shown on a plan entitled "Plan and Profile of Gage Road, Wayland, Mass." on file with the Town Clerk; that the Board of Selectmen be authorized to acquire all necessary land including drainage and slope easements, by purchase, gift, eminent domain or otherwise, and that there be assessed the sum of \$4,344.20 for the acquisition of such land and for the construction of such way and for other costs in connection therewith; and that betterments be assessed under Chapter 80 of the General Laws, in accordance with the Order of Laying-out.

5. That the Town accept the Laying-out as a public Town way, a portion of Pleasant Street, as described in the Order of Laying-out of the Board of Selectmen, dated February 27, 1961, and as shown on a plan entitled "Plan and Profile of a Part of Pleasant Street, Wayland, Mass." on file with the Town Clerk; that the Board of Selectmen be authorized to acquire all necessary land including drainage and slope easements, by purchase, gift, eminent domain or otherwise, and that there be assessed the sum of \$3,844.20 for the acquisition of such land and for the construction of such way and for other costs in connection therewith; and that betterments be assessed under Chapter 80 of the General Laws, in accordance with the Order of Laying-out.

A Motion of Amendment offered by Robert F. Wells, as Follows:

That Sunset Road and Bent Avenue be included under this Article. was ruled Out of Order, by the Moderator and the Town Counsel, since the required Plans and Orders of Laying-out were not on file with the Town Clerk.

A Motion of Mrs. Mary R. Goodnoh: That none of these streets be accepted under the Betterment Act, unless Bent Avenue and Sunset Road are included.

Was also ruled Out of Order by the Moderator, who meanwhile advised Mrs. Goodnoh that a "No" vote under the existing Motion would accomplish the same effect.

A Motion offered by Mr. Albert A. Statton: That part of the appropriation for this Article be taken out of the "Excess and Deficiency" fund, was also ruled Out of Order, in connection with this Article.

Upon the Main Motion, it was

Voted: First and Second votes gave some "No's"

Counted Vote: "Yes" 456, "No" 16

The required 2/3 vote was declared to have carried.

Article 19. To see if the Town will authorize the Highway Commissioners to make an investigation and study of the feasibility, and cost of construction of a bicycle path running parallel to Route 126 from Route 20 to West Plain Street and to appropriate and assess the sum of \$5,000 therefor; or take any action relative thereto.

Upon Motion of Mr. Jameson, duly seconded, it was

Voted: That the article be passed over.

Article 20. To see if the Town will authorize and instruct the Moderator to set up a committee of five (5) members, consisting of one member from the Park Department, one member from the Finance Committee, one member from the Wayland Chapter of American Red Cross and two members-at-large, to investigate any and all methods of improving safety features and sanitation facilities at the Town Beach at Lake Cochituate and to report at the next Annual Town Meeting, or take any action relative thereto.

Upon Motion of Mr. Ela, duly seconded, it was

Voted: That the Moderator be authorized and instructed to set up a committee of five (5) members, consisting of one member from the Park Department, one member from the Finance Committee, one member from the Wayland Chapter of American Red Cross and two members-at-large, to investigate any and all methods of improving safety features and sanitation facilities at the Town Beach at Lake Cochituate and to report at the next Annual Town Meeting.

Article 21. To see if the Town will vote to accept as public ways the following roads:

- (1) That portion of Dean Road from Station 14 + 0 to end;
- (2) That portion of Snake Brook Road from Station 15 + 50 to end;
- (3) That portion of Old Tavern Road from Station 14 + 50 to end;
- (4) That portion of Sears Road from Station 0 + 0 to Station 24 + 43.93

or either of them, or portions thereof, as set forth by the Board of Selectmen and as shown on plans on file with the Town Clerk, and to authorize the Board of Selectmen to acquire any necessary land or interest therein by deed, gift, or eminent domain and to raise and appropriate a sum of money by such acquisition by eminent domain without any appropriation of money for further construction of such road under the Betterment Act; or take any action relative thereto.

Upon Motion of Mr. Loker, duly seconded, it was

Voted unanimously: That the Town dispense with the reading of the Order of Laying-out of the Board of Selectmen in connection with this article.

Upon Motion of Mr. Loker, duly seconded, it was

Voted unanimously: That the Town accept the Laying-out as a public Town way Sears Road as described in two Orders of Laying-out of the Board of Selectmen, both dated February 23, 1961 and as shown on two plans entitled "Plan of Land in Wayland, Mass." on file with the Town Clerk and authorize the Board of Selectmen to acquire any necessary land, including drainage easements, by eminent domain, purchase, gift or otherwise, and that the sum of \$100.00 be appropriated and assessed for the acquisition of such land and easements and for other costs in connection therewith.

Article 22. To see if the Town will vote to accept as a public way or any portion or portions thereof, as laid out by the Board of Selectmen, and as shown on a plan on file with the Town Clerk; and to authorize the Board of Selectmen to acquire any necessary land or interests therein by deed of gift and/or by eminent domain; and to raise and appropriate the sum of one dollar for such acquisition by eminent domain; without any appropriation of money for further construction of said road under the Betterment Act or otherwise; or take any action relative thereto; the road above referred to being the following:

The portion of Gammons Way shown on the plan entitled "Subdivision Plan of Land in Wayland, Mass." dated February 28, 1958, by Everett M. Brooks Co., Civil Engineers, being Land Court Plan No. 18189J filed with the Land Registration Office.

Upon Motion of Mr. Loker, duly seconded, it was

Voted unanimously: That the Town dispense with the reading of the Order of Laying-out of the Board of Selectmen in connection with this article.

Upon Motion of Mr. Loker, duly seconded, it was

Voted unanimously: That the Town accept the Laying-out as a public Town way a portion of Gammons way, as described in the Order of Laying-out of the Board of Selectmen, dated February 23, 1961 and as shown on a plan entitled "Subdivision Plan of Land in Wayland, Mass." dated February 28, 1958, by Everett M. Brooks Co., Civil Engineers, being Land Court Plan No. 18189J filed with the Land Registration Office, and on file with the Town Clerk; that the Board of Selectmen be authorized to acquire all necessary land including drainage and slope easements, by purchase, gift, eminent domain or otherwise, and that there be assessed the sum of \$1.00 for the acquisition of such land and for other costs in connection therewith.

Article 23. To see if the Town will vote to change the term of the following elective officers from one to three years; Town Clerk, Town Treasurer, Town Collector; or take any action relative thereto.

Upon Motion of Mr. R. M. Morgan, duly seconded, it was

Voted unanimously: That the Town change the term of Town Clerk, Town Treasurer and Town Collector to three (3) years, the term of the

Town Clerk to be set at 3 years beginning with the Town election in March 1962, the term of Town Treasurer be set at 3 years beginning with the Town election in March 1963 and the term of the Town Collector be set at 3 years beginning with the Town Election in March 1964.

Article 24. To see if the Town will vote to authorize the Board of Health to appoint one of its members as Agent for said Board for a term not exceeding one (1) year and to fix the salary of such appointee; or take any action relative thereto.

Upon Motion of Mr. Jameson, duly seconded, it was

Voted: That the article be passed over.

Upon Challenge of seven persons, there was a

Counted Vote: "Yes" 271, "No" 64

Article 25. To see if the Town will vote to authorize the Board of Selectmen to petition the Massachusetts General Court for legislation to require the Massachusetts Department of Public Utilities to instruct and/or order the Boston Edison Company to locate any new power lines underground within the boundaries of the Town of Wayland, and to employ legal counsel to represent the Town at any hearing before the General Court and to take all appropriate legislative measures necessary to secure the passage of such legislation and to raise and appropriate a sum of money therefor; or take any action relative thereto.

Duly seconded, Mr. William C. Moyer offered the following

MOTION: That the Town authorize the Board of Selectmen to petition the Massachusetts General Court for legislation to require the Massachusetts Department of Public Utilities to instruct and/or order the Boston Edison Company to locate any new power lines underground within the boundaries of the Town of Wayland and authorize the Town Counsel to represent the Town at any hearing before the General Court and authorize the Selectmen to appoint a committee of five (5) persons to work with and through groups in other towns seeking to affect the passage of legislation to require the public power companies to locate their lines underground.

Duly seconded, Mr. Moyer then amended his own Motion (in response to comment from the floor):

To add the words, "high voltage" between the words "new" and "power", so that the clause would read, "order the Boston Edison Company to locate any new high voltage power lines underground"

This Amendment was

Voted: In favor.

Mr. Henry H. Kolm offered a

MOTION: To appropriate a sum of \$2,000. to be used in this connection, as the Town Counsel sees fit.

This Motion was not seconded, and therefore, not voted upon.

Upon Main Motion, as amended, of Mr. Moyer, it was

Voted: 1st Vote was not unanimous.

Counted Vote: "Yes" 284, "No" 25

The required 2/3 vote was declared to have carried in favor of the Motion.

Article 26. To see if the Town will vote to re-zone the land on the Southerly side of Commonwealth Road (the old Commonwealth Road) in Wayland, shown as Parcel 1 on Subdivision Plan of Land in Wayland and Natick, filed in the Land Registration Office, South Registry District of Middlesex County in Registration Book 603, Page 80 with Certificate 94630; from single family residence to limited commercial.

Upon Motion of Mr. Robert H. Charnock, duly seconded, it was

Voted unanimously: That the article be passed over.

Mr. Charnock also read the Report of the Planning Board in connection with this article, before the vote was taken.

Article 27. To see if the Town will vote to accept the provisions of Section 8C of Chapter 40 of the General Laws, inserted by Section 1 of Chapter 223 of the Acts of 1957, so that it may establish a conservation commission for the promotion and development of the natural resources and for the protection of watershed resources of the Town, or take any action relative thereto.

Duly seconded, Mr. Allen H. Morgan offered the following

MOTION: That the Town accept the provisions of Section 8C of Chapter 40 of the General Laws, inserted by Section 1 of Chapter 223 of the Acts of 1957, and establish a Conservation Commission of three (3) members to be appointed by the Selectmen; that it is the sense of the Town Meeting that one member should be appointed from the Finance Committee, one member from the Planning Board and one member at large.

A **MOTION** of Amendment was offered: To increase the number of members of this Commission to seven (7) and direct that there be one member from the Finance Committee, one member from the Planning Board and five (5) members at large, to be chosen by the Selectmen with due regard to distributing the representation within the Town.

The Moderator advised the maker of this Motion (Amendment) that the article, as it appeared in the Warrant did not permit the Meeting to instruct or order how the Selectmen should appoint the members; such a motion would have to be limited to be merely advisory.

Accordingly the maker of this Motion rephrased his

AMENDMENT: To increase the membership of the Conservation Commission to seven (7) members, and to suggest that one member be appointed from the Finance Committee, one from the Planning Board, and five (5) members at large.

This having been duly seconded, it was

Voted: In favor.

Upon Motion of Mr. A. H. Morgan, duly seconded, it was

Voted: To amend the previous Motion by suggesting that one member be appointed from the Water Commissioners, leaving four (4) members at large.

Upon inquiry by Mrs. Marie L. Cutler, whether it would be possible to limit the authority of this commission to land that is not more than 116 feet above sea level;

The Moderator replied that such action would not be in order at this time, since all the Article called for was acceptance of the specified legislation and establishment of a Conservation Commission. He further pointed out, however, that such action could be taken at a later date by insertion of an appropriation in some later warrant, and placing a limitation upon such appropriation.

Upon Motion of Mr. Frank A. Smith, duly seconded
for: "The Previous Question" (Main Motion, e.g.) . . . it was

Voted: First two votes were not unanimous.

upon third vote: "Yes" 242, "No" 3

Upon Main Motion, as amended, it was

Voted: First vote was declared in doubt.

Upon **Counted Vote:** "Yes" 137, "No" 106

This vote was declared to have carried in favor.

Upon Motion of Mr. Walter R. Koe,

To Adjourn the meeting until the following week;
it was **Voted:** In the negative.

Article 28. To see if the Town will vote to amend the Building Code by adding the following sections:

1. "No swimming pool, either public or private, shall hereafter be installed or altered, nor shall the water supply or piping in connection therewith be installed or altered, without a permit first being issued by the Building Inspector."
2. "All swimming pools, either public or private, constructed in the Town shall be properly fenced, or otherwise protected, so as to prevent danger to life or limb;"

or take any action relative thereto.

Upon Motion of Mr. Jameson, duly seconded, it was

Voted: That the article be passed over.

Article 29, To see if the Town will vote to amend its Building Code by adding the following section:

“After the foundation of the building has been constructed, an engineer’s or surveyor’s plot plan shall be furnished the Building Inspector. The plan shall show the size of the building, the shortest distance from each lot line to the nearest point of the building to that lot line and the shortest distance from the street line to the nearest point of the building to that street line. It must also show the width of the street at the point where the setback distance is given. This plan shall be made by an accredited engineer or land surveyor and include a statement that all distances are correct, such statement to be signed by the engineer or surveyor who prepared the plan;”
or take any action relative thereto.

Upon Motion of Mr. F. A. Smith, duly seconded, it was
Voted: That the article be passed over.

Article 30. To see what sum, if any, the Town will vote to transfer from available funds to meet any of the appropriations made under the foregoing articles.

Before the vote under this article, the Moderator took the opportunity to thank the high school students and faculty, and other persons, who had contributed to the smooth operation of this meeting.

Upon Motion of Mr. R. M. Morgan, duly seconded, it was
Voted: That the article be passed over.

Upon Motion, duly seconded, it was
Voted: To Adjourn the Meeting — at 12:10 a.m.

LEILA SEARS,
Town Clerk of Wayland.

VOTES ENACTED AT THE SPECIAL TOWN MEETING

Held: Wednesday, June 21, 1961

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant dated May 29, 1961, signed by Thomas Francis Linnehan, Frank S. Tarr and George K. Lewis, Selectmen, service and return of said Warrant having been duly given by Ernest H. Damon, Constable, the inhabitants of the Town of Wayland qualified to vote in Town Meeting, Assembled this day; and at 7:50 p.m. the Moderator called the meeting to order, declared a quorum to be present and the meeting proceeded to transact the following business:

Article 1. To see if the Town will vote to appropriate and assess or transfer from available funds a sum of money for

Highway Department — Snow Removal
Health Department — Garbage Removal
Water Department — Water Main Extensions:
Grace Road — (Gage Road to Fuller Road)

or take any action relative thereto.

Upon Motion of Mr. Robert M. Morgan, duly seconded, it was

Voted unanimously: That there be appropriated the following sums of money for the operation of the departments enumerated:

Highway Department — Snow Removal — \$3,000
Health Department — Garbage Removal — \$2,200
Water Department — Water Main Extension:
Grace Road (Gage Rd. to Fuller Rd.) — \$1,500

and that the necessary funds be provided for the first two items by the transfer of \$5,200 from "Excess and Deficiency" and for the third item \$1,500 from "Water Available Surplus."

Article 2. To see if the Town will vote to determine that there is no longer a need for the use of a Redevelopment Authority in the Town of Wayland and that the existing Redevelopment Authority should, in the best interests of the people of Wayland, dissolve itself in accordance with statutory provisions.

Duly seconded, Mr. Paul Poirier offered the following

MOTION: That the Town hereby determine that there is no longer a need for the use of a redevelopment authority in the Town of Wayland and that the existing Redevelopment Authority should, in the best interest of the people of Wayland, dissolve itself in accordance with statutory provisions.

Mr. Laurence S. Fordham presented a Report of the Wayland Redevelopment Authority, relating to this Article.

Upon Mr. Poirier's Motion, there was a

Counted Vote: "Yes" 268, "No" 333

Article 3. To see if the Town will vote to authorize the Board of Selectmen with the approval of the Town Counsel to sell at private sale the lot owned by the Town bounded and described as follows:

A certain parcel of land situated in said Wayland and being the easterly portion of Lot No. 99 as shown on a plan recorded with Middlesex South District Registry of Deeds, Plan Book 268, Plan 17, and bounded

Beginning at the easterly corner thereof at the intersection of Sycamore Road with Chestnut Road on said plan thence running SOUTHWESTERLY by said Sycamore Road 78.66 feet to a stake; thence

NORTHWESTERLY by the remaining portion of said lot No. 99, 125 feet, more or less, to a stake in the division line between Lots No. 99 and No. 100 on said plan; thence

NORTHERLY by said Lot No. 100, 28.19 feet to said Chestnut Road; thence

SOUTHEASTERLY by said Chestnut Road in two courses on said plan, 77.38 feet and 86.25 feet to the point of beginning;

or take any action relative thereto.

Duly seconded, Mr. Roger E. Ela offered the following

MOTION: That the Board of Selectmen, with the approval of the Town Counsel, be authorized and empowered to sell at private sale to the owner of the westerly portion of Lot No. 99 for \$100.00 a certain parcel of land situated in said Wayland and being the easterly portion of Lot No. 99 as shown on a plan recorded with Middlesex South District Registry of Deeds, Plan Book 268, Plan 17, and bounded

(Mr. Ela omitted to read the description of the property in question, with unanimous consent of the Meeting, since it followed exactly the language of the Article).

on condition that the easterly and westerly portions of Lot 99 shall be combined into a single building lot containing approximately 10,875 square feet.

Duly seconded, Mr. Garret F. Ziffer, offered the following **Motion of AMENDMENT:** That the price for said parcel be "no less than \$1,500.00"

Upon this Motion, it was

Voted: In the Negative.

Voice vote being challenged by seven (7) persons, there was a

Counted Vote: "Yes" 203, "No" 225

Upon the Main Motion of Mr. Ela, it was

Voted: In the Negative.

Article 4. To see if the Town will vote to authorize the Board of Selectmen with the approval of the Town Counsel to purchase, take by

eminent domain, gift or otherwise a parcel of land located on the easterly side of Old Connecticut Path at the junction of the road to the new high school, for highway purposes, as shown on a plan entitled "Plan of Land in Wayland, Mass., by MacCarthy Engineering Service, dated May 27, 1961, bounded and described as follows:

SOUTHEASTERLY by Old Connecticut Path 103.21 feet;

NORTHERLY by land of George L. Nolan marked "10 foot wide slope easement" on above-mentioned plan 28.00 feet and 73.11 feet;

WESTERLY by land of the Town of Wayland 25.11 feet;

and appropriate and assess a sum of money therefor; or take any action relative thereto.

Duly seconded, Mr. Charles R. Thomas offered the following

MOTION: That the Board of Selectmen with the approval of the Town Counsel, be authorized and directed to take by eminent domain a parcel of land located on the easterly side of Old Connecticut Path at the junction of the road to the new high school, for highway purposes, as shown on a plan entitled "Plan of Land in Wayland, Mass., by MacCarthy Engineering Service, dated May 27, 1961," bounded and described as follows:

SOUTHEASTERLY by Old Connecticut Path 103.21 feet;

NORTHERLY by land of George L. Nolan marked "10 foot wide slope easement" on above-mentioned plan 28.00 ft. and 73.11 ft.;

WESTERLY by land of the Town of Wayland 25.11 feet;

and that there be appropriated therefor and transferred from "Excess and Deficiency" the sum of \$100.00.

Upon 1st Vote there was nowhere nearly a unanimous vote. Because a 2/3 vote would be required there was a

Counted Vote: "Yes" 285, "No" 181

This did not carry the required 2/3 vote, and the motion was lost.

Article 5. To see if the Town will vote to authorize the Board of Selectmen with the approval of the Town Counsel to purchase, take by eminent domain, gift or otherwise, for highway purposes, a right of way three (3) feet in width and a slope easement ten (10) feet in width on the easterly side of Old Connecticut Path extending from the new high school entrance road to Davelin Road, shown on a plan entitled "Plan of Land in Wayland, Mass. by MacCarthy Engineering Service, dated May 27, 1961" bounded and described as follows:

NORTHWESTERLY by the line of Old Connecticut Path the following distances: 114.75 feet, 288.93 feet, 207.27 feet, 260.15 feet, 41.30 feet, 180.64 feet and

NORTHERLY by the curved line of Old Connecticut Path and Rolling Lane 40.93 feet;

SOUTHERLY by land of Evelyn M. Carpenter 40.95 feet;

SOUTHWESTERLY by land of Evelyn M. Carpenter 180.96 feet and by land of George L. Nolan 39.39 feet; 260.15 feet, 207.88 feet, 288.93 feet and 115.44 feet and

WESTERLY by land of Laura E. Schofield 3.18 feet at

SOUTHERLY line of said taking with NORTHERLY line of the 10 foot slope easement as shown on above-mentioned plan; and appropriate and assess a sum of money therefor; or take any action relative thereto.

Upon Motion, duly seconded, of Mr. Charles R. Jameson, it was

Voted: That the Board of Selectmen, with the approval of the Town Counsel, be authorized and directed to take by eminent domain for highway purposes, a right of way three (3) feet in width and a slope easement ten (10) feet in width on the easterly side of Old Connecticut Path extending from the New high school entrance road to Davelin Road, shown on a plan entitled "Plan of Land in Wayland, Mass. by MacCarthy Engineering Service, dated May 27, 1961" bounded and described as follows:

(Description of the property was not read by Mr. Jameson, since it followed exactly the language of the Article, as printed in the Warrant.)

and that there be appropriated therefor and transferred from "Excess and Deficiency" the sum of \$200.00.

1st Vote was not unanimous.

2nd Vote was unanimously in favor of the Motion.

Article 6. To see if the Town will vote to authorize the Selectmen with the approval of the Town Counsel to purchase for cemetery use the following parcels of land in Wayland contiguous to and lying north and west of Lakeview Cemetery and off Pemberton Road, as shown on a plan entitled "Plan of Land in Wayland, Mass., dated November 1, 1960 by Everett M. Brooks Co., Civil Engineers," said premises being further described as follows:

- (1) Land of Raymond S. and Dorothy E. Deane 1,315 square feet;
- (2) Land of Emma A. Revell 8,185 square feet;
- (3) Land of John B. and Helen J. Larkin 28,365 square feet; and
- (4) Land of Timothy L. and Ellen J. Wentworth 30,369 square feet.

and will appropriate a sum of money therefor from available funds, or take any action relative thereto.

Upon Motion of Mr. Francis A. Fisher, duly seconded, it was

Voted unanimously: That the Board of Selectmen, with the approval of the Town Counsel, be authorized to purchase for cemetery use the following parcels of land:

(1) A certain parcel of land shown as Lot A on a plan entitled "Plan of land in Wayland, Mass." by Everett M. Brooks Company C. E., dated June 1, 1961 bounded and described as follows:

Beginning at a point at the Northwesterly lot corner of Raymond S. and Dorothy B. Deane as shown on above mentioned plan; then running

S 27 23 00 W sixteen and 41/100 (16.41) feet, thence
N 87 11 33 W eighty-seven and 42/100 (87.42) feet, thence
N 16 46 46 E fifteen and 08/100 (15.08) feet; thence

S 87 22 41 E ninety and $61/100$ (90.61) feet to the point of beginning;
Containing 1315 sq. ft. of land according to said plan

(2) A certain parcel of land shown as Lot B on a plan entitled "Plan of Land in Wayland, Mass." by Everett M. Brooks Company C. E., dated June 1, 1961 bounded and described as follows:

Beginning at a point at the Northwesterly lot corner of Emma A. Revell as shown on above mentioned plan; then running
S 27 23 00 W ninety and $84/100$ (90.84) feet; thence
N 87 22 41 W ninety and $61/100$ (90.61) feet; thence
N 16 46 46 E eighty-four and $42/100$ (84.42) feet; thence
N 87 10 26 W one hundred seventy-four and $64/100$ (174.64) feet; thence
S 87 22 41 E two hundred eighty-two and $65/100$ (282.65) feet to the point of beginning.
Containing 8,185 sq. ft. more or less;

(3) A certain parcel of land shown as Lot C on a plan entitled: "Plan of Land in Wayland, Mass." by Everett M. Brooks Company C. E., dated June 1, 1961 bounded and described as follows:

Beginning at a point at the Northwesterly lot corner of John and Helen Larkin as shown on above mentioned plan; thence running
S 27 23 00 W one hundred six and $56/100$ (106.56) feet; thence
N 87 22 41 W two hundred eighty-two and $65/100$ (282.65) feet; thence
N 16 51 39 E one hundred and $13/100$ (100.13) feet; thence
S 87 19 23 E three hundred two and $65/100$ (302.65) feet to the point of beginning
Containing 28,365 sq. ft.;

(4) A certain parcel of land shown as Lot D on a plan entitled "Plan of Land in Wayland, Mass." by Everett M. Brooks Company C. E., dated June 1, 1961 bounded and described as follows:

Beginning at a point at the Northwesterly lot corner of Timothy L. and Ellen J. Wentworth as shown on above mentioned plan; thence running
S 27 23 00 W one hundred six and $55/100$ (106.55) feet; thence
N 87 19 23 W three hundred two and $65/100$ (302.65) feet; thence
N 16 55 09 E one hundred and $56/100$ (100.56) feet; thence
S 87 12 14 E three hundred twenty-two and $44/100$ (322.44) feet to the point of beginning;
Containing 30,369 sq. ft.

and that there be appropriated therefor a total sum of \$2,850.00 to be divided as follows: \$50.00 for the Deane property, \$400.00 for the Revell property, \$1,150.00 for the Larkin property and \$1,250.00 for the Wentworth property, the funds to be transferred from "Sale of Cemetery Lots and Graves."

Article 7. To see if the Town will vote to raise and appropriate a sum of money for the preparation of plans and specifications and for the construction of an addition to the Claypit Hill Grade School, and for originally equipping and furnishing said addition; to determine whether

the money shall be provided for by appropriation from available funds in the Treasury, by taxation and/or by borrowing; or take any action relative thereto.

Duly seconded, Mr. Allan R. Finlay offered the following

MOTION: That the Sum of \$285,000 be raised and appropriated for the preparation of building plans and specifications and for the construction of an addition to the Claypit Hill Grade School and for originally equipping and furnishing said addition, and that to meet such appropriation there be transferred from "Excess and Deficiency" the sum of \$285,000; that the committee originally appointed in accordance with the vote under Article 19 in the Warrant for the Annual Town Meeting held in March 1947 be authorized and directed to enter into all necessary contracts and agreements for the architectural and engineering work, construction, equipping, furnishing and site preparation of said building.

Mr. Finlay then presented the Report of the School Building Committee, which was placed on file with the Town Clerk. The Report summarized the pattern of growth of school needs, indicating that the point of most acute pressure for space was at the Claypit Hill School; with the need for expansion at the Loker School anticipated perhaps for the following year. The report also indicated an attempt to slow up any further expansion of school facilities, and to avoid any further increase in the long-term borrowing by the Town.

Upon Mr. Finlay's Motion, it was

Voted unanimously: In favor.

Article 8. To see if the Town will vote to authorize the Board of Selectmen, with the approval of the Town Counsel, to sell at public auction a lot consisting of at least 60,000 square feet with at least 210 foot frontage on Claypit Hill Road, lying on the easterly side of land now or formerly of Elizabeth S. Woodward; or take any action relative thereto.

Duly seconded, Mr. Fisher offered the following

MOTION: That the Board of Selectmen, with the approval of the Town Counsel, be authorized to sell at public auction a parcel of land on the Claypit Hill School site in Wayland, Mass., shown as Lot 1 on a plan entitled "Plan of Land in Wayland, Mass." by Everett M. Brooks Co. dated April 7, 1961, bounded and described as follows:

Beginning at a point on the Northeasterly sideline of Claypit Hill Road which is 72.16 Northwesterly of a point of curvature as shown on above mentioned plan; thence

N 47 43 42 W two hundred fifty-two and 52/100 (252.52) feet; thence

N 35 19 13 E three hundred twenty-six and 22/100 (326.22) feet; thence

S 54 40 47 W two hundred fifty and 66/100 (250.66) feet; thence

S 35 19 13 W three hundred fifty-six and 78/100 (356.78) feet to the point of beginning;

Containing 2.0 acres more or less;
at a price of not less than \$6,000.

Upon this Motion, it was

Voted: In the Negative.

Upon Motion of Mr. Morgan, duly seconded, it was

Voted: To adjourn the Meeting at 10:40 p.m.

Town Clerk of Wayland

VOTES ENACTED AT THE SPECIAL TOWN MEETING

Held: Wednesday, December 20, 1961

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:—

Pursuant to the Warrant dated November 21, 1961, signed by George K. Lewis, Thomas F. Linnehan and Frank S. Tarr, Selectmen, served and return of service given by Ernest H. Damon, Constable, the inhabitants of the Town of Wayland qualified to vote in Town Meeting, assembled this day; and at 7:45 P. M. the Moderator called the meeting to order, declared that a quorum was not present, and immediately recessed the meeting until 8:00 P. M.

At 8:00 P. M., the Moderator again called the Meeting to order, declared a quorum to be present and the meeting proceeded to transact the following business:

Article 1. To see if the Town will vote to authorize the transfer from available funds "Excess and Deficiency Account" to a Stabilization Fund, the sum of \$100,000; or take any action relative thereto.

Duly seconded, Mr. Robert M. Morgan offered the following

MOTION: That there be transferred from available funds—"Excess and Deficiency Account" to the "Stabilization Fund," the sum of \$100,000.

Mr. Allan R. Finlay, Chairman of the School Building Committee presented a report of that Committee in relation to this Article, explaining the need for such a stabilization fund, in view of School Building plans for the near future; and relating to an effort to avoid and/or minimize any further long-term borrowing by the Town. Mr. Finlay then placed the Report on file with the Town Clerk.

Upon Mr. Morgan's Motion, it was

Voted unanimously: In favor.

Article 2. To see if the Town will vote to appropriate and transfer from available funds or from appropriation balances, a sum or sums of money for the operation and expenses of any or all of the following departments:

Protection

Police — Signs and Traffic Lines

Health

Collection of Garbage

Highway

Garage Repairs and Maintenance

Snow Removal

Sherman Bridge — Repairs

Street Lighting

Park and Recreation

Life Guards and Matrons

Dam Repair — Millbrook Pond

or take any action relative thereto.

Upon Motion of Mr. Roger E. Ela, duly seconded, it was

Voted unanimously: That there be appropriated for the operation and expenses of the following departments, the amounts set forth totalling \$14,653.36, and that funds be provided by a transfer from available funds — “Excess and Deficiency Account”:

Protection	
Police — Signs and Traffic Lines	\$790.26
Health	
Collection of Garbage	1,565.34
Highway	
Garage Repairs and Maintenance	300.00
Snow Removal	6,000.00
Sherman Bridge — Repairs	681.06
Street Lighting	1,782.13
Park and Recreation	
Life Guards and Matrons	994.57
Dam Repair — Millbrook Pond	2,540.00
	<hr/>
TOTAL	\$14,653.36

Article 3. To see if the Town will vote to appropriate and transfer the appropriation balance in the account

Highway

Chapter 90 Construction — Commonwealth Road
East to Highway

Chapter 90 Construction — Old Connecticut Path

or take any action relative thereto.

Upon Motion of Mr. William A. Loker, duly seconded, it was

Voted: That there be appropriated for Highway — Chapter 90 Construction — Old Connecticut Path, the sum of \$12,000, and that the funds therefor be provided for by transfer from the balance in the account Highway — Chapter 90 Construction — Commonwealth Road East.

Vote: First Vote was declared in doubt.

Counted Vote: “Yes” 70 “No” 48.

Article 4. To see if the Town will vote to close out and transfer to “Excess and Deficiency Account” the following:

Highway

Chapter 90 — Maintenance 1961

\$.42

Highway

Chapter 90 — Construction 1959

.44

or take any action relative thereto.

Upon Motion of Mr. Loker, duly seconded, it was

Voted: That the Town close out by transferring to “Excess and Deficiency Account” the following:

Highway

Chapter 90 — Maintenance 1961

\$.42

Highway

Chapter 90 — Construction 1959

.44

Article 5. INSPECTOR OF GAS PIPING AND GAS APPLIANCES. To see if the Town will vote to amend its By-Laws by adding a new section as follows:

Section 1. The Board of Selectmen shall in each year, after its organization, appoint an Inspector of Gas Piping and Gas Appliances in buildings whose duty shall be the enforcement of the rules and regulations adopted by the Board established by General Law, Chapter 25, Section 12H, inserted by Section 1 of Chapter 737 of the Acts of 1960 and amendments thereto.

Upon Motion of Mr. James D. Wells, duly seconded, it was

Voted unanimously: That the Town amend its By-Laws by adding a new section to be designated as "Article 16 — Inspector of Gas Piping and Gas Appliances" as follows:

"The Board of Selectmen shall in each year, after its organization, appoint an Inspector of Gas Piping and Gas Appliances in buildings, whose duty shall be the enforcement of the rules and regulations adopted by the Board established by General Law, Chapter 25, Section 12H, inserted by Section 1 of Chapter 737 of the Acts of 1960 and amendments thereto.

Article 6. To see if the Town will vote to accept the provisions of General Law, Chapter 40A, Section 20, and amendments thereto.

Upon Motion of Mr. Frank W. Kilburn, duly seconded, it was

Voted: That the Town accept the provisions of the General Law, Chapter 40A, Section 20, and amendments thereto.

Upon Motion, duly seconded, it was

Voted: To adjourn the Meeting — at 9:15 P. M.

A true copy,

Attest:

LEILA SEARS,
Town Clerk of Wayland.

Ziffer, Garrett F.	52 Sherman Bridge Road	Electrical Engineer	Sylvania Electronic 189 "B" Street, Needham

THE CEMETERY COMMISSIONERS

The paving of existing roads in the North and Lakeview has been completed and a cinder block utility building was erected in Lakeview Cemetery.

The development of Lakeview Cemetery is proceeding at a suitable pace to keep up to the increasing activity and with the purchases of land adjacent to the cemetery we will have new lots available when they are needed.

There were eighty burials this year for which we collected \$4,145. Sixty-two burials were made in Lakeview Cemetery and eighteen in the North Cemetery.

The new lots which were sold are as follows: Seven lots sold in the North Cemetery and twenty-six lots sold in the Lakeview Cemetery.

Receipts were in the total of \$2,115.

Income from Annual Care was \$1,230.

Foundations for monuments income was \$247.

Fifteen Perpetual Care gifts were made totaling \$1,950.

Fifteen Perpetual Care gifts given by the following people in the year 1961:—

Agnes C. Decatur for perpetual care of Lot 74, North Ext.	\$200.00
Richard E. Quigley for perpetual care of Lot 17, Plot A, Section M, Lakeview	50.00
Donald Hyde for perpetual care of Lot 15A, Lovell North Joseph Hallenbrook for perpetual care of Lot 8, Section L, Lakeview	100.00 200.00
Robert Bourette for perpetual care of Lot 7, Section K, Lakeview	100.00
Quo V. Heggen for perpetual care of Lot 32, Section F, Lakeview	50.00
Florence Mathews for perpetual care of Lot 48A, Section M, Lakeview	100.00
Bertha Cipoletta for perpetual care of Lot 75, Section F, Lakeview	200.00
Elmer J. Smith for perpetual care of Lot 77, Section M, Lakeview	200.00
Lillian P. Draper for perpetual care of Lot 182, North	200.00
Myrtle Fisher for perpetual care of Lot 8, Plot A, Section M, Lakeview	50.00
Mabel Connelly for perpetual care of Lot 43, Section F, Lakeview	100.00
Eleanor Scotland for perpetual care of Lot 20B, Section C, Lakeview	200.00
Alphonse Blanchette for perpetual care of Lot 93, Section K, Lakeview	100.00
Robert K. Jones for perpetual care of Lot 47, Section M, Lakeview	100.00
	\$1,950.00

REPORT OF THE LIBRARY

During 1961 plans for rewiring the library and enclosing an end of the front balcony were carried out successfully. New fixtures in the stacks, balconies and ceiling of the main library have made a great improvement of the lighting in the areas involved. In the balcony an ornamental ironwork fence was installed, new shelving built in, and the older books in the collection were reshelved in the section, together with special collections of books by Wayland authors, and on Wayland history. Plans are now completed for repairing the badly cracked ceilings, and repainting the interior where needed.

The children's room in the main library, first opened in late January of 1960, has proved its worth during the time that it has been in operation. Limited by the space available for books and people, it is used to capacity and beyond. The same is true of the Young People's room and the general reference section. It is a truly challenging situation for the library staff.

For several months during the year we were handicapped by a dangerously small staff. At present we are in a position to cover emergencies and even to make plans for expanded services. The schedule for evening hours at the main library has been changed. We are now open from 7 to 9 on Monday, Wednesday and Friday evenings. In the coming year we plan to develop work with the elementary grades. A start was made in early 1961 with a series of school visits by Miss Connor. Until the close of school in June, one first grade class from the Cochituate school visited the branch library each week for a story hour period. This program could not be resumed in September since we had no one on the staff to continue it.

Staff changes during the year included the return of Mrs. John Baldwin to the main library, Mrs. Edward J. Forbes to the Cochituate Branch in September, Miss Elizabeth Connor, who left the branch in August because of illness, back to the children's room in late December.

The library is grateful to the many people who have given books and periodicals during the year, to the League of Women Voters for its gift of a subscription to the United Nations Review, and to the Garden Club for the flower arrangements and special decorations which have graced the library.

REPORT OF THE BUILDING INSPECTOR

The Building Inspection Department submits the following report for the year ending December 31, 1961:

Building Permits:

- 99 New Houses
- 55 Alterations
- 4 Car Ports
- 11 Porches
- 12 Buildings torn down
- 14 Garages
- 1 Removal of Porch
- 7 Sheds
- 1 Patio Roof
- 1 Cow Barn
- 1 Dormer
- 1 Green House and Garage
- 2 Dwellings moved
- 1 Blast Shelter
- 1 Test Building
- 1 Den
- 1 Stable
- 1 Retail Store
- 1 Coffee Shop
- 1 Removal of Garage and Farm Buildings
- 1 Nursing Home
- 1 Addition to School
- 1 Office

Wiring Permits:

- 109 New Houses
- 115 Alterations
- 7 Garages
- 5 Electrically controlled gas burners
- 11 Oil Burners
- 5 Swimming pools
- 2 Car Ports
- 3 Signs
- 8 Dryers
- 1 Store
- 2 Fire alarm detection systems
- 1 Air Conditioner
- 1 Barn
- 2 Sheds
- 1 Nursing Home
- 4 Electric Hot Water Heaters
- 1 Coffee Shop
- 1 Traffic Light Control

The total estimated cost of all building permits issued which includes commercial buildings, new houses, alterations, accessory buildings, garages, etc., amounted to \$2,232,688.00.

The total estimated cost of all non-taxable buildings amounted to \$191,130.00. The total estimated cost of all, amounted to \$2,423,818.00.

NEW HOUSE DEVELOPMENT BY PRECINCT

<i>Year</i>	<i>Cochituate</i>	<i>Wayland</i>	<i>Total</i>
1957	40	86	126
1958	60	74	134
1959	40	85	125
1960	58	94	152
1961	37	62	99

As in the past few years, National Electrical Week was observed in February by submitting an article to the local paper outlining its purpose, and pamphlets, "Electricity In Your Home" were distributed to the sixth grade students in the various elementary schools throughout the town, through the co-operation of Mr. Edward Anderson, Superintendent of Schools, and his associates. These pamphlets were, primarily, a guide for the students, with their parents, to check electrical defects in their homes; to be followed through, in the promotion of safety, by having repairs made if necessary. (It is the intent of the promoters of this program to ask the sixth grade students each year to co-operate in this type of safety program. Thereby, over a period of years, all students going through our school system will have the benefits of this electrical survey.)

Commercial, Farm, Municipal, etc., permits consisted of:

1. **JANUARY:**

A commercial car-port permit was issued to Wayland Associates, Boston Post Road.

2. **APRIL:**

A permit was issued to Hyman Shick for the construction of a cow barn on Moore Road.

3. **MAY:**

A Nursing Home permit was issued to Louis Nathanson, on East Commonwealth Road, to accommodate fifty patients. This building was completed in December.

4. **JUNE:**

Woodland Dairy was issued a permit to build a Coffee Shop at the intersection of Main and East Plain Streets.

5. **JULY:**

A permit was issued to William L. Bolton and William Curley, Jr., for a retail store on the Boston Post Road.

6. **OCTOBER:**

A permit was issued in 1960, to Dominic Strazzulla, at 177 East Commonwealth Road, for a block of retail stores. The building was completed and in operation this year.

7. **DECEMBER:**

The School Department was issued a permit for a ten room addition to the Claypit Hill School.

Several new developments and roads were started this year, and are at various stages of construction, as follows:

Forest Hills Road, extending from Old Connecticut Path East, by the Swiedler Building Corporation.

The turn-around at the end of Cole Road was extended to accommodate four more lots.

A development by Mr. Einar P. Robsham, relocating part of Oxbow Road, with the addition of one new street — Campbell Road.

Forty Acres Drive, extending from Cochituate Road, by William A. Rowe.

During the month of September, this department received many calls in regard to Blast Shelters. The Building Department has cooperated with the Civilian Defense Director, Mr. Francis Gallagher, in this matter, and numerous pamphlets are available at the Town Office Building, printed by the Federal Government, with information for the home-owner. However, some of these calls went beyond family shelters to community and municipal shelters. The Selectmen appointed a committee to advise on structural engineering of these larger shelters, also to observe what other communities are doing in this matter. The committee consists of Ronald D. Haggerty, Delvin E. Kendall and Edward G. Nagle.

This past year, eight new houses had Blast Shelters built while the basement walls were under construction. One such permit was issued to an existing house.

Three permits were issued in 1961, for the wiring of electrically heated homes. These were the first of this type issued in the town.

The Building Department took an active part on the Condemnation Committee and a detailed report of the work accomplished may be found elsewhere in the Town Report.

Sixty-one Zoning variances were prepared and presented to the Zoning Board of Appeals for decision.

During 1961, the Fire and Building Departments continued the inspection program which we started in 1957. The types of buildings which we inspected included schools, churches, auditoriums, rest homes, stores, taverns, and multiple family dwellings. The inspection consisted of structural strength of the buildings, electrical wiring systems, oil burning equipment, rubbish accumulation, exit signs, emergency lighting equipment, fire extinguishers, chimneys, storage of flammable liquids and paints, etc. After these inspection tours, letters were sent to property owners or the building committee concerned. Their cooperation has been greatly appreciated.

Fees collected from wiring and building permits and zoning applications during 1961, amounted to \$3,978.50 and have been turned over to the Town Collector.

The Building Department takes this opportunity to thank the Town Officials and citizens who have helped in the affairs of this office in the past year.

Respectfully submitted,

HOMER L. MacDONALD

REPORT OF THE WATER COMMISSIONERS

The resignation of George K. Lewis as Commissioner was accepted with regret. The Board is sorry to lose the services of so able a man and will miss the energy and good nature that marked our association with him over the years. Mr. Laurence K. Cook was appointed to fill out the unexpired term.

1961 marked the first year that the Department has pumped an average of over 1,000,000 gallons per day. Per capita consumption has stayed below 100 gpd per person. New services dropped somewhat the past year, with only about 100 being added to the system. Watermain was added in several new developments and some additions in Town roads brought the increase to about two miles of pipe.

It becomes increasingly evident that more pumping facilities will have to be provided before too long and we are planning to speed the development of the new well site off Oxbow Road.

More shop and garage space is needed at our headquarters at Baldwin's Pond. The money that we are asking to be transferred for a new building would provide this space. The main part of the new building would be garage space for trucks and tractor, releasing the old small garages for parts storage. Heated shop space would be included and would make room for repairs and shop work in inclement weather.

The prolonged cold weather of last February froze pipes that had been in the ground for years, showing the deepest penetration of frost the Department has ever experienced. All new pipes are being laid six inches to a foot deeper so that such rare spells of weather cannot cause so much inconvenience again.

We wish to thank the people of the Town for their cooperation and understanding during the two or three weeks that kept the men thawing pipes night and day. We also want to thank the other Town Departments for the pleasant relations we have enjoyed over the years.

Pertinent Statistics — 1961

Number of services in use	3,002
Length of Main	70 miles
Number of hydrants	411
New services, 1961	100
Mains added, 1961	2 miles (included in above)
Water pumped	368 million gallons
Renewals	4
Relocations	2
Leaks	34
Freeze-ups	73

Respectfully submitted,

ALFRED C. DAMON,
FERN A. TAYLOR,
LAURENCE K. COOK,
Board of Water Commissioners.

SIDEWALK COMMITTEE REPORT

In accordance with the vote under Article 2 at the Adjourned Annual Town Meeting held at the Wayland Senior High School on March 15, 1961 a committee was established to make a study and recommendations with respect to (1) a policy to be pursued by the Town with respect to the construction of sidewalks, (2) the priorities to be followed in connection with any construction recommended (3) the over-all cost which might be involved in any program and (4) the amount which should be recommended for expenditure annually therefor, and the Committee be authorized to arrange with the Planning Board for engineering services as seemed necessary in connection with carrying out the initial stages of a program, such report with recommendations to be made at the next Town meeting. The committee was to consist of five members, one member of the Road Commissioners, one member of the School Committee, one member of the Planning Board, one member of the Finance Committee, each to be designated by his respective board or committee, and a fifth member at large to be appointed by the four so designated.

Several meetings and field trips were held by the Committee during which the many aspects concerned with sidewalk construction were discussed and reviewed. The survey considered sidewalk construction and its apparent relation to accidents within the Town if any, the effect which might result in the busing of school children, priority locations for future sidewalk construction, the role to be played by the Highway Department and possible regulations to be included in Subdivision Regulations.

As of the date of the survey there had been five (5) recorded accidents during 1961 in the Town involving pedestrians including one fatality. It was felt that in the four (4) non-fatal accidents the presence or lack of sidewalks at the accident site had no bearing on the accident. In the case of the fatality it was felt that a sidewalk in that particular area would not have had an effect due to the apparent nature of the accident; however, portions of Route 30 East, near where the accident occurred, are considered to be in a priority area for sidewalk construction. It was felt that sidewalks should be constructed within the two areas comprising Cochituate Center and Wayland Center because of the volume of pedestrian travel in these two areas.

It was generally understood by the Committee that pupils residing more than a mile from the school attended are provided transportation and that those pupils who must travel a dangerous route are offered transportation regardless of distance. There are several areas adjacent to school sites where additional sidewalks would allow pupils to walk safely to school which will save busing costs and allow these pupils to participate in after-school-hour activities without dependence upon school bus schedules.

Consideration has been given to the savings that may result if school children walk instead of being bused. It has been estimated that for every 50 children that are enabled to walk because of the construction of sidewalks one bus route can be eliminated at a savings of approximately \$520 a year. It should be realized that this is a maximum figure that cannot always be realized as it may not be possible to efficiently

fill the bus space vacated with other children. However, assuming this figure it can be seen that the capitalized value of this savings can be as much as \$5200 and that if this were the only criterion it would be worthwhile to build \$5200 worth of sidewalk if 50 children are thereby enabled to walk to school.

Several areas in Town should receive priority from the standpoint of scheduling of sidewalk construction in the following order: School sites, Cochituate and Wayland Centers and along the major traveled roads (Routes 30, 20, 27 and 126). As school sites are in general located in the vicinity of heavily populated areas, sidewalks here would serve the greatest number of persons and should be considered in the vicinity of Loker Street, Happy Hollow and Claypit Schools in that order. In the case of all three schools, major highways lie in the immediate vicinity of the school sites where sidewalks would afford safe walking areas for many pupils.

To date, sidewalk construction has been under the control and supervision of the Highway Department. It is felt that this responsibility should remain with this Department and that an annual amount of \$5,000.00 per year should be included in the Highway Department budget over the next four years to allow for the construction of new sidewalks in the critical areas as outlined above.

Based on past contracts, the average cost to construct sidewalks, exclusive of engineering and land takings, has been approximately \$3.50 per linear foot for paved sidewalks and \$1.00 per linear foot for unpaved gravel sidewalks. An annual budget amount of \$5,000.00 would permit completion of the first four items in the specific program given below within 4 years. In conjunction with this construction it is recommended that the Planning Board require Sub-developers to provide an area adjacent to road construction which will allow sidewalk construction in the critical areas (adjacent to the school sites or in heavily traveled areas).

Specific Sidewalk Program in recommended order of priority.

	<i>Type of Sidewalk</i>
1. East Plain Street from Dunster to School Street	Paved
2. Commonwealth Road from School to Loker	Gravel
3. Loker Street to Loker School	Gravel
4. Old Connecticut Path from West Plain Street to Stonebridge Road	Paved
5. Millbrook Road, Plain Road from Millbrook Road to Claypit Hill Road	Gravel
6. Maiden Lane from Old Connecticut Path to Happy Hollow School	Paved

Future Program

Sherman Bridge Road and Oxbow Road in area within walking distance of North Wayland School site.

Dunster Street and Access Road to New Junior High School when latter is built.

Draper Road in area within walking distance of Claypit Hill School.

Respectfully submitted,

L. W. BERTELSEN, *Planning Board*
J. B. GREGORY, *School Committee*
H. MEGATHLIN, *Road Commissioner*
W. A. LOKER, *Finance Committee*
H. H. JENKINS, *Member-At-Large*

REPORT OF THE PLUMBING INSPECTOR

The following is the Plumbing Inspector's Report to the Town of Wayland.

There were 157 Permits issued and the amount of \$1,375.50 collected and turned over to the Town Collector.

All violations of the Plumbing Code have been corrected.

On July 1, 1961 this office assumed the work of Gas and Appliance Inspector.

There were 50 Permits issued and the amount of \$418.50 collected and turned over to the Town Collector.

There were no violations of the Gas and Appliance Code.

Respectfully submitted,

DONALD K. IDE,
Plumbing Inspector.

PARK DEPARTMENT — ANNUAL REPORT 1961

The Board has continued to try to improve the twenty-five areas under its jurisdiction. The dam at the Mill Pond had to be replaced, to permit the Pond's maximum use. Plans are in progress for the control of erosion at the Beach and the possible expansion of its area and facilities.

The Beach enjoyed the largest attendance in its history and, it is hoped, to provide the Town with an increasingly attractive facility.

The Commissioners wish to thank the residents of the Town and its officials for the support and cooperation it has received. The Commissioners wish also to record their thanks and gratitude for the constant hard work and attention to duty displayed by the personnel of the Department during the year.

Respectfully submitted,

NATHANIEL HAMLIN,
JOSEPH HORVATH,
THOMAS F. MURRAY,
Board of Park Commissioners.

REPORT OF WAYLAND PLANNING BOARD — 1961

During 1961 the Planning Board held regular meetings on the first and third Monday evenings at 8:00 P. M. George F. Bowers, Jr., was re-elected to a five year term in the annual Town Election.

Subdivision Control

In 1961 the Planning Board approved the following new subdivisions:

<i>Subdivider:</i>	<i>No. of New Lots</i>	<i>Feet of New Roads</i>
E. P. Robsham	20	
Campbell Road		936
Oxbow Road		870
Reeves Hill Trust	10	
Forest Hill Road		1,456
W. C. Richards	4	
Extension of Cole Road		300
Wayland Bay Colony Assoc.	13	
Holiday Road		1,190
Forty Acres Estate —		
A. W. Rowe, Tr.	22	
Forty Acres Drive		2,519
S. A. Cutler	15	
Elliott Road		920
Heard Road		1,050
E. A. Phylis — Loker Manor	19	
Extension of Aqueduct Road		825
Gregory Road		850
TOTAL	103 Lots	10,916 ft. of road

A comparison of subdivision activity follows, showing 1961 and the previous 6 years:

<i>Year</i>	<i>No. of New Lots Created</i>	<i>Feet of New Roads</i>
1955	187	15,000
1956	137	14,400
1957	96	11,200
1958	55	6,300
1959	57	5,300
1960	87	10,300
1961	103	10,916

It should be noted that the increase in new lots created each year since 1958 continued in 1961. At the end of 1961 the board had knowledge of probable intent on the part of land owners to subdivide and create at least as many lots as were approved in 1961, although they may not all be created in 1962.

Therefore, Wayland is obviously attractive to outsiders to establish residence here. Although there is the potential for the establishment of approximately 2,500 new house lots more than now exist, we see some tendency already toward development of marginal land involving special construction of roads and house sites in order to meet Board of Health requirements for drainage and sewage disposal systems.

Sand Hill Development

Sand Hill, just west of the Town dump on Boston Post Road, offers the best potential area in town for limited commercial land use on a large scale. The board, in correspondence with Jack P. Ricciardi, Commissioner of Public Works for the Commonwealth, has learned that any relocation of Route 20 by means of a by-pass around Wayland Center would undoubtedly affect development of Sand Hill to its maximum. Alternate Route 20 proposals are:

1. Using the present path of the road over Sand Hill, but probably lowering the road and hill considerably.
2. Relocating the road to the south of the railroad tracks.

Because of these alternatives ultimate maximum use of the area as limited commercial land cannot be planned until the by-pass question is resolved.

An early decision by the Commonwealth as to the final location of Route 20 would greatly assist the Town in changing the use of this land to broaden the tax base.

General Matters

Subdivision control and administration continue to require almost all of the time of the board. With the rate of residential development increasing, the question of engineering assistance to the board is increasingly important. The Road Commissioners and the Highway Superintendent contribute invaluable assistance to the Planning Board in evaluating subdivision plans and in policing road and drainage construction rules. The prime responsibility of these people however is maintenance of existing roads, and since the quantity of roads is increasing, we may be approaching the time for a Town Engineer to be employed for engineering and administration assistance for many boards and specifically to advise the Planning Board and handle administrative matters of subdivision control.

In addition to above duties L. W. Bertelsen serves on the Sidewalk Committee, E. F. Thorburn serves on the School Building Committee, A. H. Morgan serves on the Conservation Commission, R. H. Charnock serves on the Community Advisory Council of the Massachusetts Mass Transportation Commission, Katherine Hodges is our representative to the Framingham Area Association of Planning Boards, and G. F. Bowers, Jr. serves on the Pelham Island Road Study Committee.

We applaud the work and recent statements of the newly appointed Conservation Commission concerning the possible depletion of the natural assets of the Town and hope that their efforts will result in a plan of conservation for the Town and that as a result the Town or other conservation organizations might acquire land in the future for the preservation of water supply, wooded areas, and wet lands.

In 1961 the board completed engineering work for the layout by the Selectmen of Lincoln and Draper roads. These are presently very attractive although for the most part narrow, unimproved, and without drainage. While the surrounding land is relatively undeveloped, the Town should recognize that in time these roads will have to be rebuilt to take heavier traffic and that the establishment of side lines should be done now. No road construction by the Town should be undertaken until development makes it necessary.

We commend the continued interest of individuals and groups in the Town's affairs such as the Wayland Civic Association and the League of Women Voters, whose representatives attend meetings of Town Boards and Committees to keep informed on local government.

Past and Present Planning

Responsibility for planning lies not only with the Planning Board but also with many other boards and committees which are concerned with phases of the development and growth of the town. Since World War II, the forethought in advanced planning of these boards and committees has well prepared the town to meet the onslaught of its high population growth. This action has been well received by the town.

Perhaps the most serious and continuing growth problem has been with schools; for fourteen years the town has been well guided by the recommendations of the School Committee and School Building Committee. The quality of education is high, and the expansion of facilities has been orderly.

Through the foresight of the Finance Committee, the town is in a position where it is now able to expand schools, has built the town office building, and purchased fire equipment and maintenance vehicles without borrowing.

The committee to study town government has guided the town in governmental operations and organization changes that have resulted in more efficient government for the future. These include establishing the position of executive secretary and fire chief, in making use of Board of Health nurses for the public schools, and of a plan for equipment purchase and operations for the Fire Department on an economical basis.

The Board of Water Commissioners has provided a growing water distribution plant, including building of a stand pipe which should serve adequately for many years, without outside financing.

The successful results coming from the work of these other boards indicate that their work should be continued in those areas of planning in which they are particularly well informed. The Planning Board has operated in areas lying outside the sphere of responsibility of other boards, in matters largely concerned with zoning, sub-division control, and other measures to control and regulate land use and rate of growth. Within the last decade, it has recommended revision of the zoning by-laws in matters of residential zoning, zoning for business and limited commercial use and revision of business zoning regulations, the establishment of site plan approval and the creation of the flood plain district. All of these measures are aimed at preserving the natural assets of Wayland, in maintaining its essential rural character (but with a recognition that growth is inevitable), and in encouraging the develop-

ment of all areas in a manner making optimum efficient and compatible use of all areas. On occasion, the Planning Board has recommended expansion of commercial activities, in all cases with the view that the proposal offered better utilization of the land, more income at less expense, and a greater asset to the town than with any other use.

For some time the Planning Board has been working toward establishing a master plan for the town and has received recommendations for that purpose in the report of James L. Harris, a planning consultant. The following topics have been included in the Harris report:

1. General summary of Proposals
2. Population Projections
3. Fiscal Analysis
4. School Enrollments and Facilities
5. Recreation and Open Land Preservation
6. Transportation, Streets and Highways, Parking Facilities
7. Municipal Services and Utilities
8. Improvement of Certain Residential Areas — Urban Renewal
9. Land Use in the Future
10. Zoning and Subdivision Control
11. Capital Budgeting

Some of these topics will be reflected in the master plan as well as our own studies and recommendations. Other of the Harris recommendations are in the nature of analysis of existing and past conditions which have served their purpose in having provided for such town action as the establishment of Recreation Advisory Committee and the creation of the Conservation Commission, in bringing about such action as flood plain zoning and revision of Planning Board subdivision regulations, and in setting the stage for the Planning Board's recommendation to create the Redevelopment Authority.

Preparing for the future is a many sided responsibility and the concern of many agencies. The growth of Wayland has been orderly and within its financial ability. We look forward to continued responsible action by these boards in their respective areas of responsibility, and offer them assistance when necessary. Any plan, whether a master plan or a plan of a specific topic, needs continued evaluation, and the attention of the Town and its Boards and Committees to all planning is continually required.

Respectfully submitted,

L. W. BERTELSEN,

KATHERINE HODGES,
ALLEN H. MORGAN,
EDWARD F. THORBURN,
ROBERT H. CHARNOCK, *Chairman.*

January 15, 1962.

REPORT OF THE COMMISSIONERS OF TRUST FUNDS

During the year 1961, there were no additions or deletions to the Trust Funds of the Town. No issues matured or were called and the extra income accumulated during the year was placed in the Savings Bank until such time as sufficient funds are available for advantageous reinvestment of same. A list of the Trust Funds and their present investment status will be found in the Report of the Town Treasurer.

John G. Harder was elected by the town to succeed J. Sidney Stone (retired) and his connection in the Investment Banking Field should be of inestimable value to the Trustees in administering these Funds.

Respectfully submitted,

ALLAN R. FINLAY,
JOHN G. HARDER,
THOMAS B. GANNETT, *Chairman.*

REPORT OF THE BOARD OF PUBLIC WELFARE

The year 1961 has brought about several major changes in personnel and categories. J. Sidney Stone, a member of the Board for over 20 years, decided that he did not care to continue. This vacancy was filled at the town election in March. Mr. Dominic L. Bartholomew of Sherman Bridge Road was elected to the three year term vacated by Mr. Stone.

On February 28, 1961, Mrs. Helen Tufts, our director of public assistance, retired after more than 20 years of faithful service to the town. Mrs. Tufts had a humane and sincere understanding of problems that confronted many of our townspeople. Giving unstintingly of her time far and above what the position called for, the Board wishes to commend Helen Tufts for having done such. Wishing her a happy retirement.

Mrs. James Warwick stepped up from Social Worker to the position vacated by Mrs. Tufts.

On October 4, 1961, the untimely death of Carlisle D. Scotland, a member of this Board for over 20 years, occurred. His passing on has left a void that will be hard to fill. Giving advice, helping unfortunate people to better understand their problems, always willing to give just a little bit more, never turning down any extra assignments, and there were many; may we say our loss is the Lord's gain.

Attached is the statistical report of the Board.

Respectfully submitted,

RONALD H. WOOD, *Chairman*
*CARLISLE D. SCOTLAND
DOMINIC L. BARTHOLOMEW

REPORT OF THE BOARD OF HEALTH

The Board of Health submits the following report for the year ending December 31, 1961.

At a special meeting of the Board of Health in May 1961, Mr. Ronald Wood was appointed agent.

Dog Clinic

A total of 127 dogs were inoculated and protected against rabies. A clinic was conducted under the direction of Dr. Paul R. Granholm of Weston.

Statistics

Permits issued by the Board of Health in 1961:

Restaurants	13
Milk (store)	23
Milk (dairy)	15
Alcohol	11
Ice Cream (manufacture)	1
Sewage Disposal permits	122
Nursing Homes	3
Camps	1
Nursery School	3
Burial Permits	50
Notice to Abate a Nuisance	212

Communicable diseases reported to the Board of Health — January to December 31, 1961:

Chicken Pox	36
Dog Bites	63
Mumps	104
Salmonella	3
Scarlet Fever	7
Strep Throat	11
Measles	47
German Measles	10
Premature Births	11

Mosquito Control in Wayland in 1961

Mosquito control work commenced in mid-winter with DDT dusting of frozen swamplands to prevent development of the spring brood of mosquitoes. A few remaining areas were treated in April or May after mosquito larvae appeared. The main Sudbury River Meadows were not treated because mosquito breeding was too sparse.

As usual there was considerable migration from outside sources and these mosquitoes were partially reduced by night-time fogging and aerial spraying.

From June through September the usual *Culex* (House Mosquito) inspection and spraying was carried out. Helicopter service could not be obtained for the *Mansonia perturbans* mosquito brood in June and July in Mill Pond swamp, but repeated night-time fogging helped a little.

Drainage work was done near Lake St. and ditches cleared in most other places.

Financial Statement

SANITARY ENGINEER'S REPORT

Board of Health
Wayland, Massachusetts
Gentlemen:

The following is a report of my activities for your Board for the calendar year 1961.

Sewage Disposal

During the calendar year, 1961, one hundred and twenty-two permits were issued by your Board for the construction or alteration of sewage disposal systems, after the necessary preliminary inspections and recommendations were made to your Board. A total of more than six hundred (600) inspections were made to insure effective design and construction of these systems . . . and to advise builders and home owners concerning the proper installation and operation of these systems.

Restaurant Sanitation

During the calendar year 1961, inspections were made at eating places where known sanitary problems existed, with corrective action

indicated to the owners where necessary. It is expected that the practice of making unannounced inspections will be stepped up during the coming year to provide for more effective control of these eating establishments.

Milk Inspections

A total of one hundred and thirty (130) samples of milk and cream were collected during the year from the dairies and other licensed outlets selling milk and cream in Wayland . . . and examined in the laboratory. Tests were made for total bacterial count, coliform bacteria, and phosphatase . . . with results reported to the dairies concerned as required by law. It is expected that the program of milk inspections will be amplified during 1962 to provide for better control along these lines.

Respectfully submitted,

THOMAS J. RINALDO.

PUBLIC HEALTH NURSING SERVICE

Staff

Director

Louise M. McManus, R.N.

Public Health Staff Nurses

Louise H. Drew, R.N.

Barbara A. Dunphy, R.N.

June E. Harcourt, R.N.

Anne B. Irwin, R.N.

Public Health Nurses' Aides

Pearl McEwan — Junior High School

Helen Osborn — Senior High School

In an attempt to provide better public health nursing service for Wayland, the public health nursing staff has been involved in an on-going evaluation of the present program. It is hoped, that with each year, progress will be consistent with the sound growth of the community, and with the objectives of all those who are concerned with providing Wayland residents with an effective health program.

To implement such a program, it is necessary to have well qualified public health nurses. All of the nurses presently employed by the Board of Health and the Parmenter Health Center, Inc. have a baccalaureate degree from an approved university program. Two nurses have a master's degree, one in public health nursing and one in nursing education. All of the nurses have had at least two years of experience in public health nursing, as well as experience in other aspects of nursing. Hopefully, we shall continue to attract well qualified personnel, by virtue of the varied and challenging nursing program within the town, and by realistic and progressive personnel policies.

Besides participating in the usual activities of the agency such as school health, care of the sick, well child conferences, communicable

disease control, and maternal and child health — the nurses participated in many other activities this past year.

All of the nurses participated in the diabetes detection program, preschool vision testing program, chest x-ray program and the tuberculin testing program.

Some of the nurses also served on the various professional committees, such as, the nursing committee of the Massachusetts Heart Association, committees of the Massachusetts Public Health Association, and the nursing committee of the Greater Framingham Mental Health Association.

The nurses were also able to attend various professional and educational activities. One nurse attended a one week institute on Disaster Nursing for Instructors, and it is hoped that we will be able to offer such a course for the nurses living in the community as part of the over all Civil Defense Program for next year.

The nurses continue to participate in conferences with other allied professional groups concerned with the well being of each individual in the community.

This past year a student from the Boston University School of Nursing obtained her two month field experience in public health nursing with the Wayland Public Health Nursing Service. We are looking forward to future students and we will strive to provide an enriching and worthwhile educational experience for them.

The nursing staff firmly believes that the generalized program, where one nursing service provides all the public health nursing service to the community, is the most effective and certainly the most rewarding kind of public health nursing program. However, we are aware that in such a program we must be constantly involved in establishing priorities according to the total nursing needs of the community. Inherent in this is the necessity for continuing appraisal and interpretation of the nursing needs.

Family Health Service

School Health Services

School Physician

For the School Year 1960 - 1961

ERNEST H. DAMON, JR., M.D.

For the School Year 1961 - 1962

CHARLOTTE A. STEWART, M.D.

Conferences in behalf of students continue to increase. During the last school year the nurses had 373 conferences with teachers, 160 with principals, 70 with students at school, 44 with parents at school and 73 with guidance personnel. Besides the primary goal of such conferences, that of helping to understand and solve the individual students health problems, the conferences have served to bring about a greater understanding and appreciation of each other's roles as they relate to the welfare of the student and his family.

Vision and Hearing Screening Programs

Of the 2,573 children who received the vision screening test, 170 failed and of these 118 were seen by an eye specialist. Of the 52 who were not seen by eye specialist last year only 12 had never been seen for vision difficulty. This past fall we were fortunate to obtain a new vision testing machine (provided by the school department) which will greatly facilitate the program.

Last spring a preschool screening program was conducted by Dr. Roswell Gallagher, Chief, The Adolescent Unit, Children's Hospital Medical Center in collaboration with Dr. Henry Allen and Dr. Albert Sloane of the Massachusetts Eye and Ear Infirmary. The purpose of this project was to determine the reliability of various screening tests employed for preschool children to reveal visual defects.

Of the 2,583 students who were screened for hearing acuity, 74 were referred on for further follow up. 43 students were seen by a physician and of the 31 who did not see a physician last year only 10 had never been seen for hearing difficulty during their entire school career. This fall the Board of Health purchased another audiometer. This too will help to expedite the screening in the future.

Physical Examination Program

One thousand and ninety-one children had a routine required physical examination last school year. Of this number 756 or 69 per cent were examined by their family physicians and only 31 per cent were examined by the school physician. It is hoped that we will continue to increase the per cent of private physical examinations as it is the family physician who is best able to appraise the total health of his patients. Thus, by having less demands for school physicals, the school physician will be able to give more comprehensive examinations and

health guidance to those students who are unable to have an examination by a private physician.

Immunization Program

Ninety-five children in grades one through five received diphtheria-tetanus boosters by the school physician. Plans are underway to provide this program for the junior and senior high school students.

Health Room Activities

The public health nurses aides have continued to render essential services to the school health program. The public health nurse was therefore able to spend more of her time in family health service, and health education projects within the schools.

Of the 2,265 visits to the Junior High School health room, 669 were for first aid and 807 were for illness. Other visits were made to the health room for the purpose of arranging for appointments with the public health nurse, or for consultation and assistance with minor health problems.

There was a total of 1,364 visits to the Senior High School health room. 121 were for first aid and 558 for illness.

The difference in the number of visits between the junior high and the senior high school is felt to be due to the added maturity of the senior high school age group in dealing with minor health problems, and a greater awareness on their part of accident prevention.

Future Nurses Club

A Future Nurses Club was started in the Senior High School in the fall of 1961. The purpose of the club is to provide students with the opportunity to investigate the areas of preparation for, and practice in the nursing profession. This will be done by the use of films, speakers and field trips. Since nursing is one of the service professions, each club member is expected to perform some service to others in order to be eligible to wear the Future Nurse Club pin. Membership in the club requires only an interest in nursing, not a pledge to enter the nursing profession. To date nineteen students are members of this club.

Respectfully submitted,

LOUISE M. McMANUS, R.N.

DENTAL HEALTH PROGRAM

A total of 169 children were seen at the dental clinic during the last school year. These children made 439 visits and received a total of 861 treatments which included fillings, extractions, and cleanings.

Three hundred and eight first grade students received a dental examination by the school dentist. Of this number 130 were referred to their dentist for follow-up.

Because of the increasing demand for dental clinic appointments, the Board of Health ruled last summer that in the future the dental

clinic will only be available to those families who are unable to assume the additional burden of private dental care. A request form must be completed by either parent and approved by the Agent of the Board of Health before appointments are scheduled. The dental clinic is available to preschool children as well as school age children.

A part time dental hygienist has been employed by the Board of Health this fall. She will be responsible for the dental examinations, cleanings and scheduling of appointments for the dentist. She will also conduct the dental screening program in the school and will serve as a dental health education resource person to the school.

Respectfully submitted,

JOSEPH FOURNIER, D.M.D.,
Board of Health Dentist.

NEW REGULATIONS ADOPTED BY THE BOARD OF HEALTH

For details regarding the following regulations contact the Agent of the Board of Health.

1. Plans for the construction of any swimming pool must be approved by the Board of Health prior to such construction, and a permit will be issued. Cost of permit \$5.00.
2. All sewage disposal contractors must be licensed by the Board of Health Annually. Cost of license \$5.00.
3. All food handlers in the town must present to the Board of Health annually a certificate of either a negative tuberculin skin test or chest x-ray.
4. All applications for dental treatment must be approved by the Agent of the Board of Health. Dental treatment will be limited to those children whose parents are unable to afford private dental care. The dental program will be available to the pre-school as well as the school age child.

Joint Activities

Joint Activities of the Board of Health and the Parmenter Health Center, Inc.

In addition to the already established joint programs the Board of Health and the Parmenter Health Center sponsored a diabetes detection program and a chest x-ray program last year. A comprehensive analysis of these programs will be presented to the town in a joint report of the Parmenter Health Center and the Board of Health.

<i>Program</i>	<i>Individuals Attending</i>
Chest x-ray program	482
Diabetes Detection Program	606
Polio Clinic	1,148

Tuberculin Testing Program:

First grade students	255
School Personnel	90

The Board of Health recognizes the tremendous loss to the Parmenter Health Center and the town in the untimely death of Carlisle D. Scotland, President of the Board of Trustees. His untiring efforts to bring better health to Wayland will be well remembered by all those who had the privilege to work with him towards the attainment of this goal.

Office Hours

The Board of Health holds office hours at the Parmenter Health Center on Monday through Thursday, 2-5 P. M. Licenses and permits are issued at this time.

RONALD H. WOOD, *Agent*.

DAVID R. COREY, M.D., *Chairman*
JOHN G. FREYMANN, M.D.
FREDERICK PERRY

REPORT OF THE MOTH SUPERINTENDENT

In the year 1961 the trees in the town were sprayed for the control of the Elm Leaf and Bark Beetle.

The extra dormant spray applied early in the spring is proving to be a valuable preventative measure in the control of Dutch Elm Disease and will be applied again in 1962.

There were forty-two trees condemned from the samples taken this year and will have to be removed before April 1, 1962.

The roadsides of the town were sprayed for Poison Ivy control and we plan to spray again in 1962.

Respectfully submitted,

JOHN E. NELSON.

CONDEMNATION COMMITTEE

The Condemnation Committee was active throughout the year in enforcing the various local and state codes related to health and safety. This Committee, which is actually a coordinating body of town officials, is composed of one member from the Board of Selectmen, the Board of Health, and the Board of Public Welfare, and the Finance Committee, the Fire Chief, the Building Inspector, and the Town Counsel. This year, the Committee was greatly assisted by the Health Agent, and Mr. Bowers attended one meeting to coordinate activities with the Highway Commissioners.

Basically, the task of the Committee is to remedy hazardous or unhealthy conditions throughout the Town by bringing such specific conditions to the attention of the property owner, and requiring them to be corrected within a stated period of time. If such conditions have not been taken care of at this point, certain other legal requirements must be met and the Town then moves to demolish the structure in question, or to take such other action as may be required — for example to fill in a dangerous abandoned well.

We are very pleased to report that in several cases where substandard dwellings were condemned, the owners were able to carry out the necessary repairs or replacements, and the dwellings brought up to standard. In at least one case, this was done with the aid of a bank loan. In general, property owners have been cooperative with Town Officials and agreements have been reached to everyone's satisfaction.

In those cases where dwellings or other structures have been demolished, this work has been carried out by members of the Fire Department under the supervision of the Fire Chief. This saves the Town a very considerable expense in hiring a professional demolition company and also affords the firemen excellent training opportunity. One problem that the Committee continually faces, is that of filling in cellar holes that remain after demolition, which is the responsibility of the property owner. One system, worked out with the cooperation of the Highway Commissioners, is to have the holes filled by the Highway Department when they have disposable fill. The costs of demolition and of such filling (if any) are placed as a lien against the property in question.

The Fire Chief and the Building Inspector, have made a special drive this year on abandoned poultry houses and barns, which are increasingly common in a town turning from an agriculture base to a residential one. These old structures are extremely hazardous.

The Board of Health has been very active in enforcing health regulations and in some cases has alerted other Town Officials to substandard conditions. It has really been this sort of close team work that has made the Committee's work effective. During 1961, 12 dwelling units were torn down, several of which belonged to the Town by virtue of earlier condemnation proceedings. In addition, a large number of barns, poultry houses, and other structures were demolished.

The Selectmen would like to quote from a report of the Building Inspector to them on December 26, 1961, as follows: "I have been Building Inspector for over twenty years, and although substandard and dangerous property has been condemned from year to year, the results were not as outstanding as in this past year."

REPORT OF THE CONSERVATION COMMITTEE

In accordance with the vote of the Town at its March 1961 Meeting, the Selectmen on June 7, 1961 appointed to the Wayland Conservation Commission Mrs. S. A. Cutler and Messrs. C. A. Eckerline, L. C. Gladu, W. M. Young, as members at large; the Finance Committee, Planning Board and Water Board appointed Messrs. R. E. Ela, A. H. Morgan and F. A. Taylor to represent their respective agencies of Town Government, as directed by the Town.

The commission has met monthly since October and has been occupied in a preliminary study of its responsibilities and objectives. Its initial concern is to define Wayland's present and potential future conservation problems. Its future plans include close cooperation with the Selectmen and all Town Boards and Committees, and preparation of a long-range plan designed to guard and enhance the Town's natural resources. These resources can be listed under several major headings:

Water:

Sources of supply and prevention of flooding.
Brooks, ponds and the river.

Woodlands (including shade trees) and Wildlife.

Recreation and "Open Space" values:

Many recreational needs require natural outdoor space: an area suitable for camping by scout, campfire or other groups, for example. Similarly, major aesthetic and recreation values are inherent in the semi-rural nature of the Town — on which also depend important economic values which directly and indirectly affect real estate values and your tax rate.

It is the Commission's hope to enlist the aid of everyone interested and willing to help in drawing up plans for the wise use of Wayland's natural resources, so that they will represent the overall feeling of the Town and protect the interest which every citizen has in maintaining his community as a pleasant place in which to live. Your Conservation Commission solicits your suggestions and help in achieving this result.

REPORT OF THE TREE WARDEN

During the year 1961 the roadside trees in the entire town were surveyed and the dangerous trees and limbs were removed.

The tree planting program continued and forty maple trees were set out.

I wish to thank the citizens that called me concerning the condition of a tree or a dangerous branch which they had noted so that it could receive attention as soon as possible.

Respectfully submitted,

JOHN E. NELSON.

REPORT OF MEMORIAL DAY COMMITTEE

A complete program of exercises were held on May 30, 1961 in both Wayland Village and Cochrane. Joint services were conducted at the North Cemetery and Lakeview Cemetery by the American Legion and Veterans of Foreign Wars in the forenoon.

In the afternoon a parade formed at 1 P. M. and proceeded to the South Cemetery to decorate Veterans' Graves and hold memorial services at the Charles H. Alward Lot.

At 2:30 P. M. the parade reformed and proceeded to St. Zepherin's Cemetery to decorate and hold services at the Soldiers' Lot.

The following organizations were participants in the program:

Charles H. Alward Post 133, American Legion
Wayland Post, Veterans Foreign Wars
Police Department Escort
Fire Department Detail
American Legion Firing Squad
V. F. W. Drill Team
Wayland High School Band
Maynard Community Band
Explorer Scouts
Boy Scouts
Girl Scouts
Camp Fire Girls

It is our considered opinion that every effort be made by future Committees to hold the parades and exercises in the morning. We believe in so doing that more townspeople will participate in and attend the annual observance of Memorial Day.

The Maynard Community Band will be unable to participate if the services are held in the afternoon. However, we have been advised that the High School Band will render music for the parades and at the cemeteries.

We recommend that the local Veteran Organizations continue to hold appropriate exercises at the cemeteries which are not visited by the parades.

John W. Leavitt, *Chairman*

Edward J. Connolly (V.F.W.)
Richard S. Loynd (V.F.W.)
James Garvey (V.F.W.)

Roy Van Wart (A.L.)
Francis X. Kilduff (A.L.)
Joseph L. Strafuss (A.L.)

REPORT OF THE ROAD COMMISSIONERS

1961 has been a year of study, experimentation and catching up for the Highway Department. At the end of 1960, there remained 14 incomplete construction projects for which funds had been appropriated, with an aggregate value of slightly over \$40,000.00.

It was felt that a concerted effort should be made during 1961 to clean up these incomplete projects which had slowly built up over past years. Accordingly, a careful study was made of construction and maintenance schedules the result of which was a decision to have major drainage projects and sidewalk construction done by outside contractors. Contracts were advertised for bids in August and early November. This policy is expected to be continued for the next few years until the Department is in a position to handle all construction without expanding the equipment and forces to an extent that would be out of proportion to the other operations.

This change in policy has enabled the Department to complete or virtually complete a majority of the projects in the Department budget as follows:

1. *BETTERMENTS*: All betterments started prior to 1961 were completed, including Wallace Road, Winter Street, Maiden Lane #1, Maiden Lane #2, and South and Center Streets. In addition the drainage and the first course of pavement was completed on the five (5) streets in the Maguire development for which betterments were voted in 1961. The second and final pavement course and side road seeding will be completed on these roads during the spring of 1962.

2. *DRAINAGE*: 8 of the 11 drainage projects authorized during 1961 or carried over to 1961 were, for the most part, completed. Of these 4 were completed and 4 were 90% completed. Two of these, Training Field and Moore Road, and Goodman Lane were advertised for bids; however, bids received exceeded the available funds. New bids will be sought during the end of January to enable the necessary additional funds to be sought in the 1962 budget. The remaining drainage project, School and Loker Streets, will proceed during 1962 in conjunction with the School Street reconstruction.

3. *CHAPTER 90 WORK*:

A. *Construction* — The relocation of Commonwealth Road from the Natick Town Line to Oak Street and Rice Road was completed, although minor repair work on the seeded slopes probably will be necessary in the spring.

B. *Maintenance* — Old Connecticut Path was resurfaced from the Framingham Town Line to Wallace Road. This project will be continued during 1962.

4. *SHERMAN BRIDGE REPAIRS*: The wood deck was replaced on Sherman Bridge as a joint 50-50 project with the Town of Sudbury. When the old deck was removed some of the main bridge timbers were discovered to be unsound and had to be replaced, with the result that the cost of the work was about double that of the initial estimate.

5. *SIDEWALKS*: The sidewalk along Old Connecticut Path from Maiden Lane to Davelin Road was completed with the exception of seeding the slopes and grass plots and the correction of an unsatisfactory slope condition, which will be done in the spring of 1962.

6. *HIGH SCHOOL ENTRANCE*: Working in conjunction with the School Building Committee the entrance to the High School was widened, curbed and channelized to eliminate a hazardous condition.

7. *RECONSTRUCTION OF EXISTING TOWN ROADS*:

A. *Moore Road*—This road has now been completed with a penetrated gravel surface with the exception of setting of bounds.

B. *School Street*—The first section started in 1960 has been 100% completed, by placing the final pavement course, paving driveway approaches and loaming and seeding the side slopes. No other new work was started on this project during 1961. The Road Commissioners felt that during 1961 the back-log of old projects should be given first priority.

During 1962 the department should be able to start fresh and carry to completion the following projects by Department forces:

Chapter 90—the first section of Old Connecticut Path starting at Route 20 by the Red Coach Grill to approximately Rice Road.

The remaining portion of School Street together with the Loker Street drainage outlet.

The remainder of the 1961 betterments and the 1962 betterment program if it is not too large.

In addition, it is intended to have the only major drainage projects not related to the above and the 1962 sidewalk construction performed by outside contractors on a bid basis.

Throughout all this the Department has performed and will continue to perform its principle operation of a maintenance organization. Included in this is clearing all catch basins and sweeping all paved streets at least twice a year, oiling town roads on a rotational basis using approximately 80,000 gallons of road oils annually, patching pot holes, grading gravel roads and the innumerable other small items necessary to maintain our roads in a safe and passable condition.

As a part of this an unusually heavy snow removal and ice control program was carried out on all town roads, and the school drives and parking lots. Last but not least the dump was operated.

Concurrent with the above, all roadway and drainage construction performed by the various subdevelopers in town was inspected, with the necessary reports forwarded to the Planning Board.

Administratively it has been an active year.

Rules and regulations and Permit Forms governing private connections to storm sewers were prepared with the aid of the Town Counsel.

A draft of suggested revisions to certain portions of the subdivision regulations was prepared and turned over to the Planning Board. It is hoped that the draft to the final section affecting road construction will be completed early in 1962.

A complete study of personnel requirements of the Department was made in conjunction with the Personnel Board for presentation to the town at the 1962 Annual Town Meeting.

A complete study of the projected ten year equipment requirements of the Department was made and presented to the Finance Committee. We hope that a joint recommendation can be reached prior to the Annual Town Meeting.

For 8 months considerable red tape was untangled and all requirements met for application to the Federal Communications Commission for a license to operate the radio system. The license has been granted and the radios will be in operation early in 1962.

The Road Commissioners obtained bids for and purchased a new pickup truck, a new 4½-ton dump truck, radios and two sand spreaders.

Bids were advertised and received on all materials, used by the Department, whose value equaled or exceeded \$1,000.

The Road Commissioners again thank the Highway Superintendent and all department employees for their diligence and cooperation during the past year on all phases of our program, with our special thanks to Mr. Bowers for so effectively handling the snow removal and other Department operations during the superintendent's absence last winter. We would also like to express our appreciation to the various Town Boards, Officials and Citizens for their cooperation on matters of mutual interest and concern to the town.

Respectfully submitted,

CHARLES H. PETERS, *Chairman,*
HORACE MEGATHLIN, JR., *Clerk,*
ROBERT M. CARSON,
Board of Road Commissioners.

REPORT OF ANIMAL INSPECTOR

I wish to submit my report as Animal Inspector for the Town of Wayland for the year 1961.

Inspected	313	Native Cows
Inspected	4	Native Bulls
Inspected	57	Young Stock
Inspected	4	Sheep
Inspected	33	Horses
Inspected	1	Mule
Inspected	289	Interstate Cattle
Quarantined	60	Dogs

Respectfully submitted,

WARREN F. LAWRENCE,
Inspector Animals.

REPORT OF COMMITTEE ON TOWN GOVERNMENT — 1962

In its 1961 report this committee recommended that the terms of office for the Town Clerk, Collector and Treasurer be changed from one to three years. An article to accomplish this was inserted in the warrant for the 1961 Town Meeting and was adopted by the Town. We report as follows on the other items mentioned in our 1961 report.

Relations Between the School Committee and

Other Town Departments

We are happy to report that during this past year all problems of overlapping jurisdiction and responsibility between the School and Health Departments have been ironed out. Likewise the problems of snow removal and maintenance of school grounds have been worked out satisfactorily between the School and Park Departments.

Police and Fire Communications

In our 1961 report, we said that a communications center, serving all departments, is a possible eventual solution but cannot be achieved for several years even if desirable. There have been no new developments during the past year, and the matter is, therefore, still in abeyance.

Public Safety Department

We continue of the opinion that it may in the future be advisable to combine the Fire and Police Departments under one chief. The matter is currently in abeyance.

Engineering Services

The Committee met in November with representatives of the Planning Board, Assessors, Water Board, Highway Commissioners, Finance Committee and the Town Counsel. Each Department reported on the type and quantity of engineering services required, how these were now being obtained and whether, from their viewpoint, it would be desirable to establish the position of Town Engineer.

The meeting made clear that the problem is one of great complexity. The types of engineering services required vary greatly, and there are many considerations which argue both for and against the hiring of a Town Engineer, not only from the viewpoint of satisfactory and prompt service but also of cost. It is clear that a considerable amount of research and study must be devoted to this question, and it will be pursued in the coming year.

Public Works Department

The Committee studied this matter and decided that the consolidation of public works functions should be accomplished gradually. Consolidation of the work of the Cemetery Board, Moth Superintendent and Tree Warden has already been achieved in fact by the appointment and election of the same man as superintendent of all three Departments. To assure the continuation of this desirable situation, we recommend the consolidation of all three functions under the jurisdiction of the Cemetery Board. This will require both legislation and a

vote of the Town Meeting. A bill has been introduced in the current session of the General Court to permit this action, and an article will be inserted in the warrant for the 1962 Town Meeting.

Enforcement of Town Laws

Preliminary studies indicate that the problem of properly enforcing all Town laws and regulations is a complex matter which will require considerable study, research, and consultation with many Town officials. This will be pursued further in the coming year.

Capital Budget

The Finance Committee has agreed that a capital budget is desirable. As a move in this direction, they will report to the Town this year the major capital expenditures which the Town faces in the next five years, and they hope to include a capital budget in next year's report.

We wish to report on the following new matters:

Date of Town Election

It was suggested to the Committee that consideration should be given to changing the date of the election of Town officers in relation to the date of the Annual Meeting. The thought behind this suggestion was that since new officers are elected only two days before the meeting, they have insufficient time to acquaint themselves with the questions coming before the meeting and that it would, therefore, be advisable for them to be elected either earlier or alternatively after the meeting. We determined that either change could be made and that there are towns which elect their officers shortly after the meeting and as much as two weeks ahead of the meeting. However, we believe that our present system is the best and do not recommend any change. We believe that even two weeks is insufficient time for a new officer to become adequately acquainted with the problems of his department, and it is far better for those who have been in office during the year to speak for the Department at the Town Meeting. This suggests the desirability of holding elections after the meeting. However, experience in other towns has shown that this results in electioneering at the meeting. Our system avoids both drawbacks. While the new officers are elected before the meeting, thus avoiding electioneering at Town Meeting, they do not take office until after the meeting (to provide for recounts) and, therefore, the old officers are still in office and should speak for their departments at Town Meeting. We do suggest, however, that all officers and citizens should know that the newly elected officers do not take office until after the meeting and that only the old officers should be expected to speak for their departments at the meeting.

Administrative Assistance for Planning Board

The Planning Board is composed of unpaid citizens whose primary function should be planning and policy making. However, the amount of detailed administrative and supervisory work involved in subdivision control is so great that while the Board devotes perhaps more hours to its work than any other unpaid board, it has not found time to do as much planning as it would like.

Also, the work load is more than should be expected of an unpaid board. The burden of this administrative work should be taken off

the shoulders of the Planning Board by providing for paid administrative assistance. This matter will receive our consideration during the coming year.

Therefore, the Committee recommends that it be continued to study the matters outlined above which require further study.

Respectfully submitted,

THOMAS F. LINNEHAN, *Rep. Selectmen*
 ROBERT M. MORGAN, *Rep. Finance Committee*
 JOHN J. SIMONI, *Rep. Personnel Committee*
 DUNBAR HOLMES, *Member-at-large*
 CAROL J. THOMAS, *Member-at-large*

REPORT OF THE CHIEF OF POLICE

December 31, 1931

1. MOTOR VEHICLES VIOLATION

Speeding	34

Cruelty to Animals	1
Manslaughter	1
Carrying a Dangerous Weapon	1
Carrying a Dangerous Weapon In a Motor Vehicle	1

The Wayland Police Department served during 1961: 396 Summons; 15 Subpoenas; 4 Warrants; 5 Show Cause and 3 To Parents.

The Total number of accidents reported for the year was 260 Fatal 3; Pedestrian 4; Bicycles 4; Property Damage 173 and 76 Personal Injuries.

The Officers checked the homes of 460 people who reported that they would either be away or on vacation.

The Department recorded 16,560 radio calls made either to or by the dispatchers during the year for accidents; fires; inebriates; fights; stray dogs and so forth.

The Department answered 1,247 Complaints during the year consisting of the following:

32	Disturbing the Peace	5	Cars not stopping for School Buses
24	Hot Rods	5	Children playing in street
1	Neglect of Minor Child	8	Trucks Disturbing the Peace
4	Fireworks	1	Attempting of Suicide
8	Larceny of Pumpkins	10	Hit and Run
8	Gas Gocarts	3	Exposure to minors
35	Phone Calls	2	Molesting minors
64	Prowlers	1	Running around naked
14	Salesman	5	Accosting
50	Speeding	2	Phone calls in regards to Sex
16	Drunks	3	Obscene Speech and Behavior
25	Suspicious Persons	1	Contributing to Delinquency of a Minor Child
32	Suspicious Cars	2	Explosions
17	Missing Persons	81	Parked Cars
27	Shootings	4	Cruelty to Animals
17	Hunters	19	Rubbish on Highways
15	Using B. B. Guns	17	Damage to Mail Boxes
4	Dump Stickers	121	Larceny
52	Breaking and Entering	3	Larceny by Check
12	Stolen Cars	7	Arson
4	Cars recovered in town	4	Threats
15	Assault and Battery	4	Threats by mail
54	Family and Civil Matters	83	Vandalism
10	Fights	1	Impersonating a Police Officer
55	Dog Complaints	3	Working on Sunday
7	Dogs killing hens	205	General Complaints
1	Dog killing sheep		
16	Dog-Bites		
3	Trouble on School Buses		

Complaints handled by other Departments:

Board of Health	2
Highway Department	12
Water Department	8
Tree Department	4

The Department used the lockup cells Thirty-seven Times.

I have submitted the following requests to the Honorable Board of Selectmen and the Finance Board.

- A. Two additional regular patrolmen to help cope with the increasing workload upon the Department of an ever growing population.

- B. An additional plain, unmarked cruiser for investigative work and as a needed replacement when one of the regular cruisers is being repaired.
- C. A 10% pay increase for all regular, full time police personnel.
- D. The installation of traffic lights at the following junctions:—
 - 1. Routes 27 and 126
 - 2. Memorial Square
 - 3. Oak Street and Commonwealth Road

This latter proposal requires first the initial approval of the State Department of Public Works.

During the past year former patrolman John C. Hodges resigned to enter his own business. Mr. Robert V. O'Connell was appointed as his replacement.

The Auxiliary Police are to be commended for their help and assistance. Patrolman Charles M. Nelson is the new Chief of the Auxiliary Police.

Again my sincere appreciation is extended to the various department heads and the citizenry of the Town for their continued efforts and cooperation.

Respectfully submitted,

ERNEST H. DAMON,
Chief of Police.

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

For the Year Ending December 31, 1961

Alarms Answered — 1961

Number of Alarms for Fires:

Residential Buildings	30
Non-Residential Buildings	22
Grass or Brush	82
All Other Fires (Motor Vehicles, Machinery, Rubbish, etc.)	31
Mutual Aid	3

Number of Alarms for Non-Fires:

Rescue, First Aid, Emergency Calls and Investigations ..	219
Mischievous and Malicious False Alarms	36
Smoke Scares, Honest Mistakes and Accidental Alarms ..	10
Total	433

Permits Issued

Fires in the Open Air	1,571
Installation or Alteration of Oil Burning Equipment	103
Installation of Liquified Petroleum Gas	17
Blasting	26

Although the total number of alarms is greater than any previous year it is interesting to note that there were 45 fewer fires than in the year 1960. Alarms for Rescue, First Aid, Emergencies and Investigations on the other hand increased by 54.

There were no lives lost in fires in 1961, however, the total fire loss to property was \$110,830.00. Three major fires involving non-residential buildings accounted for 93% of the total fire loss.

In November a tragic experiment with a "do-it-yourself" rocket resulted in the partial loss of the left hands of two Wayland boys.

On the brighter side many lives were saved during the year by the prompt action of citizens calling the Department for the resuscitator when this type of service was needed.

In the spring of 1961, the three nursing homes in Wayland installed fire detection systems which were connected to the municipal system in accordance with the fire protection ordinance passed in 1960 for this type of occupancy.

The Community Methodist Church on Main Street installed a complete fire detection system which was connected to the municipal system on May 31, 1961.

The alterations to the fire alarm control board at Station #2 recommended in the New England Fire Rating Association's 1958 survey were completed early in 1961.

The municipal alarm system was extended by the Department on Rice Road, Sherman Bridge Road and Oxbow Road. The fire alarm systems as installed by subdivision contractors on Sedgemoor Road, Aqueduct Road, Barney Hill Road, Brook Trail Road, White Pine Knoll

Road, Country Corners Road, Anthony Road, White Road and Lundy Lane were inspected, tested, approved and tied into the municipal system. There are 175 fire alarm boxes in the system to date. This provides the major portion of the community with the most positive means of notifying the Department at the time of an emergency. We would like to take this opportunity to urge all citizens to acquaint themselves with the box location nearest their home.

Nine condemned buildings were razed during the year. Some of the buildings were first utilized as smoke houses for the training of personnel in the use of breathing apparatus and later for instruction in actual firefighting of interior fires. The training program for all personnel was conducted in two 10 week sessions. In addition, four (4) men attended a Red Cross First Aid Course given at the Parmenter Health Center in December.

As in recent years the Department conducted a continuous building inspection program on a joint basis with the Building Department. This phase of fire prevention work is carried out not only to eliminate hazardous conditions but also to provide fire personnel the opportunity to be familiar with all buildings and the conditions inside and outside of them as they might relate to a fire problem involving the building. The types of buildings inspected included schools, churches, nursing homes, public buildings, commercial and industrial properties and multiple family dwellings. The inspection of single family residences by the Department other than for oil burner or liquified petroleum gas installations is done only upon request of the homeowner.

As a new service in 1961 fluorescent markers for the homes of invalids were installed by members of the Department with the consent of the owners. The markers were placed on the frames of front doors and on bedroom windows as an aid in the rescue of individuals bed-ridden or otherwise confined to the home. These markers are available free of charge upon request.

Apparatus Inventory

<i>Year</i>	<i>Ident.</i>	<i>Make</i>	<i>Type</i>
1935	Eng. #2	Chevrolet (Maxim)	500 G.P.M. Pumper
1935	Eng. #3	Ford (American LaFrance)	500 G.P.M. Pumper
1941	Forest Fire Truck	Ford	Comb. Forest Fire and Hose Wagon
1953	Eng. #4	Mack	750 G.P.M. Pumper
1953	Eng. #5	Mack	750 G.P.M. Pumper
1958	Fire Alarm Maint.	Willys - Jeep	Utility
1959	Car #1	Ford	Chief's Car (Sta. Wagon)
1960	Ladder #1	Ford (American LaFrance)	75' Aerial Ladder and Rescue Truck

All apparatus as listed above is in good condition. All maintenance and repairs of apparatus and equipment were performed in 1961 by fire personnel in the department shop. Gradual financial provisions are being made in the department's budget under the long range plan for the purchase and replacement of apparatus. Engine #2 at Station

#1, now 25 years old, will be replaced under present plans in 1963. Engine #3 at Station #2 will follow in 1966 after 31 years of service.

There are presently forty (40) members in the Department. Six (6) men are full-time and thirty-four (34) are part-time and on call. During the past five years the Department has been seeking to provide on a gradual basis a minimum of five (5) men on duty at all times, three (3) men in Station #1 and two (2) men in Station #2. The final step in this long range plan is being recommended for 1962 in the form of a request for one (1) additional full time firefighter. Seven full-time men plus our night duty system and strong support from our call force can provide this growing community with efficient fire protection. The above system provides an annual saving of approximately \$40,000.00 over a conventional arrangement of 17 full time men supported by a call force. We are fully aware that our total complement of personnel falls far short of the recommendations of the New England Fire Rating Association. However, if the Town can make the recommended step in 1962, we can feel that we have made practical progress in improving our fire defenses considering the burden the problem of rapid growth places on our municipal government.

There is an increasing number of nursery schools and kindergartens throughout the community, with a high enrollment. These schools are being conducted in various types of frame buildings. Many of the buildings being utilized for this purpose do not afford the children adequate protection from fire. All of the Wayland Public Schools are protected by either a fire detection or sprinkler system which is connected to the municipal alarm system. The younger children in these nursery schools need similar protection. It must be noted that in view of the ages of the children and the types of buildings being used the need for increased safety requirements is even greater. Therefore, the Fire Department is recommending the adoption of a fire ordinance in the form of an amendment to the Building Code which would require that all buildings used for Kindergartens or Nursery Schools for ten (10) or more children be protected by an approved fire detection system and connected to the municipal fire alarm system.

Special Signals — Audible Alarm

- 1- Daily Test at 5:45 P. M.
- 2- All Out
- 4-4 Boy Scouts Report to Fire Station
- 5-5 No School Signal at 6:45 A. M.
- 7-7 All Call Firefighters Report to their Station

Emergency Numbers to Call Fire Department

EL 8-4321

OL 3-4321

Numbers for Other Business

Station #1 EL 8-7951

Station #2 OL 3-2241

Once again I wish to request that citizens calling the department on any business other than an emergency please use the business lines

available in order that emergency lines may be kept free for that purpose.

I wish to extend my thanks and appreciation to the members of the department and to all persons who in any way have cooperated and assisted in the operation and development of this department.

Respectfully submitted,

FRANCIS J. HARTIN, *Chief,*
Wayland Fire Department.

REPORT OF THE BOARD OF ASSESSORS FOR THE YEAR 1961

January 19, 1962

The Board of Assessors regrets having to accept the resignation of its chairman B. Allen Benjamin. Mr. Benjamin has served the Town of Wayland in a number of capacities, culminating in over nine years with the Board of Assessors.

The new format of the triennial valuation book is for the increased usefulness of all the persons of the Town. The Board will welcome notice of any errors, omissions, or corrections. It is hoped that it will now be of value for a much longer time than the previous format.

The Board for the first time engaged the services of a professional appraiser for the specific purpose of obtaining area-wide experience in the value of unusual properties. It is hoped to widen the scope of this work to include commercial conforming and non-conforming properties.

The Board of Assessors is pleased to present the following statistics for information and analysis.

WILLIAM S. LEWIS, *Chairman*
FERN A. TAYLOR
WILLIS B. RYDER

STATISTICS FOR THE YEAR ENDING DECEMBER 31, 1961

<i>Real Estate Assessed January 1, 1960</i>	\$21,943,010.00

REPORT OF THE SCHOOL COMMITTEE

In 1961, two major problems continued to be the source of considerable concern to the school administration and to the School Committee. Neither of these problems is new, but some comment on both of them seems appropriate at this time.

The first is our ability to attract and retain teachers whose experience and skills are adequate to handle the relatively heavy demands made on them in our school system. In Wayland, as in many other American communities whose residents are demanding more and more quality from their educational systems, program and curriculum are in a constant state of flux. The same old courses are not taught in the same old way year after year. These changes require many long hours of preparation and study on the part of the teacher who must not only keep up with the changes, but who is expected to further improve and develop courses in his particular field and to relate them in a tangible way to other areas of study.

In order to obtain and keep teachers they want, other communities have evolved such devices as complicated merit pay systems, making offers at levels above established salary schedules, and awarding double increments. All of these devices have serious drawbacks and usually create more problems than they solve. Thanks to the Fund for the Advancement of Education of the Ford Foundation, Wayland, three years ago, was able to implement the so-called status concept in the organization of its staff. This provides for 15% to 20% of the staff to act as subject leaders or department heads. Teachers who participate in this program are paid enough more above the regular pay schedule to be employed twelve months rather than ten, as in the case of non-status teachers. The extra time is devoted to curriculum planning and development. In a sense this program amounts to a merit plan, but it avoids the pitfall of paying some teachers more money without making additional demands on them. In other words, the Wayland teacher who is willing and able to provide leadership and make creative contributions to the program is rewarded, but in turn his skills are employed to a fuller extent and the school system derives worthwhile benefits for the extra expense.

The second problem facing your school committee is one that has been with us for over a decade and is one that will be with us for as many years as can now be foreseen. It is a simple problem of numbers that has several serious implications. One is that it has a severe impact on our annual budgets. A second is that without careful forward planning it could cause severe harm to our educational program. A third is that there is no way to control it. The fact is that Wayland, with a population approaching 11,000 has 2,800 or about 26% of its total population in the public schools. By contrast the average in the Commonwealth is only 16%. This disparity exists even though Wayland does not support public kindergartens as do most other communities. If we were to incorporate kindergartens in our system, we would have nearly 30% of our population in public school. There are several communities in the Commonwealth that have a per pupil cost higher than Wayland's, but because of the large number of students in our system, a very large percentage of the town's total budget is allocated to school purposes (about 65% in 1961). The number of students in our schools has been growing rapidly during the past decade and all forecasts

indicate that it will grow at only a slightly slower rate in the next ten years. In 1956, our enrollment was 1,498. Now it is 2,805. Next year it will be 3,125, and in five years, 4,400.

Since the future trend of teachers' salaries cannot be predicted with accuracy, and since salaries constitute about 75% of the school budget, a definite dollar forecast of future budgets is unreliable but, because we will have an ever increasing number of students to teach (9% to 11% per year), it is safe to say that school budgets will continue to rise. We can only hope that the rate of increase will be slowed down somewhat.

In an effort to make more effective use of our teaching staff, we have employed clerks and interns. In 1962 we may try to make use of teacher aides in some elementary schools.

The School Committee wishes to express its deep gratitude for the untiring efforts on the part of all school employees, administrators, teachers, custodians, clerks and specialists. It especially wishes to thank other town boards whose activities interact with school department operations for their fine and continuing cooperation during the past year. It is most rewarding to members of the Committee to serve a town whose citizens continually lend their enthusiastic support to any effort to improve the quality of its school program.

SUPERINTENDENT OF SCHOOLS
AND
SECRETARY TO THE SCHOOL COMMITTEE
EDWARD J. ANDERSON

BUSINESS MANAGER
RICHARD J. LAVIN

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

The long range building program originally proposed to the Town by Engelhardt, Engelhardt, and Leggett, educational consultants, in the Fall of 1955, has been used as a general guide by the School Site Committee, the School Building Committee, and the School Committee. Since 1955 a number of significant developments have taken place in the community and in the schools making it desirable to deviate from some of the Engelhardt recommendations and to revise the long range school construction program to take into consideration the accelerated growth in the schools, which has been at a rate considerably greater than that projected in the Engelhardt report. Building changes have also become necessary because of recent advances in teaching technology.

Two major factors have accelerated the rate of pupil growth:

1. The Town's growth has exceeded the growth anticipated in 1955.
2. The "holding" power of the schools, especially the high school, has had a substantial effect on the growth in the number of pupils.

By September 1960, there were 347 or 15.7% more pupils in the schools than were forecast by Engelhardt in 1955. In grades 9 through 12 there were 126 or 29.7% students in excess of 1955 estimates. The annual revision of enrollment projections made it possible for the School Committee and School Building Committee to anticipate the accelerated high school enrollment and they increased the recommended capacity of the high school from 500-600 students to 850 students. Present trends indicate approximately 850 students in grades 9 through 12 by September 1964. (See Table I).

The "holding" power of the Wayland Public Schools, that is the trend away from attendance in non-public schools, is shown by examination of enrollments and census data. At the time of the Engelhardt report, in 1955, the 12th grade, then consisting of 47 students, had decreased from a seventh grade enrollment in 1950 of 72 students. As of 1961 the 12th grade of 115 students compares to a 1956 7th grade of 117 students. Since the Town was growing just as rapidly in 1950 to 1955 as it was from 1956 to 1961, the difference in "holding" power is evident. Present indications are that this trend will continue and that the increased "holding" power of the school must be taken into consideration in future estimates of building needs.

Table I is the enrollment data showing enrollment trends from 1956-1957 to 1961-1962, and a forecast of enrollment through 1971-1972. It should be pointed out that enrollment data forecasts tend to be more accurate in the first five years and less accurate after five years. Of real significance is the high rate of growth in the schools over the last several years ranging from a low of 7.1% increase in 1956-1957 to a high of 14.5% in 1957-1958 and leveling out to about 10% per year. This rate is expected to continue for the next two years at least.

A better way to illustrate growth is in terms of the number of classrooms needed. Using the desired optimum figure of 25 students to a room, the classroom needs of our schools have been expanding at the rate of approximately 10-12 classrooms a year for the last five years

and this rate of expansion will probably continue for at least the next five years. The anticipated enrollment increase for the 1962-1963 school year is 315 students. This means that the equivalent of a school of 12 rooms, the size of our Happy Hollow School, is needed to house each year's growth and indicates the heavy strain which will be placed on the Town to continue a satisfactory school building program. This emphasizes the need for careful long range planning as to how to house increased numbers of students, and how to provide the kind of facilities which will be suitable for a school program geared to meet the demands of modern technology.

Table II contains census data relative to the number of children under 18 residing in the Town; the estimated population and the number of dwelling units.

TABLE II
1961 CENSUS DATA

Population	10,965	
Dwelling Units	3,085	
18 years and under	4,530	
Number attending public and non-public schools	2,907	
Number attending public schools	2,798	(1)
Number attending non-public schools	142	(2)
% attending non-public schools	5.7	(2)
Number of children under school age	1,595	
Number of children per dwelling	1.47	
Number in public school per dwelling	.94	
Number pre-school children per dwelling	.52	
Number of children in grades 1-5 in school per dwelling	.48	
(1) Includes 3 students over 18		
(2) Does not include private kindergartens		

One of the significant factors shown in the school census is that for each dwelling in the Town there is approximately one-half of a child under school age. This is important in that the incoming first grade, each year, will far out-number the outgoing senior class for at least the next ten years. For example, the senior class for the 1961-1962 school year numbers 115 students whereas the incoming first grade, in the Fall of 1962, is expected to number 398 children. (See Table I).

Of special significance is the 1.47 children per dwelling unit of which .94 are attending public school. Only 5.7 percent of the children eligible to attend public school are presently attending non-public schools.

Until such time as the outgoing classes reach the size of the incoming classes (sometime after 1970), the need for additional classrooms will continue.

Let us look, therefore, at our long range school building program. The addition to the Claypit Hill School, to house approximately 240 pupils bringing the school's capacity to approximately 660 students, is a change from the basic policy of having more and smaller schools throughout the Town. One reason for this change is the change in teaching technology. In the last five years the instructional program has veered away from the self-contained classroom to groups of teachers working with groups of students. The evidence indicates that a far superior type of educational program is possible using this type of teaching. It is thus possible to have a far better program in a school of 600, where groups can be organized, than in a school of 200 to 300 students. It does seem, though, that with the addition of 240 pupils to the Claypit Hill School, the Claypit School will have reached its maximum. The proposed addition to the Loker School, for the Spring of

1962 to be ready for occupancy by September of 1963, will bring Loker School to approximately the same size as the Claypit Hill School.

Happy Hollow elementary school was originally designed for an addition of approximately 240 pupils or a total future enrollment of approximately 600 pupils. Cochituate elementary school is situated on a poor site with limited septic field area and is not adapted to expansion.

The school problem which should command the Town's immediate attention is the housing for the middle grades in our system. A review of the data on pupil enrollment shows that by 1965 some definite arrangements must be made in order to handle the bulge in these grades. The problem may be solved in several ways. One solution would be to add rooms to the Senior High School and move grade 8 out of the Junior High School into the Senior High School. Another would be to add rooms to Happy Hollow School and/or build another elementary school and move the sixth grade from the Junior High School back into the elementary schools, leaving grades 7 and 8 in the Junior High School. Still another would be to build a second Junior High School and house grades 5, 6, 7, and 8 in two Junior High Schools. This would delay the expansion of the elementary schools as well as the Senior High School. The Junior High School study committee made up of members of the staff and lay people are studying the re-educational needs of this group and will give their recommendations as to how best to house them so that housing can be ready no later than the Fall of 1965.

At this time Wayland has no kindergarten program. The school system in Wayland is going to be hindered, and is now being hindered, by the lack of a program for five year olds. Approximately one-third of all six year olds, entering the Wayland schools, have had no pre-school training of any kind.

Since as early as 1888, public kindergartens have existed in Massachusetts and for many years they have been considered *essential* elements in a *good* public school system. Few elementary schools being constructed today fail to include kindergartens and other special facilities for the pre-school child.

The purpose of kindergartens is to provide for the social integration of the child into the school group. The change from the seclusion and protective security of the home to the more formal and less protective atmosphere of the classroom requires a period of transition which cannot be provided in the first grade without detracting from the time needed for the exacting requirements of the educational program. It is during the early months of the first grade that study and work habits are often established for life. If the child is not socially adjusted, difficulties may develop which can have a lasting effect on the child.

A second important function of the kindergarten program is the gradual development of work and study habits. After he has been assimilated into the group pattern, he enters into the learning program which will fit him for entrance into first grade.

Private kindergartens do not fill the need adequately because they do not serve all the children and because it is at best difficult for the private school kindergarten teacher and the public school first grade teacher to work together.

It is, therefore, apparent that a school system that does not include kindergartens as an integral part of its program is placed in

an inferior position when related to schools which do provide for the pre-school child.

There are usually several solutions to a given problem. At a given time any one of the solutions may be superior to another. In attempting to find possible solutions to Wayland's school housing problems, every effort will be made to take all possible factors into consideration.

Three possible plans are presented here with estimates as to the costs of the program. These costs will naturally be subject to upward and downward movement of the cost of construction over the next ten years, but as of today, the estimates can be expected to be reasonably accurate.

Plan A is designed to rely as much as possible on additions and to delay the construction of any entirely new school as long as possible. (See Plan A attached).

Plan B delays the building of a Junior High School as long as possible but does require the construction of a new elementary school by 1965. (See Plan B attached).

Plan C is one which provides for kindergartens by 1964 and requires a Junior High School by 1965. This plan has obvious educational advantages over plans A and B but would require the expenditure of more money earlier than plans A and B. However, there would be little or no difference in the total cost of plans A, B, and C, over a ten year span if the cost of kindergarten space is included in plans A and B. (See Plan C attached).

Respectfully submitted,

EDWARD J. ANDERSON,
Superintendent.

REPORT OF WAYLAND PUBLIC SCHOOLS BUSINESS MANAGER

To the School Committee:

It is with pleasure that I herewith submit my second annual report as Business Manager since entering the School's Administration in September, 1959.

Business management in the Wayland Public Schools resolves itself around 5 major areas of responsibility.

1. Division of budget
2. Division of purchasing
3. Division of school buildings
4. Division of auxiliary services
Transportation and school food services
5. Division of personnel and records

1. The budget is the general financial and educational plan for a stated period of time. (In Wayland this constitutes the calendar year which encompasses 2 school years). Much time is spent in the preparation of a school budget because of the necessity of translating the educational program into an estimate of expenditures. In a sense, planning a budget for an ensuing year begins at the moment the present budget is voted by the Town. The formal preparation of the budget, however, starts in September in order to be completed for the ensuing calendar year. After final approval of the school budget by the Town, the various budget allotments are transferred to the accounts of the school department.

Following transfer to the accounts of the school department, it is then the administration's responsibility to expend the amounts appropriated as stated in the budget and to review periodically with the school committee how, when, and where these expenditures are taking place.

The budgetary process includes preparation, presentation, adoption, administration and, finally, appraisal by the School Committee.

Aiding in the budget control is a chart of accounts designed in accordance with the U. S. Department of Health, Welfare and Education on financial accounts for local and State school systems.

2. The purchasing of school supplies and equipment requires that all requests be submitted, for approval, to the Business Manager. A simplified procedure was established for ordering and receiving materials and equipment with a running inventory system for knowing when to order. No purchase order is issued unless it is ascertained that funds are available in the school budget for such a purchase. The four elementary schools, junior high and high schools are given an individual school budget to operate from. Purchase orders are typed at the respective schools and sent to the Business Office where they are signed and coding is checked. Copies of the purchase orders are sent back to the schools and are used for receipt of materials and verification is made for payment of invoices. After invoice payment is made, appropriate entry is made in expenditure ledgers. Procurement requires interviews with the many salesmen introducing and representing their

products to the schools. Competition is active on all purchasing through request for quotations and bids so that the school department may receive the greatest savings.

3. Efficient operation and maintenance of school plants becomes more important each year as the result of the school building program. The school plants in Wayland today are valued at over six million dollars. Primary responsibility for care of buildings is given to the custodians employed by the school department. The function of the custodian in the Wayland schools varies from operating the heating plant to cleaning floors and to maintaining safety.

Maintenance of the school buildings is established on a preventive maintenance schedule and an annual maintenance program. The maintenance schedule in Wayland naturally places emphasis on the older buildings. Because of the number of new buildings, the overall maintenance costs are less than those norms recognized on the State and National levels. The custodial services and building maintenance have the common objective of keeping the building in the best possible useful condition necessary to facilitate the purposes of the educational program.

4. Under auxiliary agencies are included items such as transportation, community use of school buildings, cafeterias, and miscellaneous activities.

Transportation, because of the 2,200 children being transported to and from school daily, is of significant importance in Wayland. Thirteen buses operate to transport the 85% of the school population who require transportation because of either safety or distance from school.

Community use of school buildings continues to increase as the people of Wayland utilize the buildings for their various activities. Applications are filed through the Business Manager's Office and, during the 1961 calendar year, there were 1,208 community uses of school buildings.

School food services are under the director of cafeterias and all payroll records and invoices are checked through the Business Manager's Office. School food services and transportation have grown rapidly and today represent two major operations in the Wayland Public Schools.

5. The school department continues its growth along with the school enrollment. Payrolls and personnel records of all professional and non-professional employees of the system are maintained by the administrative offices. School surveys, enrollment projections and statistical data are constantly being gathered for both appraisals and evaluations and for necessary state and federal reports.

The Business Manager's role in education today requires an understanding of the educational policies and programs set forth and the ability to interpret these educational plans into the "Bonds, Buses, Buildings and Budgets" necessary for the operation of schools.

Respectfully submitted,

RICHARD J. LAVIN,
Business Manager.

VOTES ENACTED AT THE ANNUAL TOWN MEETING

HELD: WEDNESDAY, MARCH 7, 1962

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:--

Pursuant to the Warrant dated February 5, 1962, signed by Thomas Francis Linnehan, Frank S. Tarr and George K. Lewis, Selectmen, served and return of service given by Ernest H. Damon, Constable of the Town, the inhabitants of the Town of Wayland qualified to vote in Town Meeting assembled this day; and at 7:45 P. M. the Moderator called the meeting to order, declared a quorum to be present and the meeting proceeded to transact the following business:

Article 1. To hear the report of the Town Officers, Agents and Committees and act thereon.

Mrs. Charles R. Thomas (Carol J.) called attention to the Report of the Committee on Town Government printed in the Annual Town Report on Page 130. Upon Motion of Mrs. Thomas, duly seconded, it was

VOTED: To continue this Committee in existence for another year.

Mr. John B. Gregory called attention to the Report of the Sidewalk Committee, on Page 107 of the Annual Town Report; and he briefly summarized the recommendations of that Committee:

Specific Sidewalk Program, in recommended order of Priority:

- | | |
|---------------------------------------------------------------------------|--------|
| 1. East Plain Street from Dunster to School Street | Paved |
| 2. Commonwealth Road from School to Loker | Gravel |
| 3. Loker Street to Loker School | Gravel |
| 4. Old Connecticut Path from West Plain Street
to Stonebridge Road | Paved |
| 5. Millbrook Road, Plain Road from Millbrook Road
to Claypit Hill Road | Gravel |
| 6. Maiden Lane from Old Connecticut Path to
Happy Hollow School | Paved |

FUTURE PROGRAM

Sherman Bridge Road and Oxbow Road in area within walking distance of North Wayland School Site.

Dunster Street and Access Road to New Junior High School when latter is built.

Draper Road in area within walking distance of Claypit Hill School.

Upon Motion of Mr. Gregory, duly seconded, it was

VOTED: That the Recommendations of the Committee be accepted, and that the Committee be discharged.

Mr. Theodore R. Magoun presented the report of the Recreation Advisory Committee, recommending site improvement for playing fields at the Cochituate Junior High School and North Wayland Elementary School sites; better lighting and one-way traffic for the Millpond skating; hinting at a future need for tennis courts at the Junior High School within the next year; telling of assistance from the Beach Committee and the Conservation Commission in relation to recreation and conservation projects. Also mentioned was a study of the Wayland League of Women Voters' sub committee of the Sudbury River Basin. The retirement of Mr. Harvey C. Newton was noted, with acknowledgment of his faithful service; and his successor, Mr. Richard E. Bicknell was welcomed to the Committee.

Upon Motion of Mr. Magoun, duly seconded, it was

VOTED: That the report of the Recreation Advisory Committee be accepted, that it be printed in the Town Report, and that the Committee be continued for further study.

Upon Motion of Mr. William C. Moyer, duly seconded, it was

VOTED: That the Committee Opposing High Tension Wires be continued in existence, and instructed to report at the next Annual Town Meeting.

Mrs. Seth F. Johnson (Constance C.) read the report of the Beach Committee, pointing out wherein it had been able to help the Park Department to find a qualified beach supervisor; and had offered recommendations to them in relation to the selection and scheduling of five (5) lifeguards, allowing for each to have one day off each week. Further, this Committee, meeting with the Park Department and the Beach Supervisor, have drawn up a set of rules, recommending that they be printed in the local papers, and that they be posted on a sign at the beach, for the coming season. The report also touched upon the need for gradual expansion in the future, to relieve the overcrowded conditions at the beach; and the need for a certain type of expandable pier, similar to those designed by the National Red Cross for use at summer camps of the Boys' Clubs of America. The Report further pointed out the need to remove certain weeds from the water in the beach area, and discussed two alternative methods for doing so.

Upon Motion of Mrs. Johnson, duly seconded, it was

VOTED: That this report be accepted as read, and that the Beach Committee be continued for another year.

Upon Motion of Mr. Robert M. Morgan, duly seconded, and by Unanimous Rising Vote the Meeting passed the following

RESOLUTION

WHEREAS until his death on October 4, 1961

CARLISLE DOUGLAS SCOTLAND

had served the Town twenty-five years as a member of the Board of Public Welfare;

WHEREAS he further served as President of the Parmenter Health Center since its inception;

WHEREAS his service in these positions was of the highest, his decisions and devotion to those who needed help and advice were given far beyond statutory duty;

THEREFORE, Mr. Moderator, as citizens assembled be it moved that by a rising vote we make known our appreciation of Carlisle Douglas Scotland; and that the Town Clerk be directed to note in the minutes of this meeting such vote, the motion and preamble to it, and a suitable copy be sent to his widow, Mrs. Eleanor Scotland together with the best wishes of the community.

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: That the By-Pass Committee be continued for another year.

Article 2. To choose all necessary Town Officers, Agents and Committees not elected by the official ballot.

Upon Motion of Mr. Magoun, duly seconded, it was

VOTED: That the Trustees of the Allen Fund be:

John Bryant
Benjamin W. Johnson, III
George W. Shepard

who shall continue to serve as Trustees of that Fund.

That the Selectmen act as Fence Viewers;

That the Constables act as Field Drivers;

That the following persons shall serve as Measurers of Wood and Bark:

Robert L. Davis
Thomas F. Linnehan
Arthur F. Marston;

Surveyors of Lumber: Thomas F. Linnehan
Arthur F. Marston; and

That the Memorial Day Committee be appointed by the Moderator in accordance with the vote made at the 1958 Annual Town Meeting.

Article 3. To see if the Town will vote to amend the Town By-Law establishing the Wage and Salary Classification Plan, as amended, in any of the following respects:

(a) Further amend Article II, Section 1 of said Plan by changing the salary rates for the following classifications, effective from January 1, 1962, to read as follows:

Position	Min.	1 year	2 years	3 years	4 years	5 years
Registered Professional Nurse	\$4,160.00	\$4,288.55	\$4,417.11	\$4,545.65	\$4,674.21	\$4,802.77
Public Health Nurse No. 1	\$4,500.00	\$4,628.36	\$4,756.72	\$4,885.08	\$5,013.44	\$5,141.79
Public Health Nurse No. II	\$5,120.00	\$5,214.77	\$5,309.53	\$5,404.29	\$5,499.05	\$5,593.81

(b) Further amend Article II, Section 1 of said Plan by adding the following new classifications and salary and wage rates:

Position	Min.	1 year	2 years	3 years	4 years	5 years
Senior Public Health Nurse	\$5,500.00	\$5,640.00	\$5,780.00	\$5,920.00	\$6,060.00	\$6,200.00
Secretary (Office of the Executive Secretary)	-- Part time	\$2.15 per hour				

(c) Further amend Article II, Section 1 of said Plan by deleting the position "Second Man -- Highway" and salary rate therefor, and adding the following new classification and wage rate:

Highway Heavy Equipment Operator--Foreman--\$2.25 per hour.

(d) Further amend Article II, Section 1 of said Plan by increasing by five (5) per cent the annual salary rates for each of the Police Chief, Police Sergeant, Fire Chief, Fire Captain, Children's Librarian--Professional, Assistant Librarian--Professional, Highway Superintendent, Water Superintendent, and Cemetery and Moth Control Superintendent, all such increases to be effective from January 1, 1962;

(e) Further amend Article VI, Section 1 of said Plan, effective from January 1, 1962, to read as follows:

"An hourly rate employee (other than a police or fire department call man) required to work between 7:00 P. M. and 7:00 A. M. Monday through Friday, or between 6:00 P. M. Saturday and 7:00 A. M. Monday because of an emergency outside his regular work hours, shall be paid a premium of fifty cents an hour in addition to

his regular rate of pay."

No objection having been raised from the floor, the Moderator omitted to read the detail of this article, in presenting the Article.

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: That inasmuch as a special meeting has been called for March 21, 1962, for the sole purpose of considering amendments and changes in the Wage and Salary Classification Plan, this article be passed over at this time.

Article 4. To grant money for necessary Town purposes.

Duly seconded, Mr. Robert M. Morgan offered the following

MOTION: That the report of the Finance Committee be accepted and its recommendations be adopted:

That \$2, 874, 599 with the addition of:

Highway Department--Snow Removal	\$7, 500. 00
Park Dept. --Lake Cochituate Beach Beach Retaining Wall	2, 500. 00

be granted, appropriated and assessed for the several purposes designated, making a total budget of \$2, 884, 599; and that the same be expended only for the purposes shown under the respective boards, committees and officers of the Town; and that

**All employees in the Town Office Building, other than elected officials and those of the Police and Fire Departments, come under the supervision of the Executive Secretary and that he be charged with the operation of both Town Office Buildings and their equipment;

The operation of the dumps be under the supervision of the Highway Department;

The money from Dog Taxes be allocated in its entirety to the Library;

The Senior Public Health Nurse, Public Health Nurses No. II and Nursing Assistants be under the supervision of the Board of Health;

The funds provided for under Fire Department, Call men--night duty, be used only under the following conditions: \$400. 00 annually to Call men who serve on the night shift, 6:00 P. M. to 7:00 A. M. fifty nights a year and not more than two nights in any one week. All funds to be expended for Call men only, except that not more than two regular men may serve as Call men--night duty, at the pay provided for such work. This is done with a view to building up and maintaining the number of men in the call department;

The appropriation under Highway Department for "Heavy Equipment--Special Account" be maintained as a fund against future pur-

chases and not to be expended without further vote of the Town;

The appropriation under Highway Department "Street Betterments--Construction" Bent Avenue \$5,000, if voted by the Town, be reserved and not expended until further direct vote of the Town;

The gifts to the Library, acceptance of which is provided for under Article 10, be made available for expenditures along with other amounts appropriated by the Town under the budget for the general expenses of the Library;

The Town Collector continue to act as Collector for the Water Department; that he be directed to charge fees for demands on overdue water bills and that the sums so collected be credited by the Collector to the Water Department, and that all fees and penalties be turned over to the Town as Town Income;

The appropriation for Hydrant Rental of \$10,000 for the Water Department granted in the budget, be transferred to "Water Available Surplus";

The Office of Town Clerk be retained on a salary basis and that all fees from whatever source derived be turned over to the Town as Town Income;

The appropriation for Fire Department for Major Equipment be maintained as a fund against future purchases and not to be expended without further direct vote of the Town;

The Assessors' Valuation Book printed in '61 continue to be made available, one to a taxpayer, upon his request and calling for it at the Town Office Building;

The unexpended balances in the following accounts be transferred to "Water Available Surplus";

Water Department	
Salaries--Superintendent	161.51
Labor	1,986.08
Maintenance	25.58
Equipment--New Trucks '61	83.31
Water Mains--relocation-- Moore Road	.04

and to cover the costs involved there be transferred to "Welfare Board--Salaries--Clerks" \$2,940 from "Welfare Board--Aid to Dependent Children--Federal Grants--Administration," and there be transferred to "Cemetery Department--Resetting Monuments" \$500 from "Cemetery Department--Perpetual Care Funds Income"; **

In addition to the sum of \$1,500 included in the budget to meet the Town's share of "Chapter 90--Maintenance" and \$6,700 to meet the Town's share of "Chapter 90--New Construction," the sum of \$3,000 for "Chapter 90--Maintenance" and \$20,100 for "Chapter 90--New Construction" be transferred from "Unappropriated Available Funds" in the Treasury to meet the County's and State's share of the cost of the work, the reimbursement from the County and State to be restored upon their receipt to "Unappropriated Available Funds" in the Treasury.

Upon Motion of Mrs. Stokey, duly seconded, it was
VOTED: To delete Item No. 1 from P. 30 of the Budget, relating to the Moderator's Salary of \$10. 00.

Upon Motion, duly seconded, of Mr. Richard Durant: To reduce Item 29 on Page 38 (Street Lighting) from \$13, 000 to \$11, 000 to represent discontinuance of running lights after midnight; it was
VOTED: In the Negative.

Mr. Durant had attempted to re-word his Motion of reduction to \$11, 500 instead of \$11, 000; but since there was an objection from the floor, the change could not be made.

Upon Motion of Mr. Morgan, duly seconded, it was
VOTED: To amend Item No. 6 on P. 42 of the Budget, (Recreation Expense--Town Building--Wayland--Contract Maintenance) by reducing the amount from \$3, 500 to \$2, 500.

Upon a Motion, duly seconded, of Mrs. Robert L. Davis (Natalie E.); To delete Items Nos. 24 and 25 on P. 43 of the Budget (relating to Playground Development at North Wayland School Site and Cochituate Junior High School Site) it was
VOTED: In the negative.

Upon the Main Motion, as amended (by Motions of Mrs. Stokey and Mr. Morgan), it was
VOTED: In favor.

Upon a Motion of Mr. Warren T. Cronin, duly seconded,
To adjourn the Meeting at 10:30 P. M. , to meet again at the same hall and the same hour next Wednesday, it was
VOTED: In the Negative.

Article 5. To see if the Town will vote to fix the salary and compensation of all elective officers of the Town, as provided by the General Laws (Tencentenary Edition) Chapter 41, Section 108, and set the effective date of such salary and compensation.

Upon Motion of Mr. Roger E. Ela, duly seconded, it was
VOTED: That the Town fix the salary and compensation of all elective officers of the Town, as voted Under Article 4, the effective date of such salary and compensation to be from January 1, 1962.

Article 6. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1962, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a per-

iod of less than a year, in accordance with Section 4, Chapter 44, General Laws.

Upon Motion of Mr. John T. W. Lawrence, duly seconded, it was VOTED: unanimously: That the Town authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1962, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than a year, in accordance with Section 4, Chapter 44, General Laws.

Article 7. To see if the Town will vote to authorize the Board of Selectmen to sell, or otherwise dispose of the following:

- (1) The Police Department's present two 1961 Chevrolet Station wagons, in connection with the purchase of two new station wagons;
 - (2) The Highway Department's present 1945 International 4-1/2 ton chassis 1954 dump body, 1956 dump body, 1954 Oliver 18 bulldozer, and worn out, small miscellaneous equipment, parts and scrap in connection with the purchase of two new 4-1/2 ton trucks;
 - (3) The Water Department's present 1956 Case back hoe, 1958 Chevrolet 1/2 ton pick-up truck, and miscellaneous small, used equipment, in connection with the purchase of a new back hoe and a new 1/2 ton pick-up truck;
 - (4) The Park Department's 1958 Ford 1-1/2 ton truck, in connection with the purchase of a new 1-1/2 ton truck;
 - (5) The Town Office miscellaneous used equipment;
- or do or act.

With unanimous permission of the Meeting, the Moderator and the maker of the following Motion, omitted the detail of this Article, in their respective presentations, since the wording followed exactly the wording of the Article as printed in the Warrant.

Upon Motion, duly seconded, of Mr. Morgan, it was VOTED: unanimously: That the Town authorize the Board of Selectmen to sell or otherwise dispose of the following:

- (1) The Police Department's present two 1961 Chevrolet station wagons, in connection with the purchase of two new station wagons;
- (2) The Highway Department's present 1945 International 4-1/2 ton chassis 1954 dump body, 1956 dump body, 1954 Oliver 18 bulldozer, and worn out, small miscellaneous equipment, parts and scrap, in connection with the purchase of two new 4-1/2 ton trucks;
- (3) The Water Department's present 1956 Case back hoe, 1958 Chevrolet 1/2 ton pick-up truck, and miscellaneous small, used equipment, in connection with the purchase of a new back hoe and a new 1/2 ton pick-up truck;

(4) The Park Department's 1958 Ford 1-1/2 ton truck, in connection with the purchase of a new 1-1/2 ton truck;

(5) The Town Office miscellaneous used equipment.

Article 8. To see if the Town will appropriate sums of money for the Water Department, determine whether the money shall be provided for by appropriation from available funds in the Treasury, by taxation and/or borrowing; or take any action relative thereto.

Duly seconded, Mr. Ela offered the following:

MOTION: That the Town appropriate the sum of \$154,903.04 for the following purposes and that to meet the appropriation, the sum be taken from "Water Available Surplus":

(1) Water Coupon Notes, Bonds and Registered Notes Maturing in 1962 -- Payment of Principal		\$23,500.00
(2) Water Coupon Notes, Bonds and Registered Notes -- Payment of Interest		4,494.75
(3) Water Department--Maintenance: Salaries:		
Superintendent	\$6,947.51	
2nd Man	5,146.30	
3rd Man	4,584.88	
Labor	18,000.00	
Town Office	<u>7,529.60</u>	42,208.29
Appropriation		40,000.00
Equipment--new 1/2 ton truck	1,700.00	
new back hoe	<u>15,000.00</u>	16,700.00
(4) Water Main Extensions--Refund Account		10,000.00
(5) Water Main Extensions--Deposit Account		3,000.00
(6) Water Main Extensions--		
(a) Draper Road--Sears to Glezen		
	10,000.00	
(b) Draper Road--North from Gammons Way	<u>4,000.00</u>	14,000.00
(7) Test Wells		1,000.00
		<u>\$154,903.04</u>

and that there be appropriated and transferred the following balances:

WATER DEPARTMENT

Standpipe--Paint and Repair	\$11,061.21
Standpipe--Construction	25,131.83
and a New Well and Pump	368.00
	<u>\$36,561.04</u>

to

WATER DEPARTMENT--Garage and Storage Building Account, none of the funds so transferred to be expended without further vote of the Town.

Duly seconded, Mr. R. Shedrick Meek offered the following
MOTION: To delete Item No. 6 (a) "Draper Road--Sears to Glezen" in the amount of \$10,000 from this Appropriation, from "Water Available Surplus."

Mr. Meek's Motion of Amendment was under discussion when,

Upon Motion of Mr. John R. McEnroy, duly seconded, it was
VOTED: To adjourn the Meeting to next Wednesday night at 7:45 P. M., at the same place.

This was at 10:58 P. M.

LEILA SEARS,
Town Clerk of Wayland

VOTES ENACTED AT
THE ADJOURNED ANNUAL TOWN MEETING

HELD: WEDNESDAY, MARCH 14, 1962

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:--

Pursuant to the Warrant for the Annual Town Meeting called for March 7, 1962, duly signed by the Selectmen, served and return of service given by a Constable of the Town; and a continuance being held in accordance with the vote taken at said meeting of March 7, 1962, the inhabitants of the Town of Wayland qualified to vote in Town Meeting met this day; and at 7:50 P. M. the Moderator called the meeting to order, declared a quorum to be present, and the meeting proceeded to transact the following business:

The Moderator announced that the meeting had recessed at Article 8, on a Motion of Amendment of Mr. Meek, to delete Item No. (6) (a) of Mr. Ela's Motion, in the amount of \$10,000.00 for "Water Main Extensions--Draper Road--Sears to Glezen."

Upon Mr. Meek's Motion, it was
VOTED: In the Negative.

Seven persons having doubted the vote, there was a
COUNTED VOTE: "Yes" 140 "No" 349.

Upon the Main Motion of Mr. Ela, it was
VOTED: In favor.

Article 9. To see if the Town will vote to appropriate and assess a sum of money for the reconstruction and improvement of Chapter 90 Roads, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, the work to be done under the supervisions of the Road Commissioners, or take any action relative thereto.

Upon Motion of Mr. William A. Loker, duly seconded, it was
VOTED: That the Town appropriate and assess the sum of \$6,700 for the reconstruction and improvement of Old Connecticut Path, said money to be used in conjunction with whatever money may be extended by the County or State, or both, for this purpose, the work to be done under the supervisions of the Road Commissioners, with the limitation that no more than \$1.00 of Town money be expended for each \$1.00 of County money and \$2.00 of State money.

Article 10. To see if the Town will vote to accept various conveyances, gifts and devises to the Town, or take any action relative thereto.

Upon Motion of Mr. Robert M. Morgan, duly seconded, it was
VOTED: Unanimously: That the consideration of Article 10 be postponed and acted upon after Article 42.

Article 11. To see if the Town will vote to raise and appropriate a sum of money for the preparation of plans and specifications and for the construction of an addition to the Loker Street Grade School, and for originally equipping and furnishing said addition; to determine whether the money shall be provided for by any appropriation from available funds in the Treasury, by taxation and/or by borrowing; or take any action relative thereto.

Duly seconded, Mr. Allan R. Finlay offered the following
MOTION: That the sum of \$285,000 be raised and appropriated for the preparation of building plans and specifications and for constructing and originally equipping and furnishing an addition to the Loker Street Grade School; that, to meet said appropriation, there be transferred from the Stabilization Fund the sum of \$100,000 and from "Excess and Deficiency" the sum of \$35,000; and that the Treasurer, with the approval of the Board of Selectmen, be and hereby is authorized and directed to issue notes of the Town aggregating not more than \$150,000 in principal amount, under the authority of Chapter 645 of the Acts of 1948, as amended, said notes to be issued and sold in accordance with the applicable provisions of Chapter 44 of the General Laws, as amended, and such notes to be payable in not more than one year from the date thereof; provided, however, that any matching Stabilizing Fund payments received from the Commonwealth under

Section 9 of Chapter 645 of the Acts of 1948, as amended by Chapter 377 of the Acts of 1961, shall be applied to the cost of the project, and that the total authorized borrowing shall be reduced by any such matching Stabilization Fund payments; that the committee originally appointed in accordance with the vote under Article 19 in the Warrant for the Annual Town Meeting held in March 1947 be authorized and directed to enter into all necessary contracts and agreements for the architectural and engineering work, construction, equipping, furnishing and site work of said building.

Mr. Finlay then presented the Report of the School Building Committee, with its recommendations in connection with this Article, projecting the anticipated school needs for meeting the expected growth of the Town, in the next few years. This Report was placed on file with the Town Clerk.

The first two votes under Mr. Finlay's Motion were not unanimous and since the Motion included an authorization for borrowing, there was a

COUNTED VOTE: "Yes" 655 "No" 12

Article 12. To see if the Town will vote to revise the method of selecting the members comprising the School Building Committee by providing that it shall hereafter consist of the Superintendent of Schools, three members of the School Committee, one member of the Planning Board and four members of the Finance Committee; the members representing their committee or board shall be chosen by their respective committee or board; or take any other action relative thereto.

Upon Motion of Mr. Charles R. Thomas, duly seconded, it was VOTED: That the article be passed over.

Article 13. To see if the Town will authorize the Board of Selectmen to lease to the Wayland Historical Society the site of the Old Town Hall upon the expiration of the present lease to the Wayland Historical Society under the same terms and conditions as in the 1961 lease executed under the 1958 vote of the Town; or take any action relative thereto.

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: unanimously: That the Town instruct and authorize the Board of Selectmen to lease to the Wayland Historical Society the site of the Old Town Hall upon the expiration of the present lease to the Wayland Historical Society under the same terms and conditions as in the 1961 lease executed under the 1958 vote of the Town.

Article 14. To see if the Town will vote to authorize the Selectmen to petition the General Court to enact legislation vesting in the Board of Cemetery Commissioners all the powers, rights and duties of the

Tree Warden and the Superintendent of Moth Extermination and abolishing said offices, said act to be submitted to the voters of the Town and to take effect if a majority of the votes on said ballot are in the affirmative; or take any action relative thereto.

Upon Motion of Mr. Ela, duly seconded, it was

VOTED: That the Board of Selectmen be authorized to petition the General Court to enact legislation vesting in the Board of Cemetery Commissioners all the powers, rights and duties of the Tree Warden and the Superintendent of Moth Extermination and abolishing said offices, said act to be submitted to the voters of the Town and to take effect if a majority of the votes on said ballot are in the affirmative.

Article 15. To see if the Town will vote to amend the Zoning By-Laws and the Zoning Map by changing from a Residential Zone, Sixty Thousand (60,000) square feet, Two Hundred Ten (210) foot frontage to a Light Manufacturing District and/or Limited Commercial District, any or all of the parcel of land situated on Rice Road and Old Connecticut Path bounded as follows:

NORTHWESTERLY AND NORTHEASTERLY by Old Connecticut Path and the Weston Aqueduct;

EASTERLY by the Town line of Weston;

SOUTHWESTERLY by Town line of Natick and by land now or formerly of George H. Ross, et al., and

NORTHWESTERLY, WESTERLY AND SOUTHWESTERLY by Rice Road.

The entire tract includes land now or formerly of the Mainstone Farm Trust, Frank W. Kilburn, Jr., et al., Louis W. Dean, Frederick S. Whiteside, Joseph Janson, et al., John B. Tanger, et al., and Richard W. Perry, et al., and consists of about 417.66 acres more or less; or take any action relative thereto.

Duly seconded, Mr. Ralph S. Blanchard offered a MOTION: That the article be passed over.

Upon a Motion of Mr. Howard C. Weeks, duly seconded:

That Article 34 be considered at the present time, concurrently with Article 15; it was

VOTED: In the Negative.

Mr. L. William Bertelsen presented the Report of the Planning Board in relation to Article 15, recommending that the Motion, to pass over the article, should carry. A copy of this Report was placed on file with the Town Clerk.

Upon Mr. Blanchard's Motion, it was
VOTED: In favor.

Article 16. To see if the Town will vote to amend the Town By-Laws by adding thereto a new by-law which by-law shall read as follows: "No plan or project, Federally subsidized or otherwise, shall be approved by the Board of Selectmen or any other Town board which shall necessitate the removal or displacement of five or more families within a given two-year period of time unless the homes from which said families are displaced is in each case declared to be unfit for human habitation by a Court of competent jurisdiction, or unless the owner of each property from which a family is to be displaced consents in writing, duly witnessed and/or acknowledged."; or take any action relative thereto.

Duly seconded, Mr. Hugh P. Taylor offered the following:

MOTION: That the Town amend the Town By-Laws by adding there-to a new by-law which shall read as follows:

"No plan or project, Federally subsidized or otherwise, shall be approved by the Board of Selectmen or any other Town board which shall necessitate the removal or displacement of five or more families within a given two-year period of time unless the homes from which said families are displaced is in each case declared to be unfit for human habitation by a Court of competent jurisdiction, or unless the owner of each property from which a family is to be displaced consents in writing, duly witnessed and/or acknowledged!"

Mr. Roger E. Ela, acting for Mr. Kilburn, the Town Counsel, who was prevented by illness from being present, expressed the opinion of Mr. Kilburn, and his own opinion as a lawyer, that there were several reasons why this by-law, even if it should be passed by this meeting, would be invalid and unworkable.

Upon Mr. Taylor's Motion, it was
VOTED: In the Negative.

Duly seconded, Mr. John R. McEnroy offered a
MOTION: To take up Article 34 at this time.

Upon a very light voice vote it was
VOTED: In the Negative.

Seven persons having doubted the vote, there was a
COUNTED VOTE: "Yes 484" "No" 239.

The required 2/3 of this vote being 482, the required vote carried in favor.

Article 34. To see if the Town will vote to change the zoning map and the zoning by-law from Single Residence District, thirty thousand (30,000) square feet, with one hundred fifty (150) foot frontage, to Limited Commercial District, any or all of a parcel of land now or formerly of Elizabeth A. DiCarlo, 26.2 acres, more or less, bounded on the west by Rice Road, on the north by the Commonwealth of Massachusetts Pressure Aqueduct, on the east by land located in the Town of Natick, and the south by Commonwealth Road East; or take any action relative thereto.

Duly seconded, Mr. Robert H. Charnock offered the following MOTION: That the Zoning Map and the Zoning By-Law be changed by changing from Single residence district Thirty Thousand (30,000) square feet, One Hundred Fifty (150) foot frontage to Limited Commercial District land now or formerly of Elizabeth A. DiCarlo, shown as Lot "C" on a plan entitled "Plan of Land in Wayland and Natick, Mass." dated February 19, 1962, by Everett M. Brooks Company, C. E., bounded and described as follows:

Beginning at a stone bound on said plan on the southerly side of the Commonwealth of Massachusetts Pressure Aqueduct and 177.84 feet east of Rice Road, thence south 20 degrees 11 minutes 25 seconds west a distance of 570.62 feet, thence south 48 degrees 01 minute 54 seconds east a distance of 280.44 feet to Commonwealth Road East, thence in an easterly direction along Commonwealth Road East 1555.94 feet to the Wayland-Natick Town line, thence northerly along the Wayland-Natick Town line 599.51 feet to the Commonwealth of Massachusetts Pressure Aqueduct, thence westerly along the Commonwealth of Massachusetts Pressure Aqueduct 1819.91 feet to the point of beginning.

Mr. Charnock then presented the Report of the Planning Board in relation to this Article, stating that a public hearing had been held on February 21 for discussion of this proposal, at which time considerable opposition had been expressed; and telling of the extent and nature of other Planning Board studies made in connection with the proposal. The Report also told of many restrictions which were contemplated to be imposed upon the intended purchaser of the property in question (Dow Chemical Company--Eastern Research Laboratory), and outlined the nature of the intended research laboratory which was to be expected if this change were enacted. The Planning Board recommended the acceptance of this proposed change by the Town.

Upon Motion of Mr. Charles H. Peters, duly seconded
TO ADJOURN the Meeting to one week from tonight, at the same place and the same hour; it was
VOTED: In the Negative.

Upon Motion of Mr. Andrews, duly seconded
"The Previous Question" the vote was far from unanimous so there
was a

COUNTED VOTE: "Yes" 709 "No" 11

Upon the Main Motion of Mr. Charnock there was a

COUNTED VOTE: "Yes" 377 "No" 377

The Moderator pointed out that since a 2/3 vote was required to
change a By-Law, the Motion did not carry.

Upon a Motion of Mr. Morgan, duly seconded

TO ADJOURN the Meeting until 7:45 P. M. next Wednesday in this
hall, it was

VOTED: In the Negative.

The Moderator declared Article 34 disposed of.

Upon Motion of Mr. Lloyd J. Osborn, duly seconded, it was

VOTED: That the Meeting be adjourned to 7:45 P. M. next Wed-
nesday in this same hall.

This vote of adjournment occurred at 11:40 P. M.

LEILA SEARS,
Town Clerk of Wayland

VOTES ENACTED AT
THE ADJOURNED ANNUAL TOWN MEETING

HELD: WEDNESDAY, MARCH 21, 1962

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:--

Pursuant to the Warrant for the Annual Town Meeting called for
March 7, 1962, duly signed by the Selectmen, served and return of
service given by a Constable of the Town; and a continuance being
held in accordance with the vote taken at the meeting of March 14,
1962, the inhabitants of the Town of Wayland qualified to vote in Town
Meeting met this day; and at 7:45 P. M. the Moderator called the
meeting to order, declared a quorum to be present, and the meeting
proceeded to transact the following business:

Duly seconded, Mr. James Andrews offered a
MOTION: To return to Article 34 and to reconsider the vote taken
under that article.

Upon Motion, duly seconded, of Mr. Frederick J. Anderson,
"The Previous Question" it was

VOTED: The Vote being far from unanimous, there was a
COUNTED VOTE: "Yes" 632 "No" 77

Upon the Motion of Mr. Andrews, the First Vote was far from un-
animous, and since a 2/3 vote was required, there was another
COUNTED VOTE: "Yes" 554 "No" 271

The required 2/3 of this total, being 550, the Motion was declared
to have carried:

The Moderator read Article 34 from the Warrant: To see if the
Town will vote to change the zoning map and the zoning by-law from
Single Residence District, thirty thousand (30,000) square feet, with
one hundred fifty (150) foot frontage, to Limited Commercial District,
any or all of a parcel of land now or formerly of Elizabeth A. Di-
Carlo, 26.2 acres, more or less bounded on the west by Rice Road,
on the north by the Commonwealth of Massachusetts Pressure Aque-
duct, on the east by land located in the Town of Natick, and the south
by Commonwealth Road East; or take any action relative thereto.

Upon Motion of Mr. Arnet L. Powell, duly seconded, it was
VOTED: To reconsider the action taken under Article 34.

A Motion to appoint a Committee to catalogue all vacant land in
Wayland and. . .

was ruled out of order by the Moderator as going beyond the scope
of the Article.

Duly seconded, Mr. L. William Bertelsen offered the following

MOTION: That the Zoning Map and the Zoning By-Law be changed
by changing from Single residence district, Thirty Thousand (30,000)
square feet, One Hundred Fifty (150) foot frontage to Limited Com-
mercial District land now or formerly of Elizabeth A. DiCarlo, shown
as Lot "C" on a plan entitled "Plan of Land in Wayland and Natick,
Mass." dated February 19, 1962, by Everett M. Brooks Company,
C. E., bounded and described as follows:

Beginning at stone bound on said plan on the southerly side of Com-
monwealth of Massachusetts Pressure Aqueduct and 177.84 feet east
of Rice Road, thence south 20 degrees 11 minutes 25 seconds west a
distance of 570.62 feet, thence south 48 degrees 01 minute 54 seconds
east a distance of 280.44 feet to Commonwealth Road East, thence in
an easterly direction along Commonwealth Road East 1555.94 feet to
the Wayland-Natick Town line, thence northerly along the Wayland-

Natick Town line 599. 51 feet to the Commonwealth of Massachusetts Pressure Aqueduct, thence westerly along the Commonwealth of Massachusetts Pressure Aqueduct 1819. 91 feet to the point of beginning.

Mr. Bertelsen then read the Report of the Planning Board relating to this Article, with the Recommendations of that Board, for the benefit of those who had not been present to hear it read by Mr. Char-nock the previous week. This reading had not been completed when the Moderator declared the Meeting to be in recess until all business under the Warrant for the Special Town Meeting called for 8:30 P. M. on this date, had been disposed of.

At 10:00 P. M. the Annual Town Meeting reconvened, was called to order by the Moderator, who declared a quorum to be present, and the Meeting proceeded to transact the following business:

Mr. Bertelsen resumed his reading of the Planning Board's Report relating to Article 34.

Upon Motion of Mr. Powell, duly seconded, "The Previous Question", the VOTE was not unanimously in favor; there being a requirement for a 2/3 vote upon such a Motion there was a

COUNTED VOTE: "Yes" 794 "No" 175

The required 2/3 of this vote being 646, the Motion was declared to have carried.

Upon a Motion, duly seconded, of Mr. Robert W. Charlton, "That a secret, written ballot be taken upon the vote under Article 34"; it was

VOTED: In the Negative.

Upon the Main Motion, there was a

COUNTED VOTE: "Yes" 653 "No" 339

The required 2/3 of this vote being 662, the Motion was declared to have failed.

Upon Motion of Mr. Robert M. Morgan, duly seconded, it was VOTED: That the Meeting be adjourned at 11:45 P. M. until a week from tonight, at 7:45 P. M. in this same hall.

VOTED: In the affirmative.

Article 17. To see if the Town will vote to amend the Town By-Laws by adding thereto a new by-law which by-law shall read as follows: "A complete written record verbatim shall be taken and kept of all Regular and Special Town Meetings, and this record shall be filed with the Town Clerk and be open to examination by the public"; or take any other action relative thereto.

Upon a Motion, duly seconded, of Mrs. Lester E. Leland (Pauline L.)

To amend the Town By-Laws by adding thereto a new by-law which by-law shall read as follows: "A complete written record verbatim shall be taken and kept of all regular and Special Town Meetings, and this record shall be filed with the Town Clerk and be open to examination by the public." It was

VOTED: In the Negative.

Article 18. To see if the Town will vote to appropriate the sum of \$320 for the purpose of reimbursing Norman G. Fair for expenses incurred by him during the period from September 1, 1960, through December 31, 1960, in his capacity as agent for the Board of Health for the Town of Wayland; or take any action relative thereto.

Upon Motion of Mr. Francis A. Fisher, duly seconded, it was
VOTED: That the article be passed over.

Article 19. To see if the Town will vote to authorize the Board of Selectmen, with the approval of the Town Counsel, to purchase from the Boston & Maine Railroad the land described in deed recorded with Middlesex South District Deeds in Book 2962, Page 81, and Book 4315, Page 1, or any portion thereof, and to acquire all rights of the Boston & Maine Railroad under lease recorded with Middlesex South District Deeds in Book 1777, Page 482, and raise and appropriate a sum of money therefor; or take any action relative thereto.

Upon Motion of Mr. Frank W. Kilburn, duly seconded, it was
VOTED: That the Board of Selectmen, with the approval of the Town Counsel, be authorized to purchase from the Boston & Maine Railroad the two parcels of land, with the buildings thereon, having a total area of about 45,700 feet, at the Wayland Center Station site, being a portion of the land described in deed recorded with Middlesex South District Deeds in Book 2962, Page 81, and Book 4315, Page 1, and to acquire all rights of the Boston & Maine Railroad with respect to said parcels under lease recorded with Middlesex South District Deeds in Book 1777, Page 482; and that there be appropriated and assessed therefor the sum of \$2,500.

At this point the meeting adjourned in accordance with the vote under Mr. Morgan's Motion, the hour being 11:45 P. M.

A True Copy,

Attest:

LEILA SEARS,
Town Clerk of Wayland

VOTES ENACTED AT
THE ADJOURNED ANNUAL TOWN MEETING

HELD: WEDNESDAY, MARCH 28, 1962

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:--

Pursuant to the Warrant for the Annual Town Meeting called for March 7, 1962, duly signed by the Selectmen, served and return of service given by a Constable of the Town; a continuance being held in accordance with a vote taken at the March 21, 1962, session of said Meeting, the inhabitants of the Town qualified to vote in Town Meeting met this day; and at 7:50 P. M. the Moderator called the meeting to order, declared a quorum to be present and the meeting proceeded to transact the following business:

The Moderator pointed out that, at the close of the previous session of this meeting, he had been in error to declare Article 19 disposed of, upon a mere voice vote, not unanimous, in favor of the motion in this Article. Because the motion and the article called for acquisition of land, a counted 2/3 vote would be required to carry such a motion, unless the vote was unanimous. At the request of the Moderator, and by unanimous consent of the meeting Article 19 was again taken up.

Article 19. To see if the Town will vote to authorize the Board of Selectmen, with the approval of the Town Counsel, to purchase from the Boston & Maine Railroad the land described in deed recorded with Middlesex South District Deeds in Book 2962, Page 81, and Book 4315, Page 1, or any portion thereof, and to acquire all rights of the Boston & Maine Railroad under lease recorded with Middlesex South District Deeds in Book 1777, Page 482, and raise and appropriate a sum of money therefor; or take any action relative thereto.

Upon Motion of Mr. Frank W. Kilburn, duly seconded, it was VOTED: That the Board of Selectmen, with the approval of the Town Counsel, be authorized to purchase from the Boston & Maine Railroad two parcels of land, with the buildings thereon, having a total area of about 45,700 feet, at the Wayland Center Station site, being a portion of the land described in deed recorded with Middlesex South District Deeds in Book 2962, Page 81, and Book 4315, Page 1, and to acquire all rights of the Boston & Maine Railroad with respect to said parcels under lease recorded with Middlesex South District Deeds in Book 1777, Page 482; and that there be appropriated and

assessed therefor the sum of \$2, 500. 00.

First vote under this Motion gave a scattering of "No's"
Second vote was unanimously in favor of the Motion.

Article 20. To see if the Town will vote to authorize the Board of Selectmen to acquire by purchase or gift from the Metropolitan District Commission, the two parcels of land on School Street shown on the plan entitled "Plan of Land in Wayland Showing Areas Taken from the Commonwealth" dated December 19, 1961, by Everett M. Brooks Co. , Civil Engineers; or take any action relative thereto.

Upon Motion of Mr. James D. Wells, duly seconded, it was

VOTED: unanimously: That the Town authorize the Board of Selectmen to acquire by purchase or gift from the Metropolitan District Commission, the two parcels of land on School Street shown on the plan entitled "Plan of Land in Wayland Showing Areas Taken from the Commonwealth" dated December 19, 1961, by Everett M. Brooks Co. Civil Engineers, and that there be assessed and appropriated therefor the sum of \$50. 00.

Article 21. To see if the Town will vote to authorize the Board of Selectmen to convey to the Metropolitan District Commission the parcel of land shown as parcel C on the plan entitled "Plan of Land in Wayland Showing Changes in Sideline of a Portion of Maiden Lane" dated December 26, 1961, by Everett M. Brooks Co. , Civil Engineers; or take any action relative thereto.

Upon Motion of Mr. Wells, duly seconded, it was

VOTED: unanimously: That the Board of Selectmen be authorized to convey, for the sum of \$1. 00, to the Metropolitan District Commission the parcel of land shown as parcel C on the plan entitled "Plan of Land in Wayland Showing Changes in Sideline of a Portion of Maiden Lane" dated December 26, 1961, by Everett M. Brooks Co. , Civil Engineers.

Article 22. To see if the Town will vote to authorize the purchase, take by eminent domain, gift, or by other means, for Park purposes, from the Wayland Rod and Gun Club, Inc. , the following parcel of land:

A certain parcel of land in Wayland, Mass. , shown as Lot A on a plan entitled "Plan of Land in Wayland, Mass. ," by Everett M. Brooks Co. , C. E. , dated December 7, 1961, and bounded and described as follows:

Beginning at a point on the lot line between Town of Wayland and Wayland Rod & Gun Club, Inc., which is fifty-five (55) feet Northwesterly of a stone bound on the Southerly sideline of Riverview Avenue, as shown on above-mentioned plan; thence running NORTH 1' 55" 20° West three hundred fifty-nine (359) feet; thence SOUTH 68' 27" 48° East fifty-seven and 77/100 (57.77) feet; thence SOUTH 00' 19" 00° East one hundred seven and 04/100 (107.04) feet;
SOUTH 10' 23" 40° West two hundred thirty-four and 39/100 (234.39) feet to the point of beginning.
Containing 11,845 square feet of land; or take any action relative thereto.

Upon Motion of Mr. Wells, duly seconded, it was VOTED: Unanimously: (The Moderator and Mr. Wells, with unanimous consent of the Meeting, omitted reading the exact description of the property referred to in this Article, since it was exactly as published in the Warrant.)
That the Board of Selectmen be authorized to accept a deed from the Wayland Rod & Gun Club, Inc. for Park purposes, the following parcel of land:
(as described under Article 22 of this Warrant).

Article 23. To see if the Town will authorize the Board of Selectmen to sell or exchange the parcel of land shown on Plate 36C of the Town Atlas, as Lot #170 Riverview Circle, containing 20,000 square feet of land to the Wayland Rod & Gun Club, Inc., or take any action relative thereto.

Upon Motion of Mr. Wells, duly seconded, it was VOTED: Unanimously: That the Board of Selectmen be authorized to convey the parcel of land shown on Plate 36C of the Town Atlas, as Lot #170 Riverview Circle, containing 20,000 square feet of land, to the Wayland Rod & Gun Club, Inc., on the condition that there be conveyed in exchange therefor the parcel described in the preceding article.

Article 24. To see if the Town will vote to authorize the Board of Selectmen to sell or otherwise dispose of to Madeline Eugene two parcels of land in Wayland, Massachusetts, shown as Lot 11B and Lot A on a plan entitled "Plan of Land in Wayland, Mass.," by MacCarthy Engineering Service dated November 14, 1961, and bounded and described as follows:

Beginning at a point on the Southeasterly sideline of Alden Road which is 43.32 feet Southwesterly of a point of curvature as shown on

above-mentioned plan; thence running

SOUTHERLY on a curve to the left with a radius of 275 feet a distance of one hundred forty-eight and $42/100$ (148.42) feet; thence NORTH 38' 58" 42° West twelve and $22/100$ (12.22) feet; thence NORTH 31' 44" 38° West thirty and $16/100$ (30.16) feet; thence NORTH 40' 59" 18° West fifty-three and $09/100$ (53.09) feet; thence NORTH 37' 38" 29° West twenty-seven (27) feet; thence NORTH 72' 54" 37° East one hundred thirty-four and $97/100$ (134.97) feet to the point of beginning.

Containing 6,628 square feet of land;
or take any action relative thereto.

The Moderator and Mr. Wells in making the following Motion, omitted to read the exact description of the land referred to in this Article, since the wording followed exactly the wording of the Warrant

Upon Motion of Mr. Wells, duly seconded, it was

VOTED: Unanimously: That the Board of Selectmen be authorized to convey to Madeline Eugene for the sum of \$150.00 two parcels of land in Wayland, Massachusetts, shown as Lot 11B and Lot A on a plan entitled "Plan of Land in Wayland, Mass.," by MacCarthy Engineering Service dated November 14, 1961, and bounded and described (as given under Article 24 of this Warrant).

Article 25. To see if the Town will vote to authorize the Board of Selectmen to sell the parcel of land shown on Plate 43A of the Town Atlas as Lots #843-847 Cedar Crest Road and containing 10,240 square feet of land, to John D. Buckley; or take any action relative thereto.

Upon Motion of Mr. Wells, duly seconded, it was

VOTED: Unanimously: That the Board of Selectmen be authorized to convey to John D. Buckley, for the sum of \$1.00, the parcel of land shown on Plate 43A of the Town Atlas as Lots #843-847 Cedar Crest Road and containing 10,240 square feet of land.

Article 26. To see if the Town will vote to abandon all its right, title and interest in that part of Loker Street lying between the Southerly line of land formerly of Maclaurin and Bright and now of Potts Realty Trust and the Northerly line of the new layout of Loker Street as shown on a plan entitled "Plan, Profile and Taking Plan of a part of Loker Street, Wayland, Mass., as laid out for the Town of Wayland" dated January 11, 1961, by Everett M. Brooks Co., Civil Engineers, and recorded with Middlesex South District Deeds as Plan No. 444 of 1961 (A of 2, B of 2) in Book 9788, Page 553, and con-

taining according to said plan about 4,400 square feet of land or however otherwise bounded, measured, or described; reserving however the right to use said land to be abandoned as a public way until such time as Loker Street as relocated is actually constructed as shown on said Plan referred to herein; or take any action relative thereto.

Upon Motion of Mr. Wells, duly seconded, it was

VOTED: Unanimously: That the Town abandon for the sum of \$1.00 all its right, title and interest in that part of Loker Street lying between the Southerly line of land formerly of Maclaurin and Bright and now of Potts Realty Trust and the Northerly line of the new layout of Loker Street as shown on a plan entitled "Plan, Profile and Taking Plan of a part of Loker Street, Wayland, Mass., as laid out for the Town of Wayland" dated January 11, 1961, by Everett M. Brooks Co., Civil Engineers, and recorded with Middlesex South District Deeds as Plan No. 444 of 1961 (A of 2, B of 2) in Book 9788, Page 553, and containing according to said plan about 4,400 square feet of land or however otherwise bounded, measured or described; reserving however the right to use said land to be abandoned as a public way until such time as Loker Street as relocated is actually constructed as shown on said Plan referred herein; said abandonment to be effective upon conveyance of the Town's interest in the land to which it relates pursuant to vote under Article 27 of the Warrant for this meeting.

Article 27. To see if the Town will vote to authorize the Board of Selectmen to sell, grant and convey for the sum of \$1.00 to James B. Potts, Jr., Trustee of Potts Realty Trust, the abutting owner, all the Town's right, title and interest in and to that part of Loker Street lying between the Southerly line of land formerly of Maclaurin and Bright and now of Potts Realty Trust and the Northerly line of the new layout of Loker Street as shown on a plan entitled, "Plan, Profile and Taking Plan of a part of Loker Street, Wayland, Mass., as laid out for the Town of Wayland" dated January 11, 1961, by Everett M. Brooks Co., Civil Engineers, and recorded with Middlesex South District Deeds as Plan No. 444 of 1961 (A of 2, B of 2) in Book 9788, Page 553, and containing according to said plan about 4,400 square feet of land or however otherwise bounded, measured or described, reserving however the right to use said land to be conveyed as a public way until such time as Loker Street as relocated is actually constructed as shown on said Plan referred herein; or take any action relative thereto.

(In making his Motion, (as follows), Mr. Wells omitted reading the portion which was worded precisely as the Article was worded in the Warrant. The Meeting consented unanimously to such omission.)

Upon Motion of Mr. Wells, duly seconded, it was

VOTED: Unanimously: That the Board of Selectmen be authorized to sell, grant and convey for the sum of \$1.00 to James B. Potts, Jr. Trustee of Potts Realty Trust, the abutting owner, all the Town's right, title and interest in, etc. (as given in the Warrant under Article 27).

Article 28. To see if the Town will vote to authorize the Board of Selectmen to purchase, take by eminent domain, gift and/or other means, on behalf of the Town of Wayland, a drainage easement through and over certain land, as shown on a plan entitled "Plan of Land in Wayland, Mass., (showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C. E., dated May 5, 1960, bounded and described as follows:

Beginning on the Northerly sideline of Woodridge Road at a point thirty-four and 40/100 (34.40) feet more or less, Westerly of the Southwesterly lot corner of the land of Baker, as shown on said plan, thence

WESTERLY along the sideline of Woodridge Road a distance of twenty-five and 47/100 (25.47) feet; thence
NORTH 48° 52' 40" East, a distance of fifty-four and 46/100 (54.46) feet; thence
NORTH 22° 28' 00" East, a distance of two hundred one and 69/100 (201.69) feet; thence
NORTH 19° 15' 00" West, a distance of one hundred four and 38/100 (104.38) feet; thence
NORTH 70° 45' 00" East, a distance of twenty (20) feet; thence
SOUTH 19° 15' 00" East, a distance of one hundred twelve (112) feet; thence
SOUTH 22° 28' 00" West, a distance of two hundred fourteen (214) feet along land now or formerly of Johnsen and land now or formerly of Baker, thence
SOUTH 48° 52' 40" West, a distance of forty-three and 39/100 (43.39) feet to the point of beginning.

together with the right to enter upon such premises and construct and maintain pipes, sewers, drains, manholes, ditches and appurtenant structures therein, and to raise and appropriate a sum of money therefor; or take any action relative thereto.

(The Moderator and Mr. Kilburn, in making the following Motion, omitted to read the description of the land referred to in this article, with unanimous consent of the meeting, since the wording followed exactly that of the Article as published in the Warrant.)

Upon Motion of Mr. Frank W. Kilburn, duly seconded, it was

VOTED: Unanimously: That the Board of Selectmen be authorized to acquire by purchase, by eminent domain, gift or other means, on behalf of the Town of Wayland, a drainage easement through and over certain land, as shown on a plan entitled "Plan of Land in Wayland, Mass., (showing Town of Wayland Drain Easement)" by Everett M. Brooks Co., C. E., dated May 5, 1960, bounded and described as follows:

(as described under Article 28 of this Warrant).

together with the right to enter upon such premises and construct and maintain pipes, sewers, drains, manholes, ditches and appurtenant structures therein, and that there be appropriated and assessed there for the sum of \$10.00.

Article 29. To see if the Town will vote to accept as public Town ways and to construct the roads known as: (1) Sunset Road, (2) Bent Avenue, (3) Rolling Lane, or any of them, or a portion or portions thereof, as laid out by the Board of Selectmen and as shown on plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire the necessary land, including easements for drainage, by purchase, gift, eminent domain or otherwise; to appropriate and assess a sum of money for the acquisition of such land or any portion thereof, the construction of such ways, and for other costs in connection therewith, with betterments to be assessed under the Betterment Act; or take any action relative thereto.

Upon Motion of Mr. Ela, duly seconded, it was

VOTED: Unanimously: That the Town dispense with the reading of the Order of Laying-out of the Board of Selectmen, in connection with this article.

Upon Motion of Mr. Ela, duly seconded, it was

VOTED: Unanimously: That the Town accept the Laying-out as a public Town way of Sunset Road, as described in the Order of Laying-out of the Board of Selectmen dated September 1, 1961, and as shown on a plan entitled "Taking Plan and Profile of Sunset Road in Wayland, Mass." on file with the Town Clerk; that the Board of Selectmen be authorized to acquire the necessary land, including easements for drainage, by purchase, gift, eminent domain or otherwise; that there be assessed the sum of \$12,000 for the acquisition of such land, for the construction of such way, and for other costs in connection therewith; and that betterments be assessed under Chapter 80 of the General Laws in accordance with the Order of Laying-out.

Article 30. To see if the Town will vote to authorize the Board of Selectmen to install water pipes and hydrants in the ways known as (1) Sunset Road and (2) Bent Avenue, or any portions thereof, and to

appropriate and assess a sum of money for the expense of installation of pipes and hydrants and other materials and other expenses thereof, with betterments to be assessed in accordance with provisions of the General Laws (Ter. Ed.) Chapter 40, Section 42G through 42I; or take any action relative thereto.

Upon Motion of Mr. Ela, duly seconded, it was

VOTED: Unanimously: That the Water Commissioners and the Board of Selectmen be authorized to install water pipes and hydrants in the way known as Sunset Road, and that there be appropriated and assessed the sum of \$7,500 for the expense of installation of pipes and hydrants and other materials and other expenses thereof, with betterments to be assessed in accordance with provisions of the General Laws (Ter. Ed.) Chapter 40, Section 42G through 42I.

Article 31. To see if the Town will vote to authorize the School Committee to transfer the care, custody, control and maintenance of the road shown on a plan entitled, "Plan of Land in Wayland, Mass., dated January 18, 1962, Everett M. Brooks Co., Civil Engineers, Newtonville, Wayland and West Acton," to the Highway Department; or take any action relative thereto.

Upon Motion of Mr. William A. Loker, duly seconded, it was

VOTED: That the School Committee be authorized to transfer the care, custody, control and maintenance of the road, located on the Claypit Hill School site, shown on a plan entitled "Plan of Land in Wayland, Mass., dated January 18, 1962, Everett M. Brooks Co., Civil Engineers, Newtonville, Wayland, and West Acton," to the Highway Department.

First Vote gave a scattering of "No's"

Second Vote was unanimously in favor of Mr. Loker's Motion.

Article 32. To see if the Town will vote to accept as a public Town way, the relocation of the road known as Lincoln Road, or a portion or portions thereof, as laid out by the Board of Selectmen, and as shown on a plan on file with the Town Clerk; to authorize the Board of Selectmen to acquire an easement for the necessary land, including easements for drainage, construction and slope, by purchase, gift, eminent domain or otherwise; and to raise and appropriate the sum of \$1.00 for the acquisition of such land, or any portion thereof, without any appropriation of money for construction of said road under the Betterment Act or otherwise; or take any action relative thereto.

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: Unanimously: That the article be passed over.

Article 33. To see if the Town will vote to accept as a public Town way, the relocation of the road known as Draper Road, or a portion or portions thereof, as laid out by the Board of Selectmen, and as shown on a plan on file with the Town Clerk; to authorize the Board of Selectmen to acquire an easement for the necessary land, including easements for drainage construction and slope, by purchase, gift, eminent domain or otherwise; and to raise and appropriate the sum of \$1.00 for the acquisition of such land or any portion thereof; without any appropriation of money for construction of said road under the Betterment Act or otherwise; or take any action relative thereto.

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: Unanimously: That the Town dispense with the reading of the Order of Laying-out of the Board of Selectmen, in connection with this Article.

Duly seconded, Mr. Morgan offered the following

MOTION: That the Town accept as a public Town way, the relocation of the road known as Draper Road, as laid out by the Board of Selectmen, and as shown on a plan on file with the Town Clerk; that the Board of Selectmen be authorized to acquire an easement for the necessary land, including easements for drainage construction and slope, by purchase, gift, eminent domain or otherwise; and that there be appropriated and assessed the sum of \$1.00 for the acquisition of such land and easements, without any appropriation of money for construction of said road under the Betterment Act or otherwise.

A Motion of Mr. George Vinsonhaler, "To pass over the Article" was ruled out of order by the Moderator, who pointed out that a "No" vote under the current motion would accomplish the same end, and further pointed out that Mr. Morgan's Motion would require a 2/3 vote in order to carry, since the acquisition of land-interests was involved.

Upon Mr. Morgan's Motion, it was

VOTED: In the Negative.

Duly seconded, Mr. Renzo Franceschi offered a

MOTION: To Return to Article 34, (voted and disposed of at two prior sessions of this Meeting. Mr. Franceschi's Motion sought to return it to its original position in the Warrant.)

Upon Motion of Mr. Frederic H. Newton, duly seconded, "The Previous Question": The First and Second Votes were not unanimous, so there was a

COUNTED VOTE: "Yes" 1,599 "No" 10

Upon Mr. Franceschi's Motion, there was a
COUNTED VOTE: "Yes" 1, 213 "No" 465

The required 2/3 of this vote being 1, 119 the Motion was declared to have carried.

Article 34. To see if the Town will vote to change the zoning map and zoning by-law from Single Residence District, thirty thousand (30, 000) square feet, with one hundred fifty (150) foot frontage, to Limited Commercial District, any or all of a parcel of land now or formerly of Elizabeth A. DiCarlo, 26. 2 acres, more or less, bounded on the west by Rice Road, on the north by the Commonwealth of Massachusetts Pressure Aqueduct, on the east by land located in the Town of Natick, and the south by Commonwealth Road East; or take any action relative thereto.

Upon Motion of Mrs. Peter Beckwith (Eleanor V.) duly seconded, it was

VOTED: To reconsider the vote under Article 34.

Duly seconded, Mr. Robert W. Charlton offered the following MOTION: That the Zoning Map and the Zoning By-Law be changed by changing from Single Residence District, Thirty Thousand (30, 000) square feet, One Hundred Fifty (150) foot frontage to Limited Commercial District land now or formerly of Elizabeth A. DiCarlo, shown as Lot "C" on a plan entitled: "Plan of Land in Wayland and Natick, Mass.," dated February 19, 1962, by Everett M. Brooks Company, C. E. , bounded and described as follows:

Beginning at a Stone bound on said plan on the southerly side of the Commonwealth of Massachusetts Pressure Aqueduct and 177. 84 feet east of Rice Road, thence south 20 degrees 11 minutes 25 seconds west a distance of 570. 62 feet, thence south 48 degrees 01 minute 54 seconds east a distance of 280. 44 feet to Commonwealth Road East, thence in an easterly direction along Commonwealth Road East 1555. 94 feet to the Wayland-Natick Town line, thence northerly along the Wayland-Natick Town line 599. 51 feet to the Commonwealth of Massachusetts Pressure Aqueduct, thence westerly along the Commonwealth of Massachusetts Pressure Aqueduct 1819. 91 feet to the point of beginning.

A Substitute Motion of Dr. John Gordon Freymann: That the Planning Board be directed to bring in a Report to the Town at the next annual Town Meeting (and he listed items of information that they were to study and report upon), was ruled out of order, as going beyond the scope of this Article.

Duly seconded, Mr. Thomas J. Judge offered the following MOTION: "The Previous Question."

Upon a Motion (Amendment to Mr. Judge's) of Mrs. Wilson: "To postpone termination of debate until after a report from the Finance Committee upon this Article." It was

VOTED: In the Negative.

Seven persons having doubted the vote, there was a COUNTED VOTE: "Yes" 375 "No" 1,149

Upon Mr. Judge's Motion, there was a COUNTED VOTE: "Yes" 1,395 "No" 161

Upon the Main Motion of Mr. Charlton, there was a COUNTED VOTE: "Yes" 1,153 "No" 500

The required 2/3 of this vote being 1,102 the Motion was declared to have carried.

Upon a Motion of Dr. Freymann, duly seconded: "To return to Article 1" it was

VOTED: In the Negative.

Article 35. To see if the Town will vote to amend the zoning by-law by changing the requirement of 60,000 square feet with 210-foot frontage to 20,000 square feet with 120-foot frontage, the following described land, --land on the northerly side of Glezen Lane, owned by Joseph Rodier, consisting of 13.63 acres, and being the same property conveyed to the said Joseph Rodier by deed of C. Mifflin Frothingham, dated February 8, 1924, and duly recorded with Middlesex South District Deeds, Book 4702, Page 261, and shown as "Plan of Property of C. Mifflin Frothingham in Wayland, October 1923, P. B. Rand, C. E. , the said plan being duly recorded at said Registry of Deeds, in Plan Book 332, Plan 5."

Upon a Motion of Mr. L. William Bertelsen, duly seconded, it was VOTED: That the Article be passed over.

Upon a Motion of Mr. Robert M. Morgan, duly seconded, it was VOTED: That this Meeting be adjourned only after Article 43 has been disposed of.

Article 36. To see if the Town will vote to amend the zoning by-law by changing the requirement of 60,000 square feet with 210-foot frontage to 20,000 square feet with 120-foot frontage, the following described land:--the land on the southerly side of Glezen Lane owned by Joseph Rodier, consisting of 8.42 acres, and being the same

property conveyed to the said Joseph Rodier by deed of Ernest F. Lawrence, Jr., and duly recorded with Middlesex South District Registry in Book 6896, Page 556, with the exception of about four acres previously conveyed to others since date of acquisition, and which are all one-half acre lots: or take any action relative thereto.

Upon Motion of Mr. Bertelsen, duly seconded, it was
VOTED: Unanimously: That the article be passed over.

Article 37. To see if the Town will vote to authorize the Board of Selectmen to file and/or support legislation in the Massachusetts General Court which would provide a basis for the Boston Edison Company being required to locate any new power lines for the transmission of electricity at high voltage underground within the Town of Wayland, and to employ legal counsel to represent the Town at any hearing before the General Court, and to take all appropriate legislative measures necessary to secure the passage of such legislation, and to raise and appropriate a sum of money therefor; or take any action relative thereto.

Duly seconded, Mr. William C. Moyer offered the following
MOTION: That the Town authorize the Board of Selectmen:

1. To file and/or support legislation in the Massachusetts General Court designed for the location of any new power lines, for the transmission of electricity in bulk, underground within the Town of Wayland;
2. To authorize the Town Counsel to represent the Town at any hearing relevant to such legislation before the General Court and to take all appropriate legislative measures necessary to secure the passage of such legislation, including the right to employ technically and/or professionally qualified personnel;
3. And that the Town raise and appropriate the sum of two thousand (\$2,000) dollars therefor.

Mr. Moyer then presented the report of the Committee Opposing Overhead High Tension Lines, both as a Progress Report of the Committee, and giving their recommendation in favor of this Motion. This Report was then placed on file with the Town Clerk.

Upon a Motion of Mr. Ralph S. Blanchard, Jr., duly seconded, That the \$2,000 appropriation be deleted from this Motion, it was
VOTED: In the Negative.

With unanimous consent of the Meeting, Mr. Moyer was permitted to amend the wording of his motion, in accordance with advice from the Moderator: To insert after the words, "Town Counsel," the words, "or other counsel designated by him," so that Item No. 2 of his Motion, then read, "2. To authorize the Town Counsel, or other

counsel designated by him, to represent the Town," etc.

Upon Mr. Moyer's Motion, as amended, it was

VOTED: First and second votes were not unanimous; however the Third Vote was unanimously in favor of the Motion.

Article 38. To see if the Town will vote to amend its By-Laws by adding the following new article, the provisions of which shall be subject to the approval of the Division of Motor Boats of the Commonwealth of Massachusetts:

Section 1: No motor boat shall be operated upon any portion of the Sudbury River or its tributaries within the Town in a manner which endangers the safety of the public or is detrimental or injurious to the neighborhood or to the value of property thereon.

Section 2: It shall be prima facie evidence of the violation of this by-law if such boat is operated by a motor not having an underwater exhaust, or in a noisy or obnoxious manner, or at any unreasonable rate of speed, or without slowing down and exercising due caution while approaching and passing persons bathing or any other watercraft, or at any speed in excess of ten miles per hour.

Section 3: Any person violating any provision of this by-law shall be subject to a fine not exceeding \$20.00 for each offense.

Section 4: The Town may join with any other town, through which said Sudbury River or any of its tributaries flows, in the enforcement of this by-law or a similar by-law adopted by such other town insofar as such by-laws relate to said river or its tributaries, and may appropriate money for the enforcement in whole or in part of any and all such by-laws.

or take any action relative thereto.

Upon a Motion of Mr. Francis A. Fisher, duly seconded, it was

VOTED: Unanimously: That the Town amend its By-Laws by adding a new by-law reading as follows:

Section 1. No motor boat shall be operated upon any portion of the Sudbury River or its tributaries within the Town, in a manner which endangers the safety of the public or is detrimental or injurious to the neighborhood or to the value of property thereon.

Section 2. It shall be prima facie evidence of the violation of this by-law if such boat is operated by a motor not having an underwater exhaust, or in a noisy or obnoxious man-

ner, or at any unreasonable rate of speed, or without slowing down and exercising due caution while approaching and passing persons bathing or any other watercraft, or at any speed in excess of ten miles per hour.

Section 3. Any person violating any provision of this by-law shall be subject to a fine not exceeding \$20.00 for each offense.

Section 4. The Town may join with any other town, through which said Sudbury River or any of its tributaries flows, in the enforcement of this by-law, or a similar by-law adopted by such other town insofar as such by-laws relate to said river or its tributaries, and may appropriate money for the enforcement in whole or in part of any and all such by-laws;

with the provision that the amendment shall be subject to the approval of the Division of Motor Boats of the Commonwealth of Massachusetts.

Upon a Motion, duly seconded; To Return to Article 34, it was VOTED: In the Negative.

Seven persons having challenged the vote ("To Return to Art. 34") there was a

COUNTED VOTE: "Yes" 254 "No" 673

Article 38 was then declared disposed of.

Article 39. To see if the Town will vote to authorize the Board of Selectmen to establish the following rules and regulations for the use of Dudley Pond, subject to the approval of the Division of Motor Boats of the Commonwealth of Massachusetts:'

Rule 1. No boat or canoe propelled by motor power shall travel faster than ten (10) miles per hour.

Rule 2. No boat or canoe propelled by motor power shall tow another (except in emergency).

Rule 3. No boat or canoe propelled by motor power shall be operated in a manner dangerous to others.

PENALTY

Any person violating any of the above rules, shall for each offense be punished by a fine of not more than twenty dollars (\$20.00); or take any action relative thereto.

(With unanimous consent of the Meeting, Mr. Fisher omitted to read the wording of the Rules and Regulations, since they followed exactly as printed in the Warrant.)

Upon Motion of Mr. Fisher, duly seconded, it was

VOTED: That the Board of Selectmen be authorized to establish

the following rules and regulations for the use of Dudley Pond:

Rule 1. No boat or canoe etc. (as printed in the Warrant under Article 39).

with the provision that such rules and regulations shall be subject to the approval of the Division of Motor Boats of the Commonwealth of Massachusetts.

Article 40. To see if the Town will vote to amend Chapter V of the Building Code, as amended, by adding at the end thereof the following section:

Section 17--Fire Protection

"(a) No building shall be used in whole or in part as a nursery school or kindergarten for ten (10) or more pupils unless such building is protected throughout either by a standard automatic sprinkler system designed to give audible alarm on the premises, and also automatically to transmit a fire alarm signal to the Fire Department headquarters; or by a complete automatic fire detection system with an approved design of wiring and equipped with thermostats designed to give audible alarm on the premises, and also automatically to transmit a fire alarm signal to the Fire Department headquarters;

PROVIDED that nothing contained in this sub-section (a) shall apply to a building used on March 1, 1962, which complies with the requirements of sub-section (b). "

"(b) No building used on March 1, 1962, as a nursery school or kindergarten shall be used for any such purpose after March 1, 1963, unless such building is protected throughout either by a standard automatic sprinkler system designed to give audible alarm on the premises and also automatically to transmit a fire alarm signal to the Fire Department headquarters or by a complete automatic fire detection system with an approved design of wiring and equipped with thermostats designed to give an audible alarm on the premises and also automatically to transmit a fire alarm signal to the Fire Department headquarters. "

"(c) No sprinkler or fire detection system shall be deemed to meet the requirements of this section unless it is in accordance with the standards of the National Board of Fire Underwriters and approved by the Chief of the Fire Department. ";

or take any action relative thereto.

(With unanimous consent of the Meeting, Mr. Fisher, in offering the following motion, omitted to read the wording of the proposed Building Code Amendment, as did the Moderator, in presenting the Article, since the wording followed exactly the wording of the Warrant)

Upon Motion of Mr. Fisher, duly seconded, it was

VOTED: Unanimously: That the Town amend Chapter V of the Building Code, as amended, by adding at the end thereof the following section:

Section 17. --Fire Protection

"(a) - (c) (as given above in Article 40 of the Warrant for this Meeting)."

Article 41. To see if the Town will vote to amend the Building Code in any or all of the following respects, or take any action relative thereto:

1. By inserting after the first sentence in paragraph (a) of Section 4. (a) of Chapter 1 thereof the following:

"Whoever desires in the Town of Wayland to install aluminum or other metal siding on any building, shall first apply for, and obtain a permit."

and by adding at the end of Chapter V thereof an additional section as follows:

"SECTION 16. METAL SIDING. All aluminum or other metal siding on any building shall be adequately electrically grounded so as to reduce the danger from fire or other hazard."

2. By adding to Section 6 of Chapter I an additional sub-section as follows:

"(g) After batter-boards are in place and the site is ready for erection of forms or laying of blocks for foundations, but before proceeding with actual construction of foundations, there shall be filed with the Inspector a signed statement by a registered Land Surveyor to the effect that he has by survey verified that the actual location for foundations provided for is in accordance with the plot plan filed with the application for permit, or in accordance with a modified plot plan prepared by such surveyor filed with such statement which shows compliance with all applicable provisions of the Zoning By-Laws."

3. By striking out Section 18 (a) of Chapter IX thereof reading as follows:

"(a) All frame private garages attached to dwelling shall have ceilings and walls lathed and plastered to a minimum thickness of 3/4 inch."

and substituting therefor the following:

"(a) All frame private garages attached to or constructed in a building shall be separated from all other parts of the building with wall and ceiling construction of at least one hour fire resistance rating."

4. By adding to Section 6 of Chapter I an additional sub-section to be designated Section 6 (g) or 6 (h), as follows:

"No person shall occupy any building or structure hereafter constructed or moved unless a Certificate of Occupancy for the same shall have been granted."

"The owner or representative of the owner of any building or structure for which a permit for construction or moving has been granted shall, upon substantial completion of the work authorized by the permit, notify the Inspector thereof. The Inspector, promptly after receipt of such notice, shall inspect the building or structure. If the work authorized by the permit has been properly substantially completed, including in any event all features which the Inspector deems necessary for health and safety of occupancy and any necessary grading to prevent flow or seepage of water into basement areas, he shall issue a certificate of occupancy to the owner, specifying that the building or structure may be occupied for the purposes stated in the permit."

With unanimous consent of the Meeting, the Moderator, and Mr. Ela, in presenting the Article and the following Motion, omitted to read the wording of the Building Code Amendment proposed by this Article, since it followed exactly the language of the Article as printed in the Warrant.

Upon Motion of Mr. Roger E. Ela, duly seconded, it was
VOTED: That the Town amend the Building Code in the following respects:

(As given under Article 41 of the Warrant for this Meeting.)
this section to be designated as Section 6 (h).

Duly seconded, Mr. Theodore R. Magoun offered a
MOTION: To Return to Article 1 for the sole purpose of receiving the Annual Town Report. This was
VOTED: In the Negative.

Article 42. To see whether the Town will vote to amend the Electrical Rules for the Town of Wayland by striking out Section 3 thereof, relating to permit fees, and substituting therefor the following:

"Section 3. The permit fees shall be in such amounts as shall from time to time be established by the Board of Selectmen."

Upon Motion of Mr. Ela, duly seconded, it was
VOTED: Unanimously: That the Town amend the Electrical Rules for the Town of Wayland by striking out Section 3 thereof, relating to permit fees, and substituting therefor the following:

"Section 3. The permit fees shall be in such amounts as shall from time to time be established by the Board of Selectmen."

In accordance with a vote taken at the time when Article 10 was before the Meeting, that Article was taken up at this time.

Article 10. To see if the Town will vote to accept various conveyances, gifts, and devises to the Town, or take any action relative thereto.

Upon Motion of Mr. Frank W. Kilburn, duly seconded, it was VOTED: That the Town accept with thanks the following gifts:

1. A gift to the public library of \$3,000 from the John C. Paige & Company.
2. A gift from Henry Patterson and Robert Patterson, the sum of \$500, to be held in trust and known as the XYZ Memorial Fund, the amount to be used for the purchase of books for the Wayland Public Library.
3. A gift from the Metropolitan District Commission, the two parcels of land on School Street shown on the plan entitled, "Plan of Land in Wayland Showing Areas Taken from the Commonwealth of Massachusetts for the School Street Widening" dated December 19, 1961, by Everett M. Brooks Co., Civil Engineers; and the two parcels of land on Maiden Lane shown on the plan entitled, "Plan of Land in Wayland, Massachusetts, Showing Areas Taken from the Commonwealth of Massachusetts for the Maiden Lane Widening" dated June 27, 1961, by Everett M. Brooks Co., Civil Engineers, upon the following conditions:
 - a. That if the land at any time ceases to be used for highway purposes, it will revert to the Commission.
 - b. That an 8-inch reinforced-concrete slab will be constructed over the Commission's Hultman Aqueduct within the limits of the travelled way of Maiden Lane and School Street, if the grade of the existing roadway is altered to an extent where the Commission's engineers feel that the construction of such a slab is required for the protection of the Aqueduct.
 - c. That the Town of Wayland will erect stone or concrete property bounds at the intersection of the Commission's property lines with the sidelines of the new street layout.
 - d. That existing fences along the Commission's property line adjacent to the street layout shall be relocated on a new sideline of the road, or new chain link fence complete with gates, satisfactory to the Commission, shall be erected by the Town, at no expense to the Commission.
 - e. That the Town of Wayland will pay all costs involved in preparing the conveyance.

4. A gift from Joseph M. Kelly and Doris Kelly, the parcel of land shown as "area to be taken equals 3, 182 square feet" on a plan entitled, "Taking Plan of Land in Wayland, Mass.," dated March 6, 1962, by MacCarthy Engineering Service, Inc.
5. A gift from Lewis W. Avard and Ruth E. Avard, the parcel of land shown as "area to be taken equals 2, 904 square feet" on a plan entitled "Taking Plan of Land in Wayland, Mass.," dated March 6, 1962, made by MacCarthy Engineering Service, Inc.

Duly seconded, Mr. Morgan offered the following

MOTION: That the meeting return to Article 4 for the sole purposes of:

- (1) amending the appropriations involving salaries and wages covered by the amendments to the Wage and Salary Classification Plan
- (2) amending the appropriations in the School Department Budget for--
 - (a) Administration -- Salaries
 - (b) Instruction -- Salaries
 - (c) Operation of Plant--Salaries
- (3) amending the salary appropriation for Salary of the Town Treasurer and of the Town Collector. Upon this, it was

VOTED: First Vote was declared in the Negative.

Seven (7) persons having doubted the vote, the Second Vote: Was unanimously in favor of Mr. Morgan's Motion.

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: Unanimously: That the following appropriation items involving salaries and wages be amended as follows:

By adding to the following appropriations; in the amounts given:

Town Officers

Salaries	P. 30 Item No. 7	\$2,449.00
Treasurer		
Salary	P. 30 Item No. 17	300.00
Collector		
Salary	P. 31 Item No. 20	300.00
Police Department		
Salaries:		
Chief	P. 32 Item No. 1	326.57
Patrolmen	P. 32 Item No. 2	2,924.23

Superintendent	P. 42	Item No. 1	479. 54
Cemetery Department			
Salaries:			
Superintendent	P. 45	Item No. 2	257. 32
and that to meet these increases there be appropriated and assessed the sum of \$19, 181. 14.			

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: That the meeting return to Article 8 for the exclusive purpose of amending the salary appropriation for the Water Department. Salaries of (1) Superintendent, (2) Second Man, (3) Third Man, (4) Town Offices; and for increasing the appropriation for test wells.

The first vote under this Motion was not unanimous, there being a single "No," however,

The second vote was unanimously in favor of the Motion.

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: Unanimously: That the following appropriation items involving salaries and wages and test wells be amended as follows:

Water Department

Salaries:

Superintendent	\$330. 83
Second Man	257. 31
Third Man	229. 24
Town Offices	376. 48

and for Test Wells 1, 000. 00

and that to meet these increases there be appropriated and transferred from Water Available Surplus the sum of \$2, 193. 86.

The Moderator announced that he had determined his appointments to the Memorial Day Committee, and expressed regret that Mr. John W. Leavitt, who had served as Chairman of that Committee for several years, had requested not to be reappointed, since he was unable to serve in this capacity any longer.

Article 43. To see what sums, if any, the Town will vote to transfer from available funds to meet any of the appropriations made under the foregoing articles.

Upon Motion of Mr. Morgan, duly seconded, it was
VOTED: That the article be passed over.

Upon Motion of Mr. Morgan, duly seconded, the Meeting was
VOTED: Adjourned at 11:45 P. M., all articles in the Warrant having been disposed of.

A True Copy,

Attest: LEILA SEARS,
Town Clerk of Wayland

VOTES ENACTED AT THE SPECIAL TOWN MEETING

HELD: WEDNESDAY, MARCH 21, 1962

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:--

Pursuant to the Warrant dated February 28, 1962, signed by Thomas Francis Linnehan, Frank S. Tarr and George K. Lewis, Selectmen served and return of service given by Ernest H. Damon, Constable, the inhabitants of the Town of Wayland qualified to vote in Town Meeting assembled this day; and at 8:30 P. M. the Moderator called the meeting to order, declared a quorum to be present, and the meeting

proceeded to transact the following business:

Article 1. To see if the Town will vote to amend the Town By-Law establishing the Wage and Salary Classification Plan, as amended, in any of the following respects:

(a) Further amend Article II, Section 1 of said Plan by changing the salary rates for the following classifications, effective from January 1, 1962, to read as follows:

Position						
Registered Professional Nurse						
	<u>Min.</u>	<u>1 year</u>	<u>2 years</u>	<u>3 years</u>	<u>4 years</u>	<u>5 years</u>
	\$4,160.00	\$4,288.55	\$4,417.11	\$4,545.65	\$4,674.21	\$4,802.77
Public Health Nurse No. 1						
	\$4,500.00	\$4,628.36	\$4,756.72	\$4,885.08	\$5,013.44	\$5,141.79
Public Health Nurse No. 2						
	\$5,120.00	\$5,214.77	\$5,309.53	\$5,404.29	\$5,499.05	\$5,593.81

(b) Further amend Article II, Section 1 of said Plan by adding the following new classifications and salary and wage rates:

Position						
Senior Public Health Nurse						
	<u>Min.</u>	<u>1 year</u>	<u>2 years</u>	<u>3 years</u>	<u>4 years</u>	<u>5 years</u>
	\$5,500.00	\$5,640.00	\$5,780.00	\$5,920.00	\$6,060.00	\$6,200.00

Secretary (Office of the Executive Secretary--Part Time--\$2.15 per hour.

(c) Further amend Article II, Section 1 of said Plan by deleting the position "Second Man--Highway" and salary rate therefor, and adding the following new classification and wage rate:

Highway Heavy Equipment Operator--Foreman--\$2.25 per hour.

(d) Further amend Article II, Section 1 of said Plan by changing any of the salary and/or wage rates specified in said section.

(e) Further amend Article VI, Section 1 of said Plan by changing the premium pay for work outside regular work hours, and/or changing the hours for which such premium pay shall apply; or by substituting provision for overtime rates of pay for such provisions for premium pay, or take any action relative thereto.

A MOTION of Mr. Edward C. Mendler: To adjourn the Special Town Meeting until the Annual Town Meeting has been completed, was ruled out of order by the Moderator. On ground that, if this were done, and then if later the Special Town Meeting should enact any increases of wages and/or salary rates, over and above provisions enacted under Article 4 of the Annual Town Meeting, there would not be money in the budget to cover any such increases.

Duly seconded, Mr. Warren T. Cronin offered the following MOTION: That the Town By-Law establishing a Wage and Salary Classification Plan established March 3, 1954, and subsequently amended, be further amended in the following respects:

In Article II, Section 1, as follows:

(a) By changing the salary rates for the following classifications, effective from January 1, 1962, to read as follows:

Position

Registered Professional Nurse

<u>Min.</u>	<u>1 year</u>	<u>2 years</u>	<u>3 years</u>	<u>4 years</u>	<u>5 years</u>
\$4,160.00	\$4,288.55	\$4,417.11	\$4,545.65	\$4,674.21	\$4,802.77

Public Health Nurse No. 1

\$4,500.00	\$4,628.36	\$4,756.72	\$4,885.08	\$5,013.44	\$5,141.79
------------	------------	------------	------------	------------	------------

Public Health Nurse No. 2

\$5,120.00	\$5,214.77	\$5,309.53	\$5,404.29	\$5,499.05	\$5,593.81
------------	------------	------------	------------	------------	------------

(b) By adding the following new classifications and salary and wage rates:

Position

Senior Public Health Nurse

<u>Min.</u>	<u>1 year</u>	<u>2 years</u>	<u>3 years</u>	<u>4 years</u>	<u>5 years</u>
\$5,500.00	\$5,640.00	\$5,780.00	\$5,920.00	\$6,060.00	\$6,200.00

Secretary (Office of the Executive Secretary)--Part Time--\$2.15 per hour.

(c) By deleting the position "SecondMan--Highway" and salary rate therefor, and by adding the following new classification and wage rate:

Highway Heavy Equipment Operator--Foreman--\$2.25 per hour.

(d) By increasing by ten (10) per cent the annual salary rates for

each of, the Police Chief, Police Sergeant, Fire Chief, Fire Captain, Librarian, Children's Librarian--Professional, Assistant Librarian--Professional, Highway Superintendent, Park Department, Superintendent, Water Superintendent, and Cemetery and Moth Control Superintendent, and by increasing by five (5) per cent every other annual and monthly salary rate (but excluding each salary established heretofore under this motion) and by increasing each hourly wage rate by five (5) per cent with fractions of a cent leveled off to the nearest cent level above, all such increases to be effective from January 1, 1962.

Upon Motion of Mr. Garret F. Ziffer, duly seconded:

To adjourn the Special Town Meeting until after Article 34 of the Annual Town Meeting has been disposed of, it was

VOTED: In the Negative.

The voice vote having been doubted by more than seven (7) persons, there was a

COUNTED VOTE: "Yes" 338 "No" 507

Upon Motion, duly seconded, of Mrs. Ralph S. Blanchard, Jr. (Marie T.): That Mr. Cronin's Motion be amended by changing the five (5) per cent increase under "(d)" to ten (10) per cent, it was

VOTED: In the Negative.

A MOTION of Mr. Joseph P. Horvath: To change the Librarian's salary to match that of the School Librarian was ruled out of order by the Moderator, since there was no reference to indicate what the amount was in the wording of the article.

Mr. Horvath rephrased his motion: To increase the Librarian's salary by 20% was not seconded.

Upon the Main Motion of Mr. Cronin, it was

VOTED: Unanimously: In favor.

Duly seconded, Mr. Cronin then offered the following

MOTION; That Article VI, Section 1 of said Plan, effective from January 1, 1962, be amended to read as follows:

(e) By changing the salary rates for the following:

An hourly rate employee (other than a police or fire department call man) required to work between 7:00 P. M. and 7:00 A. M. Monday through Friday, or between 6:00 P. M. Saturday and 7:00 A. M. Monday because of an emergency outside his regular working hours, shall be paid a premium of fifty cents an hour in addition to his regular rate of pay.

Duly seconded, Mr. Horace Megathlin offered the following

MOTION: To amend Mr. Cronin's Motion by changing the applicable

hours for premium pay to the following: 6 P. M. -- 7 A. M. on week-days, 1 P. M. on Saturday--7 A. M. Monday, and 7 A. M. - 6 P. M. on regularly listed holidays; and by providing that such premium pay shall be 1-1/2 times the employee's regular rate of pay.

Upon Mr. Megathlin's AMENDMENT the First vote was declared in doubt, and so there was a

COUNTED VOTE: "Yes" 409 "No" 445

A MOTION of Mr. Robert M. Morgan to direct the Personnel Board to make a thorough study of the Wage and Salary Classification Plan, etc., was ruled out of order at this time, since it did not relate closely enough to the original motion before the meeting, to constitute an AMENDMENT.

Upon a MOTION, duly seconded, of Mr. Charles H. Peters: To insert the words, "or between 7 A. M. and 7 P. M. on any regularly listed holiday," after "7:00 A. M. Monday" and before the words "because of an emergency". . . in Mr. Cronin's Motion, it was
VOTED: Unanimously: In favor.

Upon the Main Motion of Mr. Cronin, as amended by Mr. Peters, it was

VOTED: Unanimously: In favor.

Upon Motion, duly seconded, of Mr. Morgan, it was

VOTED: Unanimously: That the Personnel Board be directed (1) to make a thorough Wage and Salary Classification Plan Study, including overtime hours and wage rates, and that in connection therewith the heads of all departments be directed to work up a Job Analysis and requirements of all positions under their supervision; and that (2) the Personnel Board report back to the Town thereon at the next Annual Town Meeting.

Upon Motion, duly seconded, of Mr. Roger E. Ela, it was

VOTED: To adjourn the Special Town Meeting at 10:00 P. M.

A True Copy,

Attest:

LEILA SEARS,
Town Clerk of Wayland

VOTES ENACTED AT THE SPECIAL TOWN MEETING

HELD: WEDNESDAY, JUNE 27, 1962

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:--

Pursuant to the Warrant dated May 25, 1962, signed by Frank S. Tarr, George K. Lewis and Thomas F. Linnehan, Selectmen, served and return of service given by Ernest H. Damon, Constable of the Town of Wayland, the inhabitants of the Town qualified to vote in Town Meeting assembled this day; and at 7:45 P. M., the Moderator called the meeting to order, declared that a quorum was not present, and immediately called a recess until 8:05 P. M., expressing the hope that a quorum would have arrived by that time.

At 8:05 P. M. the Moderator called the meeting to order, declared a quorum to be present, and the meeting proceeded to transact the following business:

Article 1. To see if the Town will vote to accept various conveyances, gifts, and devises to the Town, or take any action relative thereto.

Upon Motion of Mr. Frank W. Kilburn, duly seconded, it was

VOTED: By a Standing Unanimous Vote: That the Town accept, with thanks from Samuel A. Cutler and Marie L. Cutler the conveyance of two parcels of land, designated as "Third Parcel" and "Fourth Parcel," in deed recorded with Middlesex South District Deeds, Book 7466, Page 384, and bounded and described as follows:

Third Parcel: A certain tract of meadow land lying in said Wayland, called the "Flanders Lot" on West Brook beginning at the Southeast corner at a stake and stones at junction of upland late of David Heard and meadow land, late of George H. Stratton; thence Northerly by said Stratton land to a stake and stones at West Brook; thence Westerly by said brook to an old ditch and to meadow land late of John Goodnow; thence Southerly by said ditch and said Goodnow meadow land to a stake and stones and joining with upland late of said Heard again; thence by said upland late of said Heard; thence Easterly to the bound first mentioned.

Fourth Parcel: A certain parcel of meadow land situated in said Wayland and bounded Northerly by Landham, or West Brook, so called; Westerly by land now or formerly of Charles B. Heard; Southerly by land now or formerly of Brackett and Easterly by land now or formerly of said Brackett.

Containing three acres, more or less.

Upon the suggestion of Mr. Fern A. Taylor, and by unanimous consent of the Meeting, it was noted that this was the initial gift of land under the program of the Conservation Commission of the Town; and the Standing Vote was taken in recognition of this fact.

Article 2. To see if the Town will vote to appropriate and transfer from Available Funds, a sum of money for an engineering study to improve drainage conditions in the land known as the "Granny" located off Willard Street and east of Winter Street, south of South Street, west of Hill Street, and north of Commonwealth Road, in that part of Wayland known as Cochituate, or take any action relative thereto.

Upon Motion of Mr. Robert M. Morgan, duly seconded, it was VOTED: Unanimously: That there be appropriated and transferred from Available Funds, the sum of \$800 for the completion of an engineering study looking to the improvement of the drainage conditions of the land known as the "Granny," located off Willard Street, east of Winter Street, south of South Street, west of Hill Street and north of Commonwealth Road, funds to be expended under the supervision of the Selectmen.

Article 3. To see if the Town will vote to authorize the abandonment of its rights, title, and easements, in, through, and over Hammond Avenue, or take any action relative thereto.

Upon Motion of Mr. L. William Bertelsen, duly seconded, it was VOTED: Unanimously: That the Town abandon its rights, title, and easements in, through, and over Hammond Avenue.

Article 4. To see if the Town will vote to appropriate and transfer from Available Funds or from Appropriation Balances a sum or sums of money for the operation and expenses of any or all of the following departments:

Disability Assistance
Highway, Snow Removal
Notice of Meetings

or take any action relative thereto.

Upon Motion of Mr. James D. Wells, duly seconded, it was VOTED: Unanimously: That there be appropriated and transferred from Available Funds the sum of \$8,300 for the operation and expenses of the following departments, in the amounts shown:

Disability Assistance	\$5,000
Highway, Snow Removal	3,000
Notice of Meetings	300

Article 5. To see if the Town will vote to amend its Zoning By-Laws by deleting Sub-section q from Section V, and inserting in place thereof the following:

The removal of sod, loam, sand, gravel or quarried stone, except necessary removal in connection with the construction of a building for which a permit has been issued from any premises shall be allowed only if permission of the Board of Appeals be obtained in accordance with the procedure provided in Paragraph (r) and only under such conditions as the Board may impose, but nothing contained in this Section shall prevent the continued use of any land for the purpose for which it is used at the time this Section takes effect or prevent the use of any land for farms, gardens, nurseries, cemeteries, parks, playgrounds and such purposes as are incidental to or usual in connection with any of said purposes. Before a permit is issued, the applicant shall show to the satisfaction of the Board that the removal will not impair the usability of the area for the purposes permitted by this by-law, that the grades to be established within the area will permit vehicular access to the area and the continuation of streets from the abutting premises, and that the area may ultimately be developed compatibly with the neighboring land, or take any action relative thereto.

Duly seconded, Mr. Robert H. Charnock offered the following MOTION: That the Town amend its Zoning By-Laws by deleting Sub-section q from Section V, and inserting in place thereof the following:

The removal of sod, loam, sand, gravel or quarried stone, except necessary removal in connection with the construction of a building for which a permit has been issued, from any premises shall be allowed only if permission of the Board of Appeals be obtained in accordance with the procedure provided in Paragraph (r) and only under such conditions as the Board may impose, but nothing contained in this Section shall prevent the continued use of any land for the purpose for which it is used at the time this Section takes effect or prevent the use of any land for farms, gardens, nurseries, cemeteries, parks, playgrounds and such purposes as are incidental to or usual in connection with any of said purposes. Before a permit is issued, the Applicant shall show to the satisfaction of the Board that the removal will not impair the usability of the area for the purposes permitted by this by-law, that the grades to be established within the area will permit vehicular access to the area and the continuation of streets from the abutting premises, and that the area may ultimately be developed compatibly with the neighboring land.

Mr. Charnock then presented the Report of the Planning Board, with Recommendations of that Board, in connection with this Article, and placed a copy of the Report on file with the Town Clerk.

Upon a Motion of Mr. C. Peter R. Gossels, duly seconded, it was VOTED: To amend Mr. Charnock's Motion by inserting after the words, "permit has been issued," the words, "by the Town of Wayland" (in the third line of the proposed by-law amendment).

Upon Motion of Mr. G. Prentis Richardson, duly seconded: To amend Mr. Charnock's Motion by inserting the words, "from the Town of Wayland" after the word, "removal" (in the first line of the proposed by-law amendment), it was VOTED: In the Negative.

Upon Motion of Mr. Richardson, duly seconded: To insert the words, "In quantities of more than one hundred (100) yards area in any one year" after the words, "quarried stone" (in the first line of the proposed by-law amendment), it was VOTED: In the Negative.

Upon the Main Motion of Mr. Charnock, as amended by Mr. Gossels' Motion, it was VOTED: First vote was not unanimous.
COUNTED VOTE: "Yes" 94 "No" 11
The Moderator declared that the required 2/3 vote had carried in favor of the Motion.

Article 6. To see if the Town will vote to appropriate and transfer from Water Available Surplus, a sum or sums of money for the operation and expenses of any or all of the following accounts:

Test Wells
12" Water Main on
Campbell Road

or take any action relative thereto.

Upon Motion of Mr. Roger E. Ela, duly seconded, it was VOTED: That the Town appropriate and transfer from Water Available Surplus for the operation of the Water Department in the following accounts the amounts shown:

Test Wells	\$700.00
12" Water Main on Campbell Road . .	\$.840.00

Article 7. To see if the Town will vote to authorize the Water Commissioners to use the balance in the account "Water Department Garage and Storage Building" for Garage Construction purposes, or take any action relative thereto.

Upon Motion of Mr. Ela, duly seconded, it was VOTED: That the Article be passed over.

Article 8. To see if the Town will vote to accept as a public Town way, the relocation of the road known as Draper Road, or a portion or portions thereof, as laid out by the Board of Selectmen, and as shown on a plan on file with the Town Clerk; to authorize the Board of Selectmen to acquire an easement for the necessary land, including easements for drainage construction and slope, by purchase, gift, eminent domain or otherwise; and to raise and appropriate the sum of \$1.00 for the acquisition of such land or any portion thereof; without any appropriation of money for construction of said road under the Betterment Act or otherwise; or take any action relative thereto.

Upon Motion of Mr. Charnock, duly seconded, it was

VOTED: Unanimously: To dispense with the reading of the Order of Laying Out of the relocation of Draper Road as a public Town way.

Upon Motion of Mr. Charnock, duly seconded, it was

VOTED: Unanimously: That the Town accept the Laying Out of the relocation of Draper Road as a public Town way, described in the Order of Laying Out of the Board of Selectmen dated June 18, 1962, and as shown on a plan entitled "Plan, Profile and Taking Plan of Draper Road, Wayland, Massachusetts, as Laid Out for the Town of Wayland by Everett M. Brooks Company, Civil Engineers, Newtonville, Wayland, and West Acton, Massachusetts, dated October 2, 1961," which is on file with the Town Clerk; that the Board of Selectmen be authorized to acquire any necessary land (including easements for drainage construction and slope), by purchase, gift, eminent domain or otherwise; and that \$1.00* be appropriated and assessed for the acquisition of any such land and easements, and for any costs in connection therewith.

Upon Motion of Mr. Morgan, duly seconded, it was

VOTED: To adjourn the Meeting--at 8:55 P. M.

*Mr. Charnock's original Motion requested an appropriation of \$10.00 but the Moderator declared that amount to be out of order, since the Warrant Article specifically limited the amount to \$1.00; where upon Mr. Charnock amended his Motion accordingly, with unanimous consent of the Meeting.

A True Copy.

Town Clerk of Wayland

VOTES ENACTED AT THE SPECIAL TOWN MEETING

HELD: WEDNESDAY, AUGUST 1, 1962

Town Clerk's Office
Wayland, Massachusetts

Roger P. Stokey, Moderator:--

Pursuant to the Warrant dated June 18, 1962, signed by Frank S. Tarr, George K. Lewis and Thomas Francis Linnehan, Selectmen, served and return of service given by Ernest H. Damon, Constable of the Town of Wayland, the inhabitants of the Town qualified to vote in Town Meeting assembled this day; and at 7:45 P. M. the Moderator called the meeting to order, declared that a quorum was not present, and immediately called a recess until 7:55 P. M. , expressing the hope that a quorum would have arrived by that time.

At 7:58 P. M. the Moderator called the meeting to order, declared a quorum to be present, and the meeting proceeded to transact the following business:

Article 1. To see if the Town will vote to amend the Zoning By-Laws of the Town of Wayland by repealing Section V (d) 2. thereof relative to the buildings of membership clubs; or take any other action relative thereto.

Duly seconded, Mr. Charles W. Brennan offered the following MOTION: That the Town amend the Zoning By-Law of the Town of Wayland by repealing Section V (d) 2.

Mr. Robert H. Charnock presented the report of the Planning Board, with recommendations of that Board, in connection with this Article. The Report recommended against passage of this Article.

Upon Motion, duly seconded, "The Previous Question"; The first two votes were not unanimous, and so there was a
COUNTED VOTE: "Yes" 427 "No" 17

Upon the Main Motion of Mr. Brennan, there was a
COUNTED VOTE: "Yes" 187 "No" 291

Upon Motion, duly seconded, it was
VOTED: To adjourn the meeting--at 9:45 P. M.

A True Copy,

Attest:

REPORT OF THE BOARD OF SELECTMEN

Mr. George K. Lewis was re-elected to the Board of Selectmen at the Annual Election on March 5th, 1962.

The Board organized for the year with Mr. Frank S. Tarr, as Chairman, Mr. George K. Lewis as Clerk, and Mr. Thomas Francis Linnehan as Third Member.

The Selectmen met regularly on the first and third Monday evenings of each month, and held, in addition, a number of other meetings during the day and on weekends to cover the greatly increased amount of business coming before them and the Town. Various members attended meetings in Boston, Sudbury, and elsewhere, where matters of concern to the Town of Wayland were involved.

Mr. Linnehan served as Chairman of the Town Government Committee, Mr. Lewis of the Condemnation Committee, and Mr. Tarr on the By-Pass Committee.

During the year, the Selectmen made many appointments of other Town officials not elected by ballot, and to the regular non-elected boards.

They also met on several occasions with members of elected Boards to make temporary appointments to such Boards where vacancies had developed. The Selectmen often find it difficult to obtain well-qualified and willing candidates for many boards and will always entertain names for future consideration.

The Selectmen wish to acknowledge with sincere thanks, the services of Mr. Castiglione on the Personnel Board, Mrs. Robert Morgan on the Trustees of the Public Library, and Mr. Lawrence on the Finance Committee.

The jury list was drawn as required by law, and the list of jurors can be found elsewhere in this report.

The Board met with the Trustees of the Allen Fund and the Board of Public Welfare, and disbursed income received from the Charitable Funds.

The Board also issued licenses, approved all bills incurred by other Town Departments, and passed on Betterments and Acceptances of Town Roads.

The Board met individually with many citizens who had complaints about boundaries, easements, nuisances, etc., and tried to iron out

the difficulties to everyone's satisfaction.

During the year, the Board felt that their major concern was traffic and highway safety. There is an ever-increasing number of serious accidents on our highways, including an alarming number of fatalities. The Selectmen have begun a detailed review of speed signs, stop signs, and other safety measures, in order to bring the entire town up to standard. These must be worked out with the State Department of Public Works. It is our hope that the completion of Route 128 widening, and the Massachusetts Turnpike Extension, will take some of the heavy traffic from our streets.

The Selectmen also wish to make particular note of increased liaison with the League of Women Voters in attempts to improve the contacts between the Town Boards and the townspeople, and among the several Boards. A number of special meetings were held with the League members to discuss these matters.

The Selectmen devoted considerable time and energy to the problem of the proposed Edison overhead high tension lines. Many meetings were held in Wayland, and meetings in other towns attended. The Board is encouraged by the cooperation among the several towns involved in this matter. The time has come for Wayland to be considered by outsiders, as an attractive residential town, and not as a rural village that can be crossed by power lines at will.

Finally, the Board has tried to work with other Town Boards and Committees in a continuing program to make town government more efficient. The affairs of the Town are becoming more complex each year, and more time-consuming to the citizens involved.

FRANK S. TARR, Chairman

GEORGE K. LEWIS, Clerk

THOMAS F. LINNEHAN

Board of Selectmen

REPORT OF THE BOARD OF ASSESSORS--1962

In continuing our policy of reassessing older properties on an area basis, many property valuations were substantially increased for the year 1962.

The understanding of the property owners has been greatly appreciated.

Other areas will be re-examined as this work continues.

The Board continued to engage the services of the same professional appraiser as in the year 1961 to provide area wide experience with unusual properties. This service continues to prove of great value.

We are pleased to present the following statistics for information and analysis.

WILLIAM S. LEWIS, Chairman

REPORT OF WAYLAND PLANNING BOARD--1962

During 1962 the Board held regular meetings on the first and third Mondays. Edward F. Thorburn was re-elected to a five year term in the annual Town Election.

SUBDIVISION CONTROL

In 1962 the Board approved the following new subdivisions:

Subdivider:	No. of New Lots	Feet of New Roads
Mary Kelley Alden Road Extension Hobbs Road	13	1,100
Einar P. Robsham Keith Road	14	1,125
TOTAL	27 Lots	2,225 ft. of road

A comparison of subdivision activity follows, showing 1962 and the preceding 7 years:

<u>Year</u>	No. of New Lots	Feet of New Roads
1955	187	15,000
1956	137	14,000
1957	96	11,200
1958	55	6,300
1959	57	5,300
1960	87	10,300
1961	103	10,900
1962	27	2,225

The number of subdivisions approved in 1962 is far less than those approved in preceding years, but is not indicative of a sharp drop in subdivision activity. At the present time there are three additional subdivisions pending that very well might have been approved in 1962 except for unusual circumstances involving installation of ways or utilities to the satisfaction of the Board. Had these been approved in 1962, new lots and new roads created would have approximated the average of recent years.

Two additional subdivisions now in the preliminary stage, if approved in 1963, would yield more than the average in recent years of new lots and new road length.

As the larger open areas most suitable for development disappear, increased efforts are being made to develop marginal land, particularly wet areas that require filling and the construction of drainage

systems in order to provide for adequate sewage disposal and surface water drainage. The Planning Board and the Board of Health have met to discuss the problem of making sure that development of these areas does not create health or safety hazards.

NON RESIDENTIAL LAND USE CONSIDERATIONS

The Planning Board has outlined previously its plans for eventual use of "Sand Hill" on the Boston Post Road west of the Sudbury River for commercial or business purposes. Definitive plans for this area depend however on an eventual relocation of Boston Post Road and the establishment of the Route 20 bypass. The Planning Board has recently received a request for planning information for use in connection with this relocation from the Department of Public Works, and it is hoped that a final plan for Route 20 will soon be available.

The open land in the Southeast corner of town, south of the Massachusetts Turnpike has been proposed as a limited commercial district by its owners. It is also the subject of a possible land exchange with Natick. A good deal of further study of this matter will be required before any recommendation can be made. The Planning Board recognizes that the area is close to many Wayland homes, and is aware that the surrounding land in Natick is zoned for residential use. These factors would suggest that a land exchange with Natick to set the town boundary at the Turnpike would be desirable. However nearby land in Natick is zoned for industry and it would not be unlikely that this area would also be rezoned if it were exchanged as it does not appear to be well suited for residential development. If an ultimate rezoning is the only feasible solution it would be to Wayland's interest to control this area rather than enter into a land exchange.

PLANNING

Recently the Board published and distributed copies of a report entitled "Planning in Wayland" to be used as a guide to further growth of the Town. We feel two basic points in that report should be re-emphasized here.

(1) Continuity of Planning for many facets of Government by many boards in addition to the Planning Board, and the desirability of maintaining this continuity. Such boards include, among others, the School Committee, the School Building Committee, and the Finance Committee.

(2) Greater emphasis should be made on open space preservation under the Conservation Commission, to which a large segment of the report is directed.

Copies of the Report are available for examination in both libraries.

GENERAL MATTERS

The Board is still involved to a very large part of its time in details of subdivision control and administration. The creation of the position of Town Engineer would be of great assistance to the Board, since a person with Civil Engineering background would be able to take over a large part of the detail and field work that the Board now does, do it more efficiently, improve records, and perform some other engineering functions that we now purchase.

During 1962 Mr. Thorburn continued as the Board's representative on the School Building Committee, Mrs. Hodges became Secretary of the Framingham Area Association of Planning Boards, Mr. Morgan continued as our representative on the Conservation Commission and its Chairman, and Mr. Charnock continued as a member of the Community Advisory Council of the Massachusetts Mass Transportation Commission.

We welcome and urge increased interest in the meetings and activities of the Board. During 1962 the League of Women Voters have been faithful and diligent as "Board Watchers" with at least one member present at almost all Planning Board meetings and hearings.

Respectfully submitted,

L. WILLIAM BERTELSEN

GEORGE F. BOWERS, JR.

ALLEN H. MORGAN

EDWARD F. THORBURN

ROBERT H. CHARNOCK, Chairman

REPORT OF THE MOTHS SUPERINTENDENT

The roadside trees were sprayed for the control of the Dutch Elm Disease, as well as sprays applied for control of other destructive insects, which defoliate our trees. There were four well-timed sprays applied this year, and we refrained from entirely using the product known as D. D. T. and used other spray material, which gave us a satisfactory control.

The Poison Ivy spraying program was also carried out at all strategic locations, such as school grounds, or play areas, near fire hydrants, or alarm boxes, and other areas where ivy was seen.

The removal of confirmed Dutch Elm Diseased trees was completed, and much sanitation work was performed in accordance with the state recommendations.

Respectfully submitted,
JOHN E. NELSON.

REPORT OF THE ANIMAL INSPECTOR

I wish to submit my report as Animal Inspector for the Town of Wayland for the year 1962.

Inspected	454 Native Cows
Inspected	61 Native Heifers
Inspected	3 Native Bulls
Inspected	10 Native Beef Cattle
Inspected	13 Native Sheep
Inspected	47 Horses
Inspected	240 Interstate Cattle
Quarantined	5 Dogs

Respectfully submitted,
WARREN F. LAWRENCE

REPORT OF THE LIBRARY

The story of the Wayland Library, like that of the town as a whole, is one of growth from year to year. This is particularly true of the use of the Library for reference and book borrowing. This year's circulation shows a large increase, notably in the branch where we are most anxious to improve the book collection and give better service.

The main library building was greatly improved by repairs to the roof supports, a new ceiling in the main area, and painting the repaired sections. Service continued while the work went on, in, around and under the scaffolding.

In the first six months of the year we carried out our plan for visits to the first and second grades of all the elementary schools. This series of visits was well received and brought many youngsters in touch with the Library. We intend to continue this program in the new year.

There were staff changes during the year. Mrs. Forbes left the branch in September; Miss Connor was away from the children's room for two months, because of illness; and Miss Edith Chauncey of Weston joined us as the new librarian at Cochituate.

The Library received several fine gifts during the year. The Campbell Worthington Fund, which totaled nearly \$160.00, was established by gifts in memory of Campbell Worthington, son of Dr. Charlotte Stewart. Another memorial gift for the purchase of books was given in memory of Foster Abbott. The League of Women Voters continued the subscription to the United Nations Review, as its gift to the Library. The Rotary Club of Weston gave us a year's subscription to the Rotarian. In addition, many useful books and periodicals were given by several individuals. We are very grateful to the Garden Club for its floral arrangements and Christmas decorations, as well as their gift of two books for the garden books collection.

Librarian.

REPORT OF THE TREE WARDEN

During the year 1962, the roadside trees were cared for throughout the Town. The work involved was the removal of dead wood, overhanging the highways as well as the removal of dead branches, which could become dangerous to any traffic, due to a storm or icing conditions in the winter.

The tree planting program was continued and fifty Norway maple trees were planted in areas where they were most needed.

I wish to thank the residents who called my attention to a dead branch or a dangerous tree, so that it could receive immediate attention.

Respectfully submitted,
JOHN E. NELSON

REPORT OF THE CEMETERY COMMISSIONERS

In the year ending December 28, 1962, the following activities were performed by the Cemetery Department:

There were fifty-two burials, as follows: thirty-six in Lakeview Cemetery, fifteen in North Cemetery, and one in South Cemetery.

Receipts for burials were \$2,490.00.

There were twenty-seven cemetery lots sold: eighteen in Lakeview Cemetery, and nine in North Cemetery.

Receipts from the sale of these lots were \$1,255.00.

There were seventeen Perpetual Care Gifts for lots, totaling \$3,350.00.

Annual Care receipts totaled \$1,316.00.

There were twenty-four foundations for monuments made, totaling \$422.00.

We have made a number of lots available for sale, and find that it is a necessity to create more for sale, in keeping with the growth of the Town. One and one-half acres of woodland were cleared, and the ground prepared, so that it can be seeded, and the proper bounds put in.

Seventeen Perpetual Care gifts were given by the following:

Dorothy E. Cornell for perpetual care of Lots 97 and 98, Section M Lakeview.	\$400.00
Mabel R. Connelly for perpetual care of Lot 17, Section E Lakeview.	100.00
Ruth O. Hammond for perpetual care of Lot 53, Section C Lakeview.	300.00
Seth F. Johnson for perpetual care of Lot 13, Lovell Section, North.	200.00
T. Gelena Brown for perpetual care of Lot 21, Section F Lakeview.	200.00
Ebba J. Schuerfield for perpetual care of Lot 44, Section L, Lakeview.	200.00
Robert K. Jones for perpetual care of Lot 47, Section M Lakeview.	100.00
Forest B. Ferguson for perpetual care of Lot 1360, Lovell Section, North	50.00

S. James Kentley for perpetual care of Lots 6 and 7, Lovell Section, North	400.00
Rita Russell for perpetual care of Lot 76, Section L, Lakeview.	200.00
Hazel Carver for perpetual care of Lot 56A, Lovell Section, North.	100.00
Helen Larkin for perpetual care of Lot 15A, Lovell Section, North.	100.00
Bradford Bernard for perpetual care of Lots 24 and 25, Section L, Lakeview	400.00
Mildred Shaw for perpetual care of Lot 44, Extention, North	100.00
Elizabeth Mayberry for perpetual care of Lot 152, Lovell Section, North.	200.00
Giacomo DiPucchio for perpetual care of Lot 14, Lovell Section, North	200.00
Dorothy Atanasio for perpetual care of Lot 108, Section K, Lakeview.	100.00

\$3,350.00

Respectfully submitted,
 GUSTAF M. BLOMGREN,
 WALTER A. CHESLAK,
 WILLIS B. RYDER
 Board of Cemetery Commissioners

REPORT OF THE CONSERVATION COMMISSION

The Conservation Commission has met twice a month during the year. Messrs. William C. Ball, Harrison Bennett, and Edward C. Mendler, were appointed to the Commission during the year to replace Messrs. L. C. Gladu, W. M. Young, and Roger Ela, resigned.

The Commission has worked primarily on making an inventory of wet or otherwise marginal building land, and negotiating for the purchase or gift of such areas to be held for conservation purposes. Two gifts of land received during the year included a parcel of meadowland near Pelham Island from Mr. and Mrs. Samuel A. Cutler, of Wayland, and twenty-one acres along Pine Brook near Wayland Center by Rosamond and Edwin Sears, of Weston, given as a memorial to their father, Francis B. Sears. A conservation easement to protect marshland near the headwaters of a small brook near the Loker Street School was given to the Town by Mary Kelly.

A report outlining the Commission's long-range plans and objectives for conservation in Wayland is in preparation and will be distributed to the townspeople early in 1963.

Respectfully submitted,
ALLEN MORGAN CHARLES ECKERLINE
GEORGE K. LEWIS MRS. SAMUEL CUTLER
FERN A. TAYLOR WILLIAM C. BALL
HARRISON BENNETT
Conservation Commissioners

REPORT OF THE COMMISSIONERS OF TRUST FUNDS

During the year 1962, there was only one addition to the Trust Funds of the Town. This was a Trust Fund established in the name of Jane A. Patterson, the income from which is to be for the use of the Library. No issues matured or were called and the extra income accumulated during the year was placed in the Savings Bank until such time as sufficient funds are available for advantageous reinvestment of same. A list of the Trust Funds and their present investment status will be found in the Report of the Town Treasurer.

Respectfully submitted,
ALLAN R. FINLAY,
JOHN G. HARDER,
THOMAS B. GANNETT, Chairman

REPORT OF THE WATER COMMISSIONERS

Water pumpage continued at an average of over 1,000,000 gallons per day in 1962, showing the continued rise in the demand for water.

New services again showed a drop, but more mains were added.

Plans for the development of the new well site and for the new garage and storage building are reflected in articles in the Warrant for the Town Meeting. If the Town elects to follow our plan for these capital expenditures, we feel that no borrowing will be necessary in the coming years.

Collections of water rates have been outstanding over the years. Prompt payment of water bills is very beneficial to the Department, as well as the Town, and we wish to thank the townspeople for their cooperation in this respect.

PERTINENT STATISTICS--1962

Number of services in use	3,134
Length of Main	73 miles
Number of hydrants	429
New services, 1962	96
Mains added, 1962	3 miles (included in above)
Water pumped	386 million gallons
Renewals	8
Relocations	17
Leaks	24

Respectfully submitted,
ALFRED C. DAMON,
FERN A. TAYLOR,
LAURENCE K. COOK,
Board of Water Commissioners

REPORT OF THE PLUMBING AND GAS INSPECTOR

I hereby submit my annual report.

This office issued, during the year, one hundred fifty-three Plumbing Permits, totaling \$1,356.50; one hundred thirty-six Gas Permits, totaling \$1,111.50--all moneys being turned over to the Town Collector.

All violations of the Plumbing and Gas Code have been rectified.

Respectfully submitted,
DONALD K. IDE

REPORT OF THE ROAD COMMISSIONERS

During 1962, the Highway Department continued with the program which was initiated in 1961 to complete various projects which had been authorized in previous years and also to undertake the new projects included in the schedule for the current year.

The following projects in the Department budget were completed or virtually completed as follows:

1. BETTERMENTS: Sunset Road construction including storm drainage and a new water line was completed. In conjunction with this work a drainage interceptor line was completed between Lakeview Road and Dudley Road, providing a good outlet for all streets in the area. All excavated material from this project was placed in a swamp on Town owned land along Sunset Road. This resulted in a savings in trucking cost and eliminated a hazardous unhealthy condition on Town owned land. In addition the final pavement course together with slope grading and siding was completed on the five (5) streets in the Maguire development. An amount of \$5,000.00 is being held in escrow as voted at the Town Meeting for the reconstruction of Bent Avenue. In connection with this project, additional engineering has been done under the direction of the Selectmen, to include Cottage and George Streets and a connection between Bent Avenue and Lakeshore Drive in the overall project.

2. DRAINAGE: In conformity with the study made by the Department during 1961, the following drainage projects were subcontracted by the Department and completed:

- a. Goodman Lane
- b. Training Field Road and Moore Road
- c. Parkland Drive (2nd Section)

In conjunction with the reconstruction of School Street a portion of the storm drainage on Loker Street was constructed. This drainage project will be completed during 1963 together with the completion of School Street reconstruction.

3. CHAPTER 90 WORK:

- A. Construction--The reconstruction of Old Connecticut Path was begun at the easterly end from State Road to the M. D. C. aqueduct including the new traffic interchange at the intersection with State Road, storm drainage, and the base course of bituminous pavement. This project will be continued to its termination at a revised intersection with Cochituate Road during 1963 and the following years.
- B. Maintenance--Old Connecticut Path was resurfaced from Wallace Road to Maiden Lane. This project will be continued during 1963.

4. SIDEWALKS: Plans and specifications were engineered for a proposed bituminous concrete sidewalk on the northerly side of East Plain Street from Dunster Street to School Street in accordance with the Program recommended by the Sidewalk Committee. Estimates for this work exceeded available funds and the work was postponed until additional funds are made available in the 1963 budget.

5. CARE OF DUMPS: As proposed at the Annual Town Meeting in 1962, chain link fence and a second entrance were constructed at the dump to initiate one-way traffic flow and eliminate the traffic hazard which has existed on heavily traveled Route 20. A program of rodent control was also initiated and will be continued to preclude any problem associated with this aspect of dump operations. In conjunction with dump operations a general clean-up of the area was undertaken with metal slot "screening" to be installed on the chain link fence to improve the appearance and prevent papers from blowing across Route 20.

6. RECONSTRUCTION OF EXISTING TOWN ROADS: The second section of School Street from Joyce Road to beyond Loker Street was constructed including storm drainage and the base course of bituminous pavement. It is planned to complete the School Street reconstruction project to Main Street during the 1963 construction season.

Along with these major projects, the Department also completed several minor drainage projects to alleviate local storm water problems, continued with the oiling maintenance and road sweeping operations, roadside cleanup, and general maintenance. Also coupled with this work was the snow removal and ice control program.

Concurrent with the above, all roadway and drainage construction performed by the various subdevelopers was inspected, with necessary reports forwarded to the Planning Board.

Several meetings were held jointly, with the Personnel Board, relative to personnel aspects of the Highway Department.

The Road Commissioners obtained bids for and purchased two (2) new 4-1/2 ton dump trucks and a new snow blade. The sum of \$15,000.00 was voted to be included in the Highway Department Special Account to be used in conjunction with additional funds for the replacement of major pieces of capital equipment in the Highway Department.

The Road Commissioners again thank the Highway Superintendent and all department employees for their cooperation and diligence

during the past year on all phases of our program. Our special thanks go to Mr. George Bowers and Mr. Leslie Sherman for so effectively handling the winter operations of the Department during the absence of Mr. Potvin last winter. We would also like to express our appreciation to the other Town Officials, Boards, and Citizens, for their cooperation on matters of mutual interest to the Town.

Respectfully submitted,

HORACE MEGATHLIN, JR. , Chairman

ROBERT M. CARSON, Vice Chairman

CHARLES H. PETERS

Board of Road Commissioners

REPORT OF THE BOARD OF PUBLIC WELFARE

In 1962 several statutory changes occurred which could add to the disbursements of this department in the future, should applicants qualify. Principally involved are increased benefits under Old Age Assistance and Medical Assistance for the Aged in some sections, as well as the extension to 1967 of certain provisions of the Aid to Dependent Children category.

Geraldine H. Warwick (Mrs. James C., Jr.) having duly qualified, received her Civil Service appointment as our Director of Public Assistance in September, on the expiration of her temporary appointment. Mr. Theodore R. Magoun was elected in the March Town election as the third commissioner, filling the vacancy caused by the untimely death of Mr. Carlisle D. Scotland in October 1961.

It might be well to point out that the decrease of a little more than \$40,000 in the 1963 budget request reflects a decrease in our case load and a hope for the future.

Attached is the statistical report of the Board.

Respectfully submitted,
RONALD H. WOOD, Chairman
DOMINIC L. BARTHOLOMEW
THEODORE R. MAGOUN

REPORT OF VETERANS' AGENT

I respectfully submit my report ending December 31, 1962.

Application for Veterans' Benefits are submitted to this office and investigated for compliance within the scope of the General Laws of Massachusetts relating to Veterans' Benefits and Services. The Town is reimbursed in part for those benefits which are granted.

Consultation with Veterans and/or their dependents concern inquiries about medical requests, pensions, marital problems, hospitalization, employment, social security, insurance, unemployment compensation, photostatic copies of documents, loans, mortgages, etc.

In addition to the many functions of this office, we now have new legislation this year which includes those citizens of the National Guard and the Reserve who are called into Federal Service. It is noted herewith that inquiries have increased, many of which involve time-consuming investigation and detail. For example: the review and audit of each item on a bill for medicine because the price of each item has been established by law.

Twice a year, Panel Sessions are held with the State Commissioner and his staff and Specialists in different phases of Veterans' affairs. Monthly conferences with an Investigator from the Massachusetts Veterans' Service Department are also held. Also, it is necessary, frequently, to visit the Veterans' Department in Boston to resolve issues and procedure relating to documents and reports concerning individual cases. For report on expenditures and reimbursements, please refer to the Report of the Town Accountant.

Respectfully submitted,
WILLIAM J. HALL

REPORT OF THE RECREATION ADVISORY COMMITTEE-1960

The Recreation Advisory Committee, appointed under Article I, Annual Town Meeting of March 1958, now offers its second report to the Town.

We are pleased to report the success of scheduling of Park Department playing fields through the Executive Secretary and the Park Department, and broadened community use of school facilities through the School Department for recreational purposes. We are also gratified that the publishing of recreation schedules in the Town, by this committee, has enabled the townspeople to take fuller advantage of the programs offered.

We continue to feel that the direction of recreation by the present unpaid volunteers is by far the best plan for the Town now. Not only does it provide the personal touch which only an interested parent can give, but it saves the Town a substantial amount of money which a paid director and staff would require.

At this time we think it important to call to the Town's attention the increasing requests for transfer and sale of Park Department lands within the Town without adequate provision for replacement by similar or better acreage. Should this continue unabated, the Town might well find itself without adequate Park facilities in the long range future. This committee would like to institute steps, with the respective Town Boards involved, to reverse this trend.

We wish to thank the various Town Boards, Civic, and Recreational Groups who have met with us this year for their splendid cooperation.

It is our recommendation that this committee be continued for further study.

Respectfully submitted,
HENRY J. MULLER,
HARVEY C. NEWTON,
BARBARA L. PONTECORVO,
SALLY WIGHTMAN,
THEODORE R. MAGOUN, Chairman

REPORT OF THE RECREATION ADVISORY COMMITTEE-1961

The Recreation Advisory Committee views with pride the tennis courts at the new Wayland High School. In 1958 this committee met with the School Building Committee Chairman and presented a definitive study on tennis court experience in Wayland, Ashland, Hopkinton, Maynard, Framingham, Weston, and Wellesley. It then recommended as to location, size of initial construction, and specifications. We were gratified to discover that our findings agreed with professional advice available to the School Building Committee.

Today, some two years later, the tennis courts are ready for initial trial as part of the school athletic program and for after hours public use on a scheduled basis through the school department. We feel the Town should gain two or three years of experience with these courts before additional recommendation of expansion on any site is entertained.

More formal demarcation between free skating and hockey areas on the millpond has proven in the best interests of all. However, we would renew our annual request for more adequate lighting during night time skating hours.

We would remind the Town that in 1958 the Selectmen granted permission for use, entirely at the user's risk, of the Cochituate Junior High site and the North Wayland Elementary site for recreation. Scheduling of these two sites can be done through the Executive Secretary on Park Department forms. To date only abutters have discovered the possibilities and utilized them.

It might be well to point out that with an ever increasing tax rate there becomes an increasingly longer gap between a proposal to any Town Board (notwithstanding its merit), Finance Committee concurrence, and Town approval at Town Meeting. This becomes apparent particularly in relation to the Town Beach at Lake Cochituate and to land purchase for conservation.

This committee in late 1958 and early 1959 made proposals in relation to certain safety equipment (such as surfboard, torpedo bouy, aqualung) privately owned and in use at the Town Beach which more properly should be Town owned as standard equipment. It further investigated and recommended concerning the weed problem and poor bottom in much of the swimming area. And, finally, in concurrence with the then Beach Director, recommended renovation of the Beach House to provide at least twenty dressing cubicles, more adequate toilet facilities, storage area, and personnel accommodations. It did not recommend extensive picnic area development to the South of the present parking lot pending more study of ultimate needs of the

Lakeview Cemetery, which has already moved its northern boundary several times and probably will do so again. On the waterfront, an "H" steel dock with twenty-five yard crib for instructional and recreational usage received attention. In all, the proposals would then have been about three dollars on the tax rate to accomplish in one year. This seemed out of the question. Rather, it was suggested a three year program be instituted giving safety equipment, waterfront facilities, and beach house expansion priority in that order.

CONSERVATION

Preservation of the Sudbury River marshlands, acquisitions by the Town in the Millbrook, Pinebrook, Sherman Bridge and Snakebrook areas have held prime position by this committee as projects to not only assist the protection of watershed, wildlife, and other conservation aspects, but also to provide more adequate long-term recreational lands coupled with existing Town parcels.

We therefore hope the Town will accept Article 27 during the Annual Town Meeting in March, 1961, which will give the Town a Conservation Commission and open the door for state assistance on land purchases for conservation and watershed needs. It would be well to point out that this state assistance would come only after the Town had first put up the entire purchase price and actually completed the acquisition of such land.

We are advised that the Fish and Wildlife Service of the Federal Government is interested, and has the funds available, to begin purchase if possible, easements if obtainable, and takings if necessary, in the 4,000 or more acres of the Sudbury River marshlands to preserve natural habitat. This is considerably under the normal 15,000 to 20,000 acres minimum acreage desired for such refuges, but because of the unique nature of the Sudbury River marshlands, they are definitely interested and would have the strongest taking for future preservation.

We therefore recommend that the Town give its support to any appropriate action to this end, such as a resolution instructing the Selectmen to advise the General Court of the Town's feeling in order to speed passage of permissive legislation by that body allowing the Fish and Wildlife Service to proceed.

Finally, we would invite the Town's attention to the dangers of the increasing requests for the sale of Park and School lands, without

adequate provision for future need. This we feel is not in the best interests of the Town.

Respectfully submitted,
HENRY J. MULLER,
HARVEY C. NEWTON,
BARBARA L. PONTECORVO,
SALLY WIGHTMAN
THEODORE R. MAGOUN, Chairman

REPORT OF THE RECREATION ADVISORY COMMITTEE-1962

The Recreation Advisory Committee is happy to report further progress in 1961.

The cooperation of the Park Department has been superb. Active steps have been taken toward site improvement for playing fields at both the Cochituate Junior High School and North Wayland Elementary School sites; better lighting for the Millpond is coming, with snow removal already being done; and a one-way traffic pattern will be established at the Millpond following concurrence by the Park Commissioners and the Board of Selectmen with the findings of a safety study done by this committee.

The tennis courts at the new High School have proved an important addition, not only to the school program, but also to community use. If present demand levels continue, or increase, it may well be in order to recommend further study of similar facilities at the Junior High School within the next year.

This committee welcomed two committees voted at the Annual Town Meeting in March 1961 as having significant potential for service to the Town. Article 20 established a Town Beach Study Committee to make recommendations concerning the present inadequate facilities at the Town Beach. Article 27 established a Conservation Commission under the provisions of Section 8C of Chapter 40 of the General Laws, inserted by Section 1 of Chapter 223 of the Acts of 1957. It is hoped that the Conservation Commission will move decisively to acquire, with the support of the Town, lands necessary to round out existing Park parcels, such as the Millbrook area, and lands to protect watershed within the Town before they are lost permanently to domestic building or industrial development.

The Recreation Advisory Committee was pleased to cooperate

with a sub-committee of the Wayland League of Women Voters, who are making a definitive study of the Sudbury River Basin in connection with a regional League project.

We wish to thank Mr. Harvey C. Newton for his three years of faithful service on this committee, and to welcome his successor, Mr. Richard E. Bicknell.

Respectfully submitted,
HENRY J. MULLER,
RICHARD E. BICKNELL,
BARBARA L. PONTECORVO,
SALLY WIGHTMAN,
THEODORE R. MAGOUN, Chairman

REPORT OF THE BUILDING INSPECTOR

The Building Inspection Department submits the following report for the year ending December 31, 1962:

Building Permits:

- 85 New Houses
- 56 Alterations
- 1 Car Port
- 15 Porches
- 13 Buildings Torn Down
- 8 Garages
- 1 Dairy Barn
- 3 Storage Sheds
- 1 Playroom
- 1 Administration Building
- 1 New Church
- 1 New House Permit Renewal
- 1 School Addition
- 1 Dwelling Moved
- 4 Tool Sheds
- 1 Stable
- 1 Horse Stall
- 1 Chimney
- 1 Loading Platform
- 1 Church Addition
- 1 Air Conditioner
- 1 Public Garage Addition
- 1 Test Building
- 1 Cow Barn
- 1 Sun Deck

Wiring Permits:

- 79 New Houses
- 98 Alterations
- 7 Oil Burners
- 2 Temporary Services
- 4 Signs
- 2 Ranges
- 5 Electric Hot Water Heaters
- 9 Dryers--Electric
- 3 Electric Control Gas Burners
- 1 Replace Gasoline Pumps
- 1 Addition
- 1 Electric Grill
- 2 Barns

Wiring Permits, Cont.:

5	Air Conditioners
2	Porches
1	Residential Fire Alarm System
1	Re-wire House
2	Garages
5	Swimming Pools
1	Church
1	Paint Spray Booth
2	Rewire Oil Burner
1	Circulator on Oil Burner
1	Electric Control Sprinkler System
1	Emergency Generator
1	Welder
1	Heater Cable

The estimated cost of all building permits issued which includes commercial buildings, new houses, alterations, accessory buildings, garages, etc., amounted to \$1,778,929.

The estimated cost of all non-taxable buildings amounted to \$714,300. The total estimated cost amounted to \$2,493,229.

NEW HOUSE DEVELOPMENT BY PRECINCT

<u>Year</u>	<u>Cochituate</u>	<u>Wayland</u>	<u>Total</u>
1957	40	86	126
1958	60	74	134
1959	40	85	125
1960	58	94	152
1961	37	62	99
1962	38	47	85

CHURCH, COMMERCIAL, MUNICIPAL AND FARM, etc., permits consisted of:

1. DECEMBER, 1961: A permit was issued for the construction of a ten-room addition to the Claypit Hill School. This addition was completed in the early summer of 1962.
2. FEBRUARY: The Watertown Dairy was issued a permit for a cow barn.
The Villa, a restaurant on East Plain Street, was issued a permit to renovate an office building which was moved from an adjacent lot and attached to the restaurant to increase the dining room area.

3. MARCH: A permit was issued to the Raytheon Mfg. Co. to construct an air conditioning building. Cochituate Motors was issued a permit to construct a large addition to their garage on Main Street.
4. APRIL: A permit was issued for a large addition to the M. E. Church for classroom purposes. The Raytheon Mfg. Co. was granted a permit to build a test building.
5. MAY: A permit was issued to the Watertown Dairy to build a cow barn.
6. AUGUST: The Newton YMCA, off the Boston Post Road, was granted a permit to rebuild an administration building on the same site replacing their former building which was partially destroyed by fire in 1961.
7. SEPTEMBER: A permit was granted to Dr. Alfred S. Sharpe to renovate a two-family dwelling into a professional building at 13 Pelham Island Road. A permit was issued to St. Ann Church to build a church on Cochituate Road.
8. OCTOBER: A permit was issued for the construction of a ten-room addition to the Loker School.

REPAIR AND RENOVATION PERMITS TO NON-RESIDENTIAL consisted of:

A permit was issued for outside repairs to the B & M Railroad Station. Mr. David Turner, who represented a citizen's group, was in charge of the work. Credit is due Mr. Turner and his associates for their civic mindedness in restoring this building which represents a symbol of transportation of by-gone years.

Renovation permits were issued to Robinhood's Ten Acres on the Boston Post Road and to Finnerty's Country Squire (formerly the Golden Eagle) on Main Street.

NEW DEVELOPMENTS AND ROADS

Aqueduct Road was extended from existing turn-around to School Street. Gregory Lane was constructed, from the new part of Aqueduct Road to School Street. Both roads were built by Regent Homes, Inc.

Linn Lane, one of the last of the roads in the Wayland Hill Development, was constructed by the Robsham Realty Company.

Holiday Road was extended into interior lots from East Road by Wayland Bay Colony Assoc. Inc.

Rice Spring Lane was extended through to Juniper Lane by Herbert G. McConchie.

Heard Road, off Pelham Island Road, was started this year with one of the basic requirements completed by William Corcoran.

The Heard House at 22 Old Sudbury Road, which in recent years has been the headquarters of the Historical Society, was moved in April to its original location on the site of the Old Town Hall on Cochituate Road.

Permits were issued for the following pieces of property to be torn down, generally for the purpose of rebuilding on the same sites or to use the land for parking areas to adjoining land or buildings:

46 Concord Road - House
11 Damon Street - House
51 Rice Road -- Small Cottage
107 Main Street -- House
36 Main Street -- Storage Shed
20 Concord Road - Barn
17 Sunset Road -- House
30 Bradford St. -- 3-car Garage
177 E. Comwlth Rd. - House
24 Wallace Road - House

The issuance of the permit to the Wayland Realty Trust for the demolishing of the dwelling at 177 E. Commonwealth Road brought to an end a famous landmark and show place in Cochituate. In more recent years it was known as the Kathryn Barton Nursing Home but several decades ago it was the house and office of Dr. Sparks who served his community faithfully and well.

As in the past, this department took an active part as a member of the Condemnation Committee. Numerous hazardous conditions on dwellings were corrected, several cellar holes were filled in, and the following houses were condemned and torn down, through joint action of department heads on this committee:

417 Commonwealth Rd. -- House, Barn and
Out-Buildings
7 Cedar Crest Rd. -- House
51 Woodland Road -- House

Sixty zoning variances were prepared and presented to the Zoning Board of Appeals for decision.

During 1962, the Fire, Building, and Health Departments continued the inspection program which we started in 1957. The types of buildings which we inspected included schools, churches, auditoriums, rest homes, stores, taverns, and multiple family dwellings. The inspection consisted of structural strength of the buildings, electrical wiring systems, oil burning equipment, rubbish accumulation, exit signs, emergency lighting equipment, fire extinguishers, chimney, storage of flammable liquids, paints and general health conditions. After these inspection tours, letters were sent to property owners or the building committee concerned. Their co-operation has been greatly appreciated.

Fees collected from wiring and building permits and zoning applications during 1962, amounted to \$4,010.00 and have been turned over to the Town Collector.

The Building Department takes this opportunity to thank the Town Officials and citizens who have helped in the affairs of this office in the past year.

Respectfully submitted,
HOMER L. MacDONALD

REPORT OF THE CHIEF OF POLICE

December 31, 1962

1. MOTOR VEHICLES VIOLATION	
Speeding	23

Exposing of a person (Male).	1

The Wayland Police Department served during 1962: 439 Summons; 4 Subpoenas; 1 Warrant; 1 Show Cause; and 10 to Parents.

The total number of accidents reported for the year was 317; Fatal 4; Pedestrian 3; Bicycles 5; Property Damage 179; and 126 Personal Injuries.

The Officers checked the homes of 514 people who reported that they would either be away or on vacation.

The Department recorded 15,544 radio calls made either to or by the department dispatchers during the year for accidents; fires; inebriates; fights; stray dogs, and so forth.

The Department answered 1,433 Complaints during the year consisting of the following:

- 48 Missing and Lost Persons
- 23 Stolen Cars
- 46 Other Department Complaints
- 11 Breaking & Entering with intent to commit Larceny
- 39 Breaking & Entering
- 136 Larceny
- 169 Vandalism
 - 6 Obscene telephone calls
 - 32 Other calls
- 59 Hunting, Shooting, Fireworks
- 88 Speeding Complaints
 - 1 Shop Lifting
- 27 False Alarms
- 17 Go Carts
 - 3 Blue Laws
- 21 Disturbing the Peace
 - 7 Motor Boat Speeding
 - 2 Larceny by Check
 - 1 Counterfeit Bill
- 416 General Complaints
 - 34 Assault and Battery and Fighting
 - 6 Sex Molesting
 - 1 Arm Robbery (Hold up)
 - 93 Dog Complaints
 - 77 Prowlers
 - 50 Suspicious Cars and Persons
 - 21 Drunk
 - 21 Salesmen
 - 18 Hit and Run

The Department used the lockup cells forty-two times during the year.

Again this year I have submitted the following requests to the Board of Selectmen and the Finance Committee:

A. Two additional regular patrolmen to help cope with the increasing workload upon the Department of an ever growing population, and afford me enough personnel to keep both cruisers on the road twenty-four hours a day.

B. An additional plain, unmarked cruiser for investigative work and as a needed replacement when one of the regular cruisers is being repaired.

C. The installation of traffic lights at the following junctions:

1. Routes 27 and 126.
2. Memorial Square
3. Oak Street and Commonwealth Road.

This latter proposal requires first, the initial approval of the State Department of Public Works.

The force now has two additional full-time patrolmen. They are Mr. Ronald H. Rokes and Mr. Vincent A. Gallagher.

The Wayland Oil Company and the Wayland Motors Inc. are to be commended for supplying the funds which make possible the distribution of very instructive Safety Calendars for our children.

I extend my thanks to the various department heads, the patrolmen, the Auxiliary Police, and the citizens of the Town. It is by the combined harmonious efforts of all, that the Department is able to grow and operate efficiently.

Respectfully submitted,
ERNEST H. DAMON,
Chief of Police

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

For the Year Ending December 31, 1962

Alarms Answered-1962

Number of Alarms for Fires

Residential Buildings	38
Non-Residential Buildings	5
Mercantile	1
Grass or Brush	91
All Other Fires (Motor Vehicle, Machinery, Rubbish, etc)	61
Mutual Aid	10

Number of Alarms for Non-Fires

Rescue, First Aid, Emergency Calls and Investigations.	245
Mischievous and Malicious False Alarms	27
Smoke Scares, Honest Mistakes and Accidental Alarms.	7

Total 485

Comparison of Alarms Answered - 5 Year Period

1958	309
1959	300
1960	414
1961	433
1962	485

Fire Loss - 5 Year Period

1958	\$56,875.00
1959	45,775.00
1960	11,571.00
1961	110,830.00
1962	10,330.00

The 1962 Fire Loss is a new record low for the Town in modern times, and represents approximately ninety-one cents per capita.

An analysis of the alarms answered in 1962 shows increases in areas which are indicative of the residential growth.

Dwelling fires up 26%.

Rescue, First Aid, Emergency Calls and Investigations (principally to the home) up 12%.

Permits Issued

Fires in the Open Air	1,578
Installation or Alteration of Oil Burning Equipment	66
Installation of Liquefied Petroleum Gas	23
Blasting	28

The scope of our fire prevention activities was broadened in 1962 by instituting a quarterly inspection schedule for all Town owned buildings. This program was established in conjunction with and as a requirement of an improved type of fire insurance coverage for all of our municipal buildings at a new and lower rate. These buildings, twenty-four (24) in number, have a replacement value of approximately six million dollars, (\$6,000,000.00) including contents.

The municipal fire alarm system was extended by the Department on Sherman Bridge Road, Oxbow Road, Davelin Road, Boston Post Road East, Pine Brook Road, and Old Connecticut Path. The fire alarm system was also extended by the installations made by subdivision contractors on Campbell Road, Barney Hill Road, Wayland Hills Road, Clubhouse Lane, Charena Road, Cameron Road, Clarence Road, Kelsy Road, and Cole Road.

The Annual Town Meeting in 1962 passed an ordinance as submitted by the Fire Department, requiring buildings used as nursery schools and kindergartens to be protected by an automatic fire detection system by March 1, 1963. Some schools have completed the installation as of this date, and the remainder are in the process of doing so.

During the year, five condemned buildings were razed by this Department. Three of the structures were first utilized for training personnel in actual firefighting of interior fires.

The regular training program for all personnel was carried out in a total of twenty 2 hour sessions. In addition, the Fire Department Captains attended special schools and seminars for fire officers as conducted by the Massachusetts Institute of Fire Department Instructors.

In recent years, the operations of all municipal departments have been affected in various ways by the growth of the Town and the resulting changing population. The Fire Department has been taking gradual steps to adjust to the gradual loss of individuals who could give of their time to serve as active part-time firefighters and assist the Department to function as it has in the past. However, by July 1962, the losses of part-time personnel were so great that it became necessary to request the Board of Selectmen to remove the restrictions as to the amount of time night duty personnel could work. In October, due to the critical manpower shortage, the Board of Selectmen was requested to give early consideration to a study of the need for a long range

program for the gradual provision of additional full-time personnel.

On October 15, 1962, at a regular meeting of the Board of Selectmen, the problem was discussed and the Board requested that the Fire Department submit recommendations regarding the situation. On October 31, 1962, the following recommendations were submitted to the Board of Selectmen:

- (1) That additional personnel be added to the regular force as follows:

1963. . . .	3 men
1964. . . .	3 men
1965. . . .	2 men
- (2) That the present work week of 52 hours be increased to 56 hours and that the work week be established on a shift basis.
- (3) That the annual appropriation for Call-Men, Night Duty, be gradually decreased in accordance with the recommended transition.
- (4) That the annual appropriation for Regular Men be gradually increased in accordance with the recommended transition.

The above recommendations were considered at a joint meeting of the Board of Selectmen, the Finance Committee, and the Fire Chief. It was concluded that the matter should be referred to the Town Government Committee for further study and that the Fire Department should continue its efforts to exhaust all possibilities of obtaining assistance.

The Department's plan is to provide a larger nucleus of regular personnel than presently exists, supported by a strong but through necessity, a numerically smaller call or part-time group.

As the very character of the community rapidly changes before us, we must realize that any provision involving part-time personnel for the minimum on duty coverage we have, is only a temporary solution at best.

Numerous progressive improvements have been made in recent years to provide our community with an adequate fire defense. A survey at the moment would indicate that we are well prepared in all areas with the exception of the essential manpower so critical to carrying out a capable and efficient operation for the protection of lives and property in the community.

The citizens of Wayland have done a fine job of being careful of fire in 1962. We ask each of you to join with your Fire Department

in making every week fire prevention week as we step forward into 1963.

Special Signals - Audible Alarm

- 1 - Daily Test at 5:45 P. M.
- 2 - All Out
- 4-4-4 Boy Scouts Report to Fire Station
- 5-5 No School Signal at 6:45 A. M.
- 7-7 All Call Firefighters Report to their Station

Emergency Numbers to Call Fire Department

358 - 4321

653 - 4321

Numbers for Other Business

Station #1 358-7951

Station #2 653-2241

Once again I wish to request that citizens calling the department on any business other than an emergency, please use the business lines available, in order that emergency lines may be kept free for that purpose.

I wish to extend my thanks and appreciation to the members of the department, and to all persons who in any way have cooperated and assisted in the operation and development of this department.

Respectfully submitted,
FRANCIS J. HARTIN, Chief
Wayland Fire Department

REPORT OF THE PARK DEPARTMENT

The Board has continued to improve the maintenance of the expanded acreage under its jurisdiction and services to the Town, through improved equipment and without expanding its permanent force.

The Millpond Dam earth abutments were repaired and improved to prevent washout at the edges.

The Commissioners have accepted as a gift from a citizens group, an ice planer.

The contract for the control of erosion of the bank at the Town Beach was awarded, and has been approximately 90 percent completed.

Preliminary master plans for beach improvement and expansion have been completed in an effort to provide the Town with a larger and increasingly attractive facility.

The Beach again enjoyed a record attendance and has maintained its excellent safety record.

The Commissioners were unable to develop the two temporary playgrounds at two still unused school sites.

The Commissioners wish to thank the residents of the Town, the Officials and its personnel, for their support and cooperation. They wish also to record their thanks and gratitude for the volunteer effort of individuals and groups that execute its recreational program.

Respectfully submitted,
NATHANIEL HAMLIN,
JOSEPH HORVATH,
THOMAS F. MURRAY,
Board of Park Commissioners

REPORT OF THE BYPASS COMMITTEE

The Bypass Committee during the past year endeavored to keep pressing with regard to the Wayland Bypass.

The one proposed a year or two ago which terminated at the Raytheon entrance, was declared inadequate by the Federal and State Department of Roads.

In view of the above, the State Department of Public Works has entered into a contract with an engineering firm to design a bypass starting at Robinhood's Ten Acres and continuing on into Sudbury and bypassing South Sudbury, as well as Wayland Center. This seems to be more acceptable to the Federal Government, as it will eliminate a traffic problem in Sudbury as well as Wayland.

During 1963, your Bypass Committee will keep in close contact with any progress made by the State and Federal Governments, and hope to be able to give a definite report at the end of 1963.

Respectfully submitted,
FRANK S. TARR, Chairman
FREDERICK G. PERRY, JR.
JAMES DeNORMANDIE
CHARLES PETERS
ROBERT M. MORGAN
ERNEST H. DAMON, Chief
LEWIS RUSSELL, JR.
ANGELO CAVAGNARO
CHARLES OWENS, JR.

REPORT OF COMMITTEE ON TOWN GOVERNMENT

Pursuant to recommendations of this Committee, the Town voted at the 1962 Town Meeting to consolidate the work of the Cemetery Board, Moth Superintendent, and Tree Warden, under the jurisdiction of the Cemetery Board.

The following matters are under consideration and continuing study:

Engineering Services:

In its last report, the Committee discussed the advisability of employing a Town Engineer to provide better engineering service for the various Town Departments and a much needed administrative assistant for the Planning Board. We recommend that a Town Engineer be employed. An article has been inserted in the Warrant for the Town Meeting, and provision is being made in the Proposed Budget.

Public Works Department:

We recommend gradual consolidation of all public works functions. An initial step was accomplished last year, as reported above. We will recommend further consolidation when we feel it desirable.

Enforcement of Town Laws:

The enforcement of laws and regulations relating to health and safety has been greatly improved in the last two years as a result of the work of the Condemnation Committee, the devotion to duty of the Fire Department, Board of Health, and Building Inspector, and the cooperation of the Board of Selectmen, Town Counsel, Town Executive and the Highway Department.

The cooperation of all of these town officials is required for the maintenance of safe and healthy conditions in the Town, and we are impressed with the efficiency with which these matters are currently being attended to.

The growth of the Town has made difficult or impossible, the adequate enforcement, with our present personnel, of other laws, such as zoning.

Public Safety Department:

We continue of the opinion that it may in the future, be advisable

to combine the Fire and Police Departments, under one administrative head. Likewise, a town communications center serving all departments, should probably be instituted eventually. However, we do not recommend either of these changes at the present time.

Respectfully submitted,

THOMAS F. LINNEHAN, Rep. Selectmen
ROBERT M. MORGAN, Rep. Finance Com.
JOHN J. SIMONI, Rep. Personnel Board
DUNBAR HOLMES, Member-at-large
CAROL J. THOMAS, Member-at-large

THE COMMONWEALTH OF MASSACHUSETTS
Department of Corporations and Taxation
Bureau of Accounts
80 Mason Street, Boston 11

January 11, 1963

Board of Selectmen
Wayland, Massachusetts

Gentlemen:

This is to certify that the books and accounts of the Town of Wayland were audited by the Bureau of Accounts, Department of Corporations and Taxation, as of October 6, 1962, at which time they were found to be correct with all funds properly accounted for.

A detailed report of the audit will be forwarded as soon as possible.

Very truly yours,

WILLIAM SCHWARTZ
Assistant Director of Accounts.

1962 ANNUAL REPORT OF THE SCHOOL COMMITTEE

The primary concern of your school committee during the year 1962 was in the area of personnel. Several key administrators resigned to accept positions in other school systems during the year. Mr. William Maxson, principal of the Claypit Hill Elementary School, resigned to take a position as assistant superintendent in the town of Barrington, Rhode Island; Mrs. G. W. Crawford (Miss Mary Leahy), who succeeded Mr. Maxson, resigned to join her husband in Italy; Mr. M. Edward Sullivan, principal of Happy Hollow Elementary School accepted a position as principal of Union Elementary School, Unionville, Connecticut; Mr. Julian Demeo, vice principal of the high school, became principal of the Plymouth, Mass. High School; Mr. Edward J. Anderson, superintendent, left the field of public school administration to become a consultant with the firm of Booz, Allen and Hamilton in its educational division; and finally, Mr. W. Maxwell Griffin resigned as high school principal effective January 1, 1963 in order to conduct a special study of high school programming and curriculum under the terms of the Fund for the Advancement of Education grant to the Town of Wayland.

Because of these resignations, we have been concerned with rebuilding the leadership of our school system. During 1962 the following important appointments were made: Mr. John Palmer, formerly a teacher in the Claypit Hill school, was appointed principal of that school; Mr. Robert Fraser was appointed assistant principal of the high school; Mr. Frank Guarino was appointed principal of the Cochituate school, replacing Mr. Walter Doucette who spent nearly the entire year in Hawaii as an exchange principal and who was appointed late in the year to the position of principal of the Happy Hollow Elementary School. The only administrative position remaining unfilled at this writing is that of high school principal. It is expected that this position will be filled within a very short time.

Early in December, Mr. R. Bruce McGill, was appointed to the position of superintendent of schools effective February 1, 1963. Your school committee feels most fortunate in being able to attract a man of Mr. McGill's caliber to the town of Wayland. His background is particularly strong in secondary education and we look forward to a period of consolidation of gains that have been made during the past several years and to an accelerated improvement in the quality of education particularly at the secondary level. Mr. McGill comes to us from Scarsdale, New York, where he was the principal of the Edgemont High School. Mr. Richard J. Lavin has most capably filled the position of acting superintendent during the interim period.

The personnel changes that occurred among our administrative staff do not reflect any dissatisfaction among these educators with the Wayland school system. On the contrary, the morale of the teaching staff and the administrators appears to be high. These changes do reflect the fact that education today provides many

opportunities for professional growth among educators. Opportunities in the profession are expanding numerically because of the high birth rate of the past several years. The profession is also rising in status in our society because of the increased awareness of the importance of good education on the part of the American people, and their consequent willingness to reward persons of superior capabilities sufficiently so that they will enter the field of public education.

The problem of rapid increase in our school population, which has been with us for many years, will continue, but for the first time there are signs that the rate of increase will diminish significantly, and in fact there are some indications that stability may be achieved within the decade. A study of our pre-school age group shows that the number was actually fewer on October 1, 1962 than were in that age group on October 1, 1958. In the meantime the large classes that entered first grade during the past several years are moving through our school system and may cause some crowded conditions, particularly in the junior high school. Population trends will continue to be studied very carefully by the school committee and the administration during the next two to three years as these trends are the determining factor in our school building program and have a heavy impact on annual operating budgets. If some degree of stability can be achieved we may be able to look forward to a sharply diminished building program and to a stabilized budget within the next few years.

The school committee wishes to express its gratitude for the enthusiastic support on the part of the taxpayers and the parents, and particularly wishes to thank the teaching staff and the custodial, cafeteria and secretarial employees for their fine cooperation and hard work during the year. Their enthusiasm and determination to carry out the policies of the school committee are the ingredients that will make the Wayland school system a superior one in the field of public education. Once again the school committee wishes to thank the other town departments for the fine cooperation and support that has been given to our schools.

Acting Superintendent of Schools

RICHARD J. LAVIN

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

This is the present Superintendent's eighth annual report to the Wayland School Committee on the conditions of the Wayland Public Schools. This report will attempt to be more philosophical than the seven previous reports for it seems that over the past several years the Wayland School Committee has supported a clear-cut philosophy for Wayland's young people which needs to be known by the Town.

The administration and faculties of the schools have been striving to implement this basic philosophy which can be stated as an attempt to provide for the individual needs of each boy and girl regardless of his or her ability. The emphasis has been on basic skills and basic knowledges with a minimum of emphasis on social development. However, this basic philosophy does support the belief that if a proper educational program can be designed to meet the needs of each individual student, the student's social and emotional development will be as well or better served than by any other type of educational program.

As part of the philosophy of the schools, the emphasis has shifted, and is continuing to shift, further away from teaching to learning also from memorization of an accumulation of facts to an approach to the development of inquiry on the part of the student. Schools have, for more than one hundred years, spasmodically attempted, in isolated areas, to organize instructional programs geared to each individual student and to his or her varying capacities but it has only been in the last few years that a real effort has been mounted to provide a school dedicated to this purpose. The school, with its self-contained classrooms and teachers and students paired off in isolated classrooms, has not and apparently cannot successfully provide for the many and varying needs of all students. Wayland is one of the relatively limited number of schools, throughout the country, which has embarked upon a determined effort to design the technology needed to individualize the educational program for all students.

Team teaching is a term which has been associated with this attempt. It is unfortunate that such a term ever came into being for the implication to the layman is that both students and teachers are merely parts of an organization, organized on a technical basis rather than the needs of human beings. Substance must come before technology and the elementary, junior high, and high schools in Wayland have attempted to provide real substance in the organization of curricula with the emphasis focused on the needs of human beings. In this attempt efforts are being made to organize the curricula in a sequential fashion so that a student may move through the sequence of a curriculum at whatever speed he is capable of moving and should this development be continued to its logical conclusion, it should be possible for some students in Wayland to move through the

sequential development of the educational program in 10 years or less while others may take 14 years or more, with the norm being 12 years. The implementation of this extreme degree of individualization of instruction will, of necessity, require an all-out effort on the part of the staff, strong support by the School Committee and an understanding by the community. The development of a teaching technology, to implement this type of program, is in its infancy and it is expected that mistakes will be made, that progress, of necessity, will be slow and that there will be frustrating experiences for the faculties, School Committee, and the community during this process but, even at the worst, the education received by the student should be far superior to the kind he has known in past years.

In the last several years an effort has been made to speed up the process of change in education. Studies made in the 1930's and 1940's indicated that from the time a need was recognized in education to the invention or design of the way to meet the need, and then to find ways to implement the program, required approximately one hundred years. It is possible that this process of change can be speeded up and attempts are being made to speed up the process of change in the schools of the nation.

Education is not subject to revolution and it is doubtful if a revolution can be brought about in education. Education is, however, subject to the orderly processes of evolution and it is these orderly processes which must be speeded up if changes in education are to be made with sufficient speed to meet the complex requirement of a highly technical society which cannot wait for the one hundred years needed to bring about educational change as has been true in the past.

The very nature of education is a controversial process. It stands to reason that any changes contemplated in the schools, no matter how small, are almost certainly to become controversial. It may well be that education cannot grow without controversy - that little progress can be made in a vacuum, and that conflict is necessary for growth. There must be exchanges of contradictory ideas among faculties, the School Committee, and the community. The faculties, School Committee, and the community must bring inquiring and questioning minds to the functions of education if the product - the student who is produced by the educational process - is to have an inquisitive and inquiring mind brought to his own life and his own learning. The kinds of decisions School Committee members and school administrators must make today are subject to public scrutiny and must stand face to face with strong and vocal pressure groups who may or may not represent the broad public concern.

The School Committee and administrators, if they are to make proper decisions on any major questions, need to have the ablest guidance and the most complete information possible. However, in the process of educational change, when continuing needs and new problems arise, the School Committee, community, and the faculties need to

recognize that positive proof of the effectiveness of a proposal cannot be immediately guaranteed and indeed may take many years to determine. Clear-cut guide lines on which the administration and School Committee can make a decision may not be available. It is then up to the School Committee and the administration to arrive at a decision based upon subjective evidence and logic and if the decision does not violate the rule of prudence and fits into the logical parts of the evolutionary process, there should be every chance for its success and acceptance by the majority of the community and the faculties.

During recent years, because of the desire of the School Committee and the community for the continuance of improvement in the educational program and because the School Committee has taken a number of bold, imaginative, steps to find ways to implement the belief that all students have individual needs, Wayland has assumed a position of leadership in American public education. Decisions made by the School Committee are reported to be having a strong effect on the development and design of educational programs and facilities throughout the nation. Information concerning the Wayland schools has been widely disseminated not only through most school systems in America, but the world. Although Wayland is a relatively small community, it is indeed a privileged one for there is a desire on the part of a majority of its people for excellence in education. There is, in the community, an almost unlimited reservoir of human talent - men and women of stature who are willing to devote their talents and time for the welfare of the schools and the community. Many large cities would indeed be proud to bring together even a fraction of the human talents which the town of Wayland has available for use in its schools. It therefore can be reasoned that communities such as Wayland are obligated to provide leadership for the schools of the nation for unless Wayland and similar communities do provide this leadership then no one else will and the future welfare of the nation depends upon the progress of education. Therefore, the Wayland schools have no choice but to provide the intellectual resources to upgrade the quality of American education if the nation is to survive the present conflict based upon the intellectual qualities of nations.

Many members of Wayland's faculties have received wide recognition. They have taken an active part in national curriculum organizations. They have made speeches and engaged in selective workshop programs of wide interests. It is important that Wayland's faculties continue to take part and to expand their activities on a national level. This will require support by the School Committee and the community as time must be devoted to participation in important educational developments and funds needed for travel expenses.

Much progress has been made in the development of Wayland's Public Schools but it should be clear to the School Committee and to the faculties and community that as progress is made new problems are uncovered and that the struggle to

individualize an educational program is one which is going to require an all-out effort on the part of everyone concerned, as well as patience and understanding.

As one looks critically at Wayland, one sees that a continuing series of problems are identified and efforts made to invent and innovate the technology needed to solve these problems. The boredom and sameness that so characterized our schools a few years ago has turned into the challenging excitement that can only come to people who ask questions and who are eternally seeking to design methods for meeting new problems and to whom a succession of new problems are important for progress can only be made after problems have been recognized and identified. One of the faults of education has been its inability to recognize and identify problems. This has been caused, in part, by the structure of the faculties and the restricted limits within which it works. In order to break the restrictive bounds certain things need to be done and in every case Wayland has made either a beginning or substantial progress toward this end. These areas may be classified as -

1. Time for Thinking. Under the stress and strain of a teaching year, the classroom teacher has had little or no time for thinking. The pressure of meeting one group of students after another, hour after hour, day after day, denies to the teacher the possibility for creative thinking. Therefore, the school administrator and the School Committee need to provide for teachers time away from students during the course of the school year and during times when students are not in school for this vital purpose. The teacher needs to be paid for this time for some of the most important time needed by the teacher is to plan both as an individual and with other teachers, academic consultants, and community resource people. Wayland has made some progress along these lines by providing summer employment and vacation employment for some of its teachers.

2. Time to Develop Materials. Along with time for thinking and planning is the need for time to develop teaching materials, to investigate different sources of supply and to organize them so that critical instructional and learning materials are available for the large group instruction, for small groups and a variety of challenging ideas for independent study so that when a teacher sits down with the student to plan the student's individual program, there is something tangible to aid the student to go out on his own and become a self-reliant, dependable human being capable of organizing his own learning program which will serve him for as long as he lives and enable him to re-educate himself, from time to time, to meet the demands of a rapidly changing society.

3. Resources for Teaching and Learning. A short time ago there was a scarcity of teaching and learning resources but this obstacle is now being overcome and teaching materials are, for the first time in the history of education, available in sufficient amounts so that the individualization of an instructional program

becomes possible.

Regrettably, teaching and learning materials are one of the first items to be deleted from budget requests. Such items as textbooks, general supplies, library books, audio-visual supplies, periodicals, and other numerous teaching and learning aids are vitally important in the instructional program and unless there are adequate materials, the teacher and the student are faced with frustration and will soon give up the attempt to broaden the vistas of independent study.

4. Equipment to Do With. Traditionally, equipment has been thought to be a luxury in the annual school budget and when school buildings have been built, a minimum of funds have been made available for the purpose of purchasing needed equipment. With the rapid development of the new teaching technology, it is obvious that critical thought should be given to the problem of providing many varied items of equipment for instructional uses. There is little question but that the learning processes can be speeded up considerably through the utilization of such items as teaching machines, overhead projectors, tape laboratories, and many items of science equipment.

5. Back-Up Personnel. Back-up personnel, whether they are called teacher aides, clerks, library assistants, resource materials coordinators, or what have you, are vitally needed as an intrinsic part of a thoroughly developed staff in elementary, junior high and high school, and with the ever increasing number of pupils to be educated, and the corresponding decrease in the percentage of competent teachers, the importance of back-up personnel becomes more evident with each passing year. A considerable portion of the duties normally performed by teachers can be performed far more efficiently, at much less cost, by technically trained back-up personnel. Wayland has made some progress in this area and over the next few years can make a real break-through in better utilization of certified and non-certified staff.

6. Professional Assistance for Curriculum Development. As the school goes through the throes of reorganization of curricula it becomes obvious, no matter how proficient the faculty is, that highly educated professional assistance is needed in the area of curricula organization. The organization of curricula is far too important to be delegated to a few individuals no matter how competent. Today, national curricula groups are at work in most of the major academic fields. These materials need to be correlated and adapted to Wayland's own particular needs and goals. It should be recognized that outside consultant assistance to a school administration and faculty will always be a continuing necessity.

7. A New School Day. The tightly structured school day, with its appointed guards for total supervision of students, provides a prison atmosphere and is a major restriction in the development of the student's initiative and self-reliance. It is

time to develop students who are competent to make decisions of their own, who are competent to conduct their own affairs and who have time of their own for study. It may well be that one of the important developments of education in the immediate future will be the removal of students from the total domination of the structured classroom and vocal domination by teachers. Our young people have become hardened to boredom and can sit hour after hour, week after week, in classrooms and scarcely hear what is being said. It may well be that students and teachers need not report to school at the same time and go home at the same time but that the best utilization of student and faculty time and building facilities may be provided by a modified and flexible school day for students and faculty.

8. Flexibility. Over the generations, the school has become an organization which runs at the tick of the clock and the ringing of bells and when the clocks do not tick and bells do not ring, confusion is the result. The school needs to become flexible in many of its aspects - the utilization of time and staff for students and the reconsideration of the amount of time devoted to the various areas of study. The question needs to be asked - do all academic studies need to occupy students for the same amount of time and should all periods be the same length? Should some parts of the curriculum be adapted almost wholly to the laboratory, others almost wholly to the lecture audio-visual approach, and others to independent study with guidance? Is it possible to cover some parts of a school's curriculum in a few weeks and other parts in several years? These and many other questions need to be raised and answered.

9. Facilities for Learning. The buildings in which school programs are housed unquestionably determines how teaching and learning takes place and it is only within the last few years that a real effort has been made to design school structures to accommodate the learning process. Wayland has been one of the nation's leaders in this regard yet only a beginning has been made, and as construction costs increase and the needs for additional buildings increase, more efficient ways of utilizing space in school buildings must be discovered.

10. In-Service Training. Every faculty needs to have a continuous, organized in-service training program. Parts of the in-service training program should be carried out by the School Committee, administration, and teaching staff itself. Other in-service training programs are best carried out with the resources of the community and the institutions of higher education available to the teachers during the course of the school year. The need for sabbatical leave, to provide for intense study over several months, is a necessity if teachers are, themselves, to be learners. One of the real faults in education is that once teachers become teachers, they often cease to become learners. The school of today must be staffed with teachers who, themselves, never cease to be students with inquiring minds.

11. Leaders to Lead. The lack of competent people within the school faculty to provide the needed leadership often becomes a major stumbling block to the advancement of an educational program. At a time in the history of education when there is a high level of turnover in faculty, it is more important than ever that competent faculty members should be identified and a well organized program of leadership training carried out on a continuing basis. The status program, as now organized in Wayland's schools, is one means whereby leadership training is being carried out but this needs a more imaginative approach if enough competent leadership is to be developed to serve the schools in the years ahead.

The School Committee and the administration has the major responsibility for the future of education. There is no way for them to duck this responsibility, for a school faculty cannot do their job unless the leadership provided, and the decisions made, result in the school being devoted to the continuous improvement of learning. It is they who must take to the community the fight for the right kind of teachers, for the right kind of learning facilities and for those many things needed to back up the teachers and to provide for the learner those intangible ideas which make high quality education possible.

Respectfully submitted,

EDWARD J. ANDERSON
Superintendent

WAYLAND PUBLIC SCHOOLS

REPORT OF WAYLAND PUBLIC SCHOOLS, ACTING SUPERINTENDENT OF SCHOOLS

To the School Committee:

The year 1962 found the Wayland Public Schools continuing in its growth with enrollments approaching 3000 pupils. An eight room school addition was completed to the Claypit elementary school and construction began on a similar eight room addition to the Loker School scheduled for completion in 1963.

Of significance in Wayland to the operation of schools and the need for classrooms is an unusually high percentage of school children to the total population of the Town which presently stands at 26.1%. At this writing, studies are being made to determine if this very high percentage might be decreasing. Recent data collected indicates that perhaps in the year 1963 there will be a lessening of the increases that have faced the school department operations over the years.

The educational program in Wayland has developed from the desire of the community to provide the best education possible for the individual child. Improved instruction which will constantly be the aim of the school administration and the School Committee is sought principally by,

- (a) providing good educational facilities
- (b) development of curricula appropriate to the goals of instruction
- (c) assignment of staff to make the most effective use of teacher talent
- (d) attempting to develop flexibility in scheduling and grouping to bring about more individualized instruction

The professional staff of the Wayland Public Schools is comprised of principals, classroom teachers, school guidance counsellors, school librarians and other specialists such as audio-visual and reading.

The non-professional staff, although not directly related to the instructional program, are recognized as a most necessary part in the school operations. The non-instructional staff includes the school secretaries, custodians, cafeteria workers and bus drivers.

When 250 new school children enrolled in the school each year, as has been the case, it is necessary to have at least eight classrooms awaiting them. It is also necessary that there be desks and chairs and eight or nine teachers available to instruct them. Books and instructional materials must be provided for each child. There must be an additional school bus to transport those who require transportation

because of distance or safety. It is also necessary that the cafeterias are equipped to feed this many additional children and that office staffs are capable of handling the additional calls and unexpected tasks that go with this increased enrollment. Custodians must be provided to maintain cleanliness in the additional classrooms as well as the heating and safety requirements and finally the administration must be necessary for coordination and responsibility of the educational program.

The above requirements are necessary to cope with increased enrollments. The school budget must increase as school enrollments increase. It is the aim of the school department to keep the budget increase as low as possible without affecting the school educational program. The 1963 budget, which has been formulated by the School Committee and school administration in 1962, has reflected in its many meetings the necessity of keeping expenditures requested at a level commensurate with the town's ability to pay, ever mindful of the burden of numbers evident in Wayland today.

There are two expenditures made in behalf of education in Wayland. (1) The school operating budget and (2) The cost of school buildings. The difference between these two costs is that buildings are eventually paid for, while operating costs continue. The important cost of education, therefore, is not the initial cost of a school building but rather the cost of operating those buildings. On new school building construction, state aid is received based on existing formulas at 50% reimbursement. Renovation of school buildings entitles the town to no reimbursement. School operating costs are reimbursed at approximately 15% of total expenditures with local support largely responsible for the school department operations.

These are some of the considerations that are necessary in understanding school building programs and school operating budgets.

The following charts A-B-C-D-E are studies on alternatives for future school building needs in Wayland. Studies are being made and projections revised with changing enrollments, and at this writing, the building needs will not be required in 1963.

The School Department appreciates the cooperation of the Town's departments during the past year. It is the hope of the schools that new gains will be made in the quality of education for 1963 and that the school operations will continue to give efficient and reliable service in meeting the needs of the Town.

Respectfully submitted,

RICHARD J. LAVIN,

Acting Superintendent of Schools

REPORT OF THE BOARD OF HEALTH

The Board of Health submits the following report for the year ending December 31, 1962.

DOG CLINIC

A total of 166 dogs were inoculated and protected against rabies. A clinic was conducted under the direction of Dr. Paul R. Granholm of Weston.

Although there was a fairly high incidence of dog bites reported there has been no incidence of rabies. It is felt that this is due to the fact that so many of the dogs are routinely inoculated and protected against this disease. To maintain immunity it is recommended that all dogs after receiving their original inoculation at the age of six months, receive booster inoculations every two years.

STATISTICS

Permits issued by the Board of Health in 1962:

Restaurants	13
Milk (store)	24
Milk (dairy)	15
Alcohol	11
Ice Cream (manufacture)	1
Sewage Disposal permits	109
Nursing Homes	3
Camps	1
Nursery Schools	3
Burial permits	44
Notice to Abate a Nuisance.	268

Communicable diseases reported to the Board of Health--January to December 31, 1962.

Chicken Pox	185
Dog Bites	60
Squirrel Bites.	2
Mumps.	18
Scarlet Fever	10
Strep Throat.	36
Measles.	316
German Measles.	18
Infectious Hepatitis.	1
Whooping Cough.	1

Number of Premature Infants reported to the Board of Health 12

DENTAL HEALTH PROGRAM

A total of 203 children were seen at the dental clinic during the last school year. Of this number 39 were preschool children and 164 were school children. A total of 523 visits were made by these children. Children in grades one, three, and five received a dental screening examination by the dental hygienist. Two hundred and twenty-eight of these children were referred to their family dentists for further evaluation and treatment.

A request form for dental clinic must be completed by either parent or guardian of all children attending clinic. The application must then be approved by the Agent of the Board of Health before an appointment will be made.

A dental advisory committee consisting of resident and practicing dentists, was established this year. Upon the recommendation of this committee, Wayland football players received custom fitted mouth guards. Members of the committee participated in this program.

Dr. Joseph Fournier, who had been Board of Health Dentist for nine years, resigned in June. Dr. Thomas G. Leonard, a practicing dentist in Wayland, was appointed in August.

Respectfully submitted,
THOMAS G. LEONARD, D. D. S.
Board of Health Dentist

SANITARY ENGINEER'S REPORT

Board of Health
Wayland, Massachusetts

Gentlemen:

The following is a report on my activities for your Board for the calendar year 1962.

SEWAGE DISPOSAL

During the calendar year 1962, one hundred and nine (109) permits were issued by your Health Agent for the construction or alteration of sewage disposal systems, after the necessary preliminary inspections and recommendations were made to your Board. A total of more than five hundred and fifty (550) inspections were made to insure effective design and construction of these systems, and to advise builders and home owners concerning the proper installation and operation of these new or existing facilities.

RESTAURANT SANITATION

During 1962, inspections were made with the Board of Health Agent at eating places where known sanitary problems existed, with corrective action indicated to the owners where necessary. The practice of making both announced and unannounced inspections will be continued, as a regular check of properly operating establishments as well as those in need of upgrading.

MILK INSPECTIONS

A total of five hundred and eighteen (518) samples of milk and cream were collected during the year by your Agent from the dairies and other licensed outlets selling milk and cream in Wayland. These samples were examined in the laboratory for total bacterial count, coliform bacteria, and phosphatase, with results reported to the dairies concerned, as required by law.

LAKE COCHITUATE BATHING BEACH

During the summer bathing season, weekly samples were collected and examined in the laboratory to provide for a check on water quality in the bathing area.

Respectfully submitted,
THOMAS J. RINALDO.

- * 1 - Resigned October 31, 1962
- * 2 - Resigned March 15, 1962
- * 3 - Appointed October 15, 1962
- * 4 - Appointed February 15, 1962

A total of 1, 879 visits were made to eighty-one sick patients throughout the year. This represents an increase of 596 or forty-six per cent in number of visits over the 1, 283 nursing care visits made in the previous year. There was no appreciable increase in visits to patients in any of the other services.

The average number of visits to patients who received nursing care was approximately twenty-three per patient while the average number of visits made to patients in all the preventive services was approximately two per patient.

A generalized public health nursing service is committed to give high priority to nursing care of the sick in their homes. At present this care, under the direction of the family physician, is provided for, primarily, by offering part-time professional care and by instructing the family to assume this care. It is expected that the demand for nursing care will continue to increase and in order to meet this demand and to expand and develop the other services of the agency, additional staff will be needed.

Some of the nursing staff served on committees of the various professional nursing and public health organizations such as the Massachusetts Public Health Association and the Massachusetts League of Nursing.

They also participated in conferences with allied professional groups for the purpose of improving the services given to individuals, families and the community. Several conferences were held with the various consultants from the State Department of Public Health.

The agency has continued its field teaching program for undergraduate students. In addition, this year, two graduate students from Boston University School of Nursing, and one graduate student from Boston College, School of Nursing, have been receiving experience in more advanced aspects of public health nursing.

A comprehensive report on nursing service will be the subject of one of the forthcoming health bulletins of the Wayland Board of Health and the Parmenter Health Center.

We wish to express our sincere appreciation of the competent assistance we have received from volunteers within the community. They assisted at the oral polio clinics, glaucoma detection clinic, well child conferences, and the chest x-ray clinic. They have also given of their time to many other activities such as publicity, pre-school registration, preparation of nursing supplies, transportation of patients and participation in the school health program. Without their help the activities of the health programs would be greatly curtailed.

Respectfully submitted,
LOUISE M. McMANUS, R. N.

SCHOOL HEALTH SERVICES
FOR THE SCHOOL YEAR 1961-1962

SCHOOL PHYSICIAN

CHARLOTTE A. STEWART, M. D.

During the past year the public health nurses participated in 579 conferences with school personnel in behalf of students and the school health program. There were eighty-one conferences with students and sixty-three conferences with parents at school. A total of 502 home visits were made to follow through on some health problems relating to 201 individual students.

Vision and hearing screening tests were given to 2,740 students. Of the ninety-four students who failed the hearing test, thirty-seven were seen by a physician this year. Eighty-nine of the 159 students who failed the vision test were seen by an eye specialist. All parents of children who failed either the vision or hearing tests are notified, however referral for medical evaluation is dependent upon many factors. A child is not referred if he is presently under the care of a specialist, and if he has an irremediable defect as previously ascertained by a physician. A child is referred if he has never seen a physician, or if he has not seen a physician for two years, and if there is a marked change from previous tests.

Preschool vision and hearing tests were conducted at the Parmenter Health Center last spring as part of the total preschool registration program. Besides the visual acuity and hearing tests, each child received a color vision test. The parents and teachers, of the ten children who demonstrated color vision problems, were notified in order to alert them to the fact that these children might experience difficulty in discriminating certain colors.

The hoped for increase in private physical examination is continuing. Of the 819 children who had routine physical examinations, 724 or eighty-eight per cent received them from their family physician and ninety-five or twelve per cent received them from the school physician. Of the 283 children who had physical examinations prior to participation in competitive sports, 162 or fifty-seven per cent were examined by their family physician and 121 or forty-three per cent were examined by the school physician.

A total of 221 children in grades one through eight, received diphtheria-tetanus booster inoculations by the school physician.

This past school year a total of 255 first grade children received tuberculin skin tests.

The public health nurses aides in the junior and senior high school health rooms have continued to give invaluable service to the public health nurses and the school personnel.

A total of 2,134 visits were made by students to the junior high school health room. Of this number 675 required first aid as a result of accidents, 680 were for illness, and 779 were for other reasons.

The senior high school health room had 2,353 students visit. 315 were for first aid, 1,274 were for illness, and 764 for other reasons.

NEW REGULATIONS ADOPTED BY THE BOARD OF HEALTH

Applications for remodeling sanitary systems must be accompanied by an engineer's drawing for action by the Board of Health before a permit will be issued.

Emergency permits will be issued automatically by the Board of Health pending approval of final installation.

For the benefit of those interested, all results of milk testing by the sanitary engineer in the Town of Wayland are on file in the Board of Health office for examination.

MOSQUITO CONTROL IN WAYLAND IN 1962

Mosquitoes appeared to be less annoying in 1962, taking the season and the Township as a whole. Part of the beneficial effect was due to the weather. The increased mosquito control effort in Sudbury is also believed to have benefitted Wayland.

The Project used substantially the same methods and program as in recent years. However, somewhat less insecticide was used. Malathion was substituted for DDT more than previously. Malathion was applied as fog from a helicopter against adult mosquitoes for the first time in Wayland.

The main part of the Sudbury River marshes produced very few Aedes mosquitoes and was not sprayed. During mid-summer some Culex mosquitoes were produced there, but the problem did not seem to warrant spraying. The swamp above the Millpond continues to be an important mosquito source and would benefit by reduced water level from April to September.

Maintenance was done on previous drainage projects. New work was done S. W. of Dudley Pond (Picard et als), west of Rice Road (Hamlen) and Hayward Brook above Rich Valley Road. Street catch basins were sprayed once with Dieldrin.

FINANCIAL STATEMENT

Balance on hand December 31, 1962.	\$4,708.67
--------------------------------------------	------------

The East Middlesex Mosquito Control Commission has requested an appropriation of \$8,103 for mosquito control in 1963. This includes \$1,130 to be held for a Building Fund. The Commission plans to acquire a building for garage, shop, storage and office and thus avoid further expensive rental payments.

Respectfully submitted,
 ROBERT L. ARMSTRONG,
 Superintendent

In addition to the already established joint programs the Board of Health and the Parmenter Health Center, Inc. sponsored a glaucoma detection clinic, a chest x-ray clinic, and oral polio clinics this year.

<u>Program</u>	<u>Individuals Attending</u>
Chest x-ray.	365
